2018 MINOR LEAGUE BASEBALL ATTENDANCE

TABLE OF CONTENTS

	<u>Pages</u>
Overview of Report Contents.....	1
Summary of 2018 Minor League Baseball Attendance.....	2-12
How Data Was Compiled. List of Sources. How Baseball's Minor Leagues are Organized.....	13-14
NAPBL and Independent Leagues – 2018 Total and Average per Date Attendance, Changes vs. 2017...	15
2018 Combined Major League and Minor League Attendance – Includes Spring, All-Star, Playoffs.....	16
NAPBL and Independent Leagues Overview.....	17-18
Biggest Gains and Declines in 2018 by Classification. All-Star Games Attendance. Minors TV Markets..	19
Weather and Attendance.....	20-21
Number of Minor League Playing Dates by Season (1992-2018).....	22
Mid-Week Day Games by Team and League in 2017, 2018, and 2019.....	23-28
2018 Playoff Attendance.....	29-30
Yearly Number of Teams with Attendance Increases.....	31-32
Small Year-to-Year Changes in Team Attendance.....	33-34
Teams with the Biggest Total Attendance Gains and Declines in 2018.....	35
2018 Attendance by Month for Affiliated Leagues and 4 Independent Leagues.....	36-38
Average Attendance per Date Summary, Highlights, Biggest 2018 Gains and Declines.....	39-44
New Markets, New Ballparks, and 'Same Ballpark' Attendance Growth.....	45
Large Attendance Gains by Teams Moving to New Markets or New Ballparks.....	46-48
2018 Individual Team Attendance Growth Compared with 2008, 1998, 1988, and 1978.....	49-53
Minor League Baseball Teams that Play in Major League Baseball and/or NFL, NHL, NBA Markets.....	54-56
Minor League Affiliates Who Play in the Geographic Region of Their Parent Teams.....	57
NAPBL Yearly Total Attendance (1946-2018), Yearly Number of Teams, Average Attendance per Team.	58
Historical Average Attendance per Team – by Classification.....	59
Annual NAPBL Full-Season and Short-Season Team Attendance Leaders: 1940-2018.....	60-62
High Drawing Teams: Full-Season-500,000+, Short-Season-150,000+, Indys.-200,000+ or 300,000+.....	63-67
2018 NAPBL Minor League Attendance Highlights, with Highs and Lows.....	68-71
NAPBL INDIVIDUAL LEAGUE AND TEAM 2018 HIGHLIGHTS AND HISTORIES	
Class AAA - International League.....	72-77
Class AAA - Pacific Coast League.....	78-83
Mexican League.....	84-90
Class AA - Eastern League.....	91-95
Class AA - Southern League.....	96-99
Class AA - Texas League.....	100-102
Class (High) A Full-Season - California League.....	103-105
Class (High) A Full-Season - Carolina League.....	106-108
Class (High) A Full-Season - Florida State League.....	109-112
Class (Low) A Full-Season - Midwest League.....	113-117
Class (Low) A Full Season - South Atlantic League.....	118-121

2018 MINOR LEAGUE BASEBALL ATTENDANCE

TABLE OF CONTENTS

	<u>Pages</u>
NAPBL INDIVIDUAL LEAGUE AND TEAM 2018 HIGHLIGHTS AND HISTORIES – continued	
Class A Short-Season – New York-Penn League.....	122-125
Class A Short-Season - Northwest League.....	126-128
Rookie Class - Appalachian League.....	129-132
Rookie Class - Pioneer League.....	133-135
Arizona Fall League.....	136
NAPBL Individual Teams Listing – 2018 Attendance, Average per Date, Changes vs. 2017.....	137-141
INDEPENDENT INDIVIDUAL LEAGUE AND TEAM 2018 HIGHLIGHTS AND HISTORIES	
Independent Leagues Overview, Yearly Attendance and Team Leaders.....	142-144
Atlantic League.....	145-147
American Association.....	148-150
Can-Am League.....	151-152
Frontier League.....	153-155
Pacific Association, Empire Pro League, United Shore Baseball League.....	156
Pecos League.....	157-158
Independent Leagues Teams Listing– 2018 Attendance, Average per Date, Changes vs. 2017.....	159-160
Season and Average per Date Attendance Records for all NAPBL and Independent Leagues.....	161
Season, Average per Date, and Game Attendance Records for all NAPBL and Independent Teams.....	162-171
Does Winning a League Championship Improve the Following Season's Attendance.....	172-176
Minor League and Major League Attendance Growth - 2018 vs. 1999, 1989, 1979, 1969.....	177-183
NAPBL Minor league Attendance Growth vs. MLB and Other Sports – 2018 vs. 1999, 1989, 1979, 1969.	184-185
New Ballparks. Minor League Baseball Attendance Compared to Minor League Hockey Attendance.....	186
Minor League Attendance Records in Cities that Later Joined the Major Leagues.....	187
Minor League Teams that Outdrew Major League Teams in Attendance.....	187A,B
1949 - Minor League Baseball's Best Attendance Year until 1999 (all leagues) and until 2004 (NAPBL)..	188-191
1961 and 1962 - Minor League Attendance Reaches a Low Point.....	192-194
Attendance Lows for Cities that Later Joined the Major Leagues.....	195
Post-1945 Highs, Later Lows, and Subsequent Record-Highs for Many Current Minor League Cities.....	196-197
NCAA College Baseball and Summer Leagues Attendance.....	198-199
Just for Fun Stats.....	200

2018 MINOR LEAGUE BASEBALL ATTENDANCE ANALYSIS

This report is an analysis of Minor League Baseball attendance for the 2018 season. Features include:

-) The summary of 2018 Minor League Baseball attendance highlights.
-) Attendance notes for each league and for individual teams.
-) Listing of 2018 total attendance and per-game average attendance for every league and team.
-) Comparing 2018 vs. 2017 total attendance. A table shows attendance increases and decreases for all leagues and teams. It also notes the year current Minor League ballparks opened.
-) Listings of teams with the biggest gains and worst declines in total attendance and average attendance per date in 2018.
-) 1990-2018 total attendance and average per date yearly figures and changes for each league.
-) The growth of Minor League Baseball in Major League Baseball markets, and in markets that have teams in the NBA, NFL, and NHL
-) A section about the tremendous increase in Minor League Baseball attendance over the past 49 years. Tables show how league attendance has grown vs. 1999, 1989, 1979, and 1969. There is also a comparison of Minor League attendance growth with attendance gains for other sports.
-) Comparing individual team attendance in 2018 with attendance in 2008, 1998, 1988 and 1978.
-) 2018 Playoff and All-Star Game attendance.
-) Looking back at 1949, when Minor League attendance was a then-record-high 39,640,443. That record was not broken until 1999 (for the combined total of NAPBL and Independent leagues), and 2004, just for NAPBL teams. There were many more teams and leagues in 1949 than now. This section lists attendance for each 1949 league, and also lists the individual teams with the highest and the lowest attendance in each league. It also notes attendance in cities which had Minor League teams in 1949, but now are in the Major Leagues.
-) A look back at 1961, when Minor League average attendance per team reached its lowest post World War II low, and at 1962, when total attendance was at its post-war low.
-) A yearly listing of teams leading the NAPBL Minor Leagues in attendance, which includes the full-season and short-season leaders, going back to 1940.
-) Yearly total independent leagues attendance since 1993, along with team leaders.
-) Each current Minor League market's record-high season attendance, and average per date.
-) Noting record-high Minor League attendance in cities that later joined the Major Leagues.
-) A listing of teams that have drawn at least 500,000 in a season.

NOTE TO LEAGUES, TEAMS, AND MEDIA

You can download this report, and the 2018 Major League Baseball Attendance Analysis, in PDF form, at numbertamer.com. Go to the website's 'Baseball Reports' page for the PDF links to each report.

Combined – Major League Affiliated Leagues and Independent Leagues

- J The Minor Leagues that begin play in April were hit very hard by bad weather in 2018. (Much more detail about the effects of weather on 2018 attendance will be found on page 20.) This helped lead to a combined 3.5% decline in total attendance for the Major League affiliated (NAPBL) and independent Minor Leagues.
- J Weather can also affect attendance significantly even if games are played. Cold weather early in the season, brutal summer heat, and storm threats, can result in lower attendance, even if it does not postpone games. This was a big issue in 2018. Forecasts of bad weather, or if it rains shortly before gametime, can cut down on short-term advance, and day-of-game ticket sales. Also, if postponements or bad weather occur on weekends or summer weekdays, it hurts attendance more than if they happen on an early-season school night. So just looking at how many more or fewer dates were played by a team or league from one year to the next, doesn't always provide a full picture on how weather influenced attendance.
- J The U.S. NAPBL leagues had 523 dates lost to weather in 2018, compared to 504 dates in 2017, and 422 in 2016. Combine this with the reduction by one game of each Class AAA team's 2018 home schedule, and the result was the fewest number of home dates in these leagues since 2003. Add in the Mexican League, and it was the fewest number of dates since 2004. On the other hand, independent leagues played their most dates since 2012.
- J Combined regular season attendance for NAPBL – also known as 'Minor League Baseball' (Major League affiliated) leagues, and from those independent league teams who reported regular season attendance, was 46,369,690 in 2018, down 1,682,962 (3.5%) from 2017. Combined attendance rose 0.9% in 2017, fell 2.6% in 2016, had gains of 0.6% in 2015, and 0.7% in 2014, fell 0.3% in 2013, rose 0.7% in 2012, and had declines of 2.9% in 2011, 0.1% in 2010, and 3.8% in 2009.
- J 6 NAPBL teams and one independent team established new team record-highs in total attendance in 2018, along with the Northwest League, the United Shore League, and the Pacific Association. Average per date records were set by 7 NAPBL teams, the Northwest League, the United Shore League, and 3 independent teams. Single game records were set by 20 NAPBL teams.
- J The 228 post-season NAPBL games in 2018, including the Mexican League, drew 1,168,446, an average of 5,125 per game. The Mexican League basically played 2 separate seasons – March through May, with a set of playoffs in June, and then July through early September, with another round of playoffs that continued into October. Mexican League teams averaged 11,645 per game in the June playoffs, and 8,217 per game in the September-October rounds. In the 2018 regular seasons, the Mexican League averaged 4,376 per date. Attendance was available for 56 independent league post-season games in 5 leagues, and they drew 107,495, an average of 1,920 per game. Combined NAPBL and independent playoff attendance was 1,275,941, an average of 4,493 per date.
- J 12 NAPBL All-Star games in 2018 drew a combined 84,680. There were 2 independent league All-Star games, and they drew 9,506. Other than on page 16, All-Star game and post-season figures are not included in totals listed elsewhere in this report. Grand total combined NAPBL Arizona Fall League, and independent 2018 Minor League attendance including All-Star and playoff games was 47,804,079. It was 49,063,262 in 2017, 48,723,796 in 2016, and 49,959,422 in 2015.
- J In 2018, there were 176 NAPBL teams that charged admission to their games, the same number as in 2017. Attendance was reported by 59 independent teams, up from 57 in 2017, 55 in 2016, 52 in 2015, 50 in 2014, 53 teams in 2013, and 55 teams in 2012. The 6-team Empire Pro Baseball League didn't report attendance. The 4-team United Shore Baseball League played all of its games in the same park in Utica, Michigan.
- J Only one NAPBL team played in a different market in 2018 than in 2017. A team in the Mexican League moved from Veracruz to the Laredo area, and split their home schedule with 30 games (not dates) in Laredo, Texas, and 27 games in Nuevo Laredo, Mexico. The only new NAPBL ballpark was in Augusta of the South Atlantic League.
- J U.S./Canadian NAPBL teams had 37 fewer dates in 2018 than in 2017. Attendance was listed for 23 more combined NAPBL/independent playing dates in 2018 compared to 2017. 7 of the 15 NAPBL leagues that charge admission to their games had more dates in 2018 than in 2017, while the Florida State and Northwest Leagues had no change. The Mexican League played 38 more dates than in 2017, the New York-Penn League had 14 more dates, the Southern League had 10 more, and the Eastern League played 6 more. Also up, were the California, Carolina, and Texas Leagues. Top decline was by the South Atlantic League, with 32 fewer dates. The Midwest League played 15 fewer dates, the Pioneer League had 10 fewer dates, and the Appalachian League played 7 less. With reduced schedules, both the International and Pacific Coast Leagues each had 6 fewer dates.

Combined – Major League Affiliated Leagues and Independent Leagues

- J The Mexican League played two separate 57-game seasons in 2018, up from a single 111-game season in 2017. For the 2nd straight year, the International and Pacific Coast Leagues reduced each team's schedules by 2 games apiece. If the Mexican League is included, NAPBL teams lost 2 fewer dates to weather in 2018 than in 2017, and played only one less date than a year earlier. But in 2018, NAPBL leagues didn't recover from the 'dates played' losses of 2017, when they had 134 fewer dates than in 2016.
- J Independent leagues combined for 24 more dates than in 2017, mainly due to expansion in the American and Pacific Associations. The American Association dropped a road team and added the Chicago Dogs (named after hot dogs, not canines), who opened a new ballpark. Bridgeport was replaced by a road team in the Atlantic League. Two teams were added to the Pacific Association, and the Ruidoso took over for Hollywood in the Pecos League. The Can-Am League played extra home games that counted in the standings with teams from the Dominican Republic, and with Salina of the Pacific Association. The Empire Pro League, which did not report attendance, added two teams. More dates were played in 2018 than in 2017 by the Pacific Association (85 more), the American Association (19), and the United Shore League (1). Independent leagues with a reduction in dates were the Atlantic (50), Pecos (21), Frontier (8), and Can-Am (2) Leagues.
- J Combined NAPBL/independent average attendance per date was 3,635, down 139 from 2017.
- J The 15 NAPBL Leagues that charge admission to their games drew 40,450,337, which is a loss of 1,382,027 (3.3%) from 2017. These 15 leagues averaged 3,960 per date, down 135 from 2017.
- J The 59 teams, in the 7 independent leagues that reported attendance, drew 5,919,353, down 300,935 (4.8%) from 2017. Their average per date fell by 142 to 2,330. Unreported Empire League attendance was likely quite low.
- J Combined NAPBL/independent regular season attendance surpassed 40 million for the 20th straight year. It has been above 45 million in each of the last 17 seasons. The record combined high is 51,576,409 in 2008.
- J Among the 227 combined NAPBL/Independent teams that played in the same markets in both 2018 and 2017, there were 85 teams that posted increases in total attendance, while 142 were down. 78 teams had gains in average per date, 148 had declines, and one team (Garden City, KS of the Pecos Baseball League) had the exact same average per date in both 2018 and 2017.
- J The 11 full-season NAPBL leagues averaged 3,760 per date in March/April 2018, down 226 from April 2017, 4,037 in May, up 18, 4,364 in June, down 143, 4,313 in July, down 301, 4,475 in August/September, down 147, and 4,203 overall for the season, down 159. With its new schedule, the Mexican League began their season in March, and had no regular season games in June.
- J The 4 short-season NAPBL leagues, who begin play in June, averaged 2,616 per date in June 2018, down 18 from June 2017, 2,435 in July, down 36, 2,389, in August/September, up 50, and 2,451 over their entire seasons, up 13.
- J The independent Atlantic, Can-Am, and Frontier Leagues, and the American Association averaged a combined 2,770 per date in April/May 2018, down 93 from April/May 2017, 2,881 in June, down 12, 2,974 in July, down 217, 3,009 in August/September, down 123, and 2,926 overall, down 111. The Atlantic League season started on April 26, and ended on September 16. The other 3 leagues began their seasons on May 10 (Frontier) or May 17 (American Association and Can-Am), and ended on September 2 or 3. Tables showing monthly average per date for each NAPBL league, and for the 4 independent leagues listed here, can be found on Pages 36-38.
- J Despite the attendance declines of 2018, Minor League Baseball attendance remains fairly close to its all-time record-high level. 2018 NAPBL total attendance was 6.5% below its all-time high, and the average per date was down 214 (5.1%) from its record-high of 4,174. Attendance has been relatively flat, with small increases and decreases since around 2005. This is in part, due to fewer new ballparks being built, and especially for the NAPBL leagues, fewer team relocations, and no expansion in the number of teams. If Major League Baseball adds teams, as expected in about 5 years, there will be an expansion of teams in the NAPBL Minor Leagues.
- J There are plans for a new independent league, the Southwest League of Professional Baseball, which now expects to play a 112-game per team schedule in 2019. Some of its teams will be Waco, Royce City, and Dallas, all in Texas, plus Joplin, Missouri.

'MINOR LEAGUE BASEBALL' (Major League Affiliated Leagues – Formerly NAPBL)

- J Mother Nature made it a tough year as total 2018 attendance fell 1,382,027 (3.3%) to 40,450,337. It was the lowest total since 2004, but still the 14th straight year above 40 million. The average per date of 3,960, down 135 (3.3%), was the lowest since 2003. The record high average per date is 4,174 in 2008. Record total attendance is 43,263,740 in 2008.
- J The 160 United States/Canadian teams drew 36,678,534 in 2018, down 1,111,225 (2.9%). They averaged 3,922 per date, down 102 (2.5%). The 16 Mexican League teams, drew 3,771,803, down 270,802 (6.7%). Their average per date of 4,376 was down 530 (10.8%).
- J Of the 175 teams playing in the same markets in 2018 as in 2017, 63 NAPBL teams achieved attendance increases, while 112 had losses. 60 of these 175 teams had more home dates in 2018 than in 2017, while 70 teams had fewer home dates, and 45 teams had the same number as in 2017. In 2017, there were 82 'same market' NAPBL teams with increases and 88 had declines. In 2016, there were 61 NAPBL teams with total attendance growth, while 113 suffered declines. In 2015, 81 NAPBL teams had increases in total attendance, and 93 had losses. In 2014, 87 teams saw gains in total attendance, while also 87 teams were down. 85 teams had gains and 89 suffered declines in 2013. Total attendance rose for 67 teams in 2012, and fell for 104 teams. 87 teams had increases in total attendance in 2011, while 86 teams had declines. 83 teams had gains in 2010, with 90 teams showing a decline. In 2009, just 57 teams had gains while 114 were down.
- J In average attendance per date for 2018, 59 'same market' teams did better than in 2017, while 116 teams had a lower average. In 2017, 90 teams were up, and 80 were down. In 2016, 57 teams had increases, and 117 teams suffered declines. In both 2015 and 2014, 81 teams were up, while 93 were down. There were 91 teams with average per date increases in 2013, and 83 had declines. In 2012, 65 teams achieved increases, and 106 teams had declines. 96 teams had increases in 2011, while 77 were down. 64 teams had average per date increases in 2010, while 109 were down. 63 teams had gains in 2009. These figures only include teams that played in the same city for both years compared, so for 2018 it excludes Dos Laredos of the Mexican League, who played in Veracruz in 2017. All these figures do include teams moving to a new ballpark in the same market.
- J There are multiple possible reasons for the attendance decline, which will be noted here. But weather was almost certainly the biggest factor. It was awful in April, with cold weather, rain and snow, and wet during much of the summer, in many places. There was no recovery in 2018 from big increase in the number of lost dates in 2017. The impact of bad weather on team revenue can be even greater than what is seen in loss of attendance. Major and Minor League Baseball, except for the Pecos League, use tickets sold for their official attendance figures. This includes tickets sold, but not used. The Pecos League does not include these 'no-shows.' Bad weather leads to many 'no-shows,' which means less parking, concessions, and merchandise revenue. It is likely that some of the brutally cold Minor League games in 2018 were played in virtually empty ballparks.
- J The 14 U.S. leagues had 523 lost dates in 2018, up from 504 in 2017, and 422 in 2016. These leagues had a combined 37 fewer dates in 2018 than in 2017. The total number of dates played (single-admission doubleheaders count as one date) was 9,353 in 2018, the lowest since 2003. Include the Mexican League, and it still was the lowest number of dates since 2004. The 2018 total NAPBL figure of 10,215 dates is only one less than in 2017. But it is 135 less than in 2016, and 190 less than in 2012. The U.S. number of dates in 2018 (9,353) is down 39 from 2017, down 149 from 2016, 170 from 2015, 147 from 2014, 203 from 2012, and 238 from 2010. U.S./Canadian teams had 9,556 dates in 2012, and 9,591 dates in 2010.
- J The following is based on data compiled by the office of Minor League Baseball (Thanks to Jeff Lantz, Senior Director of Communications) and by Number Tamer: For the 120 United States full-season NAPBL teams, whose season began in early April, there were 141 postponed games in April, 2018, compared to 96 in 2017. In April 2018, 245 games began with a temperature of less than 50 degrees, and 73 of them started in temperatures of less than 40 degrees. In April, 2017, just 58 games began with temperatures of less than 50 degrees, and none started when it was less than 40 degrees. 499 games began with temperatures under 60 degrees in 2018, but only 234 games started with temperatures that low in 2017. The average gametime temperature was 63.4 degrees in April, 2018, and 70.4 degrees in April, 2017. Keep in mind that this includes many games played in warm weather locations. In April, 2018, 9.7% of originally scheduled dates for these 120 teams were postponed.
- J It is impossible to exactly quantify the impact of weather on attendance, but it may be safe to assume that the number of day-of-game ticket sales to some of those very cold games was close to zero. With better weather, it can also be assumed that far fewer teams would have had attendance declines.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – AFFILIATED LEAGUES (NAPBL)

- J Among the 112 NAPBL teams with 2018 declines in total attendance, 51 were down less than 10,000, with 28 of them down under 5,000. 48 teams had a total attendance decline of not more than 5%, with 32 down less than 3%. Of the 116 teams with decreases in average per date, 32 were down less than 100 per date, and for 19 of those teams, the loss was under 50. The dip in average per date was not more than 5% for 54 teams, and under 3% for 37 teams. So just normal Spring weather would have turned some of those declines into gains.

OTHER FACTORS THAT MAY HAVE ACCOUNTED FOR THE 2018 MINOR LEAGUE ATTENDANCE DECLINE:

- J Just the normal ups and downs of sports attendance. Even in a very good attendance year, around one in three Minor League teams have attendance declines.
- J A reduction from 71 to 70 home dates by each of the 30 Class AAA teams. These 30 teams averaged 6,615 per date in 2018. The 30 dates not scheduled would most likely have been weekday early-season games, played on school nights. The average crowd for the 143 Monday through Thursday, April, 2018 Class AAA dates, excluding home openers, was 4,116. This probably accounts for an attendance loss of at least 100,000. April, 2018 openers and Friday through Sunday dates for these 30 teams averaged 6,497 per date.
- J 2018 had only one team change markets (Veracruz to Dos Laredos in the Mexican League), and only one team opened a new park (Augusta of the South Atlantic League). Movement of teams to new markets and new ballparks has been a major component of attendance growth since the early 1990's. So, in a year when this doesn't occur, growth is often reduced.
- J On-field issues such as too many walks, pitching changes, and strikeouts, not enough balls put in play, along with length and pace of games. This is more likely to affect Major League attendance (which was down 4.2% in 2018), than Minor League attendance, but it still could've been a small factor.
- J Tim Tebow – In 2017 he split his season between Columbia of the South Atlantic League and St. Lucie of the Florida State League, areas near where he played college football for the University of Florida. Both of those teams set home attendance records in 2017, but had significant declines in 2018. Columbia was down 63,448 (20.1%) in 2018, the 3rd worst loss in total attendance among U.S. NAPBL teams. St. Lucie had a 33,536 (25.3%) decline, the 3rd worst percentage decrease among U.S. teams.
- J On the road in 2017 with Tebow on the team, Columbia averaged 5,843 per date. Without him on the team in 2017, they averaged 3,885 per date. Columbia averaged 3,473 per date on the road in 2018. On the road with Tebow in 2017, St. Lucie averaged 3,865 per date. Without him, St. Lucie averaged 1,150 per date. In 2018, St. Lucie's road average per date was 1,406. Tebow played at Binghamton of the Eastern League in 2018. Their home attendance rose 29,514, which was the 3rd best gain in total attendance among U.S. teams. Binghamton had its best total attendance since 2008, and their highest average per date since 1992, the team's first season. On the road in 2018, Binghamton drew 384,234, averaging 5,822 per date. In 2017, the Rumble Ponies drew 301,110 for away games, an average of 4,562 per date.
- J Only the Eastern, Appalachian, and Northwest Leagues had total attendance increases in 2018. 11 of the 15 leagues were up in 2017, but the Mexican League had the only gain in 2016.
- J The Eastern League had the best increase in total attendance, up 44,661 (1.2%). The Appalachian League had a 35,769 (10.1) gain.
- J **The Northwest League drew a league record-high total of 1,089,930, up 949 (0.1%), with an average per date of 3,597, up 3, which was also a new league record.**
- J Besides the Northwest League, other leagues with gains in average per date in 2018 were the Eastern (up 20), Appalachian (up 139), and Pioneer Leagues (up 24). 11 leagues had average per date gains in 2017. Only the Northwest and Mexican Leagues were up in 2016.
- J By classification, combined Class AAA attendance topped 13 million for the 19th straight year, and it was also 19 years in a row with combined attendance of better than 8 million for the Class AA leagues. Full-season Class A leagues drew a combined 11 million plus for the 14th year in a row. Short-season leagues topped 3 million for the 23rd year in row, and were above 3.4 million for the 17th straight season.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – AFFILIATED LEAGUES (NAPBL)

- J Even with the 2018 declines, many leagues posted attendance figures near their all-time highs in the categories of total attendance, average attendance per team, and average attendance per date.
- J For the 21st year in a row, the International League topped 6 million, and averaged over 450,000 per team. Pacific Coast League average per date was above 6,000, and the average total per team topped 400,000, each for the 19th consecutive season.
- J Appalachian League total attendance was the best since 1997, and average per date reached the highest level since 1994. It was a nice retirement gift for league president Lee Landers, who spent 60 years in baseball.
- J The Florida State League drew over one million for the 13th year in a row. The Midwest League's average per date surpassed 3,700 for the 12th straight season.
- J The Texas League has drawn over 2 million for 19 consecutive years. Southern League attendance reached 2 million for the 28th year in a row. In the last 16 years, the South Atlantic League has been above 3 million 13 times. Pioneer League total attendance was above 600,000, and average per date reached 2,000 for the 16th straight year.
- J On the down side, the Mexican League had a 270,802 (6.7%) total decline. Their Spring season averaged 4,831 per date, and the Summer season averaged 3,914. The International and Pacific Coast Leagues were each down more than 200,000, in part due to shorter schedules. The Carolina, Florida State, Midwest, and South Atlantic Leagues were all down more than 100,000. The total and average per date for the New York-Penn League was their lowest since 2000. Carolina League average per date fell under 3,000 for the first time in 13 years.
- J The Mexican League had the biggest average per date decline, down 530. The Carolina League had a 213 decrease. Average per date also dropped by at least 100 for the International, Pacific Coast, Southern, Texas, Florida State, and New York-Penn Leagues.
- J Class AAA leagues had a combined total attendance decline of 3.2%. Their average per date was down 177. The Class AA leagues had a combined 0.9% decrease in total attendance and a 79 loss in average per date. Combined total attendance for the 5 full-season Class A leagues fell 5.1%, and their average per date was down 122. The 4 short-season leagues had gains of 0.3% in total attendance, and 13 in average per date.
- J From 2013 through 2017, all teams in the Northwest League averaged at least 2,130 per date every year. These were the only times that every team in a short-season league has averaged at least 2,000 per date. This streak ended in 2018 when Salem-Keizer averaged 1,897 per date.
- J There were 3 leagues where a majority of teams had increases in total attendance. The Appalachian, Eastern, and Northwest Leagues each had more teams that drew a higher total in 2018 than in 2017. This included 7 of the 10 teams in the Appalachian League. The number of teams with a gain was the same as the number with a loss in the New York-Penn and Pioneer Leagues. The International, Pacific Coast, Mexican, Southern, Texas, California, Carolina, Florida State, Midwest, and South Atlantic Leagues each had more teams with declines than teams with gains. This includes 12 of 14 teams down in the International League, 8 of 10 with declines in the Carolina League, and 13 of 14 with losses in the South Atlantic League. 10 South Atlantic League teams played fewer home dates in 2018 than in 2017.
- J In average per date, the Eastern (7 of 12 teams), Northwest (5 of 8), and Appalachian (8 of 10) all had a majority of teams post gains. The Texas, and Pioneer Leagues each had the same number of their teams with increases and decreases. 13 of 14 International League teams had average per date declines, as did 9 of 10 teams in the Carolina League, and 12 of 16 teams in both the Pacific Coast and Midwest Leagues.
- J **The NAPBL teams that achieved their highest total attendance ever in 2018 were Pulaski, Johnson City, Augusta, Nashville, and Hartford (which includes all teams that ever played either in Hartford or New Britain). Spokane set a record for a short-season team in that market. Eugene had its highest total in its current ballpark.**
- J **Average per date highs were set in 2018 by Johnson City, Pulaski, Dos Laredos, Tri-City, WA (Northwest League), Asheville, Augusta, and Hartford (including teams in New Britain).**

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – AFFILIATED LEAGUES (NAPBL)

- J Single game attendance highs for current teams or ballparks were set in 2018 by 20 teams: Augusta; Birmingham; Corpus Christi; Frisco; Great Lakes; Johnson City; Myrtle Beach; Pulaski; Salem; Winston-Salem; Binghamton; Charlotte, NC; Erie; Grand Junction; Hillsboro; Louisville; Omaha; Richmond; Tri-Cities, WA; Albuquerque. (Information courtesy of Minor League Baseball)
- J **Charlotte topped all NAPBL teams in total attendance (619,639), and had the 3rd best (and U.S. best) average per date (8,980). The Knights had the top average per date among U.S. teams in 2014, 2015, and 2016. There were 23 sellouts in 2018. In 2014, Charlotte's gain of 432,881 was the 3rd best gain ever for a team moving to a new park in their same market. Since moving to BB&T Ballpark, the Knights have averaged 9,238 per date, with 133 sellouts.**
- J **The Monterrey Sultanes had the highest total attendance and average per date in all of Minor League Baseball in 2017, and the top average per date in 2018. They drew a 6th best 563,296 in 2018, averaging 10,059 per date. However, for the 2nd straight year, they had a big decline. In 2018, their total fell 96,495, and average per date was down 1,516, both the 3rd worst dips of any team. In 2017, average per date was down 1,208, the largest 2017 vs. 2016 decline of any team. The 8 Spring 2018 playoff games in Monterrey each drew at least 17,000, with a sellout high of 21,909 at 4 games. All but one Fall playoff game there drew over 10,000, with a high again of 21,909 at 3 games. In 2016, the Sultanes led the Minors in total attendance, average per date, increase in total attendance, and increase in average per date. They drew 690,305 (12,783 per date), in just 54 dates. Attendance topped 10,000 at 36 dates, was over 15,000 at 16 dates, and 8 dates drew over 20,000. Sultanes' total attendance rose by 173,070, and average per date was up 3,379. Monterrey had the largest total attendance decline in 2015. They led all of Minor League Baseball in attendance in 2012, when they drew 645,302, and in 2006, with an incredible 989,454.**
- J **For the 3rd straight year, Indianapolis finished 2nd in total attendance (619,122). The Indians averaged 8,845 per date, which was also 2nd among U.S. teams, and 4th best overall. The Indians had the best U.S. total in 2017. 26 dates drew at least 10,000 in 2018, the same number as in 2017. In 2013, the Indians led the Minors in total attendance. In 2014, they set a new attendance high, and had the highest average per date (9,433) of any U.S. team that played in the same ballpark in both 2014 and 2013. They also finished 3rd in total attendance and in average per date. Their 2015 total attendance of 662,536 was another team record-high, and 3rd best in the Minor Leagues, and the average per date of 9,331 was the 4th highest in that category. They've topped 535,000 for 23 straight years, and have reached 600,000 in 12 of these seasons.**
- J Round Rock drew 616,636, which was the 3rd highest total, and their average of 8,809 was 5th best. It was the 14th time in 19 seasons above 600,000 for the Express.
- J **Nashville's total attendance of 603,135 broke their team record set in 2017. The Sounds averaged an NAPBL 6th best 8,741 per date.**
- J Columbus, OH was 5th in total attendance (587,067) and 7th in average per date (8,633) in 2018, continuing their record of attendance excellence. The Clippers have led Minor League Baseball in total attendance in 1977, 1979, 1987, and 2009. Since 1979, they've topped 500,000 for a record-high 32 seasons.
- J Lehigh Valley (Allentown, PA) finished 7th in total attendance (561,745) and 9th in average per date (8,511). The IronPigs drew above their ballpark's seating capacity for 39 of 66 dates, and sold out all seats, lawn seating, and standing room for 19 dates. Lehigh Valley had been the only team to draw more than 600,000 in all 9 seasons from 2008 through 2016. But 6 rainouts in 2017 really hurt attendance. They've averaged 8,900 per date in an 8,089-seat park in their 11-year history, with an above-seating capacity sellout at 562 of 754 dates, and a total sellout, including all lawn seating and standing room, at 196 dates.
- J Tijuana drew 556,371, which ranked #8. Los Toros (Bulls) had the 2nd best average per date of any team (9,761).
- J Sacramento had the 12th best total (538,785). It was just the 3rd time in their 19-year history that the River Cats didn't reach 600,000. They've led the Minors in total attendance in 10 different seasons.
- J Besides the 9 teams noted above, topping 500,000 were: Class AAA Buffalo (for a record 31st straight year); Toledo; Albuquerque; Durham; El Paso; and Class A Dayton.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – AFFILIATED LEAGUES (NAPBL)

- J Yucatan averaged 8,606 per date, which was 8th highest average. Buffalo had an 8,250 average per date.
- J In addition to the teams noted above, Albuquerque, Dayton, El Paso, Sacramento, Durham, Toledo, and Iowa all topped 7,000 in average per date.
- J Lowest average per date by classification were AAA: Gwinnett (3,062); AA: Mobile (1,121); full-season A: Buies Creek, in a 1,500-capacity park (359); short-season: Elizabethton (529); Mexican: Campeche (1,394).
- J Highest average per date by classification were AAA: Charlotte (8,980); AA: Frisco (6,886); full-season A: Dayton (7,868); short-season: Vancouver (6,292); Mexican: Monterrey (10,059).
- J There were 28 teams, from all levels, that averaged at least 6,000 per date in 2018. 29 teams topped 6,000 in 2017, and 30 teams did it in 2016. In 2015 and 2014, 28 teams, and in 2013, 25 teams, reached that level.
- J 56 teams, including 26 of 30 in Class AAA drew more than 300,000 in 2018. Colorado Springs, New Orleans, Syracuse, and Gwinnett were the Class AAA clubs under 300,000. This level was reached by 60 teams in 2017, 56 teams in 2016, 58 teams in 2015 and in 2014, 54 teams in 2013, and 55 teams in 2012.
- J 26 of the 30 Class AA teams drew at least 200,000 in 2018. Frisco (468,259) led Class AA for the 14th straight season. But 2018 was just the 7th time in team history that the RoughRiders failed to reach 500,000. 25 Class AA teams drew 200,000+ in 2017, 24 teams did it in 2016, and 26 teams reached this level in 2015.
- J 24 of 60 full-season Class A teams drew at least 200,000 in 2018. 26 teams topped 200,000 in 2017, 23 teams did it in 2016, and 26 teams reached this level in 2015 and 2014.
- J **Dayton drew 550,725, to lead Class A for the 19th year in a row. The Dragons have sold out all 1,316 regular season games in their 19-year history. This is the longest sellout streak in North American sports history. In 2011, the Dragons broke the old consecutive sellouts record of 814 (including playoff games) by the NBA Portland Trail Blazers, set from 1977 to 1995. The Boston Red Sox exceeded Portland's sellout total in 2012, reaching a combined 820 straight sellouts, including post-season games.**
- J In 2016, Vancouver ended Brooklyn's 15-year run as the short-season leader in total attendance and average per date. The Canadians did it again in 2017, drawing 239,527, the highest short-season total ever for that market. In 2018, Vancouver again led short-season teams, drawing 239,086. They sold out a team record-high 32 of 38 dates, and averaged 6,292 per date, which is 98.1% of their ballpark's capacity. Brooklyn also drew over 200,000 in 2018, and 12 other short-season teams drew at least 100,000.
- J Class A Augusta, GA, playing in their new ballpark, was up 76,886, the largest increase in total attendance in 2018. This was followed by Tabasco of the Mexican League, up 58,758. Class AA New Hampshire had a 34,991 increase. Leon (Mexican) rose 31,157, and Binghamton was up 29,514. Oklahoma City, up 18,971, had the best Class AAA increase. Among short-season teams, Brooklyn (up 15,642), and Pulaski (up 13,346) had the best growth. Pulaski's total of 91,226 was the best ever for any short-season Appalachian League team.
- J In average per date, Augusta (up 1,307), Tabasco (up 981), Mexico City (up 540), Greeneville TN of the Appalachian League (up 410), and Pulaski (up 404), had the largest increases. New Hampshire's gain of 330 per date was best in Class AA, and Oklahoma City, up 180 per date, had the top Class AAA increase.
- J Class AAA New Orleans had the largest NAPBL decline in total attendance in 2018, down 97,269. 3 Mexican League teams had the next largest decreases -- Aguascalientes down 97,144, Monterrey, down 96,495, and Laguna, down 73,665. Iowa fell 72,261. Columbia, sans Tim Tebow, had the worst full-season Class A loss (63,448). Mississippi, down 39,293, had the largest decline in Class AA, and Billings posted a 16,845 decline, the worst loss among short-season teams.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – AFFILIATED LEAGUES (NAPBL)

- J New Orleans had the largest average per date decline, down 1,727. 5 Mexican League teams had the next 5 worst declines in average per date. Aguascalientes fell 1,662. Monterrey, despite having the Minors' highest average per date in 2018, had the 3rd worst average per-date decline – 1,516. Campeche fell 1,511, Laguna was down 1,179, and Tijuana dipped 1,111. Among full-season Class A teams, Columbia, SC had the worst loss, down 1,018 per date. In Class AA, the top loss was by Mississippi, down 630. Aberdeen suffered the largest short-season team decline, down 481. Overall, 13 teams had a decline of at least 500 per date.
- J Gwinnett's total of 195,955 was the lowest among Class AAA teams in 2018. Mobile, which moves to Madison, AL in 2020, had the lowest Class AA total (69,504). Buies Creek, in a tiny ballpark, drew 24,068, the lowest among full-season Class A teams. This team moves into their permanent home in Fayetteville, NC in 2019. Also in full-season Class A, Dunedin drew just 30,569. Elizabethton had the lowest total (15,329) among short-season teams.
- J On a percentage basis, best gains in total attendance were by Tabasco (Mexican League – 81.8%), full-season Class A Augusta (43.1%), short-season Princeton (36.8%), and short-season Greeneville, TN (36.0%). Oklahoma (up 4.3%) had the top Class AAA gain, and Binghamton's 15.5% increase was highest in Class AA.
- J Top percentage average per date increases were by Tabasco (68.3%), Augusta (47.6%), Princeton (45.7%), and Greeneville (36.0%). Oklahoma City (2.8%) had the top Class AAA gain. Binghamton (8.0%) was Class AA best for the 2nd year in a row.
- J In total attendance, the biggest percentage losers were Aguascalientes of the Mexican League (49.5%), Campeche (46.8%), and full-season Class A Florida (Kissimmee) (42.4%). Mobile (down 25.2%) had the worst Class AA percentage loss, New Orleans' 27.8% drop was the worst in Class AAA, and Elizabethton, down 18.2% suffered the worst short-season total percentage loss.
- J The largest percentage losses in average per date were by Campeche (52.0%), Aguascalientes (46.5%), full-season Class A Florida (44.5%), and Class AAA New Orleans (31.1%). Mobile, down 25.2% had the worst Class AA decline, and Aberdeen's 12.1% drop was worst among short-season teams.
- J Changes for 2019 include a 3-way move. The Helena Brewers of the Pioneer League move to Colorado Springs, replacing the Class AAA Pacific Coast League Sky Sox, who move to San Antonio, replacing the Class AA Missions, who move to Amarillo. The Buies Creek Astros move to a new ballpark at their permanent home in Fayetteville, NC. Las Vegas of the Pacific Coast League opens a new ballpark. Will Mexico City's new park be ready?
- J The Arizona Fall League drew 61,045 for its 90 regular season games, up 7,857 (14.8%) and averaging 678 per date. All 6 teams had increases. The league's championship game drew 3,217. Figures from this league are not included in any totals in this report, except in the table on page 16, and in the note at the top of page 19.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – INDEPENDENT LEAGUES

- J The same 8 independent leagues operated in 2018 as in 2017. 63 teams played home games, and 59 of them reported attendance. Attendance for the 4 teams in the Empire Professional League that had home games was not provided, but most likely, it was very low.
- J The United Shore Baseball League played its 3rd season. All 4 teams in this league played their games in the same ballpark in Utica, Michigan. A team attendance breakdown was not available, but a league average was.
- J 2018 changes in the independent leagues included the American Association adding the Chicago Dogs to replace road-team Salina, KS, borrowed from the Pecos League. A road team replaced Bridgeport of the Atlantic League. Two teams were added to the Empire Pro League. The Pacific Association added Martinez and Napa. Ruidoso replaced Hollywood in the Pecos League.
- J Attendance was compiled by 59 teams in 2018, up from 57 teams in 2017, 55 teams in 2016, 52 teams in 2015, and 50 in 2014. 53 independent teams reported attendance in 2013. 55 teams listed attendance in 2012. The figures for the 12 Pecos League teams were provided by the league office. Figures for the other independent leagues came from their Websites.
- J 22 of the 52 independent league teams playing in the same market as in 2017 had gains in total attendance in 2018. 19 of those teams posted gains in average per date, 32 were down, and one team had the same average per date as in 2017. 22 of these teams had more home dates in 2018 than in 2017, 25 had fewer dates, and 5 played the same number as in 2017. (The entire United Shore League is counted as one team.)
- J In 2017, 22 of 48 'same market' teams were up in total attendance, and 22 had an average per date increase, with one team having no change. 14 of 46 'same market' teams had total attendance gains in 2016, and 20 of them were up in average per date. In 2015, 23 of 45 'same market' teams had total attendance gains, and 15 of them were up in average per date. In 2014, 14 of 47 teams had total gains, with 13 gaining in average per date. 15 of 48 teams showed growth in total attendance in 2013, with 15 up in average per date. 20 of 46 'same market' independent teams had gains in total attendance in 2012, with 17 posting increases in average per date. Just 12 'same market' independent teams had increases in total attendance in 2011, while 37 were down. 9 of those teams had gains in average per date and 40 had declines.
- J Total independent leagues reported attendance was 5,919,353 in 2018, down 300,935 (4.8%). Combined average per date fell by 142 to 2,330, which is the lowest independent combined average since 1998. There were 24 more dates with recorded or estimated attendance among independent teams in 2018 than in 2017.
- J 3 of the 7 leagues that compiled attendance had gains in total attendance. The American Association had a total gain of 24,884 (1.3%), with 19 more dates than in 2017, and with one more team playing home games. Teams that were in that league in both 2018 and 2017 were down a combined 113,971 (6.1%). The United Shore League was up 7,100 (2.9%). The Pacific Association gained 25,146 (68.2%) with 2 additional teams, and 85 more dates. The 4 returning Pacific Association teams rose 9,867 (26.8%).
- J Frontier League attendance topped one million for the 16th straight year, drawing 1,194,851. But that was down 93,691 (7.3%). The league played 8 fewer dates than in 2017. The Can-Am League had a 31,625 (5.0%) loss.
- J The Atlantic League replaced Bridgeport with a road team. The remaining 7 teams had about the same number, or more, scheduled home dates. Total attendance declined 221,480 (10.7%) with 50 fewer dates than in 2017. The returning 7 teams had a combined total loss of 24,563 (1.3%). This league still had the best average per date (3,894) of any independent league. However, it was the 3rd time since 2005 that average per date was under 4,000. In 2012, this league drew 2,367,578, the highest total attendance by any modern-day independent league. The all-time high average per date for a modern-day independent league is 4,621 by the Northern League in 2008.
- J Figures for the Pecos League were provided by the league office. Pecos League attendance fell 11,269 (14.5%) to 66,344, in great part due to Tucson moving to a much smaller park. The league had 21 fewer dates than in 2017. All Pecos League ballparks are quite small, and their attendance figures are for tickets actually used, and do not include 'no-shows.' So their ticket sales are higher than the announced attendance. All other minor leagues, and the Major Leagues, do include 'no-shows' in official attendance.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – INDEPENDENT LEAGUES

- J In average per date, the American Association was down 65. The 11 returning teams in that league dipped by 39. The United Shore League had a gain of 50, with 61 of their 75 dates, including 3 playoff games, selling out. The Pecos League was down 20. The Atlantic League had a loss of 51, with the 7 returning teams down a combined 190. The Can-Am League had a 92 loss, and the Frontier League was down 140. The Pacific Association was up by 20, with the 4 returning teams up 55.
- J **The St. Paul Saints of the American Association drew 408,921, and averaged 8,178 per date. Both of those figures were once again, the best among all independent teams. 45 of their 50 dates drew above their ballpark's seating capacity of 7,210, with attendance topping 8,000 at 32 dates. There were 5 dates that drew at least 9,000, with a high of 9,791. Since moving into CHS Field in 2015, the Saints have outdrawn the park's seating capacity at 184 of 198 regular season dates.**
- J St. Paul drew 406,501 in 2017, with 46 of 49 dates topping seating capacity. 36 dates drew at least 8,000.
- J In 2016, St. Paul drew the highest total ever (413,482) for any independent team not in the Atlantic League, which plays a longer schedule than the other indy leagues. The Saints averaged 8,438 per date, which is a record-high for any independent team. The previous records (404,528, averaging 8,091) were set by St. Paul in 2015, their first year at CHS Field. Prior to 2015, the independent average per date record was 7,161 by Winnipeg in 2003. In 2016, 47 of the 49 dates in St. Paul above CHS Field's seating capacity, topped by a crowd of 10,443. In 2015, 46 of the 50 dates topped seating capacity, and 18 dates had crowds of at least 1,000 above seating capacity.
- J Long Island had the top independent attendance for 12 straight years from 2000 through 2011. Long Island, Sugar Land, and Somerset were the other independent teams, in addition to St. Paul, that topped 300,000 in 2018. Except for St. Paul, all the teams that topped 300,000 play in the longer-schedule Atlantic League. Southern Maryland, Lancaster PA, and Winnipeg, also drew more than 200,000 in 2018.
- J After St. Paul, Somerset had the next best average per date (5,110). Long Island averaged 4,916, and Sugar Land had a 4,562 average per date. Winnipeg, who had the highest independent average per date 12 times in 15 years through 2014, averaged 4,477.
- J Sugar Land (near Houston) of the Atlantic League drew 465,511 in 2012, the highest total ever by a modern independent league team. The previous record was 443,142 by Long Island in 2001.
- J Lowest 2018 total attendance among American Association, and Atlantic, Can-Am, and Frontier League teams was 63,498 by Sioux City IA of the American Association. This team's average per date of 1,323 was the 2nd lowest in these 4 leagues. Cleburne had the lowest average per date (1,285). No other teams in these leagues averaged under 1,500 per date. Also failing to top 80,000 in total attendance were Cleburne, Windy City, and Sussex County (NJ).
- J Biggest total attendance declines in these leagues were by Wichita, down 49,368, Southern Illinois, down 41,830, Cleburne, down 39,038, York, down 31,817, and Traverse City, down 31,368. Wichita will not have a team in 2019. That city plans to build a new ballpark in time for the 2020 season. New Orleans of the Class AAA Pacific Coast League is expected to move there. Traverse City and Normal, both from the Frontier League, will play in college summer leagues in 2019.
- J All 18 of the teams in the Pecos League and Pacific Association averaged below 1,000 per date, and for 16 of these teams, average per date was under 400. San Rafael of the Pacific Association averaged 452. Sonoma, from the same league averaged 438. Most of these teams play in tiny ballparks, some with only a few hundred seats.
- J The Florence (KY) Freedom of the Frontier League had the best total increase (18,260) among independent teams in 2018. Texas (Grand Prairie) had a 14,524 gain, Trois Rivières was up 12,377, Sugar Land gained 10,770, and Sioux Falls, SD rose by 10,621.
- J Texas had the best increase in average per date, up 519. Lake Erie had a gain of 300, Florence was up 267, Trois Rivières gained 252, and Sonoma had a 181 increase.

SUMMARY OF 2018 MINOR LEAGUE BASEBALL ATTENDANCE – INDEPENDENT LEAGUES

- J Wichita, in its final American Association season, had the worst 2018 decline in average per date, down 835. Southern Illinois fell by 552, Cleburne was down 495, Traverse City dipped 456, and Quebec had a loss of 452. 8 other teams had losses of at least 200 per date.
- J By percentage change in the Atlantic, Can-Am, and Frontier Leagues, and the American Association, Texas had the best total attendance gain, up 22.1%, Florence gained 20.9%, Trois Rivières was up 15.6%, Washington, PA had a 13.3% increase, and Sioux Falls was up 9.4%.
- J On the down side, in percent change of total attendance, Cleburne fell by 37.8%, Wichita was down 31.2%, Southern Illinois had a 27.6% loss, Traverse City declined 26.2%, and Gateway's total attendance dipped 15.3%.
- J Best percentage growth in average per date in the 4 leagues noted above was by Texas (up 45.1%), Trois Rivières (up 15.6%), Lake Erie (up 15.0%), Florence (up 12.8%), and Normal, in its final season in the Frontier League, (up 10.2%).
- J Worst percentage average per date losses were by Cleburne (down 27.8%), Wichita (down 27.0%), Traverse City, in its final Frontier League season, (down 16.8%), Southern Illinois (also down 16.8%), and Quebec (down 15.9%).
- J **The Pacific Association, and Monterey, CA of the Pecos League, set new highs in total attendance in 2018. Trois Rivières, White Sands, and Monterey each had a record-high in average per date.**
- J Some of the changes planned for 2019 include the Milwaukee Milkmen (Franklin, WI) replacing Wichita in the American Association, and both Traverse City and Normal leaving the Frontier League, and instead playing in summer collegiate leagues. Also, the Atlantic league will add High Point, NC, replacing the 2018 road team. The new Southwest League of Professional Baseball, with at least 4 teams, and a 112-game schedule for each of them, expects to begin play.

SOURCES

The Communications and Media Relations Department of Minor League Baseball (also known as the National Association of Professional Baseball Leagues), provided attendance data for the developmental leagues of Major League Baseball for the years 1994 through 2018. 1997-2018 independent league data is from each league's official Website. Information from individual teams sometimes came from that team's Website. Major League attendance data is from the Major League Baseball Information System.

NAPBL data from years prior to 1994 is from The Sporting News Official Baseball Guides, (1949, 1961, 1969-1980, 1989-1993 seasons), the Website 'thebaseballcube.com' (1982-1988), the Encyclopedia of Minor League Baseball, Third Edition (pre-1969 and 1980's NAPBL), edited by Lloyd Johnson and Miles Wolff (2007 – Baseball America), and from "Mud Hens and Mavericks" by Judith Blahnik and Phillip S. Schulz (1995 – Viking Penguin).

Independent league data prior to 1997 came from the Encyclopedia of Minor League Baseball, and the "Independent Baseball Page" Website. Some 2015 playoff data is from Bob Wirz of Indy Baseball Chatter.

The Websites 'oursportscentral.com,' 'baseballparks.com,' 'ballparkbiz.com,' and 'ballparkdigest.com,' plus the "Baseball America Directory," were sources of some information about ballparks.

Individual team attendance for the Mexican League was not available for the 1981 season. Hopefully, these figures can be obtained in the future. If you can provide this data, it would be very much appreciated.

The Website 'archive.org' posted the 1950 and 1962 Sporting News Baseball Guides online, from the University of Florida library. This is how the league and team 1949 and 1961 attendance figures were obtained.

The raw data was compiled and analyzed by David P. Kronheim, Director of Marketing Research for Number Tamer, which is a marketing research service with clients in the sports industry. David has visited more than 120 Minor League ballparks over the past 4 decades.

There is a section on 2018 post-season and All-Star attendance. All other figures in this report are for regular season games only, and exclude exhibition, All-Star, and post-season games, unless noted otherwise.

With the exception of the Pecos League, baseball's Minor Leagues follow the current policy of all North American professional sports leagues, which is that official announced attendance is for tickets sold, not for actual in-stadium attendance. It includes 'no-shows,' which are tickets sold, but not used. In addition, Minor League announced attendance figures often include fans who are admitted to games for free. A 'sellout' usually means that all fixed seats were sold-out for a particular game. Many ballparks have standing-room, or lawn seating tickets available, and all those tickets don't have to be sold for most teams to list a game as a 'sellout.' The independent Pecos Baseball League does not include 'no-shows' in their attendance, so their actual ticket sales may be higher than the figures they list.

INDEPENDENT LEAGUES ATTENDANCE FOR SOME YEARS WAS SLIGHTLY HIGHER THAN LISTED

Actual 2010, and 2012 through 2018 total attendance for independent leagues was slightly higher, and average per date was a bit lower, than what is listed in this report. In 2010, the Continental League didn't finish its season, and no attendance figures were compiled. It is doubtful that average attendance per date in that league was more than 200. Total attendance for the Continental League in 2010 was probably not above 17,000, and perhaps, considerably less.

In 2014, the Independent Baseball League did not report attendance, which was estimated to be very low. The Freedom Pro League didn't report attendance in 2012 and 2013, the 2 seasons that it operated. It too, was low.

2018, 2017, and 2016 attendance from the Empire Pro League, was unavailable, but was probably quite low. Yearly 2011-2018 data for the Pecos Baseball League was estimated by the league office.

ATTENTION, ENGLISH TEACHERS:

Team names in this report are spelled exactly as they appear in the Information Guide of Minor League Baseball, and on the Websites of the independent leagues.

“PRE-GAME WARM UP” - AN OVERVIEW OF HOW BASEBALL’S MINOR LEAGUES ARE ORGANIZED

There are two types of ‘leagues’ in Minor League Baseball. The majority of them are affiliated with Major League Baseball, as part of its player development program, or ‘farm system.’

NAPBL LEAGUES

The National Association of Professional Baseball Leagues (NAPBL), also known as “Minor League Baseball,” is the governing body of those minor leagues which are affiliated with Major League Baseball.

These leagues are divided into 5 classifications: Class AAA (International and Pacific Coast Leagues); Class AA (Eastern, Southern and Texas Leagues); full-season Class A (California, Carolina, Florida State, Midwest and South Atlantic Leagues); short-season Class A (New York-Penn and Northwest Leagues); Rookie Class (Appalachian and Pioneer Leagues). In addition, there is the Mexican League, which is a member of the NAPBL, but whose teams are not affiliated with any Major League teams.

4 more Rookie leagues (Arizona, Gulf Coast, Dominican, and Mexican Academy) and the fall Florida Instructional League, do not charge admission to their games, and are not listed in this report. Admission is charged at games of the Arizona Fall League. Their attendance is noted in the page 16 table, on page 136, and is in the team 2018 vs, 2017 comparison table on page 141. But figures for this league are not part of any other tables.

The Class AAA, AA, and full-season A teams played a 140-game season starting in early April. Short-season teams in the leagues that charge admission, play 68-76 games, beginning around mid-June. All these leagues conclude their seasons with playoffs in early through mid-September. The Mexican League played a Spring season (March 22-May 28), and a Summer season (July 3-September 8), each with 57 games, followed by playoffs.

Each Major League team is affiliated with one Class AAA team, one Class AA team, two full-season Class A teams, and at least one short-season team in a league that charges admission. Some Major League teams have more Minor League affiliates than others.

INDEPENDENT LEAGUES

The independent leagues are not affiliated in any way with Major League Baseball. Their players, managers, and coaches are under contract to their individual leagues or teams. (Uniformed personnel in NAPBL leagues, other than the Mexican League, are under contract to their specific Major League parent teams.) Major League organizations can, and often do, sign independent league players to contracts. Independent leagues were once the rule in Minor League Baseball. But as the modern Major League farm systems developed, Minor League teams began to affiliate with Major League teams, and independent leagues and teams pretty much disappeared.

The current generation of independent leagues began in 1993 with the start of the Northern and the Frontier Leagues. All independent leagues have been through major reorganizations, and in some cases, name changes. The Can-Am League first played in 1995, as the Northeast League. The American Association is a combination of former Northern League and Central League teams. The Central League began as the Texas-Louisiana League in 1994. Numerous other independent leagues were started. Some, such as the Heartland League and the Prairie League, managed to last 3 seasons. Others were unable to survive even one full season.

A significant reorganization of independent leagues took place in 2011. The Northern, Continental, United Baseball, and Golden Baseball Leagues disbanded. Some teams from those leagues played in the new North American and Pecos Baseball Leagues. Others moved into the Frontier League or the American Association.

In 2018, the 8 independent leagues that operated were the American Association (100 game schedule), Atlantic League (126 games – a road team resulted in other teams having extra home games), Can-Am League (102 games), Frontier League (96 games), Pacific Association (80 games), Pecos Baseball League (57-63 games), and the Empire Pro League (44-48 games), and United Shore Baseball League (75 games-all in Utica, MI). The Empire and United Shore Leagues began play in 2016.

In order to avoid confusion, this report will refer to leagues affiliated with Major League Baseball, plus the Mexican League, as “NAPBL Minor Leagues,” or just “NAPBL.” Attendance listings and individual league analyses will be kept separate from the data of the independent leagues, unless otherwise noted.

MINOR LEAGUE BASEBALL ATTENDANCE - By League - 2018 vs. 2017

Page 15

NAPBL AFFILIATED LEAGUES	TOTAL ATTENDANCE				AVERAGE PER DATE		
	2018	2017	Change-2018 #	vs. 2017 %	2018	2017	# Change 2018 vs. 2017

Post-season independent attendance is for Can-Am, Atlantic, United Shore, Frontier Leagues, and the American Association. Mexican League post-season games (included in NAPBL) drew 822,575 for 83 games, an average of 9,911.

COMBINED NAPBL MINOR LEAGUES AND INDEPENDENT LEAGUES 2018 OVERVIEW**Bad Weather Hit the Minor Leagues hard in 2018, Leading to an Attendance Decline**

- J Mother Nature was not kind to Minor League Baseball in 2018. Early season rain, snow, and very cold weather, led to the lowest combined NAPBL/Independent leagues total and average per date attendance since 2003.
- J There are other possible reasons for the attendance decline, which will be noted later. But weather was almost certainly the biggest factor. It was awful in April, with cold weather, rain and snow, and wet during much of the summer, in many places. There was no recovery in 2018 from big increase in the number of lost dates in 2017. The impact of bad weather on team revenue can be even greater than what is seen in loss of attendance. Major and Minor League Baseball, except for the Pecos League, use tickets sold for their official attendance figures. This includes tickets sold, but not used. The Pecos League does not include these 'no-shows.' Bad weather leads to many 'no-shows,' which means less parking, concessions, and merchandise revenue. It is likely that some of the brutally cold Minor League games in 2018 were played in virtually empty ballparks.
- J **Combined total attendance for all minor leagues fell 1,682,962 (3.5%) in 2018 to 46,369,690. Average per date was down 139 to 3,635.** The comparison excludes the 6-team Empire Pro Baseball League, which did not report attendance. (It was very low.) Combined NAPBL/Independent total attendance rose 449,240 (0.9%) in 2017, fell 1,275,515 (2.6%) in 2016, and rose 301,502 (0.6%) in 2015, and 315,351 (0.7%) in 2014. The 2013 combined NAPBL/Independent attendance fell 0.3%. It was up 0.7% in 2012, down 2.9% in 2011, 0.1% in 2010, and 3.8% in 2009. But before 2009, there had been 24 straight seasons of increases.
- J **Total 2018 attendance for the 15 Major League affiliated (NAPBL) leagues was down 1,382,027 (3.3%) to 40,450,337, the lowest since 2004. But it was the 14th straight year above 40 million, and only the 2nd loss in the last 7 years. Average attendance per date fell by 135 to 3,960, which was lowest since 2003.** In both 2018 and 2017, there were 176 NAPBL teams that charged admission. Total attendance in these leagues was up 1.1% in 2017, down 2.6% in 2016, up 0.4% in 2015, 2.1% in 2014, 0.7% in 2013, and 0.1% in 2012. It was down 0.4% in 2011, 0.5% in 2010, and 3.7% in 2009. The last increase for the NAPBL until 2012 was in 2008, when it set its all-time record-high.
- J **8 independent leagues, with 66 teams, operated in 2018. 59 teams reported attendance (the 6 Empire League teams did not, and the Atlantic League had a team that only played road games). They drew 5,919,353 in 2018, down 300,935 (4.8%).** 57 teams reported attendance in 2017. The 2018 independent average attendance per date was down 142 to 2,330, the lowest since 1998. The independent leagues had a 0.1% total attendance loss in 2017, a 1.4% dip in 2016, a 2.5% gain in 2015, an 8.1% decline in 2014, a 5.9% total attendance drop in 2013, and a 4.4% gain in 2012. They had a combined 15.7% decrease due to fewer teams in 2011, a 1.8% gain in 2010, and a combined 4.2% dip in 2009.
- J Major League Baseball also had a tough weather year. Their total attendance was down 4.2% in 2018 to its lowest total since 2003. It fell 0.7% in 2017, 0.8% in 2016, dipped less than 0.1% in 2015, fell 0.4% in 2014, declined 1.1% in 2013, rose 2.0% in 2012 and 0.5% in 2011, but fell 0.4% in 2010, and 6.6% in 2009.
- J NAPBL leagues played just one less date in 2018 vs. 2017. So these leagues didn't recover from a 134-date decline in 2017. The 160 U.S./Canadian NAPBL teams played a combined total of 39 fewer dates in 2018 vs. 2017. The Mexican League played a 114-game schedule, compared to 111 games in 2017. The Pacific Coast and International Leagues scheduled one less home date per team than in 2017. There were 523 U.S. NAPBL weather postponements in 2018, compared to 504 in 2017, and 422 in 2016. The number of total NAPBL dates played was the lowest since 2004, and for the U.S./Canadian teams, it was the lowest since 2003. Independent leagues had a combined 24 more dates with recorded attendance than in 2017, as new teams were added to the Pacific and American Associations. The Atlantic League dropped a team. In the 4 established independent leagues, there were a combined 8 more lost dates in 2018 than in 2017.
- J New attendance records were set in 2018. The Northwest League had a record-high total and average per date. Pacific Association total attendance reached an all-time high. The Appalachian League had its best total since 1997, and its best average per date since 1994. 3 full-season and 3 short-season NAPBL teams, plus one independent team had their best total attendance in 2018. 7 NAPBL teams, and 3 independent teams, set new record-highs in average per date. 20 NAPBL teams drew their highest-ever single-game attendance, and so did the United Shore Baseball League. More details about all the record-setters can be found in the league summaries.

COMBINED NAPBL MINOR LEAGUES AND INDEPENDENT LEAGUES OVERVIEW**Combined NAPBL and independent league attendance had gone up for 24 straight years – 1985-2008!**

NAPBL attendance rose every year from 1985 through 1994. From 1995 through 2008, 3 years had small declines in NAPBL attendance. But when attendance for independent leagues, the first of which began play in 1993, gets added to the NAPBL figures for those years, the combined Minor League attendance shows an increase.

2018 combined NAPBL and independent attendance was the 15th highest ever, but the lowest since 2003.

COMBINED NAPBL AND INDEPENDENT LEAGUE ATTENDANCE SINCE 1993

1993 - 30,756,828	2000 - 43,229,652	2007 - 51,298,733	2014 - 48,577,425
1994 - 35,279,284	2001 - 44,805,778	2008 - 51,576,409	2015 - 48,878,927
1995 - 36,208,800	2002 - 45,049,213	2009 - 49,609,703	2016 - 47,603,412
1996 - 36,747,940	2003 - 45,627,856	2010 - 49,537,502	2017 - 48,052,652
1997 - 38,227,980	2004 - 46,445,630	2011 - 48,082,830	2018 - 46,369,690
1998 - 39,294,427	2005 - 48,851,400	2012 - 48,408,316	
1999 - 40,051,268	2006 - 49,268,793	2013 - 48,262,074	

The record-high combined NAPBL Minor League and independent league regular season attendance was 51,576,409 in 2008. Also in 2008, the 176 NAPBL Minor League teams that charged admission set their record-high of 43,263,740. The independent league record-high came in 2007, when 9 leagues, with 67 teams that played home games, drew 8,485,921.

THE PHILLIES AND THE IRONPIGS ACHIEVED AN ATTENDANCE FIRST IN 2011!

In 2011, the Class AAA Lehigh Valley IronPigs (Allentown, PA) led all of Minor League Baseball in attendance. Their parent team, the Philadelphia Phillies, led all of Major League Baseball.

That was the first time that a team led the Majors in attendance in the same season that one of its Minor League affiliates led all of the Minors in attendance. A team has led the American League, but not the Majors in attendance, in the same year that one of their affiliates had the best attendance in the Minor Leagues, in these 7 seasons: 1931 and 1932 Yankees (Newark, NJ); 1955 and 1956 Yankees (Denver); 1979 Yankees (Columbus, OH); 1980 Yankees (Class AA Nashville); 1999 Cleveland (Buffalo).

Two other Philadelphia affiliates led their leagues in attendance in 2011. Reading topped the Eastern League, and Clearwater led the Florida State League. The last time the Major League attendance leader had so many affiliates who led their leagues in attendance was in 1987. That year, the St. Louis Cardinals posted the best attendance in the Majors, and 4 of their farm teams topped their respective leagues.

In 2012, Philadelphia had the Majors' best attendance, and Lehigh Valley topped all U.S. Minor League teams. Phillies affiliates Clearwater (Florida State), and Lakewood (South Atlantic), also led their leagues. Reading, Clearwater, and Lakewood led their leagues in 2016, Reading and Clearwater were leaders in 2017, and Clearwater led the Florida State League in 2018.

TOTAL PROFESSIONAL BASEBALL ATTENDANCE WENT DOWN 3.8% IN 2018

Major League Baseball regular season attendance was 69,625,244 in 2018, down 4.2% from 2017. Combined Major League/Minor League regular season attendance in 2018 was 115,994,934. This is down 3.9% from 120,723,075 in 2017. The all-time record-high combined Major/Minor League regular season total attendance is 130,801,908, set in 2007.

Total 2018 Major League/Minor League attendance, including Spring Training, All-Star Games, Playoffs, and the Arizona Fall League was 122,722,996, down 4,822,983 (3.8%) from 127,545,979 in 2017.

NAPBL LARGEST GAINS AND DECLINES IN TOTAL ATTENDANCE BY CLASSIFICATION

By classification, NAPBL teams with the biggest 2018 total attendance gains were: Oklahoma City (among all AAA teams); New Hampshire (AA); Augusta, GA (full-season A); Brooklyn (short-season A); Pulaski (Rookie); Tabasco (Mexican League). New Hampshire posted its Class AA leading increase despite losing 7 dates.

By classification, NABPL teams with the worst total attendance losses in 2018 were: New Orleans (AAA); Mississippi (AA); Columbia, SC (full-season A); Mahoning Valley (short-season A); Billings (Rookie); Aguascalientes (Mexican).

A listing of the individual teams with the biggest total attendance gains and losses for 2018 in both the NAPBL and independent leagues can be found on page 35. A listing of teams with the biggest 2018 gains and losses in average attendance per date is on page 44.

MINOR LEAGUE ALL-STAR GAME ATTENDANCE

12 NAPBL leagues played All-Star Games in 2018, drawing a combined 84,680. Top All-Star crowd was 12,963 for the Mexican League at Merida. The Texas League at Midland drew 5,890. The AAA game at Columbus, which matched the International vs. the Pacific Coast Leagues, drew 10,516. The Eastern at Trenton drew 8,296. The Southern at Birmingham drew 8,500. Others were – California (Lancaster-4,673), Carolina (Carolina-3,268), Florida State (Tampa-5,764), Midwest (Lansing-9,396), South Atlantic (Greensboro-7,474), Northwest/Pioneer (Grand Junction-4,892), New York-Penn (State College-3,048). Independent leagues that recorded 2018 All-Star Game attendance were the Atlantic (Long Island-6,414), and Frontier (River City-3,092).

MINOR LEAGUE TELEVISION MARKETS

New York is the largest United States television market, with 7,100,300 television households, and 9 Minor League teams in 2018. The biggest TV market without a summer Minor League team that charges admission is Phoenix, which ranks #12, and has 1,864,420 TV households. Phoenix is host to Major League Spring Training and to the Arizona Fall League. It is also home to the Arizona Rookie League, which does not charge admission to its games.

The biggest market with no Major League team is Orlando-Daytona Beach, which ranks #18. Honolulu, ranked #66, was the biggest market without any pro baseball team in 2018. Harlingen-Weslaco, TX, market #78, is the largest mainland U.S. market without any pro baseball team. Huntsville, AL (market #79) gets a team in 2020. Helena, Montana, ranked #205, with 26,440 TV households, was the smallest 2018 market with a team. Their team moves to Colorado Springs in 2019. Great Falls (#192 - 56,270 TV households) will be the smallest 2019 Minor League market.

Alaska, Wyoming, and Hawaii are the only U.S. states without a professional baseball team. Alaska has never had a professional team. Wyoming's last team played in Casper through 2011. Hawaii had a Pacific Coast League team from 1961 through 1987, and last had an independent league team in 2012.

SOURCE: A.C. Nielsen for 2018-19 TV Households Estimates.

Toronto, which is Canada's largest TV market, and ranks #4 in size for combined U.S./Canadian TV markets, does not have a Minor League team, but of course does host the MLB Blue Jays. Minor League teams are in 4 of the 10 Canadian provinces (Quebec, Ontario, Manitoba, British Columbia).

IN 2018, THE WEATHER WAS AWFUL

"Into each life some rain must fall"... Henry Wadsworth Longfellow – Source: brainyquote.com

The early part of the 2018 season had some of the worst Spring weather in years, and it really hurt Minor League Baseball attendance.

The following is based on data compiled by the office of Minor League Baseball (Thanks to Jeff Lantz, Senior Director of Communications) and by Number Tamer: For the 120 United States full-season NAPBL teams, whose season began in early April, there were 141 postponed games in April, 2018, compared to 96 in 2017. In April 2018, 245 games began with a temperature of less than 50 degrees, and 73 of them started in temperatures of less than 40 degrees. In April, 2017, just 58 games began with temperatures of less than 50 degrees, and none started when it was less than 40 degrees. 499 games began with temperatures under 60 degrees in 2018, but only 234 games started with temperatures that low in 2017. The average gametime temperature was 63.4 degrees in April, 2018, and 70.4 degrees in April, 2017. Keep in mind that this includes many games played in warm weather locations. In April, 2018, 9.7% of originally scheduled dates for these 120 teams were postponed.

On an individual team basis, in April, Buffalo had 5 postponements, and Syracuse had 4. The first 7 games in Binghamton, and the first 6 games in Indianapolis, all began with temperatures under 45 degrees. 5 April games in Erie and Clinton, and 4 April games each in Toledo, Binghamton, and Fort Wayne had a gametime temperature of less than 40 degrees. Hartford started 8 April games in under 50-degree weather, and Reading had 7 starts below 50. Lake County, Lansing, South Bend, Wisconsin, Lexington, Pawtucket, Scranton, and Akron, each had 6 games in April that began in temperatures under 50.

It is impossible to exactly quantify the impact of weather on attendance, but it may be safe to assume that the number of day-of-game ticket sales to some of those very cold games was close to zero. With better weather, it can also be assumed that far fewer teams would have had attendance declines.

Among the 112 NAPBL teams with 2018 declines in total attendance, 51 were down less than 10,000, with 28 of them down under 5,000. 43 teams had a total attendance decline of not more than 5%, with 32 down less than 3%. Of the 116 teams with decreases in average per date, 32 were down less than 100 per date, and for 19 of those teams, the loss was under 50. The dip in average per date was not more than 5% for 53 teams, and under 3% for 37 teams. So just normal Spring weather would have turned some of those declines into gains.

NAPBL leagues had 560 playing dates lost to weather in 2018, compared to 562 lost dates in 2017, and 463 lost dates in 2016. 2 fewer postponements occurred in 2018 than in 2017, but there were 99 more lost dates in 2017 than in 2016. 5.20% of scheduled NAPBL dates were postponed in 2018, compared to 5.21% in 2017, and 4.28% in 2016. Among U.S./Canadian NAPBL teams, there were 523 postponements in 2018, 504 in 2017, but just 422 in 2016.

In 2018, the South Atlantic League had 95 lost dates, which was 9.69% of all dates scheduled. The Florida State League had 77 lost dates (9.17% of dates scheduled). The Midwest League lost 59 dates, the Eastern League had 54 lost dates, there were 48 lost dates in the Carolina League, and 44 in the International League. In 2017, the Florida State League had 74 lost dates, followed by the South Atlantic (60 lost dates), Eastern (59), Mexican (58), International (51), and Carolina (50) Leagues. In 2016, only the Florida State League (57 lost dates), and the South Atlantic League (50) had at least 50 lost dates.

On the other hand, the California League (at Stockton), and the Northwest League (at Tri-City, WA) each had just one rainout. It was the 2nd straight year that the Northwest League suffered just one postponement.

Among the 4 leading independent leagues (American Association, Atlantic, Can-Am, and Frontier Leagues), there were 84 lost dates in 2018, compared to 76 in 2017, and 79 in 2016.

33 NAPBL teams suffered at least 6 lost dates in 2018, and 34 teams had 6+ lost dates in 2017. Only 15 teams lost at least that many dates in 2016.

Individual NAPBL teams with the most lost dates in 2018 were Florida-Kissimmee (14 lost dates—they also had 14 in 2017), Hagerstown (14), Kannapolis (12), Daytona, Lakeland (11 each), Asheville (10), Portland, ME, Charleston, WV (9 each), Binghamton, Port Charlotte, Palm Beach, Burlington, IA, Mobile (8 each), Lynchburg, Potomac, New Hampshire, Scranton-Wilkes Barre, Beloit, Iowa, Augusta, Lakewood, Lexington (7 each), Frederick, Erie, Richmond, Buffalo, Gwinnett, Norfolk, Mexico City, Kane County, Colorado Springs, Rome, Jacksonville (6 each).

IN 2018, THE WEATHER WAS AWFUL

Among short-season NAPBL teams, Elizabethton, with 5, had the most lost dates. Johnson City, Tri-City, NY, and Great Falls each had 4. Southern Maryland with 8 lost dates, York with 7, Lancaster with 6, and Rockland County and Southern Illinois, each with 5, had the most rainouts in the 4 independent leagues mentioned above.

In 2018, there were 34 NAPBL teams, and 8 independent teams (from the 4 leagues mentioned above) without any postponements. 27 NAPBL and 8 independent teams had just one. 29 NAPBL, and 6 independent league (from the 4 leagues listed above) teams didn't have any rainouts in 2017, and 25 NAPBL and 11 independent teams had just one. In 2016, 24 NAPBL, and 9 independent teams were never rained out, and 37 NAPBL teams, plus 6 independent teams had just one postponement. 16 NAPBL teams, and one independent team for the 4 leagues noted above, were lucky enough to not have a lost date in both 2018 and 2017.

A NOTE ABOUT HOW WEATHER AFFECTS ATTENDANCE

There have been 176 teams in the NAPBL leagues that charge admission to their games in all but 2 seasons since 1999. 175 teams played in 2007, and there were 174 in 2011. The differing number of home dates played from season to season, as illustrated in the table on the next page, is almost always due to the varying number of dates rained out. There are a very few single-admission double-headers, other than games to make up for postponements, scheduled each year.

But the rise and fall of the number of lost dates in a given year, on an overall Minor League basis, and in particular, on an individual team level, does not always reflect the influence of weather on attendance.

A team may have many rainouts in a given season. But if those rainouts take place on weeknights in April, and they have good weather for almost all other games, the effect on the season's total attendance is minimal.

On the other hand, a team may have very few or even no rained out games in a season, yet attendance could still be adversely affected by weather. Cold weather early in the season certainly cuts down on crowds. This was a huge factor in the Major and Minor League attendance decreases in 2018. Brutal summer heat also reduces attendance, and this did happen to quite a few teams during the very hot summer in 2012. Rain within a few hours of gametime, or a threatening weather forecast, often results in a sharp decline in day-of-game ticket sales. So cold, heat, and pre-game showers won't often postpone games, but it will cut down on attendance.

APRIL 2019 WEATHER UPDATE

The weather was considerably warmer in April 2019 than in April 2018 for the 120 NAPBL U.S. Minor League teams that began play on April 4. There were 137 postponements in April 2019, compared to 141 in April 2018. 72 of the April 2019 postponements occurred on either Fridays, Saturdays, or Sundays, compared to 79 postponements on those days of the week in April 2018. The season had one more day of play in April 2019 than in April 2018, but had the same number of weekend days in both years.

In April 2019, 14 games (excluding second games of single-admission doubleheaders) began in temperatures in the 30's (67 games began in the 30's in April 2018). Temperatures were in the 40's at 100 of the April 2019 games (173 in 2018), in the 50's at 198 games in 2019 (247 in 2018), in the 60's at 361 games in 2019 (320 in 2018), in the 70's at 477 games in 2019 (351 in 2018), and at 80 degrees or above at 232 games in 2019 (161 in 2018). Overall, 114 games began in temperatures below 50 degrees in April 2019, compared to 240 games in April 2018. 709 April games began with temperatures of at least 70 degrees in 2019, compared to 512 games in 2018.

2018 HAD THE FEWEST NUMBER OF PLAYING DATES FOR NAPBL LEAGUES SINCE 2004

Due to a net gain of 2 independent teams that reported attendance, there was an increase of 23 in the number of combined NAPBL and independent playing dates in 2018 compared to 2017. NAPBL leagues had a total of one less date, while independent leagues had 24 more dates with reported attendance.

2018 had the fewest number of dates since 2004 for all 15 NAPBL leagues combined, including the Mexican League. The 14 leagues with teams in the United States and Canada, had their fewest number of dates since 2003. The International and Pacific Coast Leagues both scheduled one less home game per team in 2018 compared to 2017. The Mexican League added a combined 3 games, from a 111-game schedule in 2017, to 114 games in 2018.

NAPBL leagues with more dates in 2018 than in 2017 were the Mexican (38 more), New York-Penn (14), Southern (10), Eastern (6), Carolina (4), California (2), and Texas (1). The Florida State and Northwest Leagues had the same number of dates in both years.

NAPBL leagues with fewer dates in 2018 than in 2017 were the South Atlantic (32 fewer), Midwest (15), Pioneer (10), Appalachian (7), and the International and Pacific Coast Leagues (each with 6 fewer dates). For 'same market' teams, 60 had more home dates in 2018 than in 2017, 70 had fewer dates, and 45 had the same number as in 2017.

For the independent leagues, the Pacific Association added 2 teams, and had 85 more dates than in 2017, the American Association added one team playing home games, and had 19 more dates. The United Shore League had one more date. The Atlantic League had one less team playing home games, and had 50 fewer dates. Others with fewer dates were the Pecos (21), Frontier (8), and Can-Am Leagues (2). Among 'same market' individual teams, 22 had more home dates than in 2017, 25 had fewer dates, and 5 teams had the same in both years.

OF HOME DATES FOR LEAGUES THAT RECORDED ATTENDANCE

<u>YEAR</u>	<u>NAPBL LEAGUES</u>	<u>NAPBL - EXCL. MEXICAN LEA.</u>	<u>INDEPENDENT LEAGUES</u>

GOOD DAY SUNSHINE - MINOR LEAGUE WEEKDAY DAY GAMES - 2017

Mid-week day games have become very popular for many Minor League teams in recent years. They are used primarily to attract school and camp groups. Many of the games start early, so the kids can stay for the entire game.

The table on this page lists the number of Monday through Friday day games that each team listed on their original 2017 schedules. It excludes Opening Day and holidays. The '#' columns list the total number of games with a scheduled start of no later than 4:10 P.M. The 'A.M.' column is the number of games with a scheduled start earlier than 12 noon.

Games scheduled, but rained out are included here. But postponed games, rescheduled as weekday day games, or as early starting twi-night double-headers are not listed.

GOOD DAY SUNSHINE - MINOR LEAGUE WEEKDAY DAY GAMES - 2018

Mid-week day games have become very popular for many Minor League teams in recent years. They are used primarily to attract school and camp groups. Many of the games start early, so the kids can stay for the entire game.

The table on this page lists the number of Monday through Friday day games that each team listed on their original 2018 schedules. It excludes Opening Day and holidays. The '#' columns list the total number of games with a scheduled start of no later than 4:10 P.M. The 'A.M.' column is the number of games with a scheduled start earlier than 12 noon.

Games scheduled, but rained out are included here. But postponed games, rescheduled as weekday day games, or as early starting twi-night double-headers are not listed.

NAPBL AND INDEPENDENT LEAGUES PLAYOFF ATTENDANCE

All NAPBL and independent leagues had playoff games in 2018. Hurricane Florence caused the Carolina League to have just one game in their finals series. The Mexican League had one set of playoffs in June, and another set from early September to early October. This resulted in 228 post-season games played by NAPBL teams, 59 more than in 2017. The 2018 NAPBL playoff games drew 1,168,446, an average of 5,125 per date.

Playoffs are a big event for the Mexican League. The 41 Spring playoff games drew 477,463, an average of 11,645 per game. The 42 Summer playoff games drew 345,112, averaging 8,219 per game. Overall, the 83 Mexican League playoff games in 2018 drew 822,575, an average of 9,910 per game. Attendance at 66 of these games surpassed 5,000, 30 topped 10,000, and 18 games drew better than 15,000. Monterrey drew 332,817 for 18 playoff games, averaging 18,490 per game. In the 2018 regular seasons, the Mexican League averaged 4,376 per date.

In 2017, the 34 Mexican League playoff games drew 414,122, an average of 12,180 per game. Attendance at every game topped 5,000, and at 20 games, it reached 10,000. Tijuana drew 130,165, an average of 16,271, for its 8 playoff games. Monterrey averaged 20,510 for its 5 games, with a high of 23,176. In 2016, the 37 Mexican League playoff games drew 469,242, averaging 12,682 per game. All but one game drew at least 5,000, and 27 games drew over 10,000, led by 25,896 for a game at Monterrey. All 19 semi-finals and finals games topped 11,000. The 8 playoff games in Tijuana drew 132,225, an average of 16,528 per game, while the 6 games in Monterrey had an average attendance of 18,958 per game.

The 47 Mexican League playoff games in 2015 drew a total of 444,001, an average of 9,447 per game. 41 of these games attracted at least 5,000, and attendance topped 10,000 at 15 games, with a high of 17,242 at Tijuana. In 2014, the Mexican League drew 322,185 for its 36 post-season games, an average of 8,950 per game. All but 4 of these games drew over 5,000. 11 games topped 10,000 in attendance, with a high of 24,999 at Mexico City. All 4 games in the final round topped 14,000. In the 2013 playoffs, there were 7 games in Monterrey, and they drew 131,980, an average of 18,854 per game. 4 of these games drew better than 20,000.

The 145 playoff games for NAPBL U.S./Canadian teams in 2018 drew 345,871, averaging 2,385 per game, with a top league playoff crowd of 9,902 at Fresno. The AAA Championship game in Columbus drew 9,183. 14 playoff games (11 in Class AAA) topped 5,000. In 2017, 16 playoff games drew at least 5,000. 12 playoff games topped 5,000 in 2016. There were 22 games that drew at least 5,000 in 2015, and 13 playoff games reached 5,000 in 2014. Attendance was below 1,000 at 30 games in 2018, and at 23 games in 2017.

Among U.S. NAPBL leagues, highest average per game 2018 playoff attendance was 6,015 in the Pacific Coast League, and lowest average per game was 476 in the Appalachian League.

Independent league teams drew 107,495 for 56 playoff games in 2018, an average of 1,920 per game. These figures only include the Atlantic, Can-Am, and Frontier Leagues, and the American and Pacific Associations. Largest crowd was 8,143 at Somerset. The Atlantic League playoff games drew an average of 3,474, highest among the independents. Lowest independent playoff attendance in these 5 leagues was 530 per game for the Pacific Association. The United Shore League didn't list individual playoff game attendance, but all 3 of their games were sold out. Combined NAPBL and independent leagues post-season attendance was 1,275,941, an average of 4,493 per game.

Year-to-year comparisons of Minor League post-season attendance serve little purpose since the number of games played, and the cities they're played in, can vary greatly from one year to the next. For example, the very high 2018, 2017, 2016 and 2013 playoff attendance in the Mexican League was due in large part to Monterrey going all the way to the finals in both playoff seasons in 2018, and in 2013, and to the semi-finals in 2016 and 2017. Their ballpark's capacity is over 21,000.

There are several reasons why, with the exception of the Mexican League, Minor League playoff games often don't draw well. Some leagues play split-seasons, with playoff teams for each half of the season, so at least one or two playoff teams are known well ahead of time. But there is often little time for advance ticket sales to these games.

Group ticket sales, and promotions and giveaways, which are major components of Minor League attendance, are difficult to plan on short notice. Mexican League Spring playoff games are in June (mostly in August prior to 2018). But all other playoffs take place in September to early October, when school is open, and the NFL and college and high school football seasons have begun. Minor league teams often provide free playoff tickets to season ticketholders, or may have a 'Buy a ticket to the first playoff game, and get a free ticket to all other playoff games' promotion. Other teams allow fans who have leftover unused regular season tickets to trade them in for playoff tickets. So attendance listed for Minor League playoff games often includes a large number of free or exchanged tickets.

The Carolina League made its championship series one game only due to Hurricane Florence.

Sources: Minor League Baseball (Affiliated Leagues); Individual League Websites (Independent Leagues); Bob Wirz of Wirz & Associates, publisher of the Indybaseballchatter.com. Attendance for Pecos, United Shore, and Empire Pro Leagues was not available. All 3 United Shore League games were sold out, but attendance was not listed. No attendance was listed for the Can-Am League game at Sussex County on Sept. 9.

COMBINED NAPBL MINOR LEAGUES AND INDEPENDENT LEAGUES OVERVIEW**NUMBER OF TEAMS WITH ATTENDANCE GROWTH – 2018 vs. 2017**

In 2018, weather caused an increase in the number of NAPBL teams that suffered losses in attendance. 175 NAPBL teams played in the same market in 2018 as they did in 2017. This includes Augusta, GA, who opened a new ballpark.

63 of these teams had growth in total attendance in 2018, while 112 teams had declines. This does not include Dos Laredos of the Mexican League, who played in Veracruz in 2017. 60 of these teams had more dates in 2018 than in 2017, 70 had fewer dates, while 45 had the same number of dates in both seasons. 2012 figures include Carolina, who moved from the Southern to the Carolina League that year, but didn't change parks.

NAPBL TEAMS IN SAME MARKETS AS IN THE PREVIOUS YEAR -
SHOWING TOTAL ATTENDANCE GAIN/LOSS VS. PREVIOUS YEAR

Year	# of Teams	# With Gain	# With Loss	# No Change
2018	175	63	112	0
2017	170	82	88	0
2016	174	61	113	0
2015	174	81	93	0
2014	174	87	87	0

COMBINED NAPBL MINOR LEAGUES AND INDEPENDENT LEAGUES OVERVIEW**NUMBER OF TEAMS WITH ATTENDANCE GROWTH – 2018 vs. 2017**NAPBL Average per Date Increases and Declines

The number of NAPBL teams with declines in average per date also rose sharply in 2018. 59 teams posted gains for 2018 vs. 2017, while 116 teams had declines. Again, this group excludes Dos Laredos.

There were 90 teams that achieved average per date gains in 2017, while 80 teams had losses. In 2016, 57 teams had increases, while 117 teams saw declines. In 2015, 81 teams were up in average per date, while 93 were down, the same numbers as in 2014.

In 2013, 91 'same market' teams were up in average per date, while 83 had losses. In 2012, 65 teams had increases in average attendance per date, and 106 posted declines.

There were 96 teams with gains in average per date in 2011, and 77 had declines. In 2010, 64 teams had increases, and 109 teams showed declines in average attendance per home date. It rose for 63 teams in 2009, while 107 recorded a decline, and one had no change. In 2008, average attendance per home date increased for 72 teams and fell for 100 teams. In 2007, average per date was up for 110 teams, fell for 60, and one team had no change.

Independent Teams Total Attendance and Average per Date Increases and Declines

52 independent teams played in the same market in both 2018 and 2017. This includes the 4-team United Shore Baseball League counting as one unit. All teams in that league played in Utica, MI. Total attendance rose for 22 of these teams, while 30 had declines. In average per date, 19 of these teams were up, 32 were down, and one team had the same average per date as in 2017. 22 of these 52 teams played more dates in 2018 than in 2017, 25 teams had fewer dates, and 5 played the same number.

In 2017, 22 'same market' independent teams posted total attendance increases, while 26 had declines. In average per date, 22 were up, 25 were down, and one team had the same average as in 2016. 46 independent league teams played in the same market in 2016 as in 2015. Just 14 of them had a total attendance increase, and 20 teams were up in average per date.

In 2015, 23 independent league teams playing in the same market as in 2014, had increases in total attendance in 2015, while 22 were down. 15 of these independent teams posted gains in average per date. 14 independent teams had total increases in 2014, while 13 were up in average per date. In 2013, there were 15 'same market' independent teams with gains in total attendance. Average per date rose also for 15 teams.

In 2012, 20 independent teams had increase in total attendance, while 26 showed declines. 17 of those 46 teams had gains in average per date. Just 12 independent league teams had gains in total attendance in 2011, and 37 saw losses. Only 9 teams had increases in average per date. In 2010, 28 of 55 independent league teams had increases in total attendance, with 24 up in average per date. 16 of 55 teams had a total attendance gain in 2009, with 19 up in average per date.

SMALL CHANGES IN YEAR-TO-YEAR TOTAL ATTENDANCE

As the table on Page 31 shows, the number of teams achieving increases in attendance from one year to the next tends to vary, often by wide margins. But because this variation is frequently caused by some very small increases or decreases in an individual team's yearly attendance, the year-to-year change in the number of teams posting gains or losses may be less significant than it seems.

For 2018, the high number of teams with small declines in attendance is particularly notable because of bad weather. It can be safe to assume, that with just normal early-season weather, quite a few teams with declines in total attendance and/or average per date, would have seen increases.

Total attendance rose less than 5,000 for 16 full-season NAPBL teams, 18 short-season NAPBL teams, and 9 independent teams in 2018. The gain was under 1,000 for 6 of these full-season, 4 short-season, and 5 independent teams. Total 2018 attendance fell less than 5,000 for 18 full-season NAPBL teams, 10 short-season NAPBL teams, and for 9 independent league teams. In average per date, 11 full-season NAPBL teams had gains of less than 30, as did 5 short-season teams, and 2 independent league teams. Losses of less than 30 per date were posted by 9 full-season teams, 4 short-season teams, and 4 independent teams.

On a percentage basis, in 2018 total attendance, 40 NAPBL teams had a gain of 5% or less, and for 33 of these teams, the gain was 3% or less. 48 NAPBL teams posted total attendance declines of 5% or less, and for 32 of them, the loss was 3% or less. In average per date, 41 NAPBL teams were up 5% or less, with 31 of them up by no more than 3%. 54 teams had average per date declines of 5% or less, with 37 of these teams down 3% or less.

In 2017, total attendance gains were less than 5,000 for 19 full-season NAPBL teams, 10 short-season teams, and 9 independent teams. Within this group, 7 full-season, 3 short-season, and 3 independent teams had gains of under 1,000. Total attendance losses were under 5,000 for 20 full-season, 12 short-season, and 10 independent teams. One full-season, 2 short-season, and 2 independent teams were down less than 1,000. 2017 average per date was up less than 30 for 9 full-season, one short-season, and 5 independent teams. One indy team had the exact same average. 7 full-season, 3 short-season, and 3 independent teams had declines of less than 30 per date.

In 2016, total attendance rose less than 5,000 for 12 full-season NAPBL teams, 13 short-season NAPBL teams, and for 6 independent teams. Gains were under 1,000 for 5 of these full-season, 4 short-season, and 2 independent teams. Total fell less than 5,000 for 13 full-season NAPBL teams, 13 short-season NAPBL teams, and 12 independent teams. Among this group, losses were under 1,000 for 2 full-season teams, one short-season team, and one independent team. 2016 average per date rose by less than 30 for 7 full-season, 4 short-season, and 4 independent teams. Average per date fell by under 30 for 8 full-season, 3 short-season, and 3 independent league teams.

In 2015, 20 full-season NAPBL teams, 11 short-season NAPBL teams, and 13 independent league teams had total attendance increases of less than 5,000 vs. 2014. Among these teams, 3 full-season, 3 short-season, and 5 independent teams were up less than 1,000. On the down side, 21 full-season, 10 short-season, and 8 independent teams had declines of less than 5,000. In this group, 7 full-season, one short-season, and 3 independent teams were down less than 1,000. In average attendance per date in 2015, there were 14 NAPBL teams, and 3 independent teams with gains of less than 30. 8 NAPBL and 2 independent teams had declines that were below 30 per date.

In 2014, there were 41 teams (22 full-season NAPBL, 11 short-season NAPBL, 8 independent) with total attendance increases of less than 5,000. The gain was under 1,000 for 5 of these full-season teams, 3 short-season teams, and 3 independent teams. 42 teams (21 full-season NAPBL, 11 short-season NAPBL, and 10 independent teams), had declines of less than 5,000. The decline was under 1,000 for one of these full-season and 3 short-season NAPBL teams, and for 4 of these independent teams.

In 2013, 16 full-season and 14 short-season NAPBL teams, along with 3 independent teams, had total attendance increases of less than 5,000 vs. 2012. For 3 full-season and 5 short-season teams, the gains were less than 1,000. 13 full-season, 12 short-season, and 7 independent teams had declines of less than 5,000. 3 full-season teams and one short-season team saw losses of less than 1,000.

SMALL CHANGES IN YEAR-TO-YEAR TOTAL ATTENDANCE

In 2012, there were 34 teams (16 full-season and 11 short-season NAPBL teams, plus 7 independent teams) who had gains of less than 5,000 vs. 2011. 8 of these teams were up less than 1,000. 42 teams posted losses of less than 5,000 (17 full-season, 17 short-season, and 8 independent teams). 10 teams were down less than 1,000.

In 2011, 18 full-season and 14 short-season NAPBL teams, and 5 independent teams had gains of less than 5,000 vs. 2010. 13 teams were up less than 1,000. 12 full-season NAPBL, 10 short-season NAPBL, and 7 independent teams saw attendance fall less than 5,000 from 2010, with 3 of those teams down less than 1,000.

In 2010, 42 teams overall (38 NAPBL, 4 independent) had gains of under 5,000, with 16 teams (15 NAPBL) up less than 1,000 from 2009. There were 30 teams (27 NAPBL, 3 independent) whose attendance fell less than 5,000, with 5 teams (all NAPBL) down less than 1,000.

In 2009, 23 NAPBL teams and 4 independent teams had increases of less than 5,000, with 6 of the NAPBL and 2 of the independent teams up less than 1,000. There were 24 NAPBL and 5 independent teams with declines of less than 5,000. The decline was less than 1,000 for 4 of the NAPBL teams, and one independent team.

In 2008, there were 25 NAPBL teams, and 3 independent teams with gains of less than 5,000. 8 NAPBL teams and 3 independent teams had gains of less than 1,000. 24 NAPBL teams and 8 independent teams had losses of less than 5,000, with 7 NAPBL teams and one independent team down less than 1,000.

2018 BIGGEST GAINS AND WORST DECLINES IN TOTAL ATTENDANCE**10 BIGGEST GAINS IN TOTAL ATTENDANCE – 2018 vs. 2017 – NAPBL TEAMS**

<u>TEAM</u>	<u>LEAGUE</u>	<u>2018 ATTENDANCE</u>	<u>CHANGE vs. 2017</u>

Cleburne, TX	American Assn.	64,226	(39,038)
York, PA	Atlantic	180,807	(31,817)
Traverse City	Frontier	88,176	(31,368)

) Recent top losses were by Ottawa (2017), Joplin (2016), Sugarland (2015 and 2013) and Grand Prairie (2014).

LEAGUE ATTENDANCE BY MONTH

This section lists 2018 monthly attendance for each of the 15 NAPBL leagues, and for 4 independent leagues (American Association, Atlantic, Frontier, and Can-Am Leagues.) Since the number of dates played varies by month, the most important figure is the average per date. There are also monthly combined totals for the 11 full-season NAPBL leagues, the 4 NAPBL short-season leagues, and the 4 listed independent leagues. Monthly attendance from the other independent leagues is not available. The 2018 monthly average per date for each league is compared with 2017 monthly data.

The 2017 data was compiled by Major League Baseball Advanced Media. Special thanks to Jeff Lantz, Senior Director of Communications for Minor League Baseball, for his help. August and September are combined, since, except for the Atlantic far fewer regular season games are played by these leagues in September.

Note that monthly average attendance per date for a league can be affected by how many dates are played in that month by teams that draw well or poorly. For example, if teams that draw very well played a higher number of home dates in a certain month in 2018 than they did in 2017, it increases the chance that the league will show an increase in 2018 average per date vs. the same month in 2017. More dates in a month by poorly-drawing teams vs. the same month a year earlier, increases the chances that the league will show a decrease in average per date vs. a year earlier.

For the Mexican League, the 2018 regular season was divided into 2 parts - March 22 - May 25, and July 3 - September 8. Playoffs were held after each part of the season. Full-season NAPBL leagues opened on April 5. The Florida State League closed on September 2, and all others closed on September 3. Short-season league schedules were: New York-Penn and Northwest - June 15-September 3; Appalachian - June 19 - August 30; Pioneer - June 15 - September 6. Independent leagues: Atlantic - April 26 - September 16; Can-Am and American Association - May 17 - September 3; Frontier - May 10 - September 2.

AVERAGE ATTENDANCE PER HOME DATE – NAPBL AND INDEPENDENT LEAGUES

In 2018, average attendance per date fell by 135 for NAPBL leagues, was down by 142 for the independent leagues, and declined by a combined total of 139 for all Minor Leagues combined. This excludes the Empire League, who did not list attendance, which was quite low. In 2008, new records were set for NAPBL average per date, and for the combined NAPBL/independent leagues average per date. The all-time high independent leagues average was achieved in 2004. The 2018 independent leagues average per date was the lowest since 1998.

Independent leagues average per date can change from one season to the next due to the varying number of teams in very low drawing leagues.

AVERAGE ATTENDANCE PER HOME DATE – 1992-2018 (record highs in bold)

Year	NAPBL Leagues	Independent Leagues	All Minor Leagues
2018	3,960	2,330	3,635

1993	3,074	N.A.	N.A.
1992	2,815	No Independ. Leagues	2,815

Independent leagues began to operate in 1993. The Frontier League began with a season about 50-52 games per team in length with 8 original teams, only 6 of whom finished the season. Highest attendance was 21,547 for Zanesville. None of those original cities currently have a team in any league. The Northern League had 6 teams with a 72 game schedule. 4 teams drew over 100,000, led by 167,956 by St. Paul. 1993 Northern League teams Sioux City, Sioux Falls, and St. Paul currently play in the American Association.

A NOTE ABOUT THE TERM 'HOME DATE:'

The term 'average attendance per date' or 'average per opening' is used in baseball, rather than 'average attendance per game.' This is done since baseball teams still play single-admission doubleheaders, two games for one ticket, to make up rainouts. For attendance purposes, single-admission doubleheaders count as one 'date.' Day/night doubleheaders, requiring a separate ticket to each game, count as two separate 'openings' or 'dates.'

AVERAGE ATTENDANCE PER HOME DATE – NAPBL AND INDEPENDENT LEAGUES

- J Average attendance per date for NAPBL teams fell by 135 to 3,960 in 2018. The record-high is 4,174, in 2008.
- J 4 of the 15 NAPBL leagues had increases in 2018. 11 of these leagues had gains in 2017.
- J **The Northwest League averaged 3,597 per date, up 3, setting a league record-high for the 3rd straight year.**
- J The Appalachian League had the best NAPBL gain, up 139 to 1,242, its highest average per date since 1994.
- J Eastern League average per date rose 20.
- J The Pioneer League had an increase of 24.
- J Mexican League average per date declined by 530, the biggest loss among all Minor League teams in 2018.
- J The Carolina League was down 213 per date to 2,916, its lowest average since 1998, and the biggest dip among U.S. leagues.
- J The International League lost 180 per date, but still had a 2018 NAPBL-high average of 6,902. Their record high average per date is 7,348 in 2009.
- J The Pacific Coast League averaged 6,368, down 174. Their record high is 6,625 in both 2006 and 2007
- J Florida State League average per date decreased by 175 to 1,346, this league's lowest since 2008.
- J Average per date for the Southern League fell by 170. The Texas League was up down 102 to 4,949, the league's lowest average since 2002.
- J Average per date for the California League was down 51. Average per date in the New York-Penn League declined by 103 to 2,733, its lowest average since 2000.
- J Midwest League average fell by 88 to 3,711, their lowest since 2006, but still their 12th straight year above 3,700.
- J Class AAA leagues were down a combined 177. Class AA average fell by 79. Full-Season Class A decreased 122. Short-Season Class A leagues were down 69, and the Rookie leagues increased 81. The 4 short-season leagues had a combined gain of 13.
- J **In 2017 and 2018, Monterrey of the Mexican League led all of Minor League Baseball in average per date (12,783 in 2017, 10,059 in 2018). But the Sultanes had average per date declines of 1,208 in 2017, the worst of any team for that season, and a dip of 1,516 in 2018, which was 3rd worst. 2018 was still the 7th time since 2008 that the Sultanes topped 10,000 per date. Monterrey (7 times), and Tijuana in 2017, are the only teams to hit 10,000 per date since Sacramento did it for 8 years in a row from 2000 through 2007.**
- J Tijuana finished 2nd in average with a figure of 9,761 per date. Their record high is 12,764 per date in 2004.
- J **Charlotte of the International League averaged 8,980 per date. The Knights have led all U.S. teams in average per date in 2014, 2015, 2016, and 2018.**
- J **Indianapolis led U.S. teams in average in 2017, and averaged 8,845 in 2018. The Indians have reached 8,000 per date in 21 of the past 23 seasons, including the last 15 in a row. 2017 was their 7th time above 9,000.**
- J Round Rock (8,809) topped 8,000 per date for the 19th straight year.
- J Nashville averaged a team record-high 8,861 per date in 2017, and averaged 8,741 in 2018.
- J Columbus drew 8,633 per date, their 10th straight year above 8,000.
- J Yucatan was 8th in average per date (8,606) in 2018, after a team record-high of 9,228 in 2017.

AVERAGE ATTENDANCE PER HOME DATE – NAPBL AND INDEPENDENT LEAGUES

- J Lehigh Valley (Allentown, PA) averaged 8,511, which ranked #9 in 2018. The IronPigs drew an average of 9,153 in 2012, 9,249 in 2011, and 9,227 in 2010, best among U.S. teams in the Minors in each of those years. They averaged 9,016 in 2013, 8,769 in 2015, 8,729 in 2016, and 8,541 in 2017.
- J Buffalo's 2018 average per date was 8,250. The Bisons have topped 8,000 per date in all but 2 years since 1988.
- J Overall, 10 teams drew at least 8,000 per date in 2018. The number of teams averaging above 8,000 was 12 in 2017, 11 in 2016, 12 in 2015, 10 in 2014, 9 in 2013, 10 in 2012, 11 in 2011, 10 in 2010, 11 in 2009, 13 in 2008, 17 in 2007, 13 in 2006, 11 in 2005, 13 in 2004, 12 in both 2003 and 2002, 11 in 2001, 8 in 2000, and 4 teams in 1999.
- J Sacramento and Dayton both began play in 2000. 2018 was the first year that these teams averaged under 8,000.
- J 13 of the 30 Class AAA teams averaged at least 7,000 per date in 2018. 13 Class AAA teams did it in 2017.
- J Gwinnett had the lowest Class AAA average per date (3,062) in 2018. They were the only Class AAA team to average under 4,000 in 2017, and in 2016. The Stripers drew an average of 3,135 per date in 2017, 3,218 in 2016, and 3,808 in 2015. Syracuse had the lowest Class AAA average in 2015 (3,803) and 2014 (3,743). New Orleans, averaging 3,827 per date in 2018, was the only other Class AAA team below 4,000 in 2018.
- J Frisco (6,886), Richmond (6,198), and Hartford (6,014) were the Class AA teams that averaged more than 6,000 per date in 2018. 3 Class AA teams topped 6,000 per date in 2017, 2016, 2013, 2012 and 2011. The number of Class AA teams reaching an average of 6,000+ was 4 in 2015, 2014, 2010, and 2009, 5 in both 2008 and 2007, 6 in 2006, 2005, and 2003, and 7 in 2004.
- J Frisco has reached at least 6,600 in average per date in all 16 seasons of operation. Average per date in Reading had topped 6,000 in 18 of 19 seasons until 2018, when the Fightin' Phils averaged 5,713.
- J Mobile (1,121 per date), and Jackson, TN (1,654), had the lowest Class AA averages.
- J There were 10 Class AA teams that averaged at least 5,000 per date in 2018, just as in 2017.
- J 7 Class A (4 full-season, 3 short-season) teams topped 5,000 per date in 2018. 10 of these teams did it in 2017 and 2016. 12 teams topped that mark in 2015. 10 teams did it in 2013, 2012, and 2011. This level was surpassed by 11 teams in 2010 and 2009, 12 in 2008 and 2007, 10 in 2006, 11 in 2005, 10 in 2004 and 2003, 9 in 2014 and 2002, and 10 in 2001.
- J **The Dayton Dragons averaged 7,868 per date to lead Class A for the 19th straight year.** Dayton was the only full-season Class A team to reach 6,000 in 2018, 2017, and 2015. Fort Wayne and Dayton topped 6,000 per date in 2016. 2 full-season Class A teams reached 6,000 in 2014, 2013, and 2012, a mark exceeded by 3 teams in 2011, 2010, and 2009, and 4 teams in 2008, 2007, and 2006.
- J In 2018, 14 full-season Class A, and 5 short-season teams, averaged at least 4,000 per date.
- J Buies Creek, which played in a 1,500-capacity ballpark until their permanent home in Fayetteville opens in 2019, had the lowest average per date of any NAPBL team (359) in 2018. Dunedin (450), Lakeland (840), Florida (600) and Burlington, IA (859), also did not reach the 1,000 per date mark among full-season teams.
- J Vancouver averaged 6,292 to lead all short-season teams in 2018. Brooklyn, which averaged 5,329 in 2018, had led short-season teams for 15 straight seasons from 2001 through 2015. Spokane (5,222) also topped 5,000.
- J Tri-City, NY and Hudson Valley (both NY-Penn) were the other short-season teams that averaged more than 4,000 per date in 2018. 12 short-season teams topped 3,000 per date.
- J Ogden drew an average of 3,402 per date to lead the Rookie leagues in 2018.
- J 7 short-season teams (5 of whom play in the Appalachian League, plus Batavia of the New York-Penn League, and Helena of the Pioneer League), averaged fewer than 1,000 fans per date in 2018. Elizabethton (529) had the lowest average in this group.

AVERAGE ATTENDANCE PER HOME DATE – NAPBL AND INDEPENDENT LEAGUES**NAPBL Teams – Biggest Gains in Average per Date**

-) Augusta of the Class A South Atlantic League moved into a new park and had the biggest average per date increase of any team of 2018, up 1,307 to 4,050.
-) Tabasco, up 981, had the best gain in the Mexican League. Mexico City was up 540.
-) Oklahoma City posted an increase of 180, the highest of any Class AAA team.
-) New Hampshire was up 330, the best gain in Class AA. San Antonio had a 328 gain. Binghamton rose by 264.
-) Greeneville, TN of the Appalachian League was up 410, tops in short-season leagues. Pulaski had a 404 increase, and Idaho Falls was up 352.
-) In 2017, Hartford had a 5,013 gain vs. 2016, when they played all home games away from Hartford. Their 2017 average per date was 1,761 higher than in 2015, when this team played in nearby New Britain. In 2018, Hartford set a new average per date record (6,014) for their market, which includes all their seasons in New Britain.

NAPBL Teams – Biggest Losses in Average per Date

-) Class AAA New Orleans, down 1,727, had the worst average per date loss among all NAPBL teams in 2018. This team moves to Wichita, KS in 2020.
-) Mississippi had the worst Class AA decline in 2018, down 630.
-) Columbia, SC, without Tim Lincecum in 2018, had a decline of 1,018 per date, the steepest drop in Class A. Lakewood was down 551.
-) Aberdeen (New York-Penn), down 481, had the largest drop among short-season teams.
-) Numerous Mexican League teams had significant average per date declines in 2018, including Aguascalientes (down 1,662), Monterrey (1,516), Campeche (1,511), Laguna (1,179), and Tijuana (1,111).

AVERAGE ATTENDANCE PER HOME DATE – NAPBL AND INDEPENDENT LEAGUES**Independent Leagues**

- J Combined average attendance per date was down 142 to 2,330 for the independent teams that recorded attendance. This was the lowest independent leagues average per date since 1998. The average per date would be even lower if attendance figures from the Empire Pro League were available.
- J In its 3rd year, the United Shore Baseball League averaged 3,400, up 50. This was the best average per date gain among the independent leagues in 2018. All 4 teams in this league play in the same ballpark in Utica, MI. 61 of 75 dates, including 3 playoff games, were sold out.
- J The Pacific Association had the other independent average per date increase in 2018, up 20 to 259.
- J Frontier League average per date declined by 140 to 2,233, the worst independent league loss in 2018.
- J The American Association, which replaced a road team with the Chicago Dogs, was down 65 to 3,251. Among the teams that played in the league in both 2017 and 2018, the average per date fell 39.
- J Atlantic League average per date dipped by 51 to 3,894, the league's lowest average since 2005. But it was the independent league high average for 2018. Bridgeport was dropped, and the 7 returning teams had a combined decline of 190. In 2012, this league averaged a league record-high of 4,409 per date. The all-time average attendance per date high for an independent league is 4,621 by the now-inactive Northern League in 2008.
- J The Can-Am League averaged 2,019 per date, down 92. The Pecos Baseball League was down 20 to 197, mostly due to Tucson relocating to a much smaller park.
- J **In 2015, St. Paul moved into a new park, and averaged 8,091 per date, best ever for an independent league team. They broke this record in 2016, averaging 8,438! The Saints averaged an independent leagues' best 8,296 per date in 2017, and 8,178 in 2018.** Winnipeg, which averaged 4,477 in 2018, had the top independent average 12 times from 2000 through 2014.
- J Somerset (5,110) also exceeded 5,000 per date in 2018. 7 independent teams topped 5,000 in 2007. 6 teams did it in 2014, 2006, and 2005. 5 independent teams averaged 5,000+ in 2013, 2012, 2011, 2010, 2009, 2008, 2004, 2001, and 2000. 4 teams reached 5,000 per date in 2015, 2003, and 2002. There were 3 teams that averaged 5,000+ per date in 2016 and 2017.
- J All 12 Pecos League and all 6 Pacific Association teams averaged under 1,000 per date in 2018. Most of these teams play in very small facilities, and Pecos League figures exclude 'no-shows.' The Empire Pro League teams that played home games probably averaged less than 1,000 per date as well. No teams from any other independent league averaged below 1,000 in 2018 or in 2017. In 2016, Texas, Laredo, and Joplin, all from the American Association drew less than 1,000 per date. Laredo and Joplin didn't have teams in 2017 or 2018.
- J There were 16 independent teams in 2017, 17 in 2016, and 14 in 2015, that averaged under 1,000 per date. This excludes the Empire League. 12 teams did it in 2014 and in 2013, 13 were under 1,000 in 2012, and 8 drew that low in 2011. 3 teams were below 1,000 per date in 2010. In both 2009 and 2008, there were 6 independent league teams that drew under 1,000 per date. 7 independent teams averaged below 1,000 per date in 2007. But in 2006, and also in 2004, every independent team averaged at least 1,000. 3 fell below this level in 2005.
- J Lowest 2018 average per date outside the Pecos and Empire Pro Leagues, and the Pacific Association, was 1,285 by Cleburne, TX of the American Association.
- J Texas (Grand Prairie), up 519 per date, had the best 2018 increase among independent teams. Lake Erie had a gain of 300, Florence, KY posted a 267 per date increase, Trois Rivières was up 252, and Sonoma gained 181.
- J Wichita, in its final American Association season, had the largest independent decline, down 835. That city expects to get a Class AAA team in a new ballpark, in 2020. Southern Illinois had a dip of 552, Cleburne fell by 495, and Traverse City, in its final Frontier League season, was down 456. Traverse City will have a team in a collegiate summer league in 2019.

2018 BIGGEST GAINS AND WORST DECLINES IN AVERAGE ATTENDANCE PER DATE**10 BIGGEST GAINS IN AVERAGE PER DATE – 2018 vs. 2017 – NAPBL TEAMS**

<u>TEAM</u>	<u>LEAGUE</u>	<u>2018 AVERAGE/DATE</u>	<u>CHANGE vs. 2017</u>
Augusta, GA	South Atlantic	4,050	1,307
Tabasco	Mexican	2,418	981
Mexico City	Mexican	3,043	540
Greeneville, TN	Appalachian	1,549	410
Pulaski	Appalachian	2,764	404

New Hampshire	Eastern	5,065	330
San Antonio	Texas	4,885	328
Binghamton, NY	Eastern	3,553	264
Johnson City	Appalachian	2,222	246

) Nashville led in average per date gain in 2017. Monterrey had the best gain in 2016. Yucatan had the top increase in 2015. Charlotte and Birmingham, each in a new park, had the largest increases 2014 and 2013 respectively.

10 BIGGEST DECLINES IN AVERAGE PER DATE – 2018 vs. 2017 – NAPBL TEAMS

<u>TEAM</u>	<u>LEAGUE</u>	<u>2018 AVERAGE/DATE</u>	<u>CHANGE vs. 2017</u>
New Orleans	Pacific Coast	3,827	(1,727)
Aguascalientes	Mexican	1,910	(1,662)
Monterrey	Mexican	10,059	(1,516)
Campeche	Mexican	1,394	(1,511)
Union Laguna	Mexican	3,217	(1,179)
Tijuana	Mexican	9,761	(1,111)
Columbia, SC	South Atlantic	3,755	(1,018)
Durango	Mexican	3,122	(972)
Monclova (del Norte)	Mexican	6,260	(882)
Mississippi	Southern	2,259	(630)

) Worst declines were by Monterrey (2017), Oaxaca (2016), Puebla (2015), Memphis (2014), and Saltillo (2013).

5 BIGGEST GAINS IN AVERAGE PER DATE – 2018 vs. 2017 – INDEPENDENT TEAMS

<u>TEAM</u>	<u>LEAGUE</u>	<u>2018 AVERAGE/DATE</u>	<u>CHANGE vs. 2017</u>
Texas (Grand Prairie)	American Assn.	1,671	519
Lake Erie (Avon, OH)	Frontier	2,301	300
Florence, KY	Frontier	2,351	267
Trois Rivières	Can-Am	1,869	252
Sonoma	Pacific Assn.	438	181

) Evansville had the best increase in 2017. Sussex, NJ achieved the top gain of 2016, St. Paul had the best gain in both 2015 and 2014. In 2013, Fort Worth had the biggest increase.

5 BIGGEST DECLINES IN AVERAGE PER DATE – 2018 vs. 2017 – INDEPENDENT TEAMS

<u>TEAM</u>	<u>LEAGUE</u>	<u>2018 AVERAGE/DATE</u>	<u>CHANGE vs. 2017</u>
Wichita, KS	American Assn.	2,263	(835)
Southern Illinois	Frontier	2,742	(552)
Cleburne, TX	American Assn.	1,285	(495)
Traverse City	Frontier	2,261	(456)
Quebec	Can-Am	2,386	(452)

) Ottawa had the worst 2017 loss. Joplin had the biggest decline in 2016. The worst 2015 decrease was by Laredo. Fort Worth had the worst loss in 2014. El Paso, then in the American Assn., had the largest decline in 2013.

NEW MARKETS, NEW BALLPARKS, AND 'SAME BALLPARK' ATTENDANCE GROWTH

The table below borrows a concept used by retail chain stores to report sales. Retailers report year-to-year changes in total sales, covering all of their stores, regardless of how long those stores have been open. It includes stores that were open less than a full year, either in the current year, or the previous one. So a report for full year 2018 compared to the full year 2017 will list sales from all stores, including any that either opened or closed in 2018 or 2017.

But they also report what is called 'Comparable' or 'Same-Store' sales. In this example, a year-to-year sales comparison would only include stores that were in operation for the full year in both 2018 and 2017. Looking at 'Same-Store' sales provides a good barometer of real sales growth, rather than just growth due to opening many new stores.

This page looks at 'Same-Ballpark' attendance, a baseball version of 'Same-Store' sales, by comparing 2018 vs. 2017 attendance change for the NAPBL teams that played in the same ballpark in both years.

Adding teams, relocating teams, and opening new ballparks have been big factors in the growth of Minor League attendance over the past 40 years. Add to this the independent leagues that first came on the scene in 1993. These changes have been far less frequent in recent years, and are one reason why Minor League attendance has not changed much since 2005. There were 19 more teams in 1990 playing in NAPBL leagues that charge admission than there were in 1980. By 1999, 12 more NAPBL teams, plus 44 independent teams were added. But 2018 had the same number of NAPBL teams as in 1999. No Major League expansion since 1998 is the main reason for this.

Far fewer new ballparks have opened recently. In 2018, 70 U.S./Canadian NAPBL teams, including Jupiter and Palm Beach, who share a park, and 19 independent league teams, played in ballparks that opened between 1995 and 2005. Only 32 U.S./Canadian/NAPBL and 13 independent teams (counting the 4 United Shore League teams that share a park as one team) played in a park that has opened after 2005. This list does not include rebuilt and updated parks, which also help attendance growth. South Bend updated their park for 2012, and their attendance rose from 112,795 in 2011, to 354,070 in 2017. They drew 343,763 in 2018.

Only two changes took place in 2018. One was the relocation of a Mexican League team from Veracruz to Laredo, Texas, and Nuevo Laredo, Mexico. This team split its schedule between the two cities, with 30 games in the Texas city, and 27 games in Mexico. A new ballpark in Augusta, GA was the only other change. Such few moves were a factor in the lack of attendance growth in 2018.

The 2 teams listed in the table below had combined 2018 total attendance growth of 35.4%, and an average per date gain of 1,083 vs. what they drew in their former locations in 2017. Combined total attendance fell 3.6%, and average per date fell by 150 for the 174 NAPBL teams that played in the same ballpark in both 2018 and 2017.

Some independent league teams come and go each year, so this table does not include new independent teams going into existing parks, or teams that disbanded.

Since 2000, "NAPBL Same Ballpark' attendance (counting teams that played in the same ballpark in both years being compared – for example, in 2000, comparing 2000 and 1999) has been up in 2000, 2005, 2006, 2007, 2011, and 2017. It has gone down in 2001, 2002, 2003, 2004, 2008, 2009, 2010, 2012, 2013, 2014, 2015, 2016, and 2018.

League	2018 City	2018 Attendance	2017 City	2017 Attendance	Chg. vs. 2017
Mexican	Dos Laredos	191,668	Veracruz	151,671	39,997
South Atlantic	Augusta, GA	255,155	Augusta, GA	178,269	76,886
Total - Above 2 Teams		446,823		329,940	116,883
174 'Same-Ballpark' as in 2017 NAPBL Teams		40,003,514		41,502,424	(1,498,910)

ATTENDANCE GROWTH FOR TEAMS MOVING TO NEW MARKETS OR NEW BALLPARKS

This section will cover some of the current NAPBL (Major League affiliated) teams that posted some very large attendance gains following a move to a new market or a new ballpark. Attendance for the first season in the new park/market is compared with attendance in the final year in the old park/market.

The period covered in the tables that appear on the next 2 pages will begin with the Columbus Clippers' move to Cooper Stadium in 1977. The Clippers drew 457,251 that year, the highest total by a U.S. based Minor League team since Denver drew 461,419 in 1952. The Clippers moved from Memphis, where they drew 92,973 in 1976. In 1979, Columbus drew 599,544, the best total since San Francisco, then a Minor League city, drew 606,563 in 1948.

This isn't a full list of teams that moved to new markets or new parks since 1977. It only illustrates some of the teams with very big attendance gains as a result of a move. When the former market listing is 'New Ballpark,' it means that the team moved into a new ballpark in the same market. It may have moved from the city to a suburb, or vice-versa like Charlotte in 2014, or in another case, from Canton to Akron (both in the Cleveland TV market) in 1997, but the team remained in the same geographic market. The list excludes 2017 Hartford who didn't have 2016 home games.

The list has all the very large increases in attendance due to relocations or new ballparks. But it also includes some increases that were not quite as large, in order to list at least one team from each NAPBL league, and to include a few more listings from the short-season leagues.

Multiple teams from some leagues relocated in the same year, and are not listed in this table. Some examples: In 1993, the South Atlantic League added Hickory, which drew 283,727, and Hagerstown, which drew 95,702. These 2 cities replaced Gastonia, which drew 32,931 in 1992, and Myrtle Beach, which drew 61,120. The combined increase in attendance for the South Atlantic League from these 2 moves was 285,378.

In 1994, the short-season New York-Penn League added Hudson Valley (138,107), New Jersey (150,370), Williamsport (61,233), and Burlington, Vermont (107,310). These 4 teams replaced Glens Falls (78,925 in 1993), Geneva (34,634), Niagara Falls (50,190), and Erie (65,316). The net increase from these moves was 227,955.

In 2004, the Mexican League added teams in Tijuana, Aguascalientes, and San Luis Potosi, who drew a combined 753,834. They replaced teams in Cordoba, Reynosa, and Laredo, who drew a combined 273,380 in 2003. The net gain was 480,454.

The American Association shown in the 'League' column in the table is the Class AAA league that operated through 1997. Teams from that league joined either the International League or the Pacific Coast League in 1998.

In 2014, the combined total attendance increase for teams that either moved to a new market or a new ballpark was 1,092,459 (3 teams). Other years since 2000 with big combined gains by teams in this category included 2000 (2,486,321 – 5 teams), 2001 (1,382,109 – 6 teams), 2003 (1,781,807 – 8 teams), and 2005 (1,193,224 – 10 teams),

There have been 7 instances, shown in bold on the table, where the move to a new market or new ballpark resulted in an attendance increase of at least 500,000. Louisville, in 1982, was the first of these teams, and they set a new all-time high for Minor League attendance. The following year, they became the first team in Minor League history to draw over one million. In 1988, Buffalo moved from old War Memorial Stadium to a new park in downtown Buffalo. The Bisons then topped one million for 6 straight years, through 1993. No team has topped one million since. Based on ballpark capacity, that's a figure that would be impossible to reach for all but a few teams.

Salt Lake City in 1994, was the next city to have a 500,000 gain following a move. In 2000, 3 teams (Sacramento, Dayton, Round Rock) each drew over 500,000 more fans than in their former markets in 1999. Frisco, in 2003, was the last team to achieve a 500,000 gain. Frisco is a Class AA team, and Dayton is in Class A.

Since 2000, there have been 7 teams that moved to a new market or new ballpark, that had a decline in attendance. In 2002, a South Atlantic League team moved from Wilmington, NC to Albany, GA just 3 weeks prior to the start of the season due to ballpark problems. Attendance fell 62,523. In 2006, hurricane damage to the park in Cancun, Mexico forced the team to move to Cordoba, and attendance declined by 43,997. In 2010, Eugene of the Northwest League moved to a new park which they share with the University of Oregon, but their attendance dropped by 17,914. In 2012, a P.C.L. team from Portland relocated temporarily to Tucson until a new location could be found. Attendance fell by 52,196. This team ultimately moved to El Paso in 2014. In 2017, Buies Creek, Florida, and Leon, all drew less than they did their former homes in 2016.

LARGE ATTENDANCE GROWTH BY TEAMS MOVING TO NEW MARKETS AND/OR NEW PARKS – Since 1977

Year	League	New Market or New Ballpark	First Yr. New Market Attend.	Former Market	Final Year Old Market Attend.	Attendance Increase
1977	International	Columbus	457,251	Memphis	92,973	364,278

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 2008, 1998, 1988, and 1978

A later part of this report examines Minor League historic attendance growth by league. The section here looks at individual team attendance growth, comparing attendance in 2018 with 2008, 1998, 1988, and 1978. It includes 2018 teams that were playing in different leagues, or in different NAPBL classifications in 2008, 1998, 1988 or 1978. Some cities went from being NAPBL markets in 2008, 1998, 1988, and/or 1978, to hosting independent league teams in 2018. Other markets went from having a short-season team to having a full-season team, and vice-versa.

2018 vs. 2008

In 2018, there were 196 Minor League teams (163 NAPBL and 33 independent) that played in the same general geographic area as they, or some other Minor League team played in, for the 2008 season. It includes teams that stayed in the same market, but moved to a new ballpark since 2008. In 2008, the NAPBL had its best attendance ever.

49 of those 163 NAPBL teams had higher attendance in 2018 than in 2008, while 114 teams had a decline. Norwich, CT and the Portland, OR area (Hillsboro in 2018) had full-season teams in 2008, and short-season teams in 2018. Reno, Pensacola, and El Paso had shorter-season independent teams in 2008, and full-season NAPBL teams in 2018, and all had big 2018 vs. 2008 gains (El Paso up 357,140, Pensacola up 217,003, Reno up 301,931).

3 of the 33 independent league markets with a team in both years drew better in 2018 than in 2008. 4 of these markets had full-season NAPBL teams in 2008, but except for New Britain, played shorter schedules as independent teams in 2018. 2018 declines vs. 2008 for these former NAPBL markets were by Tucson (242,871), New Britain (182,609), High Desert (112,344), and Bakersfield (57,127).

The 163 NAPBL teams that played in the same market in 2018 as any Minor League team did in 2008 drew 38,873,865 in 2018, down 2,919,069 (7.0%) from a 2008 record high. The 33 independent teams that played in the same market as any 2008 Minor League team drew 4,618,038 in 2018, down 1,706,471 (27.0%) from 2008.

17 NAPBL teams moved to a new park in the same market after 2008. Only Scranton, Omaha, and short-season Eugene and Hillsboro (which was full-season Portland in 2008) drew less in 2018 than in 2008. St. Paul, up 122,125, was the only 2018 independent team who moved to a new park after 2008.

Tijuana of the Mexican League, up 325,778, had the biggest gain when comparing 2018 attendance with 2008 for teams that played roughly the same length schedule in both years. El Paso had a 357,140 gain, but that was compared to an independent American Association team in 2008. Class AAA Charlotte had the best growth among U.S./Canadian teams that were in the NAPBL in both 2018 and 2008, up 307,349. Richmond showed the highest gain among current Class AA teams (they were in Class AAA in 2018), up 107,116. Pensacola had a bigger gain vs. 2008 than Richmond did, but they played in shorter season independent league in 2008.

South Bend, up 180,284 in the same, but rebuilt, park as in 2008, had the best gain in full-season Class A. Winston-Salem (122,811), and Fort Wayne (119,729) also had very good growth, after moving to new parks after 2008.

Vancouver, up 110,013, had the best growth among short-season teams. Overall, 10 markets which had NAPBL teams in both 2018 and 2008, and 13 markets overall, saw attendance rise by at least 100,000 in this 10-year period. 7 of these 13 teams play in a park that opened after 2008. Among independent markets, St. Paul, up 122,125 in a park that opened in 2015, had the best increase. Gary-Southshore and Somerset posted the other 2 indy gains.

Class AAA Pawtucket, down 241,977 since 2008, had the worst decline of any city with a full-season NAPBL team in both years. Memphis was down 228,696. Mobile fell 151,317, the biggest loss among Class AA teams. Full-season Class A Lakewood had a 131,753 loss, the worst on that level. Aberdeen's decline of 125,929 was the biggest for a team in a short-season NAPBL league in both years. Hillsboro drew 262,226 less than the full-season team in nearby Portland drew in 2008, and Connecticut (Norwich) drew 126,194 less than their full-season 2008 team. 20 NAPBL markets with full-season teams in both years saw attendance decline at least 100,000 since 2008.

York, down 119,439, Southern Illinois, down 108,500, and Traverse City, down 105,548, had the largest declines among teams that played in independent leagues in both 2018 and in 2008.

There were 176 NAPBL teams that charged admission to their games in 2008. Attendance for those teams was a then, and still now-record-high 43,263,740. 2005 was the first time that NAPBL attendance reached 40 million. NAPBL total attendance has surpassed 40 million every year since then.

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 2008 - continued

In 2018, there were also 176 NAPBL teams that charged admission, and they drew a combined 40,450,337. Average attendance per NAPBL team was a record-high 245,817 in 2008, and 229,831 in 2018. NAPBL average per date was a record-high 4,174 in 2008, and 3,960 in 2018.

Independent league attendance was 8,312,669 in 2008, with 61 teams playing home games. In 2018, the 59 independent teams that played any home games, and also provided attendance figures, drew 5,919,353. Independent average per date was 2,877 in 2008. It was 2,330 in 2018, excluding the low-drawing Empire Pro League.

In 2008, there were 8 independent leagues in operation (Frontier, Northern, Atlantic, Can-Am, Golden Baseball, United, Continental, and the American Association). All but the Continental League averaged at least 1,269 per date. The Northern League averaged 4,621, an all-time record-high for any independent league. In 2018, there were some fairly new leagues, such as the Pecos League and the Pacific Association, that drew much smaller crowds, thus reducing the combined independent leagues average per date. The 2018 combined average per date from just the American Association, Atlantic, Can-Am, and Frontier Leagues was 2,931 per date. These 4 leagues, plus the Northern League, averaged 3,334 per date in 2008.

The following 12 teams set record-high total attendance figures in 2008 that have not been broken through 2018: Arkansas (Little Rock); Northwest Arkansas; Myrtle Beach; Daytona; Peoria; Greenville, SC; Aberdeen; State College; Laguna; Oaxaca; York; Texas (Grand Prairie).

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 1998

All current NAPBL leagues that charge admission also operated in 1998. Teams from the Class AAA American Association (no relation to the current independent league of that name) moved to the International or Pacific Coast Leagues in 1998.

7 independent leagues, with 51 teams, were in operation in 1998. Only the Atlantic and Frontier Leagues still run under the same name. 1998 independent league cities still active as independent teams in 2018 were Evansville and Windy City of the Frontier League, New Jersey of the Can-Am League, plus St. Paul, Sioux City, Sioux Falls, Fargo, and Winnipeg, all then in the Northern League, and now in the American Association. Sonoma of the Western League is now in the Pacific Association. Disbanded 1998 independent leagues were Heartland and Western. The Northeast League is now the Can-Am, and the Texas-Louisiana and Northern Leagues merged into the American Association.

A larger percentage of teams posted increases, and very large increases, when comparing 2018 attendance with 1998 attendance, than when comparing 2018 attendance with record-high 2008. This is due to much better marketing of Minor League Baseball starting in the 1990's, and the opening of so many new ballparks since 1998.

140 NAPBL teams played in the same geographic market in 2018, as any Minor League team played in during the 1998 season. 66 of those teams had higher attendance in 2018, than a team in the same market in 1998. Attendance fell for 74 teams when comparing 2018 with 1998. 6 of the 15 independent markets with a team in both 2018 and 1998 had a gain.

These 140 NAPBL teams drew 32,211,970 in 2018, up 1,357,533 (4.4%) from 30,854,437 in 1998. Excluded is the 87,181 attendance in 1998 for St. Petersburg (2018 vs. 1998 comparison was made for Tampa only).

The 15 independent teams, who also played in 1998 markets, and generally play much shorter schedules than full-season NAPBL teams, drew 1,731,915 in 2018, vs. 2,099,438 in 1998, a decline of 367,523 (17.5%).

Allentown PA, Tri-Cities NY, Tri-Cities WA, and Reno had independent league teams in 1998 and NAPBL teams in 2018. New Britain, Tucson, Ottawa, Sussex NJ, Bakersfield, High Desert, and Wichita had NAPBL teams in 1998 and independent league teams in 2018. The New Britain area also had an NAPBL team (Hartford) in 2018, and a comparison is made with 1998 New Britain for both teams.

Connecticut (Norwich) and Vancouver now play a short-season schedule, as opposed to a full-season in 1998. Connecticut drew 75,810 in 37 home dates in 2018, and 243,817 in 66 dates in 1998. In 2018, Vancouver attracted 239,086 in 38 dates, compared to 284,935 in 65 dates in 1998.

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 1998 – continued

46 of the 140 NAPBL U.S./Canadian teams in operation in both 2018 and 1998, play in a ballpark that opened after 1998. 34 of them drew better in 2018 than in 1998. Scranton, Chattanooga, Buies Creek, Memphis, Harrisburg, Lynchburg, and Omaha are the only U.S. full-season NAPBL markets with a park that opened after 1998, whose 2018 attendance was less than it was 20 seasons earlier. Independent St. Paul's park opened in 2015, and they had a gain.

Attendance was at least 100,000 higher in 2018 than in 1998 for 19 NAPBL teams, and one independent, and 8 of those teams posted increases of more than 200,000. 17 of the 20 teams with 100,000+ gains vs. 1998 play in ballparks opened since then. Only South Bend, who refurbished their park, and Saltillo and Yucatan of the Mexican League, had 100,000+ gains for 2018 vs. 1998 and play in a park that's at least 20 years old.

Class AAA Charlotte, up 319,975 since 1998, had the best increase among teams in the NAPBL in both 2018 and 1998. Yucatan rose by 308,802, Nashville had a gain of 280,067, Albuquerque had a 247,337 increase, and El Paso was up 242,911. Among current NAPBL cities that had independent teams in 1998, Lehigh Valley rose 439,007, and Reno was up 297,368.

Hartford, up 227,299, and Tennessee, up 184,383, had the top gains among teams who played in Class AA in both 2018 and 1998. The gain of 161,720 by Fort Wayne was the largest for full-season Class A, followed by Greensboro (161,691), South Bend (146,970), and Winston-Salem (133,314). Pulaski's 2018 total was 82,414 higher (better than 10-fold) than in 1998, the best short-season gain. Tri-Cities, NY (Albany-Schenectady-Troy) drew 50,181 more than the 1997 independent team in Colonie. St. Paul had the top gain among independent teams, up 136,711.

15 NAPBL and 2 independent teams drew at least 100,000 less in 2018 than in 1998. It includes Connecticut (Norwich) who had a full-season team 20 years ago, is in short-season league now. Class AAA New Orleans had the largest U.S. NAPBL dip since 1998, down 266,970, and Buffalo had a 215,475 loss. Jackson, TN, down 202,977, and Mobile, down 201,498, had the steepest declines among Class AA teams. Lansing's loss of 172,223 was the worst in full-season Class A, followed by Rancho Cucamonga, down 166,378. Salem-Keiser, down 61,886, had the biggest decline among teams that played in short-season leagues in both 2018 and 1998. Monclova's 81,455 decrease was the worst in the Mexican League. The Mexico City Diablos Rojos were down 76,353. They drew 155,185 in 2018, compared to 231,538 in 1998. Also in 1998, the now-defunct Mexico City Tigres drew 220,218.

Sonoma, down 72,097, had the worst decline among teams who were independents in both 2018 and 1998. High Desert drew 145,995 less, and Ottawa drew 131,336 less, as independents in 2018, than in the NAPBL in 1998. Sussex, NJ fell 78,618 vs. 1998. They had 48 dates in the Can-Am League in 2018, but only 38 dates as a short-season NAPBL team in 1998. Bakersfield and Tucson also drew far less as independents in 2018 than they did in the NAPBL in 1998.

These current teams set season attendance records in 1998 that have not been broken since then: Rochester; New Orleans; Trenton; Jackson, TN; Everett; Monclova.

In 1998 the 174 NAPBL teams in operation that charged admission drew 35,427,618. NAPBL average attendance per team was 203,607 in 1998, and was 229,831 in 2018. NAPBL average attendance per date was 3,431 in 1998 and 3,960 in 2018. Independent average per date was 2,054 in 1998, and 2,330 in 2018.

The 1998 NAPBL figures for total attendance and average per date have been topped in every season, except 1999, since then.

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 1988

There were no independent leagues in 1988. All current NAPBL leagues that charge admission also operated in 1988. Class AAA was divided into 3 leagues—the International and Pacific Coast Leagues, and the American Association. Teams in the American Association were moved into the International or Pacific Coast Leagues in 1998.

NAPBL Minor League Baseball attendance is up 86.8% since 1988. Total attendance rose from 21,659,873 in 1988 to 40,450,337 in 2018. Average attendance per NAPBL team was 135,374 in 1988, and 229,831 in 2018. Average per date was 2,567 in 1988, and 3,960 in 2018. There were 160 teams that charged admission in 1988, compared to 176 NAPBL teams, and 59 independent league teams that recorded attendance in 2018. 6 Empire Pro League independent teams did not provide attendance data in 2018, and the Atlantic League also had a road team.

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 1988 - continued

In 2018, 111 NAPBL teams (counting both Jupiter and Palm Beach who share a park) and 4 independent teams, played in a market that also had a team in 1988. 81 of the NAPBL teams had higher attendance in 2018 than in 1988, as did 2 of the 4 independent teams. A comparison with the 1988 New Britain Red Sox is made for both the 2018 NAPBL Hartford Yard Goats and the 2018 independent New Britain Bees.

The 111 NAPBL markets (comparing both Palm Beach and Jupiter with 1988 West Palm Beach) that had teams in both 2018 and 1988, drew 25,908,523 in 2018. This was up 9,247,728 (55.5%) from the total of 16,660,795 that those markets drew in 1988.

Many of the individual team gains were huge. 42 NAPBL teams and one independent team drew over 100,000 more in 2018 than in 1988. For 18 of the teams, the gain was at least 200,000, and 8 of these teams had increases of more than 300,000.

30 NAPBL teams, and an independent team, doubled their attendance since 1988. 14 of these markets more than tripled their 1988 totals. This includes Erie and Salt Lake City, who had short-season teams in 1988, and full-season teams in 2018.

Charlotte showed the best increase since 1988, when they played in the Class AA Southern League, – up 517,172. Other 2018 Class AAA markets with big gains vs. 1988 include: Indianapolis (up 324,902); Fresno, who played in the Class A California League in 1988 (370,669); Toledo (326,006); El Paso (332,284). Salt Lake City was up 301,311 compared to a short-season team there in 1988.

Hartford drew 330,977 higher than New Britain did in 1988, for the best Class AA gain. Reading, which still plays in the same ballpark as in 1988, rose 244,403. Tennessee was up 220,635, and Portland ME gained 266,270. Charleston, SC's gain of 249,131 topped all full-season Class A teams. Winston-Salem (212,775), South Bend (172,319), Greensboro (153,481), and Myrtle Beach (141,377) were some of the other Class A teams with huge increases. Spokane showed the highest increase among short-season teams, up 85,280, and Pulaski grew by 76,017. Monterrey's gain of 422,038, and Monclova's 198,303 increase were the best among Mexican League teams.

The 2018 independent team in New Britain drew 105,182 more than the 1988 NAPBL team that played there. Independent Wichita was up 38,102 vs. their 1988 NAPBL team. Bakersfield and Tucson drew far better as NAPBL teams in 1988 than they did in as independent league teams in 2018, when they played much shorter schedules.

Buffalo, down 619,663, had the biggest loss vs. 1988. That was the first year in their new ballpark, and the Bisons, auditioning for a Major League franchise, drew 1,147,651, a then-record-high for any Minor League team. Louisville, down 108,826, had the only other Class AAA decline vs. 1988. In 1983, Louisville became the first Minor League team to ever top one million when they drew 1,052,438. They drew 846,878 in 1984, 651,090 in 1985, 660,200 in 1986, 516,329 in 1987, 574,852 in 1988, and 466,026 in 2018.

Not one current Class AA team had lower attendance in 2018 than in 1988. Mississippi had the smallest gain, up 16,385 vs. a team that played in nearby Jackson in 1988. The largest Class A decrease was by Hagerstown, down 70,423. Buies Creek in a tiny park (vs. Fayetteville in 1988), dipped 33,475. Beloit was down 32,042.

Burlington NC, down 34,925, had the biggest decline among teams that were short-season in both 2018 and 1988. Short-season Williamsport, Vancouver, Hillsboro, (near Portland, OR), and Tri-City, NY (near Albany), drew less in 2018 than the full-season teams in those markets in 1988. Vermont outdrew its 1988 full-season team in 2018.

Clinton is the only team that set a record-high in 1988, and has not surpassed it since then.

68 of the 111 current NAPBL teams that play in a market that had a team in 1988, play in a ballpark built since then. Almost all other ballparks have undergone renovation, and in some cases, a complete rebuilding.

Major League Baseball attendance was 69,625,244 in 2018. It was 78,588,004 in 2008, 70,372,221 in 1998, 52,998,904 in 1988, and 40,636,886 in 1978. There were 30 teams in 2018, 2008, and 1998, and 26 teams in 1988 and 1978. Average attendance per date was 28,830 in 2018, 32,528 in 2008, 29,285 in 1998, 25,740 in 1988, and 20,712 in 1978. Average attendance per team was 2,320,842 in 2018, 2,619,600 in 2008, 2,345,741 in 1998, 2,038,419 in 1988, and 1,562,957 in 1978. The National League did not include 'no-shows' in their official attendance until 1993. The American League did count them prior to 1993.

INDIVIDUAL TEAM ATTENDANCE GROWTH – 2018 vs. 1978

By 1978, Minor League attendance had begun a very slow recovery from the deep declines of the 1950's. Total attendance had fallen from 39,640,443 in 1949 to 11,622,581 in 1959, a figure that wasn't topped until 1977. The number of teams fell from 448 in 1949 to 152 in 1959. Total attendance would bottom out at 9,732,582 in 1962. The lowest number of teams was 128 in 1964, and the lowest average attendance per team was 66,439 in 1961.

The 150 NAPBL teams in 1978 drew 13,049,475, the best total since 1957, and an average of 86,997 per team. This includes 181,715 by the now defunct 13-team, short-season Mexican Center League. In 2018, the 176 NAPBL teams drew a total of 40,450,337, an average of 229,831 per team. 59 independent teams that compiled attendance figures drew 5,919,353 in 2018. Total 2018 Minor League attendance for all leagues, except for the very low-drawing Empire League, was 46,369,690, which was a better than 3-fold increase over 1978.

82 NAPBL teams and 5 independent league teams played in the same markets in 2018 as a Minor League team played in during the 1978 season. Total 2018 attendance for those 82 NAPBL teams was 19,133,722, while in 1978, the 81 teams in those markets drew a combined 8,827,898. The increase was 10,305,824 (116.7%). Both Jupiter and Palm Beach are included in the 2018 total, and a comparison is made for both of these teams with the 1978 team in West Palm Beach. Both the NAPBL team in Hartford, and the independent team in New Britain, were compared with a 1978 team that played in nearby Bristol. The comparison excludes a second team in Mexico City in 1978.

The 5 independent league teams drew a combined 398,772 in 2018, down 83,342 from the 482,114 that teams in those cities drew in 1978. Except for New Britain, these teams played longer schedules in 1978 in NAPBL leagues.

Only 32 of the 121 U.S. and Canadian teams (26.4% of the teams) in 1978 drew at least 100,000, compared to 119 of 160 teams (74.4% of the teams) topping 100,000 in 2018. Nashville (380,159), Columbus (324,510), Denver (261,447), Salt Lake City (207,440), Rochester (219,814), El Paso (251,086), Tacoma (211,030), Richmond (202,106), Albuquerque (231,524), and 9 Mexican League teams, led by Aguascalientes (351,326), and the Mexico City Diablos Rojos (312,709), topped 200,000 in 1978. 86 NAPBL teams and 8 independent teams reached 200,000 in 2018. 2 of the 26 Class AAA teams in 1998 (Portland, OR and San Jose) failed to reach 100,000. El Paso, Arkansas, Memphis, Nashville, Quad Cities, Salinas, St. Petersburg, and West Palm Beach, were the only U.S./Canadian teams below Class AAA to top 100,000. 89 teams below Class AAA surpassed 100,000 in 2018. 28 full-season teams, and all short-season teams except Walla Walla, Eugene, and Billings, drew under 50,000 in 1978.

Just 20 NAPBL teams (including 7 in the Mexican League) drew less in 2018 than in 1978. This includes Jupiter, down 35,141, and Palm Beach, down 40,228, vs. the 104,236 that the team in West Palm Beach drew in 1978. Jupiter/Palm Beach combined 2018 attendance was 133,103, up 28,867 from the 1978 West Palm Beach total. Florida (vs. 1978 Orlando), Tampa, Lakeland, Burlington, IA, and Charleston, WV, were the only other full-season U.S. teams to have a decline vs. 1978. Aguascalientes had the worst decline (252,031). Tabasco was down 166,535. The Mexico City Diablos Rojos fell 157,524. The other 1978 Mexico City team, los Tigres, drew 232,059 in 1978.

Short-season Auburn, Bristol, Bluefield, Elizabethton, Great Falls, and Batavia had declines vs. 1978. Losses by 2018 independent teams were by Tucson, Evansville, and Wichita (all in Class AAA in 1978), and Bakersfield.

Far more common were huge increases in attendance compared to 1978. 39 teams drew at least 100,000 more than a team in the same market did in 1978. This includes all 2018 Class AAA markets that also fielded teams in 1978. Attendance rose by at least 200,000 in 26 markets, and 11 markets achieved a gain of over 300,000.

Class AAA Charlotte had the top increase of any team, up an incredible 555,476. Indianapolis was up 454,108, Toledo rose by 344,314, Iowa was up 341,889. Albuquerque, Reno, and Fresno also had growth of better than 300,000 among 2018 Class AAA markets. In the Mexican League, Monterrey had the top gain—349,746.

Hartford, up 344,021 vs. 1978 Bristol, had the best Class AA gain. Reading, still in the same park as in 1978, rose 321,541. Tulsa was up 304,298. San Antonio had a 252,856 increase.

The gain of 285,504 by Charleston SC was tops among 2018 Class A teams. Winston-Salem was up 244,157. Stockton and Potomac were the other Class A markets that gained over 150,000.

2018 short-season Vancouver outdrew their 1978 Class AAA full-season P.C.L. team by 115,620. Spokane drew 96,672 more than their 1978 P.C.L. team. Boise posted an 103,066 increase, Eugene gained 75,462, and Salem-Keizer rose by 63,954. New Britain had the only gain (118,226 vs. Bristol) among 2018 independent league markets.

MINOR LEAGUE BASEBALL IN MAJOR LEAGUE MARKETS – Includes Independent League Teams

A big factor in the growth of Minor League baseball since 1990 has been its return to areas which have Major League franchises. Now, some of the most successful Minor League teams, in terms of attendance, play in the same television markets as Major League clubs. Nearly all have new, or thoroughly rebuilt, ballparks.

Until the early 1950's, numerous Minor League teams played near Major League cities. But Major League relocations and expansion, more car ownership, new high-speed roads, and most of all, television, made it easier for fans to attend and watch Big League games. The Minor League teams in those areas, and in many others, couldn't stay in business. By 1976, the only teams close to Major League cities were Pawtucket, 40 miles from Boston, Reading, 60 miles from Philadelphia, Toledo, 60 miles from Detroit, and San Jose, around 40 miles from San Francisco and Oakland. In the New York area, an Eastern League team played in Jersey City in 1977 and 1978. That team drew just 60,024 in 1977, and 28,969 in 1978.

But starting in the 1990's, more Minor League teams began operating near Major League clubs. In 2018, 66 Minor League teams played in the same television market as a Major League franchise. 3 more teams (Pawtucket, Toledo, and Dayton) are located in non-Major League TV markets, but their ballparks are within about 60 miles of a Major League city. So in 2018, 20 of the 26 Major League TV markets had a Minor League team located either in their TV market, or in a city that is no more than 60 miles away, but is officially in a different TV market.

In 1976, Pawtucket, Reading, Toledo, and San Jose drew a combined attendance of 381,747. This was 3.4% of total 1976 Minor League attendance. In 2018, the same 4 teams, all except Toledo playing in the same ballparks as in 1976, drew a combined 1,438,954. Also in 2018, the 66 Minor League teams in Major League markets, plus Toledo, Pawtucket, and Dayton, drew a combined 12,335,350. That was 26.6% of the year's total Minor League attendance. It was also 8.9% higher than the total attendance (11,324,947) for all 141 Minor League teams in 1976.

New York, Boston and Philadelphia are Major League markets that have had much recent success with Minor League baseball. In 1992, there was only one Minor League team in the Boston area (Pawtucket – which is in the Providence-New Bedford TV market), one in the Philadelphia market (Reading), and none in New York. In 2018, the New York TV market had 9 teams, including 2 within New York City. The Philadelphia market had 4 teams, while the Boston/Providence area had 3. As the following 3 tables show, many of these teams have done remarkably well.

New York Area Teams	2018 Attendance	Notes
Lakewood, NJ	293,413	Led South Atlantic League 14 times from 2001-2016.
Brooklyn, NY	202,495	Best short-season attendance–2001-2015. Good gain in 2018.
Staten Island, NY	72,814	Record high in 2010. 65.1% total attend. decline since then.
Hudson Valley (Fishkill), NY	148,156	Averaging 95.7% of their ballpark's capacity since 1994.
Long Island (Central Islip), NY	349,058	Top total yearly independent attendance: 2000-2011.
Somerset (Bridgewater), NJ	352,603	Averaged over 5,100 per date every year in their history.
Bridgeport, CT	-----	2017 was their final year.
Rockland County, NY	129,599	Yearly Can-Am League attendance leader 2012-2018.
New Jersey Jackals (Montclair)	83,610	Total attendance up 23.6% in 2017, but was down in 2018.
Sussex County, NJ	74,827	Best gain among independent teams in 2016.
New York Market Total	1,706,655	9 returning teams had a combined 2.3% loss in 2018.

Philadelphia Area Teams	2018 Attendance	Notes
Reading, PA	388,510	Eastern League attendance leader in 11 of last 17 years.
Wilmington, DE	249,746	Led Carolina League in attend. 11 straight years-1998-2008.
Lehigh Valley (Allentown, PA)	561,745	Minors U.S. best attend. in 2011-12. 562 sellouts-2008-2018.
Trenton, NJ	351,297	Topped 347,000 in each of the last 24 seasons.
Philadelphia Market Total	1,551,298	Up a combined 0.3% in 2018.

MINOR LEAGUE BASEBALL IN MAJOR LEAGUE MARKETS – Includes Independent League Teams

Boston Area Teams	2018 Attendance	Notes
Pawtucket (Providence TV market)	394,811	16 str. 500,000+ until 2014. Moves to Worcester in 2021.
New Hampshire (Manchester)	319,089	3 rd best total gain, 8 th best avg./dt. gain of all teams in 2018
Lowell, MA	118,319	413 game sellout streak ended in 2010. 21 yr. low in 2018.
Boston Area Total	832,229	Up 1.4% in 2018.

There have been many success stories in the other 17 Major League markets with Minor League teams.

<u>Los Angeles</u>	6 Minor League teams... Rancho Cucamonga had led the California League for 17 straight years, before a huge decline in 2010. Lake Elsinore led that league each year - 2010-2016, and 2018.
<u>Chicago</u>	6 teams... Kane County topped 400,000 in 22 of the last 25 years, and has been above 500,000 in 6 seasons... Gary set a team record every year from 2003 to 2007, and in 2010 and 2017.
<u>San Francisco</u>	7 teams... San Jose: Last 17 years – the 17 best totals in the team's long history.
<u>Dallas</u>	3 teams... Frisco has led all Class AA teams in attendance for 14 straight years.
<u>Washington</u>	5 teams... Frederick led the Carolina League each year from 2012 through 2016, just missed in 2017-18. Their 2015 attendance was best since 1994. Southern Maryland had a record-high in 2013. Potomac had its 2 nd best total and 3 rd best average in 2018, and their new park is coming.
<u>Seattle</u>	2 teams... Tacoma set record in rebuilt ballpark in 2011, just missed new highs 2016-2018.
<u>Tampa</u>	5 teams... In 2017, Clearwater had the top attendance of any Florida State League team since 1990, and set a team record-high for the 10 th time in the last 14 years.
<u>Minneapolis</u>	1 team... St. Paul 2015-2018: 4 highest-ever independent team average per date seasons, including a record-high 8,438 in 2016.
<u>Cleveland</u>	3 teams... Akron has led the Eastern League 6 times since 1997, and is one of only 6 Class AA teams to ever top 500,000. 2014 attendance was up 55,245, the best gain in Class AA.
<u>St. Louis</u>	2 teams... Gateway set the Frontier League record in 2004 (broken by Southern Illinois in 2007).
<u>Pittsburgh</u>	1 team... Washington, PA has sold out many games in its history, but is down in recent years.
<u>Baltimore</u>	1 team... Aberdeen set avg./date high in 2011, but is down 123,067 (50.2%) since 2012.
<u>Atlanta</u>	2 teams... Gwinnett drew a Class AAA low 195,955 in 2018. Rome had its lowest total in 2018.
<u>Kansas City</u>	1 team... Kansas City (KS) finished under 200,000 for the first time in 16 years in 2018.
<u>Detroit</u>	5 teams... Toledo (a separate TV market) is about 60 miles from Detroit. Mud Hens have topped 500,000 for 17 straight years. 4-team United Shore League averaged 3,400 per date.
<u>Houston</u>	1 team... Sugar Land drew 465,511 in 2012, the highest attend. by a modern independent team. Led indys in total attend. also in 2013 and 2014. Down since, but still tops 300,000 yearly.
<u>Cincinnati</u>	2 teams... Dayton (a separate TV market) has topped 548,000 in all 19 years of operation, has a North American pro sports record of 1,316 regular-season consecutive sellouts, drew a team and Class A record-high in 2010, and in attendance, is the most successful Class A team ever.

The New York, Los Angeles, Chicago, and San Francisco/Oakland TV markets all have 2 MLB teams. San Diego, Miami, Milwaukee, Phoenix, Denver, and Toronto markets that did not have summer Minor League teams in 2018. Phoenix has all 6 teams of the Arizona Fall League.

MINOR LEAGUE BASEBALL IN MARKETS WITH AN NFL, NBA, OR NHL TEAM, BUT NO MLB TEAM

There are 20 TV markets that have both Major League and Minor League Baseball. There are also 20 Minor League Baseball markets that don't have a Major League Baseball team, but do have a National Football League, National Basketball Association, or National Hockey League team. Despite the NFL, NBA, or NHL competition for sports dollars in these markets, many of their Minor League Baseball teams draw quite well. The 23 Minor League Baseball teams in these markets, which includes independent teams, drew a combined 7,850,277 in 2018.

<u>TV Market</u>	<u>NFL, NBA, or NHL Teams</u>	<u>Minor League Baseball in That Market</u>
<u>Buffalo</u>	NFL-Bills, NHL-Sabres	Topped 500,000 each year since 1988. Reached one million 6 times. Holds the record for highest Minor League season attendance.
<u>Charlotte</u>	NFL-Panthers, NBA-Hornets	I.L. Knights led Minors in total attendance in 2014 and 2018, and in average per date 2014-2016. Best U.S. average/date in 2018. Class A Kannapolis gets a new park in 2020.
<u>Raleigh-Durham</u>	NHL-Carolina Hurricanes	AAA Durham drew 536,304 in 2018, and topped 500,000 12 times since 2001. Class A Carolina under 200,000 only in 2016-2018.
<u>Columbus</u>	NHL-Blue Jackets	Drawn 500,000+ in 32 seasons, which is more often than any other team. Has surpassed 600,000 in 8 of the last 10 years.
<u>Indianapolis</u>	NHL-Colts, NBA-Pacers	Record-high 662,536 in 2015. Topped 535,000 for 23 straight years.
<u>Memphis</u>	NBA- Grizzlies	Attendance declined from 887,976 in 2001, but gains in 2016, 2017.
<u>Nashville</u>	NFL-Titans, NHL-Predators	Record-high total in 2018. In 1979, Nashville was first AA team to top 500,000. New park in 2015 led to U.S.-best gain of 241,587 that year.
<u>New Orleans</u>	NFL-Saints, NBA-Pelicans	Until 2018, had surpassed pre-Katrina 2004 total each year.
<u>Okla. City</u>	NBA-Thunder	Drawn better than 400,000 in 16 of the last 21 years.
<u>Sacramento</u>	NBA-Kings	Top Minors total attendance 10 times from 2000-2015. Have drawn at least 600,000 in 16 of 19 seasons. Had their lowest total in 2018.
<u>Salt Lake C.</u>	NBA-Jazz	Have topped 430,000 in all 25 years of Class AAA operation.
<u>Jacksonville</u>	NFL-Jaguars	Top 260,000 in each of the last 16 years. 3 rd best Minors gain in 2017.
<u>Green Bay</u>	NFL-Packers	Wisconsin (Appleton) has topped 225,000 for 10 straight years.
<u>Las Vegas</u>	NHL-Knights	NHL in 2017, NFL in 2020. New baseball park in 2019.
<u>San Antonio</u>	NBA-Spurs	2018 had the best total since 1998. Joins the AAA P.C.L. in 2019.
<u>Orlando</u>	NBA-Magic	Daytona tops 100,000 for 15 straight years. Clearwater is the only other Florida State League team to do this.
<u>Portland, OR</u>	NBA-Tail Blazers	Short-season Hillsboro drew a record-high in 2015. Portland had been in the Pacific Coast League for nearly all of the 20 th Century.
<u>Vancouver</u>	NHL-Canucks	Led all short-season teams in total and average per date 2016-2018. Set short-season record-high totals for this market in 2016, 2017.
<u>Winnipeg</u>	NHL-Jets	Best independent average per date 12 times in 15 years through 2014. Had topped 250,000 for 16 straight seasons until 2016.
<u>Ottawa</u>	NHL-Senators	Back in the Can-Am Lg. in 2015. Drew 93,395 in 2018. International Leag. team's attendance fell from 663,926 in 1993 to 126,894 in 2007.

STAYING CLOSE TO YOUR PARENT (TEAM)

It is difficult to quantify the effect on attendance when a Minor League affiliate is located in the 'area of dominant fan interest' of their Major League parent team. But at times, it provides a boost in attendance to the Minor League team. The Pawtucket Red Sox, who will move to Worcester, MA in 2021, and the Reading Fightin' Phils are examples.

The table below is a 2018 listing of Minor League teams who charge admission, that were located in areas where their parent team is one of the dominant teams of fan interest. In some cases, such as with the Mississippi Braves, the Major League parent team might be located a considerable distance from the Minor League affiliate. But the Major League team may have a significant following in the area, and its games are likely to be broadcast on local radio and TV there. The same is true with Vancouver, which is a Toronto Blue Jays affiliate.

No changes to this list were made from 2017 to 2018. But there will be some changes in 2019. The Mets' Class AAA team will be Syracuse instead of Las Vegas. Oakland becomes the parent team of Las Vegas. Round Rock will be the Class AAA team of the Astros instead of the Rangers. Class A West Virginia's parent changes from the Pirates to the Mariners.

Major League Team	Minor League Affiliates of That Team Who Play in its Area of Dominant Fan Interest
Baltimore	Norfolk (AAA), Bowie (AA), Frederick (A), Delmarva (A), Aberdeen (Short A)
Boston	Pawtucket (AAA), Portland, ME (AA), Lowell (Short A)
Chicago White Sox	None
Cleveland	Columbus, OH (AAA), Akron (AA), Lake County (A), Mahoning Valley (Short A)
Detroit	Toledo (AAA), West Michigan (A)
Houston	Corpus Christi (AA), Round Rock (AAA) in 2019
Kansas City	Omaha (AAA), Northwest Arkansas (AA)
Los Angeles Angels	Inland Empire of San Bernadino (A)
Minnesota	Cedar Rapids (A)
New York Yankees	Scranton-Wilkes Barre? (AAA), Trenton (AA), Staten Island (Short A)
Oakland	Stockton (A), Las Vegas (AAA) in 2019
Seattle	Tacoma (AAA), Everett (Short A)
Tampa Bay	Port Charlotte (A)
Texas	Round Rock (AAA), Frisco (AA). In 2019, AAA affiliation will be Nashville.
Toronto	Buffalo (AAA), Vancouver (Short A)
Arizona	None
Atlanta	Gwinnett (AAA), Mississippi (AA), Rome (A)
Chicago Cubs	Des Moines? (AAA), South Bend (A)
Cincinnati	Louisville (AAA), Dayton (A)
Colorado	Albuquerque (AAA), Grand Junction (Rookie)
Los Angeles Dodgers	Rancho Cucamonga (A)
Miami	Jacksonville (AA), Jupiter (A)
Milwaukee	Wisconsin (Appleton) (A)
New York Mets	Binghamton (AA), Brooklyn (Short A), Syracuse (AAA) in 2019
Philadelphia	Lehigh Valley (Allentown) (AAA), Reading (AA), Lakewood (A), Williamsport (Short A)
Pittsburgh	Altoona (AA), W. Va. Power (Charleston) (A), W. Va. Black Bears (Morgantown) (Short A)
St. Louis	Memphis (AAA), Springfield, MO (AA)
San Diego	Lake Elsinore (A)
San Francisco	Sacramento (AAA), San Jose (A)
Washington	Potomac (A), Hagerstown (A)

\$ - Does not include season attendance of 8,817 by one Gulf Coast League team that charged admission.

@ - Includes estimated attendance for Inter-American League which folded during the season.

* - Figure listed in the 1981 Sporting News Baseball Guide. Mexican League season ended early due to a strike.

AVERAGE ATTENDANCE PER TEAM – BY CLASSIFICATION

The table on the previous page notes the annual average attendance per team since 1946 for all NAPBL leagues combined. The presence of so many teams in small markets is why the overall average per team was not higher in the late 1940's. Many of these small-market leagues and teams disbanded in the early 1950's as television and other factors severely cut Minor League attendance. The average per team was less than 80,000 from 1950 through 1971, and again in 1973 and 1974. In 1979, the average per team reached 100,000 for the first time since 1946. It initially surpassed 150,000 in 1990, and 200,000 in 1997. Average attendance per team has topped 200,000 each year since 2000, with a high of 245,817 in 2008. The 2018 average per team of 229,831 was lowest since 2004.

The individual NAPBL league summaries, which appear later in this report, note each league's average attendance per team history. This is also noted for the 4 well-established independent leagues.

Listed below, is a brief summary of average attendance per team by classification. The Class AAA data goes back to 1921. Class AA, full-season Class A, and the combination of short-season Class A, and Rookie League data goes back to 1963, when the classification system in current use was established.

CLASS AAA

2018 Class AAA average per team was 446,064, the 15th best ever. Class AAA average attendance per team first reached 200,000 in 1924. It hit a pre-1945 high of 214,231 in 1928. The Great Depression caused a big decline in Minor League attendance. The Class AAA average fell to a low of 115,640 in 1934.

A big boom in attendance actually began in the latter years of World War II. Class AAA average per team was 139,478 in 1943, 198,208 in 1944, 239,798 in 1945, 338,465 in 1946, and 354,110 in 1947. But then, a big decline began. The Class AAA average was 266,696 in 1950, 193,963 in 1954, and stayed under 200,000 per team from 1958 through 1980. The low was 135,181 in 1969. The average per team was under 150,000 as late as 1976.

The average rose above 200,000 each year from 1981 through 1987. In 1988, it topped 300,000 for the first time since 1949. It first reached 400,000 per team in 1993, and has been above that level each year since then except for 1996 and 1997. The average topped 450,000 per team from 2005 through 2017, with a high of 477,226 in 2008.

CLASS AA

Average attendance per team in the Class AA leagues stayed below 100,000 each year from 1963 through 1978, with a low of 60,521 in 1975. It was between 100,000 and 200,000 per team from 1979 through 1990, and has topped 200,000 in all seasons since then.

The Class AA average per team first reached 300,000 in 2004, and has now hit this level 6 times, with a high of 312,035 in 2008. The average has been above 280,000 in each of the last 16 seasons. The 2018 average per team was 290,227, which was the lowest since 2002.

FULL-SEASON CLASS A

Full-season Class A drew an average of less than 50,000 per team from 1963 through 1975, with a low of 40,785 in 1967. 1990 was the first time that this average topped 100,000, and it has been above 150,000 per team every year since 1995. It reached a record-high 199,846 in 2014, and was 185,244 in 2018, lowest since 2004.

SHORT-SEASON CLASS A AND ROOKIE LEAGUES

Average attendance per team for the short-season Class A leagues and the Rookie Leagues combined was under 40,000 from 1963 through 1984. The low was 21,310 in 1968. From 1966 through 1979, there were 11 seasons where this average per team was below 30,000. The average first topped 50,000 per team in 1989, and has been above it ever since. It reached 74,000 in 1995, and has topped 80,000 in each of the last 17 seasons. The high was 96,758 in 2007. It was 86,879 in 2018.

FULL-SEASON AND SHORT-SEASON NAPBL ANNUAL TOTAL ATTENDANCE LEADERS – 1940-2018

Short-season leaders listed from 1947 through 1962 are for Class D teams which played slightly shorter schedules than other classifications. The Minor Leagues were reorganized into their present configuration in 1963. Record-highs shown in bold.

Year	U.S. NAPBL Full-Season Team Attendance Leader	Attendance	U.S. NAPBL Short-Season Team Attendance Leader	Attendance

* The Mexican League plays fewer games than the full-season NABPL leagues, but a more games than the short-season leagues. Mexican League teams with the highest yearly NAPBL average per date attendance since 1992: 2003 – Saltillo (11,387); 2004 – Tijuana (12,764); 2005 – Saltillo (10,754); 2006 – Monterrey (17,990); 2008 – Monterrey (12,424); 2012 – Monterrey (11,321); 2013 – Monterrey (11,145); 2014- Monterrey (11,856); 2016 – Monterrey (12,783); 2017 – Monterrey (11,575); 2018 – Monterrey (10,059).

THE 'HALF-MILLION' CLUB

Attendance of at least 500,000 in a season has become quite common in the Minor Leagues. It's happened 294 times since 2000. 15 teams did it in 2018. But it is still a very significant achievement. 38 current markets, and 7 former teams, have done it at least once. No independent league team has ever drawn 500,000. The first time Minor League teams reached 500,000 was in 1946 when the Baltimore Orioles of the International League, and the San Francisco Seals, Hollywood Stars, Oakland Oaks, and Los Angeles Angels of the Pacific Coast League did it. P.C.L. teams played as many as 186 games that year.

There were 11 occurrences of 500,000+ in attendance, all by P.C.L. teams, from 1947 through 1949. The Mexico City Red Devils were next to do it, topping 500,000 in 1967. But it didn't happen again for a U.S. team until 1979, when both Columbus and Nashville reached it. At least one team has done it each year after that, and at least 10 teams have drawn over 500,000 in each season starting in 2000.

For many Minor League teams, drawing 500,000 is impossible due to the capacity of their ballparks. This especially applies to some of the full-season Class A teams. Short-season teams, and nearly all independent teams, don't play enough dates to reach this attendance level regardless of the size of their ballparks.

Columbus has drawn 500,000 in 32 seasons, which is the most by any team. Louisville has done it 31 times. Buffalo's current streak of 31 years in a row above the half-million mark is the longest. Overall, there have been 406 'Half-Million' seasons achieved by Minor League teams through 2018. Nashville, in 1979, was the first Class AA team to reach 500,000, and West Michigan, in 1995, was the first Class A team to do it.

The first table below, and continuing on the next page, is a year by year listing of the teams that topped 500,000 from 1946 through 2018. In 1983, Louisville became the first team to top one million. Buffalo drew better than one million each year from 1988 through 1993. No other Minor League team has drawn one million.

TEAMS DRAWING AT LEAST 500,000 IN A SEASON – 1946-1996

Year	# of Teams	Teams that Drew at Least 500,000
1946	5	Baltimore, San Francisco, Hollywood, Oakland, Los Angeles
1947	5	Los Angeles, San Francisco, Oakland, Seattle, Hollywood
1948	3	Oakland, San Francisco, Los Angeles
1949	3	Hollywood, Oakland, Seattle
1967	1	Mexico City Red Devils

2018	15	Buffalo, Charlotte, Columbus, Durham, Indianapolis, Lehigh Valley, Albuquerque, Toledo, El Paso, Round Rock, Sacramento, Dayton, Monterrey, Nashville, Tijuana

THE 'HALF-MILLION' CLUB - continued

The next 2 tables show which markets have drawn at least 500,000 in a season, and how often they've done it. The first table covers 38 markets that currently have a Minor League team that has drawn 500,000. The second table lists the 7 former Minor League markets that have reached this level.

CURRENT MINOR LEAGUE MARKETS THAT HAVE DRAWN 500,000 IN A SEASON THROUGH 2018

Market	# Seasons with 500,000 Attend.		Market	# Seasons with 500,000 Attend.
Columbus, Ohio	32		Norfolk	7
Louisville	31		Kane County, IL	6
Buffalo	31		Richmond	6
Indianapolis	23		Fresno	5
Dayton	19		Scranton-Wilkes Barre	5
Sacramento	19		Yucatan, Mexico	5
Round Rock	19		Charlotte	5
Toledo	17		El Paso	5
Pawtucket	16		West Michigan	4
Albuquerque	16		Tijuana, Mexico	4
Salt Lake City	12		Oklahoma City	3
Iowa (Des Moines)	12		New Orleans	2
Durham	12		Corpus Christi	2
Monterrey, Mexico	12		Ottawa	2
Lehigh Valley (Allentown)	11		Akron	2
Frisco	9		Rochester, NY	2
Memphis	9		Lansing	2
Nashville	9		Springfield, MO	1
Saltillo, Mexico	8		Mexico City Red Devils	1

FORMER MINOR LEAGUE MARKETS THAT HAVE DRAWN 500,000 IN A SEASON

Team	# Seasons with 500,000 Attend.		Team	# Seasons with 500,000 Attend.
Denver Bears	4		Hollywood Stars	3
Oakland Oaks	4		Seattle Rainiers	2
Los Angeles Angels	3		Baltimore Orioles	1
San Francisco Seals	3			

The Baltimore Orioles played in the International League. The other 6 teams in the above table played in the Pacific Coast League. During the late 1940's, when all of these 500,000+ seasons took place, these leagues played a longer schedule than they do now, usually over 180 games for the P.C.L., and 154 games in the International League.

MOST CONSECUTIVE SEASONS WITH ATTENDANCE ABOVE 500,000

Team	# Seasons	Years	Team	# Seasons	Years
Buffalo	31	1988-2018	Albuquerque	16	2003-2018
Indianapolis	23	1996-2018	Columbus	14	1984-1997
Sacramento	19	2000-2018	Louisville	14	1982-1995
Dayton	19	2000-2018	Columbus	14	2005-2018
Round Rock	19	2000-2018	Lehigh Valley	11	2008-2018
Louisville	17	2000-2016	Frisco	9	2003-2011
Toledo	17	2002-2018	Memphis	9	2000-2008
Pawtucket	16	1999-2014	Saltillo	8	2000-2007

INDEPENDENT LEAGUE TEAMS HIGH ATTENDANCE SEASONS

The following table is a yearly listing of independent league teams that have drawn at least 200,000 in a season, or for Atlantic league teams, have drawn 300,000. The distinction is made because the Atlantic League plays a longer season (around 70 home dates) than any other independent league. Atlantic League teams in this table are displayed in *italics*. Teams from other independent leagues shown in this table play around 50 home dates per year.

INDEPENDENT TEAMS DRAWING 200,000+ IN A SEASON, ATLANTIC LEAGUE-300,000+ – 1994-2018

Year	# Teams	Independent Teams that Drew 200,000+ (<i>300,000 - Atlantic League in italics</i>)
1994	2	St. Paul, Winnipeg

2018	4	St. Paul, <i>Long Island, Somerset, Sugar Land</i>

SHORT-SEASON NAPBL TEAMS THAT HAVE DRAWN AT LEAST 150,000

Short-season NAPBL teams are scheduled for 32-38 dates per year. Most play in fairly small ballparks, so attendance of 150,000 in a season is significant. There are some teams whose ballpark capacity is so small that they couldn't draw 75,000 even if they sold every ticket to every game.

In 1957, the Appalachian League was the first league to play a short-season schedule, running from mid-June to the end of August or early September. By the late-1960's, the New York-Penn, Northwest, and Pioneer Leagues also adopted a short-season schedule. Currently, 40 teams play in these 4 leagues. In 1974, Portland OR became the first short-season team to draw at least 100,000. They did it again in 1975 and 1977. But no other short-season team topped 100,000 until 1985. In 1987, Salt Lake City became the first short-season team to top 150,000.

SHORT-SEASON TEAMS DRAWING AT LEAST 150,000 IN A SEASON – 1987-2018

Year	# of Teams	Short-Season Teams that Drew at Least 150,000
1987	1	Salt Lake
1988	1	Salt Lake
1989	1	Salt Lake
1990	1	Salt Lake
1991	1	Salt Lake
1992	1	Salt Lake
1993	1	Boise
1994	3	Boise, Spokane, New Jersey (Sussex County)
1995	6	Hudson Valley, New Jersey, Erie, Spokane, Boise, Portland OR
1996	6	Hudson Valley, New Jersey, Erie, Spokane, Boise, Portland OR
1997	6	Hudson Valley, New Jersey, Erie, Spokane, Boise, Portland OR
1998	7	Hudson Valley, New Jersey, Erie, Spokane, Boise, Portland OR, Lowell
1999	5	Hudson Valley, Mahoning Valley, Lowell, Spokane, Portland OR
2000	5	Hudson Valley, Lowell, Mahoning Valley, Spokane, Portland OR
2001	6	Brooklyn, Staten Island, Hudson Valley, Mahoning Valley, Lowell, Spokane
2002	7	Brooklyn, Staten Island, Aberdeen, Hudson Valley, Mahoning Valley, Lowell, Spokane
2003	5	Brooklyn, Staten Island, Aberdeen, Lowell, Spokane
2004	7	Brooklyn, Hudson Valley, Staten Island, Aberdeen, Lowell, Mahoning Valley, Spokane
2005	7	Brooklyn, Staten Island, Hudson Valley, Aberdeen, Lowell, Mahoning Valley, Spokane
2006	5	Brooklyn, Aberdeen, Hudson Valley, Lowell, Spokane
2007	7	Brooklyn, Aberdeen, Hudson Val., Lowell, State College, Staten Island, Spokane
2008	7	Brooklyn, Aberdeen, Hudson Val., Lowell, State College, Staten Island, Spokane
2009	6	Brooklyn, Aberdeen, Hudson Valley, Lowell, Staten Island, Spokane
2010	8	Brooklyn, Aberdeen, Hudson Valley, Lowell, Staten Island, Spokane, Vancouver, Tri-City (Troy, NY)
2011	7	Brooklyn, Aberdeen, Lowell, Staten Island, Tri-City (NY), Spokane, Vancouver
2012	7	Brooklyn, Aberdeen, Lowell, Hudson Valley, Tri-City (NY), Spokane, Vancouver
2013	7	Brooklyn, Aberdeen, Lowell, Hudson Valley, Tri-City (NY), Spokane, Vancouver
2014	7	Brooklyn, Aberdeen, Lowell, Hudson Valley, Tri-City (NY), Spokane, Vancouver
2015	6	Brooklyn, Aberdeen, Hudson Valley, Tri-City (NY), Spokane, Vancouver
2016	4	Brooklyn, Hudson Valley, Spokane, Vancouver
2017	3	Brooklyn, Spokane, Vancouver
2018	3	Brooklyn, Spokane, Vancouver

NAPBL MINOR LEAGUES ATTENDANCE HIGHLIGHTS**NAPBL 2018 SEASON – LEAGUE GAINS AND LOSSES**

- J **Total NAPBL attendance fell 3.3% in 2018. It was just the 2nd decrease in the last 7 years. Attendance has increased vs. the previous season 35 times in the last 44 years.**
- J **The 2018 total attendance of 40,450,337 was down 1,382,027 from 2017, and was the lowest total since 2004. Total attendance in 2004 was 39,887,755, an average of 226,635 per team. But 2018 was the 14th straight year above 40 million. Average per date was 3,960, down 135, and the average per team was 229,831.**
- J The 160 United States/Canadian teams drew 36,678,534 in 2018, down 1,111,225 (2.9%). They averaged 3,922 per date, down 102 (2.5%). The 16 Mexican League teams, drew 3,771,803, down 270,802 (6.7%). Their average per date of 4,376 was down 530 (10.8%).
- J **As detailed earlier in this report, bad weather was a significant factor in the 2018 attendance decline.**
- J The 14 U.S. leagues had 523 lost dates in 2018, up from 504 in 2017, and 422 in 2016. These leagues had a combined 37 fewer dates in 2018 than in 2017. The total number of dates played (single-admission doubleheaders count as one date) was 9,353 in 2018, the lowest since 2003. Include the Mexican League, and it still was the lowest number of dates since 2004. The 2018 total NAPBL figure of 10,215 dates is only one less than in 2017. But it is 135 less than in 2016, and 190 less than in 2012. The U.S. number of dates in 2018 (9,353) is down 39 from 2017, down 149 from 2016, 170 from 2015, 147 from 2014, 203 from 2012, and 238 from 2010. U.S./Canadian teams had 9,556 dates in 2012, and 9,591 dates in 2010.

OTHER FACTORS THAT MAY HAVE ACCOUNTED FOR THE 2018 MINOR LEAGUE ATTENDANCE DECLINE:

- J Just the normal ups and downs of sports attendance. Even in a very good attendance year, around one in three Minor League teams have attendance declines.
- J A reduction from 71 to 70 home dates by each of the 30 Class AAA teams. These 30 teams averaged 6,615 per date in 2018. The 30 dates not scheduled would most likely have been weekday early-season games, played on school nights. The average crowd for the 143 Monday through Thursday, April, 2018 Class AAA dates, excluding home openers, was 4,116. This probably accounts for an attendance loss of at least 100,000. April, 2018 openers and Friday through Sunday dates for these 30 teams averaged 6,497 per date.
- J 2018 had only one team change markets (Veracruz to Dos Laredos in the Mexican League), and only one team opened a new park (Augusta of the South Atlantic League). Movement of teams to new markets and new ballparks has been a major component of attendance growth since the early 1990's. So, in a year when this doesn't occur, growth is often reduced.
- J On-field issues such as too many walks, pitching changes, and strikeouts, not enough balls put in play, along with length and pace of games. This is more likely to affect Major League attendance (which was down 4.2% in 2018), than Minor League attendance, but it still could've been a small factor.
- J Tim Tebow – In 2017 he split his season between Columbia of the South Atlantic League and St. Lucie of the Florida State League, areas near where he played college football for the University of Florida. Both of those teams set home attendance records in 2017, but had significant declines in 2018. Columbia was down 63,448 (20.1%) in 2018, the 3rd worst loss in total attendance among U.S. NAPBL teams. St. Lucie had a 33,536 (25.3%) decline, the 3rd worst percentage decrease among U.S. teams.
- J On the road in 2017 with Tebow on the team, Columbia averaged 5,843 per date. Without him on the team in 2017, they averaged 3,885 per date. Columbia averaged 3,473 per date on the road in 2018. On the road with Tebow in 2017, St. Lucie averaged 3,865 per date. Without him, St. Lucie averaged 1,150 per date. In 2018, St. Lucie's road average per date was 1,406. Tebow played at Binghamton of the Eastern League in 2018. Their home attendance rose 29,514, which was the 3rd best gain in total attendance among U.S. teams. Binghamton had its best total attendance since 2008, and their highest average per date since 1992, the team's first season. On the road in 2018, Binghamton drew 384,234, averaging 5,822 per date. In 2017, the Rumble Ponies drew 301,110 for away games, an average of 4,562 per date.

NAPBL MINOR LEAGUES ATTENDANCE HIGHLIGHTS**NAPBL 2018 SEASON – LEAGUE GAINS AND LOSSES**

- J Major League Baseball attendance has gone up vs. the previous season in 25 of the past 44 years.
- J NAPBL Minor League attendance dropped in 2009, after 5 straight record-setting seasons. Prior to 2004, the all-time record was 39,640,443, set in 1949, when there were 448 teams in 59 leagues. In 2018, there were 176 teams in the 15 NAPBL leagues that charge admission to their games. **The last 18 seasons have seen 18 of the 19 highest totals in the 117-year history of the NAPBL Minor Leagues.** 1949 was the other year.
- J Minor League attendance declined very sharply through the 1950's, and most leagues and teams disbanded. By 1964, only 20 leagues overall, and 128 teams who charged admission, were left. A post World War II low period of NAPBL attendance occurred from 1960 to 1975. During those years, attendance was basically flat – ranging from a low of 9,732,582 in 1962, to a high of 11,134,084 in 1971. Among the causes of the huge drop in Minor League attendance during this period were television, Major League expansion, easier access to Major League ballparks, fewer Minor League teams, a rise in popularity of other sports, and home air conditioning.
- J 2018 average season attendance per team, including short-season teams, was 229,831. The record-high average per team is 245,817, set in 2008. Back in 1949, the 448 teams averaged 88,483 (NAPBL figure, 1950 Sporting News Guide figure is 88,582). By 1961, average attendance per team had fallen to 66,439.
- J The Eastern, Northwest, and Appalachian Leagues had the only league total attendance gains in 2018. For the 2nd year in a row, the Eastern League had the best total growth, up 44,661 (1.2%). Northwest League total attendance grew by 949 to a league record-high 1,089,930, and the Appalachian League had a 35,769 (10.1%) increase.
- J Total attendance rose in 2017 for 11 of the 15 NAPBL leagues. Only the Mexican League was up in 2016. There were 8 leagues with gains in 2015. 11 leagues increased their total attendance in 2014, 6 leagues rose in 2013, 5 were up in 2012, 6 had gains in 2011, and 5 were up in 2010. Just 3 leagues had increases in 2009, 7 leagues were up in 2008, and 13 leagues had gains in 2007.
- J 12 NAPBL leagues posted total attendance declines in 2018. The largest was by the Mexican League, down 270,802 (6.7%), despite playing a slightly longer schedule. The Pacific Coast League, down 228,658 (3.2%), and the International League, down 211,554 (3.2%), each had 140 scheduled games per team, down from 142 in 2017.
- J The Carolina, Florida State, Midwest, and South Atlantic Leagues each were down at least 125,000. The Florida State League had the largest total attendance percentage loss in the NAPBL, down 11.5%. The Southern, Texas, New York-Penn, and Pioneer Leagues had significantly smaller losses.
- J Just 4 leagues had total attendance declines in 2017, and in the case of the California League, down 135,476 for the biggest loss, it was due to 2 of their teams moving to the Carolina League. The 8 teams that played in the California League in both 2017 and 2016 had a combined 0.3% increase. The only other leagues with 2017 losses were the International, Midwest, New York-Penn Leagues.
- J In 2018, the Pacific Coast League failed to reach 7 million for only the 4th time in the last 14 years. But the total did exceed 6.6 million, with an average per date above 6,000 for the 19th year in a row. The International League topped 6.3 million in total attendance for the 21st straight year, and their average per date reached 6,000 for the 27th year in a row. The Midwest League topped 3,700 per date for the 12th straight year.
- J 4 leagues had 2018 average per date gains. The Appalachian League average was up 139, the Pioneer League gained 24, the Eastern League rose by 20, and the Northwest League was up 3, to a league record-high 3,597.
- J The Mexican League, down 530, had the largest drop in average per date in 2018. The Carolina League was down 213, the International League fell by 180, the Florida State League dipped 175, the Pacific Coast League was down 174, Southern League average attendance declined 170, the New York-Penn League had a 103 dip, and the Texas League was down 102. Down less than 100 per date were the California, Midwest, and South Atlantic Leagues.
- J 11 leagues had average per date increases in 2017. Only the Northwest and Mexican Leagues were up in 2016. In 2015, 2014 and 2013, there were 8 leagues up each year in average per date. Only 3 leagues had gains in average per date in 2012. 7 leagues were up in 2011, and 4 leagues had increases in 2010 and 2009.

NAPBL MINOR LEAGUES ATTENDANCE HIGHLIGHTS**NAPBL 2018 SEASON – INDIVIDUAL TEAMS - TOTAL ATTENDANCE HIGHS AND LOWS**

GAINS AND LOSSES - A listing of total attendance gains and losses in 2018 vs. 2017 for each NAPBL team and league can be found starting on page 137. This same information for independent league teams starts on page 159.

NAPBL 2018 SEASON – INDIVIDUAL TEAMS - TOTAL ATTENDANCE HIGHS AND LOWS

- J 4 teams topped 600,000 in total attendance in 2018. 6 teams in 2017, 7 in 2016, 5 in 2015, 6 in 2014, 5 in 2013 and 3 in 2012 reached that level. 4 teams reached 600,000 in 2011 and in 2010. 7 teams drew 600,000+ in 2009 and 2008. 5 teams did it in 2007, 7 in 2006, and 5 in 2005. At least one team each year drew over 600,000 since 1982, except in 1987.
- J 15 teams drew at least 500,000 in 2018. The number of teams over 500,000 was 16 in 2017, 19 in 2016, 17 in 2015, 15 in 2004, 13 in 2013, 14 in 2012, 13 in 2011, 15 in 2010, 13 in 2009, 17 in 2008, 18 in 2007, 19 in 2006, 20 in 2005, 16 in 2004, 15 in 2003 and 2002, 14 in 2001, 10 in 2000, 6 in 1999, 9 in 1998, 10 in 1997, 7 in 1996, and 7 in 1995.
- J At least one team has reached 500,000 every year since Columbus did it in 1979. But prior to 1979, the 1967 Mexico City Red Devils were the last team to hit 500,000. The last U.S. teams to draw that high prior to 1979 were Hollywood, Oakland, and Seattle of the Pacific Coast League in 1949. 3 P.C.L. teams topped 500,000 in 1948, 5 of them drew that well in 1947, and 4 P.C.L. teams, plus Baltimore of the International League, did it in 1946.
- J **Charlotte drew 619,639 to lead all Minor League teams in total attendance in 2018. The Knights also led all U.S. teams with an 8,980 average per date. It was the 4th time since 2014 that Charlotte has been the U.S. average per date leader, and the Knights were 2nd best in 2017.**
- J **Monterrey of the Mexican League drew 659,791 (11,575 per date) in 2017 to lead all of Minor League Baseball in total attendance for the 4th time since 2006. But the Sultanes also had the worst average per date decline of any team. In 2018, Monterrey averaged 10,059 per date to lead all teams for the 8th time since 2006, but also had the 3rd worst decrease in average per date in the NAPBL.**
- J After leading all U.S. teams in total attendance in 2016 and 2017, Indianapolis fell a total of just 517-short of Charlotte for the lead in 2018. The Indians drew 619,122, and a 4th best 8,845 average per date. In 2013, the Indians led all of the Minors in total attendance.
- J Tijuana of the Mexican League drew 556,371, and their average per date of 9,761 was 2nd best in the Minors.
- J Columbus drew a 6th best total of 587,067, topping 500,000 for a record-high 32nd time.
- J Round Rock totaled 616,636 in its 14th AAA season, after setting both a Class AA and Texas League record for 5 consecutive years. The Express have drawn over 610,000 each year since 2000, except 2010, and 2012-2015. They've topped 589,000 in all 19 of their seasons.
- J Nashville drew a team record-high 603,135, averaging 8,741 per date. In 2017, the Sounds broke a team record for attendance, set in 1980, when they played in the Class AA Southern League.
- J Lehigh Valley, which topped U.S./Canadian teams in both 2011 and 2012, attracted 561,745 in 2018.
- J Buffalo surpassed 500,000 for the 31st straight year.
- J Although they posted their lowest total ever, Sacramento still topped 500,000 for the 19th straight year.
- J Toledo topped 500,000 for the 17th year in a row.
- J Albuquerque reached 500,000 for the 16th straight season.

NAPBL MINOR LEAGUES ATTENDANCE HIGHLIGHTS**NAPBL 2018 SEASON – INDIVIDUAL TEAMS - TOTAL ATTENDANCE HIGHS AND LOWS**

- J Among Class AA teams, Frisco drew 468,259, leading Class AA for the 14th straight year. Hartford also topped 400,000. Birmingham and Reading just fell short of that level.
- J Dayton (Midwest) has sold out all 1,316 regular-season home dates they've played, a sellout streak that is the longest in North American sports history. The Dragons drew 550,725 in 2018 to lead Class A, and top 500,000, for the 19th year in a row. No other Class A team reached 400,000, but West Michigan and Fort Wayne came closest. 9 Class A teams topped 300,000 in 2018. 13 Class A teams did it in 2017.
- J Vancouver drew 239,086, best among all short-season teams for the 3rd straight year. The Brooklyn Cyclones also topped 200,000. Brooklyn led the short-season teams in attendance for 15 straight years through 2015.
- J 14 of the 40 short-season teams topped 100,000 in 2018. 15 of these teams did it in 2017. The all-time high for the number of short-season teams reaching 100,000 is 18, set in 2007. The last time no short-season team drew at least 100,000 was in 1984. The only short-season team to ever reach 100,000 prior to 1985 was Portland, OR in 1974, 1975, and 1977.
- J 16 full-season teams drew under 100,000 in 2018. 8 of the teams play in the Florida State League. The number of full-season teams below 100,000 was 14 in 2017, 17 in 2016, 13 in 2015, 11 in 2014, 2013, and 2012, 10 in 2011, 15 in 2010, 14 in 2009 and in 2008, 13 in 2007, 14 in 2006, 15 in 2005, 18 in 2004, 22 in 2003, 21 in 2002, 20 in 2001, 24 in 2000, 25 in both 1999 and 1998, 24 in both 1997 and 1996, and 19 in 1995. 49 full-season teams drew under 100,000 in 1985.
- J Gwinnett (195,955), New Orleans (252,614), Colorado Springs (262,657), and Syracuse (277,332) were the Class AAA teams who drew under 300,000 in 2018. 2009 was the only year that every Class AAA team topped 300,000. The last Class AAA team to draw under 200,000 in a season until Gwinnett in 2018 was Ottawa in 2007, who drew 126,894. The 1988 Maine Phillies (Old Orchard Beach), who drew 80,071, were the last Class AAA team that failed to reach 100,000.
- J Mobile had the lowest AA attendance (69,504). This team moves to Madison, AL in 2020. Biloxi, Jackson TN, and Mississippi, were the other Class AA teams that drew less than 200,000.
- J Buies Creek, in a temporary home, had the lowest total among full-season teams (24,068). They move into their new regular home park in Fayetteville, NC in 2019. Dunedin drew 30,569. Florida (Kissimmee) drew 33,017, and Lakeland's total was 49,551. All other Class A teams topped 50,000.
- J Elizabethton of the Rookie Appalachian League drew 15,329 for the lowest short-season attendance.
- J Low totals in the Mexican League were 71,096 by Campeche, and 99,925 by Aguascalientes.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA)** (14 teams -- 140 game schedule in 2018, 142 games in 2017)

RECORD HIGHS: League – 7,097,411 (2008); Team – Buffalo - 1,188,972* (1991), Buffalo - 743,463 (1998)

(*Buffalo was in the American Association when it set this all-time Minor League record.)

- J The International League had a 211,554 (3.2%) decline in attendance in 2018 to 6,460,116, the lowest total since 2006. The league has topped 6.3 million in each of the last 21 years. Lehigh Valley, up 5,599, and Buffalo, up 1,414, had the only increases in total attendance. Buffalo's 149 gain in average per date was the only increase in this league in that category. Scranton-Wilkes Barre, down 52,593, playing 5 fewer dates than in 2017, had the largest total decline, while Syracuse, down 434, suffered the worst average per date loss.
- J League average per date was down 180 to 6,902, which was the highest average per date in the Minors for 2018. This was the 26th straight year that the I.L. has averaged above 6,000 per date, and the 21st year in a row above 6,600. The 2009 International League average per date of 7,348 was the highest for any Minor League since the old Class AAA American Association averaged 7,588 per date in 1992, a year in which Buffalo drew more than one million. The I.L. averaged 7,317 per date in 2008.
- J There were 6 fewer dates played in 2018 than in 2017. This was partly due to each team having one less scheduled home game than in 2017. The league had 44 lost dates due to weather in 2018, and 51 lost dates in 2017. There were only 37 lost dates in 2016. Scranton-Wilkes Barre had 7 lost dates in 2018, and Buffalo, Gwinnett, and Norfolk each lost 6 dates.
- J Bad weather in April, 2018 caused a 9.1% decline in average per date vs. April, 2017. The league had 21 postponements that month, including 5 in Buffalo and 4 in Syracuse. 47 games in April began in temperatures under 50 degrees, and at 11 of those games, the temperature was less than 40 degrees.
- J The average attendance per team was 461,437 in 2018, the 21st straight year above 450,000. In 2014, the league averaged 501,452 per team. That was just the 6th time that a league has averaged 500,000+ per team. The International League also did it in 2008 (506,958) and 2009 (501,248). The American Association topped 500,000 per team in 1991 (511,691) and 1992 (519,800), when Buffalo drew more than one million each season. The Pacific Coast League's 8 teams averaged 508,547 per team in 1947, when the league had a longer schedule (186 games) than now, with teams in Los Angeles, San Francisco, San Diego, Oakland, Hollywood, Portland, Sacramento, and Seattle.
- J **Charlotte led all of Minor League Baseball in total attendance in 2018, drawing 619,639, down 8,887. The Knights averaged 8,980 per date, down 129. It was their 5th straight year above 600,000. The average was the best among all U.S./Canadian teams, topped only by Monterrey and Tijuana of the Mexican League. There were 23 sellouts in 2018, all of which drew over 10,000. 52 dates had attendance of at least 8,000. Since moving into BB&T Park in 2014, the Knights have drawn 3,233,451 in 350 dates, an average of 9,238 per date, with 133 sellouts.**
- J In 2014, Charlotte moved from the suburb of Fort Mill, SC to the City of Charlotte, and their new ballpark was a huge success. The Knights led all of the Minor Leagues in attendance in 2014. They drew a team-record high 687,715, the 3rd best total ever for an I.L. team, and averaged a U.S. best 9,686 per date. They had 31 sellouts. In 1998, Buffalo drew 743,463, and in 2005, Pawtucket drew 688,421. Buffalo, from 1988 through 1996, and Louisville, from 1982 through 1984, also drew higher than Charlotte did in 2014. In those years, Buffalo and Louisville were in the old Class AAA American Association whose teams moved into the International and Pacific Coast Leagues in 1998.
- J Charlotte had the top total attendance increase of 2014, up 432,881, which also was the 3rd best gain ever for a Minor League team that moved to a new park in the same market. (Buffalo, up 650,891 in 1988, and Memphis, up 462,512 in 2000.) Prior to 2014, the only time Charlotte topped 400,000 was in 1993, when they drew 403,029.
- J In 2015, Charlotte had the highest average per date (9,428) of any Minor League team, and drew a total of 669,398 to finish 2nd in total attendance to Sacramento. The Knights had 31 sellouts in 2015. **2016 was the 3rd straight year that Charlotte led all U.S. teams in average per date.** They had 25 sellouts.
- J Charlotte drew 628,526 in 2017, their 3rd best total ever. The Knights' total and average per date (9,109) were 2nd best among all U.S. teams. 23 dates were sold out. Attendance topped 9,000 at 43 dates in 2017.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA) - continued**

- J Indianapolis drew 619,122 in total attendance in 2018, averaging 8,845 per date, the 2nd best total of any team, and the 4th best average per date (2nd best U.S.). Only Charlotte, whose total attendance topped Indy by just 517, drew better. The total for the Indians was down 22,019 from 2017, and the average per date fell by 314. There were no lost dates, but the first 6 games began with temperatures of less than 45 degrees.
- J The Indians have now surpassed 535,000 for 23 straight years, and have reached 600,000 in 12 seasons, including the last 6, since 1997. 26 dates had crowds of at least 10,000 in 2018, and the Indians have drawn 10,000+ for 290 dates since 2006. 40 dates topped 8,000 in 2018. The Indians have averaged 8,000+ per date in 21 of the last 23 years, including each of the past 12 seasons. In 7 of these seasons, their average per date has reached 9,000. Victory Field's capacity is 14,200, and there were 5 sellouts there in 2018. The Indians are the Ballpark Digest 2018 Team of the Year, in part, due to their outstanding attendance.
- J Indianapolis led all of Minor League Baseball in attendance for the first time ever in 2013, drawing 637,579. Then they drew a team record-high 660,289 in 2014, and topped that by drawing 662,536 in 2015, the 3rd best Minor League total. In 2016, despite a rainy summer, Indianapolis drew 636,888 to lead all U.S. teams. In 2017, Indianapolis drew 641,141 in total attendance, averaging 9,159 per date, the best figures of any U.S. team. Among all NAPBL teams, it was the 2nd best total, and 4th highest average per date.
- J In 2018, the **Columbus (OH) Clippers** had the 5th best total attendance in Minor League Baseball, drawing 587,067, down 28,992. Average per date was a Minor League 7th best 8,633 per date, down 427. Attendance topped 8,000 at 45 dates, with 16 dates above 10,000. The Clippers have reached 600,000 in 8 of the last 10 years. **2018 was also the 14th straight year that the Clippers have surpassed 500,000. They've now reached that level a record-high 32 times in the last 40 years.** (They were tied with Louisville after 2017.) The Clippers have been above 450,000 for the last 35 seasons. Average per date in Columbus has been over 8,600 in 10 consecutive years. In 2009, Columbus got a new ballpark, and had the biggest attendance increase in the Minors.
- J For the 2014 season, **Durham** did a \$20 million renovation of their park, and then drew a team record-high 533,033. The old record was 520,952 in 2007. The Bulls broke that record in 2015, drawing 554,788. Their 2015 average per date was a team-record high 7,814. 38 crowds exceeded 8,000, including 15 that were above capacity.
- J In 2018, Durham's attendance was 536,304, down 11,537, but still the 4th best total in team history. Average per date fell 55 to 7,661. Attendance topped 8,000 at 38 dates, with 13 dates above 10,000. Durham has not had a lost date since 2015. The Bulls have drawn over 500,000 in 12 of the last 18 years, including the last 5, and topped 460,000 in all 21 years they've been a Class AAA team. Average per date has reached 7,000 in 13 of the last 18 seasons, and has topped 6,500 for 21 years in a row. In 1990, Durham was the first Class A team since Denver in 1953 to reach 300,000. The Bulls topped 300,000 in 6 of their final 8 seasons (1990-1997) as a Class A team.
- J **Louisville** had its lowest total attendance (466,026, down 998) since 1999. The Bats had topped 600,000 yearly from 2000 through 2011, and 20 times since 1982. Average per date was down 210 to 6,658, also the lowest since 1999. 13 dates in 2018 drew 8,000+. 4 games in April began in temperatures of less than 50 degrees, but the Bats avoided any lost dates. On April 21, the Bats drew 14,658, a record-high crowd for Louisville Slugger Field. Since that park opened in 2000, the Bats have drawn 11,387,052 in 1,336 dates, an average of 8,523 per date. They've reached 500,000 in all but 6 years since 1982, achieving that total for a Minor League 2nd best (to Columbus) 31 times. Average per date has topped 9,000 in 11 seasons from 1992 through 2008, and in a few others before that. In 1983, Louisville drew 1,052,438 to become the first Minor League team to reach one million. They also averaged 16,191 per date. That year Louisville outdrew 3 Major League teams (Cleveland, Minnesota, Seattle) in total attendance, and outdrew those same 3 teams plus Cincinnati and the Mets in average per date.
- J **Norfolk** had a decline of 17,894 in 2018 to 341,369, their lowest total since Harbor Park opened in 1993. There were 6 lost dates. 2018 was the 10th straight year below 400,000, after 16 straight years above 400,000, including 7 seasons where attendance exceeded 500,000. Average per date was 5,334, down 109. The Tides have not reached an average per date of at least 6,000 since 2008. They had topped 6,000 per date for 16 years in a row prior to that.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA) - continued**

- J **Lehigh Valley** (Allentown, PA) had the best Class AAA won-loss record in 2018 (84-56), and the best total attendance gain in the International League, up 6,599 to 561,745. Average per date fell 30 to 8,511. The total was the 7th highest in the Minors in 2018, and the average per date ranked 9th best. The IronPigs (the name comes from 'pig iron' used to make steel) led the Minors in attendance in 2011, and had the best U.S./Canadian total in 2012. They had the U.S. Minors' highest average per date for 3 straight years from 2010 through 2012. **Lehigh Valley, which began play in 2008, was the only team to top 600,000 in each year from 2008 through 2016.** They averaged over 9,000 per date in each year from 2009 through 2014.
- J **Coca Cola Park in Allentown has just 8,089 seats, making it one of the smallest parks in Class AAA. With standing room and lawn seating, combined 2008-2018 attendance has exceeded the fixed-seating capacity at 562 (74.5%) of 754 regular season dates. They've sold out all seats, lawn seating, and standing room at 196 dates. The 11-year average per date of 8,900 is 110.0% of the ballpark's seating capacity. 39 of the 66 dates in 2018 had crowds above seating capacity, with 19 as complete sellouts.**
- J In the table below, "# Dates Cap+" indicates how many dates each season drew higher than Coca Cola Park's 8,089 seating capacity. "# of Full Sellouts" indicates the number of dates where all seats, standing room, and lawn seating tickets were sold out. Initial full capacity was 10,000. In 2012, it was raised to 10,100 tickets.

LEHIGH VALLEY IRONPIGS REGULAR SEASON ATTENDANCE

Year	Total Attendance	# of Dates	Average per Date	# Dates Cap.+	# of Full Sellouts	Notes
2008	602,033	71	8,479	49	12	Moved from Ottawa, attendance up 475,139
2009	641,335	70	9,162	59	26	3 rd best total, 2 nd best avg/date in Minors
2010	645,905	70	9,227	60	21	Minors highest average per date, 2 nd best total
2011	628,925	68	9,249	61	20	Led Minors in total attend. and avg. per date
2012	622,421	68	9,153	59	15	Best Minors avg/date, top U.S. total attend.
2013	613,075	68	9,016	52	21	Ranked 3 rd in total attendance and avg/date
2014	614,888	68	9,042	51	18	5 th in total attendance, 4 th in avg/date
2015	613,815	70	8,769	45	19	5 th again in total attend., 7 th in avg/date
2016	611,015	70	8,729	47	12	Was 5 th in total attend., 7 th in average/date
2017	555,146	65	8,541	40	13	Ranked 9 th in total and average/date
2018	561,745	66	8,511	39	19	Ranked 7 th in total, 9 th in average per date
Total	6,710,303	754	8,900	562	196	Only team to top 600,000 each yr. (2008-16)

- J Not included in the table above are a 2008 exhibition game with the Phillies, the 2010 Triple A Home Run Derby and All-Star Game, 4 playoff games in 2011, and 8 games in 2012 where Scranton-Wilkes Barre was officially the home team. These 15 dates drew a combined 128,520, with 10 above seating capacity, and 4 full sellouts.
- J **Gwinnett** drew 195,955, down 14,120, the lowest attendance in their 10-year history, and the smallest total among Class AAA teams. It was the 7th straight year with a decline, and also with a total under 330,000. Total attendance is down 227,601 (53.7%) since the team's first year in 2009. Average per date fell 73 to 3,062, also a 2018 Class AAA low. That's down 2,904 from 5,966 in 2009. The team had 3 fewer dates than in 2017, and 6 lost dates. The total attendance was the smallest in Class AAA since Ottawa drew 126,894 in 2007. The average per date was a Class AAA low since Tucson in 2013 (2,818). 25 dates drew less than 2,000, 5 dates were under 1,000, and only 11 dates topped 5,000. The team was re-named the Stripers for 2018, after a type of Bass found in nearly Lake Lanier. Be careful to spell the team's name with only one 'p.' Otherwise, fans may be expecting a less family-friendly form of entertainment.
- J **Rochester's** attendance topped 400,000 for the 22nd consecutive year, reaching 437,974, down 7,607. The only year above 400,000 prior to this streak was 1949. However, Rochester led all U.S. teams in attendance in 6 seasons between 1962 and 1975. The Red Wings are a community-owned team. The Red Wings' average per date fell 16 to 6,537 in 2018, their 23rd year in a row above 6,000.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA) - continued**

- J **Toledo** drew 507,965, down 25,049, with 22 sellouts. Average per date fell 252 to 7,362. 33 dates drew over 8,000, with 12 of them reaching 10,000. April weather was a cause for the decline as 4 straight games began with temperatures in the 30's. The Mud Hens have topped 500,000 in total attendance, and 7,300 in average per date, in all 17 seasons at Fifth Third Field, but 2018 had its lowest attendance. The Mud Hens sold around 147,000 group tickets in 2014, which was the most ever for them up to that point. 485 dates have been sold out at Fifth Third Field (named after a bank) since it opened in 2002 through 2018. Prior to moving to this new park, Toledo had reached 300,000 in just 6 seasons. Toledo's teams have been called the Mud Hens in most seasons since 1896.
- J In 2015, the **Pawtucket** Red Sox were under new ownership for the first time since the late 1970's. There was talk about building a new ballpark in Pawtucket, or in the neighboring city of Providence. But no ballpark deal could be made in Rhode Island, and in 2021, the team will move to Worcester, MA.
- J Despite the prospect of the team's move, Pawtucket's attendance has held up fairly well. There was a small increase in 2017, resulting in the 25th straight year above 400,000. That streak ended in 2018, as total attendance declined 15,149 to 394,811. Average per date dipped by 424 to 5,982. These were the lowest figures for this team since 1992. 11 dates topped 10,000. The first 5 games of the season were begun in sub-50-degree weather.
- J Pawtucket had drawn at least 500,000 for 16 straight years through 2014. This team was bankrupt 41 years ago, and couldn't draw 100,000. The Pawsox have achieved incredible attendance growth since then. They play at McCoy Stadium, which is over 75 years old. While this park may not have all the amenities of newer facilities, the team provides many fan friendly features such as free parking. Its capacity was increased from 7,002 to 10,031 in 1999. The Pawsox Radio Network had 11 stations in 2017. Team co-owner Mike Tamburro, one of the most successful executives in Minor League history, was crowned as the '2018 King of Baseball.'

PAWTUCKET RED SOX ATTENDANCE – 1977-2018

Year	Attend.	Year	Attend.	Year	Attend.	Year	Attend.	Year	Attend.
1977	70,344	1986	186,517	1995	479,261	2004	657,067	2013	540,034
1978	123,310	1987	220,838	1996	461,181	2005	688,421	2014	515,665
1979	147,420	1988	246,940	1997	474,557	2006	613,065	2015	466,600
1980	163,283	1989	278,129	1998	475,659	2007	611,379	2016	407,097
1981	191,859	1990	290,953	1999	596,624	2008	636,788	2017	409,960
1982	204,724	1991	349,338	2000	585,107	2009	625,561	2018	394,811
1983	188,186	1992	358,318	2001	647,928	2010	592,326		
1984	198,786	1993	466,428	2002	615,540	2011	578,930		
1985	166,504	1994	469,029	2003	569,106	2012	521,023		

- J **Syracuse** had 3 more dates than in 2017. Despite this, total attendance fell 14,722 to 277,332. Average per date was 4,202, down 434, the largest decline in the league. It was the 5th straight year below 300,000 for the Chiefs, after finishing above that level for 20 consecutive years. Average per date was under 5,000 for the 5th year in a row, after reaching that figure each year from 1997 through 2013. 4 of the first 5 games of the year were played in below-50-degree conditions. The New York Mets purchased the Chiefs, renamed them the Mets, and they will be the Class AAA affiliate of the New York Mets in 2019.
- J In 2013, the **Scranton-Wilkes Barre** team got a new name, the RailRiders, honoring Northeast Pennsylvania's railroad history. They moved into a completely rebuilt ballpark that year, after playing all their 'home' games in 6 different cities in 2012. Their 2013 attendance total of 435,839 in their new park was up 163,671 from what they drew in their 2012 nomadic journey. Total 2018 attendance was down 52,593 to 386,819, the biggest total decline in the league, and 8th worst among all NAPBL teams in 2018. Average per date fell by 322 to 6,140. Bad weather was a big factor. The team had 7 lost dates, and played 5 fewer dates than in 2017. 6 games in April began with a temperature of less than 50 degrees, including one whose gametime temperature was a bone-chilling 33 degrees. 15 dates drew over 8,000, and 5 crowds hit 10,000. This team reached 500,000 in 4 straight years (1990-1993), but has only done it once (2007) since then. Yet they've still drawn over 400,000 in 24 of the last 29 years (excludes the 'road year' of 2012).

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA) - continued**

-) **Buffalo** began a new affiliation with the Toronto Blue Jays in 2013, which they hoped would attract more fans from the Canadian side of the Niagara River. The Bisons had an increase in attendance in 2013, a tiny decline in 2014, a gain of 16,028 in 2015, and a 11,452 increase in 2016 to 562,755, their best total since 2010.
-) Weather hit the Bisons hard in 2018, as they had 5 rainouts in April. But total attendance rose 1,414 to 527,988. **Attendance topped 500,000 for a Minor League record 31st straight season.** Average per date rose 149 to 8,250, the only average per date gain in the league. The Bisons have been above 8,000 in average per date in all but 2 seasons (2011, 2012) since 1988. They averaged at least 10,000 per date every year from 1988 through 2000. 26 dates in 2018 drew at least 8,000, and attendance surpassed 15,000 at 6 dates.
-) Buffalo led the Minors in attendance each year from 1988 through 1999, topping one million 6 times (1988-93), including an all-time Minor League record 1,188,972 (1,240,951 including playoffs) in 1991, when they were in the American Association. The Bisons moved to the International League in 1998. Buffalo also had the best attendance among all U.S./Canadian teams each year from 1957 through 1961. Their home, Coca Cola Field (renamed Sahlen Field for 2019), seated 17,600 in 2016, and 16,907 in 2017 and 2018, the highest seating capacity of any United States or Canadian Minor League park. The largest crowd ever in this park was 21,050 in 2002, and capacity had been as high as 21,050. But it has been reduced as part of ongoing renovations. 5 games in team history have drawn over 20,000. Monterrey of the Mexican League has a bigger ballpark.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**INTERNATIONAL LEAGUE (AAA) - continued**

In 1998, 4 teams were moved from the American Association (no relation to the current independent league with the same name) to the International League.

INTERNATIONAL LEAGUE YEARLY ATTENDANCE

Year	# of Teams	Total Attendance	# Change vs. Previous Year	% Chg. vs. Prev. Year	Average per Date	# Change vs. Previous Year	% Chg. vs. Prev. Year
2019	14						
2018	14	6,460,116	(211,554)	(3.2)	6,902	(180)	(2.5)

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE (AAA)** (16 teams -- 140 game schedule in 2018, 142 games in 2017)

RECORD HIGHS: League – 7,420,095 (2007); Team – Sacramento - 901,214 (2001)

- J The league drew 6,921,810, averaging 6,368 per date. Total attendance fell 228,658 (3.2%), and average per date was down 174. The 2017 average per date of 6,542 was the best since this league's record high average per date of 6,625 in both 2006 and 2007. P.C.L. average per date has been above 6,000 for 19 straight years.
- J Even though attendance fell under 7 million in 2018, it has reached that level 10 times in the last 14 years (2005-10, 2014-17). 5 teams had gains in total attendance, and 4 teams had growth in average per date in 2018. There were 6 fewer dates than in 2017. 31 dates were lost to weather in 2018, compared to 40 in 2017 and 44 in 2016. Each team had one less scheduled home date than in 2017, and 2 less than in 2016. Oklahoma City had the best increases, up 18,971 in total attendance, and 180 in average per date. New Orleans suffered the worst declines of any Minor League team in 2018, down 97,269 in total attendance, and 1,727 in average per date.
- J 5 teams in this league drew at least 500,000 in 2018. A record high of 7 P.C.L. teams topped 500,000 in 2016 and 2007. It was done by 6 teams in 2017, 2015, and 2008. The half-million mark was reached by 4 teams in 2014, 2013, 2011, and 2009, and by 5 teams in 2012 and 2010. In 1947, 5 of the 8 teams in the league reached 500,000, and every team drew at least 350,000. Both Los Angeles and San Francisco topped 600,000, and Oakland, Seattle, and Hollywood drew over 500,000. The league played a 186 game schedule that year. In 1949, every P.C.L. team topped 378,000. No league has seen each of its teams top a figure that high in a season since then.
- J The P.C.L. average attendance per team has been over 400,000 for 19 straight years, including 432,613 in 2018. It had been above 400,000 from 1946 through 1949, with a high of 508,547 in 1947. The average per team fell below 200,000 each year from 1958 through 1981, and in 1984. It reached post-World War II lows of 131,968 in 1962, and 131,999 in 1969. In 1966, none of the 12 P.C.L. teams topped 200,000, and as recently as 1974, just one team in the league reached 200,000. Calgary, in 2002, was the last team from this league to draw under 200,000.
- J **Round Rock** drew 616,636, the top total in the P.C.L., and the 3rd best total in the Minors in 2018. Total attendance rose by 5,955. There were 40 crowds of at least 8,000, and 21 dates drew over 10,000. The Express has topped 589,000 in all 19 seasons of their history, with a high of 700,277 in 2005. They've drawn at least 650,000 in 9 of these years, and topped 600,000 in 14 seasons. That includes 5 years in the Texas League, when the Express set a Class AA attendance record each year. Average attendance per date at Round Rock has topped 8,000 every year, and was above 9,000 each season from 2000 through 2008, with a team record-high of 9,846 in 2004. Their 2018 league-high average per date of 8,809, up 85, was the 5th best in Minor League Baseball, and 3rd best among U.S. teams. Dell Diamond in Round Rock has 8,631 fixed seats. But the Express has averaged 9,020 per date (12,141,564 in 1,346 dates) in their history.
- J The Chihuahuas drew 539,520, down 5,148, and averaged 7,819 per date, down 75, in their 5th year out in the West Texas town of **El Paso**. 33 dates drew at least 8,000. This followed the totals of 544,668 in 2017, 564,259 in 2016, and a record-high 578,952 (8,154 per date) in 2015. In 2014, they attracted 560,997, which was up 360,920 from what they drew in Tucson in 2013. The 2014 totals include the first 4 home dates of the season which were played in Tucson because the new ballpark in El Paso was not ready. Average per date overall was 7,901 (8,193 for the 67 dates in El Paso), compared to an average of 2,818 in Tucson in 2013. The Chihuahuas have averaged better than 7,800 per date every season. El Paso had previously been in the Texas League, and their record-high attendance in that league was 329,233 in 1995. The city also had an independent team for a few years, and that team's highest attendance was 211,316 in 2007.
- J The **Albuquerque** Isotopes have drawn over 520,000 in all 16 years of operation of the current team (2003-2018). Total attendance rose 13,828 in 2018 to 556,330. The average per date was 7,948, down 30. There were 33 dates that drew at least 8,000, and 8 dates reached 10,000. The current team has topped 7,700 per date every year. Attendance at the old park in Albuquerque never reached 400,000, through 2000. A team record-high crowd of 16,975 attended the 2018 Cinco de Mayo game. The Isotopes are the 2018 winners of the John H. Johnson Award as 'The Most Complete Minor League Baseball Franchise.'
- J **Fresno** drew their smallest total (405,403, down 22,938) since moving to their current park in 2002. Average per date fell 157 to 6,051 in 2018, which was also the lowest in their current park. Average per date has surpassed 7,000 in 6 seasons, with a high of 8,044 in 2002. Total attendance reached 500,000 in 5 of 7 seasons from 2002 through 2008, but not since.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE** – continued

- J **Sacramento** had the lowest attendance in the club's 19-year history in 2018, but it was still quite good. The total was 538,785, down 23,452, and the average per date was 7,808, down 224. It was the first time that their average per date was below 8,000. But there were some big crowds. 24 dates drew better than 8,000, with 13 of them topping 10,000. This team has achieved 98 regular season sellouts in its history, each with a crowd of better than 14,000. The River Cats averaged more than 10,000 per date in each of their first 8 seasons.
- J In 2017 and 2016, Sacramento gave back the gains it made in 2015, when their total attendance rose 64,515, and average per date was up 777, with 25 crowds of at least 10,000 and 12 sellouts. 2016 attendance fell 62,688, which was the worst total loss among U.S. teams. In 2017, the total fell 47,429, which was the 6th worst loss in the NAPBL, and the 3rd biggest decline among U.S. teams. Average per date declined by 555, which was the biggest U.S. loss, and the 5th worst NAPBL decline overall. (Mexican League teams had bigger declines in 2017.)
- J In 2015, Sacramento led all of Minor League Baseball in attendance for the 10th time since the team began play in 2000. They also led the Pacific Coast League in attendance for the 14th time. Their biggest crowd ever was 15,808 in 2008. 2012, 2017, and 2018 are the only years that this team has drawn less than 600,000.
- J The River Cats have drawn 13,091,812 since starting play in 2000, the quickest any team has ever reached 13 million, and they've averaged 9,662 per date (1,355 dates) in their history. Sacramento had been for a few years, the largest TV market without a Major League team. (Orlando-Daytona holds that distinction now.) From 1961 through 1973, and again from 1977 through 1999, Sacramento didn't even have a Minor League team.

SACRAMENTO RIVER CATS ATTENDANCE – 2000-2018

Year	Total Attend.	Avg./Date	Year	Total Attend.	Avg./Date	Year	Total Attend.	Avg./Date
2000	861,808*	12,312*	2007	710,235*	10,003*	2014	607,839	8,561
2001	901,214*	12,517*	2008	700,168*	9,725#	2015	672,354*	9,338

* - Best in Minor Leagues # - Led U.S./Canadian teams ^ - 2nd among U.S./Canadian teams

- J **Reno's** total attendance rose by 3,796, to 351,298. Average per date increased by 125 to 5,019. In 2015, the Aces had a team record 8 sellouts. From 2011 through 2014, they only had a combined 9 sellouts. Reno drew above 400,000 from 2009 through 2011, but not after that. Prior to joining the P.C.L. in 2009, Reno had teams in the California League and in independent leagues. None of those teams ever drew better than 110,000, and in only 3 seasons (1981, 1987, 1992) did attendance reach 100,000.
- J Playing their final Class AAA season, **Colorado Springs** had another tough year with weather, and attendance fell 2,438 to 262,657, their lowest total since 2005. Average per date declined 104 to 4,104, lowest since 2006. The total and average were 3rd lowest (to Gwinnett and New Orleans) among the 30 Class AAA teams. But it was the 12th straight year that the average per date was above 4,000. From 1992 through 2006, average per date reached 4,000 only in 2001. The Sky Sox lost 6 dates to weather in 2018, had 7 lost dates in 2017, 8 in 2016, 7 in 2015, 3 in 2014, and 9 in 2013. Until 2016, this team had topped 300,000 for 8 straight years after never reaching that mark in the team's first 20 years of operation (1988-2007).
- J In their 31 Class AAA seasons, the Sky Sox drew a total of 7,846,619, averaging 253,117 per year. The top total was 350,374 in 2014, and the best average per date was 5,181 in 2013. Colorado Springs plays at a higher altitude than any U.S. pro baseball team. Their ballpark is 6,531 feet above sea level. The Class AAA team moves to San Antonio in 2019. It will be replaced by the Pioneer Rookie League team that had been in Helena, and will be named the Rocky Mountain Vibes. The Class AA Texas League team that was in San Antonio moves to Amarillo.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE** – continued

- J **Tacoma's** Cheney Stadium was renovated for 2011, and the Rainiers set a record-high that year. Their 2018 total attendance was down 2,171 to 372,780, still their 4th best total ever. Average per date was 5,403, down 31 from the record-high set in 2017, and was this teams 2nd best average ever. 26 dates were sellouts. Only one game yearly was lost due to weather in 2018, 2016 and in 2015, following a loss of 7 home dates in 2014, and none in 2013. The Rainiers have topped 300,000 in each of the last 18 years. They've surpassed 350,000 in 8 of the last 10 seasons after never having reached this level before. Tacoma drew 83.1% of capacity in 2018. Cheney Stadium opened in 1960, and was built in just 3 months and 14 days, at a cost of \$940,000. It was renovated in time for the 2011 season at a cost of \$30 million.

- J The **Las Vegas** 51s continued their attendance consistency. They've never drawn below 290,000, or above 390,000, since they joined the P.C.L. in 1983. Attendance has topped 300,000 each year from 1988 through 2018. In 2018, their final season at Cashman Field, the 51's drew 332,224, down 26,835. Average per date was down 311 to 4,746. Attendance topped 7,000 at 13 dates, with a high of 12,512. Las Vegas has averaged over 4,000 every year, with a high of 5,441 in 1993, and a low of 4,089 in 1986. In their 36 years at Cashman Field, the team drew 11,971,061 to regular season games, averaging 332,529 per year. Average per date, including post-season games was 4,704. The team's new ballpark, opening in 2019, is in the suburb of Summerlin, and will seat around 10,000. The team will be renamed the 'Aviators.'

- J **Memphis** posted a 9,531 decline in total attendance to 340,476 in 2018. It was their 5th straight year under 400,000. Average per date was 5,007, down 66. The Redbirds won the 2018 Class AAA Championship.

- J 2016 was a rebound year for Memphis. The Redbirds increased their total attendance by 46,002 to 324,581, and their average per date by 667 to 4,704. These were the biggest increases of any U.S./Canadian based team that year. Both were also 16.5% increases, which were the best percentage gains of any full-season U.S. team. Memphis recently updated their highly-acclaimed ballpark, reducing the number of fixed seats to 8,404. The largest crowd ever there was 18,620 in 2008.

- J In 2015, the Redbirds had 102,850 dip in total attendance, and average per date was down 1,656. Those were the biggest declines of any U.S. team in 2015, and the 3rd worst decreases of any team. There were 20 dates that drew under 3,000 in 2015 at Auto Zone Park. Prior to 2015, the smallest crowd there had been 2,919.

- J Attendance in Memphis had fallen from 498,362 in 2013, to 278,579 in 2015, the lowest total in the team's Class AAA history. There had been 3 straight increases through 2013. That followed a 9-year attendance losing streak which ended in 2011. In 2014, total attendance fell 116,933 from 2013, and the average per date was down 1,530. Both of those declines were the worst of any NAPBL team for that year. In 2001, this team attracted 887,976, an average of 12,507 per date. Memphis became an NBA market with the arrival of the Grizzlies in 2001. But the Redbirds still drew very well for a number of years after that. They topped 600,000 for 8 straight years from 2000 through 2007, and their average per date was over 10,000 each year from 2000 through 2005.

- J The **Salt Lake** Bees drew 477,528 in 2018, down 5,674. Average per date rose 18 to 6,921. In 2016, Salt Lake had the 2nd best total attendance gain, and 3rd highest average per date gain among U.S. teams. There was a significant loss in 2014 as total attendance dipped 60,656, the 4th worst decline among NAPBL teams, and average per date fell by 760. But in 2012, the Bees posted the biggest total increase (77,864) among all U.S./Canadian NAPBL teams. Average per date that year rose by 724, the 3rd best gain among all NAPBL teams.

- J The Bees have topped 430,000 in total attendance, and 6,400 per date in all 25 years of operation as a full-season team. They've been above 450,000 in 21 of those years, and have surpassed 500,000 in 12 seasons (1994-2000, 2008, 2010, 2012, 2013, 2016). Average per date has topped 7,000 in 6 of the last 11 years. In 1994, the first Class AAA season of the current franchise, the team drew 713,224, averaging 10,189 per date.

- J Salt Lake City had been in the short-season Rookie Class Pioneer League from 1985 through 1992. This was the largest market, by far, in that league. Salt Lake City led all short-season teams in attendance each year from 1986 through 1992. In 1991, they became the first short-season team to draw 200,000.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE** – continued

-) The **Iowa** Cubs had the 5th worst total attendance decline in the Minor Leagues in 2018, and a major reason for that loss was the weather. They had 7 lost dates, and played 6 fewer dates than in 2017. Total attendance fell 72,261 to 463,399, their lowest total since 1999, and average per date was down 407 to 7,356. The Cubs still had plenty of big crowds, with 24 dates topping 8,000, and 9 of them drawing better than 10,000.
-) Iowa had a good increase in 2017. Total attendance rose 31,500 to 535,660, and average per date was up 349 to 7,763. Those were the best figures for the Cubs since 2009, and the 5th best total in team history. There were 38 dates with attendance of at least 7,000, and at 17 dates, the crowd was better than 10,000. The Cubs reached 300,000 in attendance for the first time in 1991, and have drawn better than 400,000 every year thereafter. They've topped 500,000 in 12 of the last 17 seasons. In 1981, they drew only 124,371. Since 2002, average per date has reached 7,000 in every season except 2013, and it has been above 6,000 in every year since at least 1992.
-) Des Moines was the site of the first professional baseball night game. A crowd of nearly 12,000 attended this game, played by the Des Moines Demons of the Western League on May 2, 1930.
-) **Omaha** had a loss of 12,947 to 345,830, their lowest total since 2007. There were 5 lost dates, including 4 in April, and one game played that month had a gametime temperature of 33 degrees. Omaha's attendance has gone up in 9 of the past 13 seasons. The Storm Chasers have now made it 31 straight years above 300,000. Their 2018 average per date was 5,320, down 35. It was the 11th straight year above 5,300. Omaha averaged above 6,000 per date each year from 1992 through 2000, but hasn't done it since then. Werner Park, which opened in 2011, has 6,434 fixed seats, and is the smallest Class AAA facility. Full capacity is a bit over 9,000. Omaha's former home, Rosenblatt Stadium, was much bigger. The last game there drew 23,795. A big new park in Omaha for the College Baseball World Series, which had been played at Rosenblatt, opened in 2011.
-) Despite the large dip in population in the **New Orleans** area after Hurricane Katrina in 2005, Zephyrs' attendance had remained steady until 2018. In 2004, the year prior to Katrina, this team drew 324,324. Attendance had been above this level every year through 2017. It was 349,883 in 2017, up 10,487. This despite 8 lost dates, and 3 fewer dates than in 2016. Average per date in 2017 rose 412 to 5,554. 21 dates drew at least 6,000, with 3 of them reaching 10,000. The 2017 total attendance was the highest since 2011. Average per date was the best since 2010, and 2nd best since 2002. This team had a new name in 2017 – the Baby Cakes, which is related to Mardi Gras. The former Zephyrs name came with the team to New Orleans from Denver.
-) But 2018 was a really bad attendance year for the Baby Cakes. Even though they played 3 more dates than in 2017, total attendance declined 97,269 to 252,614, and average per date fell 1,727 to 3,827. Those were the worst declines of any Minor League team in 2018. The total and average per date were the lowest for New Orleans since 1996, the year before they opened their new park, known as 'The Shrine on Airline.' This team is expected to move to Wichita, KS in 2020.
-) **Oklahoma City** had a league-best 18,971 increase to 463,195 in 2018. It was the 6th straight year above 400,000, and the team's 2nd best total since 2009. Average per date rose 180, also the best gain in the P.C.L., to 6,713. This was the 5th year in a row that average per date has surpassed 6,000. The Dodgers have topped 400,000 in total attendance for 16 of the last 21 years. OKC never reached 400,000 before 1998. Average per date has been above 6,000 in 15 of the last 21 seasons.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE (AAA)** - continued

- J **Nashville set a team total attendance record for the 2nd straight year in 2018, reaching 603,135, up 9,456, with 2 more dates than in 2017. Average per date was a team 2nd best ever 8,741, down 120. It was the 4th best total, and 6th best average per date in the Minors in 2018. 45 dates drew better than 8,000, with 20 dates topping 10,000. There were 20 sellouts in 2018, making it a total of 75 sellouts in 4 years at First Tennessee Park. Total attendance has topped 500,000, and average per date has been above 7,000, in each of the last 4 years. Nashville also reached these levels every year from 1979 through 1982, and in 1990.**
- J **2017 was a record-setting year for Nashville. The Sounds set team highs in total attendance (593,679), and average per date (8,861). Both of these figures were 7th best in the Minors for 2017. This despite playing 4 fewer dates than in 2016. The total attendance gain of 89,619 was the 2nd best in the Minors, and the average per date increase of 1,762 was the highest of any team. There were 22 sellouts. Attendance reached 8,000 at 43 dates, and surpassed 10,000 at 22 dates, with a record-high of 11,764.**
- J **Nashville's 2nd year at First Tennessee Park (2016) was not as successful as the first. Total attendance fell 61,488, which was the 2nd biggest loss (Sacramento), among U.S. teams. The average per date decline of 866 was 2nd worst among U.S. teams (Staten Island). But the total 504,060 was still 7th best in team history, and the average per date of 7,099 was 2nd best since 1990. The Sounds had 14 sellouts.**
- J **In 2015, Nashville moved to a new park, and had the biggest gain among U.S. teams in total attendance (up 241,587), and in average per date (up 3,056). Only Yucatan of the Mexican League had a better increase in those 2 categories. The Sounds drew 565,548, averaging 7,965 per date, with 19 sellouts. Until 2017, that had been their highest Class AAA attendance. In 1990, they drew 556,250, but attendance had not reached 420,000 since 1993.**
- J **Nashville's old highs were in 1980, when they drew a Minor League high for that season 575,676 (8,180 per date) in the Class AA Southern League, at Herschel Greer Stadium. Average per date was 8,343 in 1980. The Sounds were the first Class AA team to draw 500,000, doing it each year from 1979 through 1982. In 37 years at Greer Stadium, they drew 14,453,823, including playoffs, in 2,613 dates, averaging 5,532 per date. The final game at Greer drew 11,067, which was the largest there since 2007, and the first sellout since 2010. First Tennessee Park, like Greer Stadium, has a guitar-shaped scoreboard in recognition of Nashville's role as 'Music City.'**
- J **San Antonio joins the Pacific Coast League as the Colorado Springs Sky Sox move to the Alamo City in 2019. The Texas League team that played in San Antonio relocates to Amarillo, but they leave their name, the Missions, behind for the new Class AAA team.**
- J **Attendance in San Antonio has topped 300,000 in each of the last 4 Texas League seasons, and been above 270,000 every year since 1994, when Nelson Wolff Municipal Stadium opened. 1994 was the record-high attendance season in San Antonio with a total of 411,959, averaging 6,149 per date. That year, San Antonio also had a team in the independent Texas-Louisiana League. It drew 25,204, the lowest total in that league. The pre-1994 high was 295,103 in 1946. From 1922 through 1993, the only seasons above 200,000 were 1946, 1949, and 1972. The last season with attendance under 100,000 was 1979.**
- J **San Antonio first joined the Texas League in 1888, and had been a member of that league since 1907, except for 1943-1945 and 1965-1967, when there was no pro baseball in that city. They hope to build a new ballpark in the near future.**
- J **A historic note: In 1946, the San Francisco Seals of the P.C.L. drew a then-Minor League record 670,563. That season mark was not topped until 1982, when Louisville drew 868,418. The Seals also topped 600,000 in 1947 and 1948. Buffalo holds the current Minor League season attendance record of 1,188,972 (1,240,951 if playoff games are included), set in 1991.**

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PACIFIC COAST LEAGUE (AAA)** - continued

In 1998, 6 teams were moved from the American Association (no relation to the current independent league with the same name) to the Pacific Coast League. The league record for average per date was set in both 2007 and 2006.

PACIFIC COAST LEAGUE YEARLY ATTENDANCE

Year	# of Teams	Total Attendance	# Change vs. Previous Year	% Chg. vs. Prev. Year	Average per Date	# Change vs. Previous Year	% Chg. vs. Prev. Year
2019	16						
2018	16	6,921,810	(228,658)	(3.2)	6,368	(174)	(2.7)

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS

MEXICAN LEAGUE (16 teams – 114 game schedule – 57 games each in separate Spring and Summer Seasons)
RECORD HIGHS: League – 4,591,286 (1979); Team – 989,454 – Monterrey (2006)

- J This league, which was founded in 1925, does not have any Major League Baseball farm teams, but has been an NAPBL Minor League member since 1955.
- J The Mexican League played a unique split-season schedule in 2018. There was a 57-game Spring season, which began on March 22, and ended on May 28. This was followed by a full set of playoffs. The 57-game Summer season ran from July 3 through September 8, and it too, was followed by a full set of playoffs. Other leagues play split seasons, but they only have one set of playoffs, which take place in September.
- J Both the Spring regular season and Spring playoffs drew better than the Summer regular season and Summer playoffs. In the Spring regular season, total attendance was 2,096,638 in 434 dates, averaging 4,831 per date. The Summer regular season drew 1,675,165 in 428 dates, an average of 3,914 per date. The average per date for the Summer regular season was 917 (19.0%) lower than the average per date for the Spring regular season. The league had 10 lost dates during the Spring season, and had 27 lost dates in the Summer season.
- J The Spring playoffs drew 477,163 for 41 games, an average of 11,645 per game. Summer playoff games drew 345,112 for 42 games, an average of 8,217 per game. Since not all the same teams were in each set of playoffs, the Spring vs. Summer playoff comparison, has less meaning than the regular season comparison.
- J 5 teams had a higher average per date in the Summer season than in the Spring, led by Puebla, which drew 728 per date more in the Summer season than in the Spring season. 11 teams had a lower average per date in the Summer season than in the Spring. Monterrey averaged 12,878 in the Spring, but only 7,616 in the Summer, a decline of 5,262. Monterrey has very hot summers, so that may be a factor. Yucatan drew 3,075 per date less in the Summer than in the Spring. Tabasco averaged less than half of its Spring figure in the Summer season.

The table below lists each team's 2018 Spring and Summer attendance:

	SPRING	SPRING	SPRING		SUMMER	SUMMER	SUMMER
Team	# of Dates	Total Attendance	Average per Date		# of Dates	Total Attendance	Average per Date
Aguascalientes	29	64,059	2,209		23	35,236	1,532
Campeche	24	48,008	2,000		27	23,088	855
Cancun (Quintana Roo)	24	81,365	3,390		30	84,100	2,803
Dos Laredos	29	96,962	3,344		26	94,706	3,643
Durango	24	74,414	3,101		26	81,704	3,142
Union Laguna	28	85,886	3,067		27	91,045	3,372
Leon	26	74,710	2,873		28	65,117	2,326
Mexico City	29	97,709	3,369		22	57,476	2,613
Monclova (del Norte)	26	169,796	6,531		29	174,487	6,017
Monterrey	26	334,827	12,878		30	228,469	7,616
Oaxaca	25	60,823	2,433		28	68,971	2,463
Puebla	27	63,595	2,355		26	80,149	3,083
Saltillo	28	146,081	5,217		29	128,721	4,439
Tabasco	30	102,970	3,432		24	27,617	1,151
Tijuana	30	303,703	10,123		27	252,668	9,358
Yucatan	29	291,730	10,060		26	181,611	6,985
TOTAL	434	2,096,638	4,831		428	1,675,165	3,914

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MEXICAN LEAGUE** - continued

-) The rest of this Mexican League section will only use 2018 combined Spring/Summer figures to compare 2018 attendance with attendance from other seasons.
-) Los Tecolotes de Dos Laredos (Owls of the Two Laredos) replaced Veracruz in 2018. This team split its schedule between Nuevo Laredo, Mexico, and Laredo, Texas, U.S.A.
-) Mexican League attendance was down 270,802 (6.7%) to 3,771,803 in 2018, and average per date fell 530 to 4,376. It was the largest total attendance and average per date decline of any league in 2018. The league played a 114-game schedule (2 separate 57-game seasons) in 2018, compared to a 111-game schedule in 2017. There were 38 more dates played in 2018 vs. 2017 due to the schedule change, and also because of just 37 lost dates, compared to 58 lost dates in 2017.
-) In 2016, this league had the only total attendance increase among the 15 NAPBL leagues. In 2015, the Mexican League had the worst declines among NAPBL leagues in total attendance and average per date.
-) The 2017 total of 4,042,605 was the highest for the league since 1979. Average attendance per team of 252,663 was the highest since 1967, and the 6th best (1963-67, led by 269,928 in 1964), since this league joined the NAPBL in 1955. Average per date of 4,906 was best since at least 1991. Average per date prior to 1992 is not available.
-) 2018 was the 8th straight year with average attendance above 4,300. The league didn't reach 3,700 per date from at least 1992 through 2003. Total attendance has topped 3 million in all but one season since 2000.
-) 6 of the league's 15 teams that played in the same market in 2018 as in 2017 had gains in total attendance, while 4 of these teams were up in average per date.
-) The 15 returning teams had a combined total attendance decline of 310,799 (8.0%), and their average per date was 4,436, down 637. Dos Laredos drew 191,668 in 2018, averaging 3,485 per date. Veracruz, the city it replaced, drew 151,671 in 2017, averaging 2,661 per date.
-) Playoffs continue to be a big event in this league. The 2018 Mexican League combined Spring and Summer playoffs drew 822,575, averaging 9,911 per game. 30 of the 83 games drew over 10,000, led by 7 sellout crowds of 21,909 at Monterrey. 23 of 37 semi-final and finals games drew over 10,000. The 18 playoff games in Monterrey attracted 332,817, an average of 18,490 per game. Attendance at 66 Mexican League playoff games reached 5,000. Only 15 of 201 playoff games in all other leagues, including the independents, drew at least 5,000. The 2017 Mexican League playoffs averaged 12,180 per game. In 2016, the Mexican League playoffs averaged 12,682 per game. The playoffs averaged 9,447 per game in 2015, 8,950 in 2014, and 10,149 in 2013.
-) League-wide, 2013 through 2017 were exceptions, but huge yearly attendance swings often take place in this league. In 2009, there was a 955,395 (23.7%) dip in total attendance. It fell 11.8% in 2010, rose 22.4% in 2011, and rose 14.8% in 2012.
-) Individual Mexican League teams have very often made the yearly listing of teams with the 10 biggest increases or decreases in total attendance. Since 2007, Mexican League teams have accounted for 99 of the 240 teams (41.3%) on these lists, which have 20 teams yearly. The Mexican League has had 16 of the 136 full-season NAPBL teams (11.8%) in all of these seasons, except 2011, when it had 14 teams.

OF MEXICAN LEAGUE TEAMS WITH YEARLY TOP 10 NAPBL TOTAL ATTENDANCE GAINS OR DECLINES

Year	# of Teams in Top 10 Gains	# of Teams in Top 10 Declines	Year	# of Teams in Top 10 Gains	# of Teams in Top 10 Declines

2008	7	3	2014	1	2
2009	3	7	2015	3	5
2010	2	5	2016	5	4
2011	8	0	2017	4	4
2012	5	4	2018	4	6

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MEXICAN LEAGUE** - continued

- J In 2018, Mexican League teams accounted for: 4 of the 8 NAPBL teams with the highest numerical gains in total attendance and 2 of the 3 best numerical increases in average per date; 6 of the 10 teams with the worst total numerical declines, and 8 of the 11 worst numerical declines in average per date; 4 of the 10 best percentage gains in total attendance, and 2 of the top 5 percentage increases in average per date; 3 of the 4 worst percentage losses in total attendance, and 4 of the 9 worst percentage decreases in average per date.
- J **The Monterrey Sultanes had the Minor Leagues' highest average per date (10,059, down 1,516) in 2018. It was the 8th time in the last 13 seasons that they've led the Minors in average per date. The Sultanes have topped 10,000 in average per date for the past 3 seasons, in 6 of the last 7 years, and 8 times since 2006. Their average per date has surpassed 8,000 in 16 seasons going back to 1998. *However, their decline in average per date was the 3rd worst of all Minor League teams in 2018.* 19 dates drew over 10,000, with 12 dates reaching 15,000.**
- J Total 2018 attendance in Monterrey was 563,296, down 96,495. That was the 6th best total in the Minors, but also the 3rd biggest decrease of 2018. It was the 7th straight year, and the 12th time since 1998, that the Sultanes have reached 500,000. 18 playoff games in Monterrey averaged 18,490 per game, with 7 sellout crowds of 21,909.
- J In 2018, Monterrey hosted a 3-game series between the Dodgers and Padres. It drew a combined total of 65,116. In 2019, the Diamondbacks and Rockies will play a 2-game Spring Training series there. Then, in the regular season, Monterrey will host the Reds and Cardinals on April 13 and 14, and the Angels and Astros on May 4 and 5.
- J **In 2017, Monterrey again had the best total attendance and average per date in all of Minor League Baseball. They drew 659,701 in 57 home dates, averaging 11,575 per date. Attendance topped 10,000 at 32 dates, reached 15,000 at 18 dates, led by an Opening Day crowd of 29,734. The total was down 30,514. *Average per date was down 1,208, the largest 2017 vs. 2016 decline of any team.* The 5 playoff games in Monterrey each drew at least 17,000, with a high of 23,176.**
- J **2016 was a great attendance season for Monterrey. They led all of Minor League Baseball in total attendance, average per date, increase in total attendance, and increase in average per date. Monterrey drew 690,305 (12,783 per date), in just 54 dates. (There were 3 lost dates.) Attendance topped 10,000 at 36 dates, was over 15,000 at 16 dates, and 8 dates drew over 20,000. 4 post-season games also drew over 20,000. Sultanes' total attendance rose 173,070, and average per date was up 3,379. In addition, the Sultanes had the 2nd best percentage gains in total attendance (33.5%), and in average per date (35.9%).**
- J Some other examples of the wild attendance fluctuations in Monterrey's recent history: In 2006, they drew an all-time league record 989,454 in only 55 home dates, an average of 17,990 per date! Those were the top figures in the Minors in 2006, and the biggest crowds since Buffalo topped one million in 1993. No team has drawn better since then. Sultanes' attendance was up 556,293 from 2005, by far the largest increase of any Minor League team. But in 2007, Monterrey's attendance was sliced in half, falling 497,826, by far the biggest decline in all of professional baseball, including the Major Leagues.
- J In 2008, Monterrey's attendance swung back up. The Sultanes drew 658,491, which was 3rd best in the Minors. The gain of 166,863 was the largest of any Minor League team. Monterrey averaged 12,424 per date, and was the only team whose average exceeded 10,000. But in 2009, they suffered a 258,181 loss, the biggest drop of any Minor League team. In 2010, Monterrey drew under 400,000 for the first time since 1996. The Sultanes drew 430,420 in 2011, leading the league in attendance. Their 2012 attendance of 645,302 led all of the Minors.
- J In 2014, Monterrey had the biggest total attendance gain (96,650) among teams playing in the same ballpark in both 2014 and 2013. They had the 4th best increase in average per date in 2014, and their average per date of 11,856 was the best in the Minors. The Sultanes were the only team to average more than 10,000 per date in 2014 or 2013. Their total attendance of 687,642 was just 73 short of the highest 2014 NAPBL total achieved by the Charlotte Knights.
- J But in 2015, Monterrey had the biggest decrease in the Minor Leagues, down 170,407. Average per date for the Sultanes declined by 2,472, which was the 2nd worst decrease among NAPBL teams. Monterrey's average per date of 9,404 was still the 2nd best in the Minor Leagues.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MEXICAN LEAGUE** - continued

- J **Puebla** is another team that has had significant changes in attendance recently, though not in 2018. Total attendance was 143,744, down 9,179, despite 5 more dates. Average per date dropped by 474 to 2,712.
- J In 2017, Los Pericos (Parrots) drew 152,923, down 75,721. Average per date fell 1,128 to 3,186. This was the worst total attendance loss of any NAPBL team in 2017, and the 2nd worst average per date loss. The 33.1% dip in total attendance was the 2nd worst percentage loss in the NAPBL, and the 26.1% dip in average per date was 4th worst. 2016 was a big comeback season for Puebla. Total attendance rose 116,393 to 228,644, and average per date was up 2,023 to 4,314. Those were the 2nd best gains in these categories in the Minors. Los Pericos also posted the best Minor League percentage gains in total attendance (103.7%), and average per date (88.3%).
- J In 2015, Puebla's total attendance was cut by more than half, from 240,409 in 2014 to 112,251 in 2015. The decline of 128,158 was the 2nd largest among NAPBL teams. Their average per date dip of 2,718 to 2,291 was the worst in the NAPBL in 2015. The Parrots had 7 lost dates in 2015, the most in the league. From 2011 through 2014, Puebla topped 240,000 each year. They had reached this level just once in their 36 previous seasons. The all-time highs for Puebla were set in 2011, when they drew 363,011, averaging 7,118 per date.
- J **Los Leones (Lions) de Yucatan** had another statistical oddity in 2018. Total attendance rose 21,179 to 473,341, the 8th best gain in the NAPBL. But average per date fell by 622, to 8,606. They played 6 more dates than in 2017. It was the 4th straight year with total attendance above 450,000, and average per date above 8,600. There were 15 dates that drew at least 10,000.
- J A 2017 statistical oddity for Yucatan due to 6 fewer dates than in 2016: Los Leones had a total attendance decline of 48,677, which was 5th worst among NAPBL teams. Yet they set a team record (since at least 1991) in average per date for the 3rd straight year. Their average per date was 9,228, up 122. Total attendance was 452,162.
- J Yucatan followed-up a great 2015 season with another outstanding performance in 2016. The Lions drew 500,839. This was down 27,512, in good part, due to 4 fewer dates. But average per date rose 151 to 9,106. It was 2 straight years above 500,000 in Yucatan, after reaching 300,000 just once (2008) between 2004 and 2014. In 2015, the Lions posted a 302,947 gain, the best increase of any Minor League team. Average per date was 8,955, up 4,355, which was also the highest average per date increase of the year. The Lions drew 528,351 to lead the league in total attendance. This total was their highest since 1982, the team's 2nd best total ever, and the first time above 400,000 since 2001. The Lions played 10 more dates in 2015 than in 2014.
- J **Los Bravos (Braves) de Leon** drew 139,827, up 31,157. It was the 4th best total in the 26 years that Leon has listed attendance. Average per date fell 128 to 2,589. They had 14 more dates than a year earlier. Prior to 2017, this city last had a team in 24 seasons from 1960 through 1991.
- J The **Durango Generales** (Generals) played 6 more dates than in 2017. But total attendance fell 24,000 to 156,118, and average per date declined 972 to 3,122. It was the 8th worst numerical loss in average per date in the NAPBL, and the 9th biggest percentage decline (23.7%) in that category. Before 2017, Durango's last team played in 12 seasons between 1956 and 1979.
- J **Mexico City** had the 6th best NAPBL total attendance increase in 2018, and the 3rd best average per date gain, numerically. On a percentage basis, the 21.6% gain in total attendance was the 6th best, and the 21.6% gain in average per date was 5th highest. Total attendance was up 27,514 to 155,185, and average per date rose 540 to 3,043. This despite 6 lost dates. Los Diablos Rojos (Red Devils) had topped 300,000 in attendance 19 times between 1957 and 1979. They led all of Minor League Baseball in attendance in 14 of those years. The 1967 team was the only Minor League team to draw at least 500,000 between 1950 and 1978. But since 1980, the Red Devils have reached 300,000 just twice. Their record of 536,743 set in 1967 has never been broken, and is the longest standing team record-high among current Major League and Minor League teams. Los Diablos Rojos expect to open a new ballpark in 2019.
- J **Saltillo** had a 7,955 gain to 274,802, with 5 more dates. The average per date fell 311 to 4,821. Los Saraperos (Sarape Makers) had the 4th worst NAPBL average per date decline in 2016. In 2015, the Sarape Makers posted an NAPBL 5th worst decrease of 71,079 in total attendance to 305,062, and a 4th worst decline in average per date (down 1,210) to 5,756. They had topped 500,000 each year from 2000 through 2007, with a high of 613,551 in 2001. Average per date surpassed 10,000 each year from 2000 through 2006.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MEXICAN LEAGUE** - continued

- J **Aguascalientes** drew better than 300,000 in 1977 and 1978. But they've reached 200,000 just 4 times in the 31 seasons they've had a team since then. Los Rieleros (Railroadmen) drew just 99,295, down 97,144 in 2018, and averaged 1,910 per date, down 1,662. These were their lowest figures since 1999. There was no team in Aguascalientes from 2000 through 2003, and from 2008 through 2011. There were 3 fewer dates played in 2018. The 2018 numerical total and average per date losses were 2nd worst to New Orleans in 2018. Los Rieleros had the worst total percentage decline (49.5%), and 2nd worst average per date percentage dip (46.5%) in the NAPBL.
- J **Campeche** drew a 2018 Mexican League-low 71,096, down 62,645. Average per date fell 1,511 to a league-low 1,394. These were the 7th worst total loss, and the 4th worst average per date loss, in the NAPBL. The 46.8% drop in total attendance was the 2nd worst percentage decrease, and the 52.0% reduction in average per date was the largest percentage decline. There were 5 more dates than in 2017, but 4 dates were lost to weather. Los Piratas (Pirates) drew a team-record-high 287,749 in 1983. Their only year above 200,000 since then was 2008.
- J **Los Toros de Tijuana** (Bulls) drew 556,371, down 52,448, and averaged 9,761 per date, down 1,111. It was the 8th best total, and 2nd best average per date among NAPBL teams in 2018. But Tijuana also had the 9th worst decline in total attendance, and the 6th worst average per date decrease. It was their 3rd straight year above 500,000, and the 5th year in a row with average per date over 7,700. 23 dates topped 10,000. 6 dates drew 15,000+.
- J In 2017, Tijuana drew a team record-high 608,819, topping 400,000 for the 7th time in the last 10 seasons (including 2018) that this team has played. The old record-high was set in 2004. Total attendance rose 92,318, the best total gain of any NAPBL team. 2017 average per date was 10,872, which was the 2nd best in the Minors. The average per date was up 1,481, which was the 2nd best increase (to Nashville) in the Minors in 2017. In 2014, Tijuana's total attendance was 298,658 higher, and their average per date was 5,591 higher than the franchise drew in 2013 when it played in Minatitlan. Prior to 2014, Tijuana had a team from 2004 through 2008. The Toros drew 548,863 in 2004, and surpassed 450,000 in 2006 and 2007.
- J A team that had played in Veracruz moved, and became a team shared not only by two cities, but by two countries. **Los Tecolotes de Dos Laredos** (The Owls of the Two Laredos) played 27 games in Nuevo Laredo, Mexico, and 30 games in Laredo, Texas. Attendance for the games in Texas was about double the attendance for the games in Mexico. The total of 191,668 was up 39,997, and the average per date of 3,485 was up 824 from what Veracruz drew in 2017. This was the best total for a team in Nuevo Laredo since 1979, and the best total ever for a Laredo team. An independent American Association team in Laredo drew a then-record-for-Laredo 187,845 in 2012.
- J **Veracruz** (Los Rojos de Aguila – Red Eagles) attracted 151,671 in 2017, their final season before moving to Los Dos Laredos, averaging 2,661. Veracruz fielded a team in 48 seasons since 1955. Attendance topped 200,000 only in 1956, 1960, 1961, 1964, 2008, and a record-high 245,057 in 2012.
- J **Union Laguna** had a 73,665 decrease to 176,931, the 4th worst NAPBL total decline. Average per date fell 1,179 to 3,217, the 5th worst average loss. These were the lowest total and average figures for this team since 2002. The 2018 average per date was down 2,178 from 2016. Until 2018, total attendance surpassed 250,000 for 5 straight years, after reaching this level just 5 times in this city's previous 35 years in the league. Los Algodoneros (Cotton Makers) have topped 200,000 in 11 of the last 14 seasons, after doing it just once in the previous 20 years.
- J **Monclova (del Norte)** topped 300,000 for the 8th straight year, and averaged over 5,300 for the 9th year in row. But 2018 total attendance fell 48,512, and average per date was down 882 to 6,260. In 2017, they drew 392,795. That was the team's highest total since 1998, and the 8th best total gain in the Minors. Los Acereros (Steelers) drew 300,000+ only 5 times between 1974 and 2010. Prior to the current streak, Monclova drew below 300,000 for 9 years in a row. 2017 average per date rose 719, which was the 7th best gain in the Minors, to a team record-high 7,142. The old record was 6,978 per date in 1998.
- J **Oaxaca** has reached 200,000 only 3 times in 23 years. Los Guerreros (Warriors) drew 129,794, in 2018, down 11,423, averaging 2,449 per date, up 14, with 5 fewer dates. In 2017, the total rose 53,011, which was the 5th best gain in the Minors. The Warriors' 2017 average per date increase of 739 was the 6th best of any team. The 60.1% gain in total attendance, and the 43.6% gain in average per date were the 2nd highest percentage increases (to Lakeland) in the NAPBL. This was quite a turnaround from 2016 when Oaxaca had the 5th worst total attendance decline, and their 1,021 loss in average per date was the worst of any Minor League team, including independents.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MEXICAN LEAGUE** - continued

- J **Los Olmecas de Tabasco** had a good recovery in 2018. Total attendance was up 58,758 to 130,587. Average per date increased 981 to 2,418. There were 4 more dates. Both the total and average per date numerical gains were 2nd best in all of the Minor Leagues to Augusta, who opened a new park in 2018. The 81.8% increase in total attendance, and the 68.3% in average per date were both the best percentage increases in the NAPBL in 2018.
- J In 2017, Tabasco dipped an NAPBL 4th worst 49,183 to 71,829. Their average per date was down also a 4th worst 846 to 1,437. It was the lowest total ever for the Olmecas, who began play in 1977, and the lowest average per date since at least 1991. The percentage declines of 40.6% in total attendance, and 37.1% in average per date, were the worst of any NAPBL team in 2017. Tabasco drew 441,835 in 1979, and topped 200,000 in 1980. The Cattlemen have not reached 200,000 since.
- J **Cancun (Quintana Roo)** drew 165,465, up 18,049. They had 5 more dates than in 2017. Average per date was 3,064, up 56. Los Tigres (Tigers) have drawn at least 200,000 just once (2007) in their 22-year history, going back to 1996. The team didn't operate in 2006. Average per date was less than 3,000 in each of the first 9 seasons, but has topped 3,000 in 11 of the last 13 years.
- J The Mexican League has the lowest growth rate of any NAPBL league when comparing 2018 average attendance per team with both 1969 and 1979. Average Mexican League attendance per team is up 2.7% vs. 1979, and is down 4.5% vs. 1969. No other NAPBL league had a decrease or a smaller 2018 increase in average attendance per team vs. 1979 or 1969. The Florida State League had the lowest gain vs. 1979, up 18.5%, and also the lowest gain vs. 1969, up 121.1%. But the 2018 Mexican League average attendance per team vs. 1989 is up 67.0%, which is better than 5 other leagues. The average per team vs. 1999 increased 31.2%, which is a better growth rate than 11 other NAPBL leagues. Only the Texas, Pioneer, and South Atlantic Leagues had better average per team growth vs. 1999 than the Mexican League. The section starting on page 177 has more details about Minor League Baseball's growth in average attendance per team in the past 49 years.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**EASTERN LEAGUE (AA)** (12 teams -- 140 game schedule)

RECORD HIGHS: League – 3,966,241 (2010); Team – Akron - 522,459 (1999)

- J The Eastern League had the best total attendance gain in all of Minor League Baseball in 2018. Total attendance rose 44,661 (1.2%) to 3,767,671, the 20th straight year above 3.4 million, and the highest total since 2012. This increase occurred despite awful April weather. 58 Eastern League games in April began with temperatures of less than 50 degrees, and at 17 of these games, the gametime temperature was below 40. The league had 54 lost dates in 2018, compared to 59 in 2017, and played 6 more dates than in 2017.
- J 2018 league average per date was 4,793, up 20, the highest average since 2011. 7 of the 12 teams had gains in total attendance, and 7 were up in average per date. New Hampshire had the league's best gain in both total and average per date, while Reading suffered the worst losses in both categories. Hartford, New Hampshire, Portland, Reading, Richmond, and Trenton all averaged over 5,000 per date.
- J 2018, 2011, 2010, and 2009 were the only years in Eastern League history that each team drew over 200,000.
- J A big part of the 2017 and 2016 attendance story for the Eastern League was what happened to the Hartford Yard Goats. This team had played in the neighboring city of New Britain through 2015, and a new ballpark was being built for them in Hartford. But there were many construction delays, and the team didn't play any games there in 2016. Construction resumed after the 2016 season, and the ballpark opened in 2017.
- J The Yard Goats couldn't return to their park in New Britain for the 2016 season, since a team from the independent Atlantic League moved in there. So they had to play all of their scheduled home games in other Eastern League ballparks, and in Norwich, home of the New York-Penn League Connecticut Tigers. They had just 52 'home' dates with recorded attendance, and drew 41,659, an average of 799 per date. In 2015, they drew 267,377, averaging 4,051 per date, in New Britain. Only 13 of the 52 dates in 2016, where the Yard Goats were the 'home' team, attracted at least 1,000. There were 8 dates with official attendance listed as under 100, with a low of 9, for a game at New Hampshire. Hartford played 5 dates where no fans were admitted to the ballpark. Those games are not included in the list of number of dates played.
- J The Hartford situation resulted in a 2016 total attendance decline of 335,652 (8.9%) for the Eastern League. Exclude Hartford, and the decline was 109,844 (3.1%). 2016 average attendance per date was 4,259, which was the lowest since 1994, and down 321 from 2015. If Hartford is excluded from the 2016 figures, the league's average per date was 4,499. In 2015, the league, including New Britain, averaged 4,580. Exclude New Britain, and the 2015 average per date was 4,626. The league's record-high average per date is 4,904, set in 1998.
- J In 2017, Hartford moved into their new park, and they were a big attendance success. It led to an increase of 298,497 (8.7%) in total attendance for the Eastern League, to 3,723,010. Average per date was up 514 to 4,773. These were the largest gains for any minor league in 2017. If Hartford is excluded, the remaining 11 teams had a combined total attendance decline of 55,130 (1.6%), but an average per date gain of 175 to 4,674.
- J League attendance surpassed 3 million for the 22nd straight year in 2018. It was the 17th time above 3.7 million. Average per date topped 4,000 for the 24th year in a row. It was above 4,700 for the 12th time.
- J The league had averaged at least 300,000 per team for 19 straight seasons through 2015. But Hartford caused this average to fall to 285,376 in 2016. Excluding Hartford, the 2016 average per team was 307,540, but that was still the lowest figure since 2003. The league's average per team topped 100,000 each year from 1946 to 1949, but didn't reach this figure again until 1983. An average of 200,000 per team was first achieved in 1994. The following year, the average per team reached 300,000. It was 310,251 in 2017, and 313,973 in 2018.
- J **New Hampshire** (Manchester) had a league-best 34,991 increase in total attendance to 319,099, with 3 more dates. This was the 3rd best numerical gain in total attendance among NAPBL teams in 2018, and the 9th best (12.3%) percentage gain. The Fisher Cats have topped 300,000 in 12 of the last 13 years. Average per date rose 330 to 5,065, which was the 7th best growth in the NAPBL, and the best in the Eastern League. It was the 10th time in the past 12 seasons with an average of better than 5,000 per date. The Fisher Cats have drawn 5,048,466 in 1,010 dates in their 15-year history, averaging 4,998 per date.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**EASTERN LEAGUE** - continued

- J 7 games that began with a temperature of less than 50 degrees in April, 2018 hurt **Reading** at the gate. Total attendance fell 23,188 to 388,510, and average per date was down 341 to 5,713. These were the lowest figures for Reading since 1996, and the biggest declines in the Eastern League in 2018. 35 dates drew at least 6,000.
- J 2017 league attendance leader Reading was back over 400,000 in 2015, 2016, and 2017, after their streak of drawing at least 400,000 for a Class AA record 16 straight seasons ended in 2014. Trenton topped this level each year from 1995 through 2008, and Frisco of the Texas League has done it for the past 16 years. Since 2002, Reading has led the league in total attendance 11 times and also had the league's best average per date 11 times. In 2019, Reading celebrates its 53rd straight season as a Phillies affiliate, the longest current affiliation of any team.
- J Baseball is very popular in Reading, despite a tough local economy, and a ballpark built in 1951. The Class AAA Lehigh Valley IronPigs, who have topped 550,000 in each of the last 11 years, play in nearby Allentown. (These 2 teams have the same ownership.) Other Minor League teams in nearby Trenton, Lancaster, and Harrisburg all draw pretty well, and the Philadelphia Phillies are just 60 miles away. An indoor arena and a minor league hockey team joined the Reading sports scene in 2001. There has been a huge growth in Reading's attendance since the early 1980's. The figures in bold are the years when Reading led the Eastern League in total attendance. (Attendance in the table for 1996, 1998, and 2000 includes an exhibition game with the Philadelphia Phillies.)

READING ATTENDANCE – 1984-2018

Year	Attendance		Year	Attendance		Year	Attendance		Year	Attendance
1984	67,333		1993	313,083		2002	486,570		2011	456,957
1985	76,819		1994	338,249		2003	465,717		2012	426,623
1986	83,506		1995	383,984		2004	478,257		2013	436,134
1987	100,895		1996	384,151		2005	469,105		2014	394,458
1988	144,107		1997	398,182		2006	460,216		2015	417,010
1989	178,734		1998	423,336		2007	466,385		2016	420,320
1990	204,240		1999	448,367		2008	436,789		2017	411,698
1991	250,610		2000	461,848		2009	460,791		2018	388,510
1992	287,078		2001	458,585		2010	456,466			

- J **Richmond** led the league in average per date in 2018 (6,198, up 164). They had 6 lost dates. Attendance reached 7,000 at 24 dates in 2018. Total attendance was 396,686, up 10,501. The Flying Squirrels have topped 415,000 in 6 of their 9 seasons in the Eastern League, and led the league in total attendance 4 times. The total has been above 385,000 every year. Average per date has been over 6,000 in 8 of 9 seasons. The Class AAA Richmond Braves, who moved to Lawrenceville, Georgia in Gwinnett County, an Atlanta suburb, after the 2008 season, surpassed 400,000 for 15 straight years from 1989 through 2003. In 6 of those seasons, their attendance exceeded 500,000. Total attendance has been above 300,000 in every season, but one (2008), since The Diamond opened in 1985. Plans for a long-awaited new ballpark in Richmond may soon be approved.
- J Richmond had been the Class AAA affiliate of the Atlanta Braves from 1966 through 2008. Moving their AAA team to a suburb of Atlanta provided logistical benefits to the Braves, such as making it easier to call up or send down players from one team to another. But from an attendance standpoint, Richmond has been a much better draw than Gwinnett. From 2010 through 2018, the Richmond Flying Squirrels have drawn 3,793,672 in 603 dates, averaging 421,519 per season, and 6,291 per date. The Gwinnett Stripers have drawn 2,545,772 in 620 dates in these 9 seasons, averaging 282,864 per season, and 4,106 per date. In these 9 seasons, Richmond has averaged 2,185 (53.2%) higher than Gwinnett in average per date.
- J **Trenton's** attendance rose 2,284 to 351,297, and average per date was down 114 to 5,019. They were the only team in the league with no lost dates in 2018. 5 games in April had a gametime temperature of under 50 degrees. The Thunder drew above 360,000 from 1995 through 2014, and were over 400,000 for 14 straight years from 1995 through 2008. They've drawn over 345,000 in all seasons since 2008. Average per date has topped 5,000 each year except 2015, since the team began play in 1994.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**EASTERN LEAGUE** - continued

- J **Bowie** drew 230,347, (3,438 per date), the lowest attendance in their 26-year history. Total attendance fell 4,442, and average per date was down 15. Bowie has not reached 300,000 since 2005, after surpassing that figure in the 11 prior years, including 5 seasons (1995, 1997-2000) with attendance above 400,000. Average per date topped 5,000 each year from 1995 through 2003, but not since. It was above 4,000 per date from 1993 through 2007.
- J **2018 was a record-setting year for the Hartford Yard Goats. They led the Eastern League in total attendance, drawing 408,942, up 13,746. Average per date was 6,014, up 202. These were record-highs not only for this franchise (including its years in New Britain), but for any Minor League team in Connecticut. The old records were 395,196 in total attendance (2017), and 5,867 in average per date (2011 in New Britain).**
- J **The first 8 games of 2018 began with temperatures below 50 degrees. But the Yard Goats still had 47 sellouts, including a streak of 19 in a row, that drew above their park's seating capacity of 6,064, and 28 full-capacity crowds of 6,850. Attendance averaged 99.2% of the seating capacity of Dunkin' Donuts Park in 2018, and the Yard Goats have sold out 88 of the 136 dates played there.**
- J Since their ballpark was not finished in time for the 2016 season, and they couldn't go back to New Britain because that park had become home to an independent Atlantic League team, the Yard Goats had to play all their games on the road that year. But when the Yard Goats finally got home, they were an instant attendance success. In 2017, they drew 395,196, averaging 5,812 in their new park. That was 353,627 better in total attendance, and 5,013 per date more, than they drew on their home-away-from home journey in 2016. The 2017 Yard Goats had 41 sellouts, including 26 of the final 31 dates of the season. Compared to their 2015 season in New Britain, 2017 total attendance was up 127,819, and average per date had a 1,761 gain.
- J In the current Hartford team's 20 seasons at New Britain Stadium, they drew 5,686,765 in 1,312 dates, averaging 234,338 per season, and 4,334 per date. From 1983 through 1995, they played at neighboring Beehive Field, drawing 1,435,260, an average of 110,405 a year.
- J New Britain's attendance had surpassed 300,000 for 11 straight years through 2014, and had generally more than doubled since the early years of New Britain Stadium, which opened in 1996. From 1983 through 1999, New Britain never drew above 182,000. The Rock Cats had set a team attendance record 10 times in an 11-year period from 2000 through 2010.
- J Since entering the Eastern League in 1999, **Erie's** attendance has ranged from 197,656 to 246,404. The 2018 total of 205,055 was down 9,339. Average per date fell 146 to 3,204. There were 6 lost dates. 6 of 11 April games began with temperatures of less than 50 degrees, and at 5 of those games, the temperature was in the 30's. Erie averaged over 4,900 each year from 1995 through 1998 in the short-season New York-Penn League. But their highest Class AA average was 3,613 in 2007.
- J **Harrisburg's** total fell 3,629 to 259,243. Average per date was up 5 to 3,988. There were 5 lost dates. The 2018 total was the smallest since the ballpark in Harrisburg was totally rebuilt for the 2010 season. The Senators did top 200,000 for the 31st time in their 32-year history, (2008 was the exception) and again, narrowly missed surpassing 270,000, after doing it for 6 straight years through 2015. Prior to 2010, they had reached 270,000 only in 2001.
- J **Portland's** total attendance declined 9,812 to 346,341, with 10 sellouts, and 26 crowds above 6,000. There were 2 fewer dates in 2018 than in 2017, with 9 lost dates. There were 6 postponements in April, and only 5 games played that month. The Sea Dogs have reached 340,000 in all 25 seasons, including 9 years above 400,000. Average per date has been above 5,000 every year (5,678 in 2018, up 25, the best since 2010), and has topped 6,000 in 9 seasons. They've had 513 sellouts in 1,668 dates in their history, drawing 9,704,924, an average of 5,818 per date. Their season high for sellouts was 48 in 1995.
- J **Altoona's** total attendance rose 2,632 to 297,118. Average per date was up 176 to 4,571, the best since 2008. There were 5 games in April whose gametime temperature was less than 50 degrees. The Curve had topped 300,000 each year from 1999 through 2008, but not again until 2015. They averaged over 5,000 per date from 2000 through 2008.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**EASTERN LEAGUE** - continued

-) In 2014, **Akron's** team was renamed the Rubber Ducks in recognition of that's city's rubber industry. The rebranding was a big success as attendance rose 55,245 to 350,704, with 12 sellouts. This was the best total in Akron since 2007, and the increase was the 3rd highest among all NAPBL teams. Average per date was up 936, 2nd best among all Minor League teams. That total was up nearly 100,000 from the 256,473 that the team drew in 2012, and average per date increased from 3,772 in 2012 to 5,157 in 2014.
-) Attendance in Akron rose 1,403 in 2018 to 344,754, with 3 more dates. It was the 5th straight year above 340,000. Average per date was down 206 to 4,996. 23 dates drew over 6,000, with 10 sellouts drawing at least 7,699 apiece. 6 April games started in below-50 degree weather. In 22 seasons in Akron, total attendance has reached 300,000 18 times, and average per date has surpassed 5,000 in 16 seasons (1997-2008, 2014-2017). In 2015, the Rubber Ducks won the Larry MacPhail award for top promotional effort in the Minors.
-) Akron's attendance had fallen 7 times in 8 years through 2012. The then-named Aeros drew 522,459 in 1999 to set the Eastern League record. In both 1998 and 1999, the Aeros were the 2nd Class AA franchise to draw 500,000 in a season. Nashville had done it 4 times (1979-1982). 4 Texas League teams have achieved this level more recently--(Round Rock - 2000-2004, Springfield - 2005, Frisco - 2003-2011, and Corpus Christi – 2005-2006). Total attendance in Akron surpassed 400,000 each year from 1997 through 2006, and average per date was above 7,000 in 6 years between 1997 and 2004.
-) **Binghamton** had a nice attendance increase at home, and a very big increase on the road. Was it because Tim Lincecum was on the team? Rumble Ponies' total home attendance was up 29,514 to 220,279, the best total since 2008. The numerical increase was the 5th best in the NAPBL, and the 15.5% percentage gain was 8th best. There were 4 more dates than in 2017, but Binghamton still lost 8 dates in 2018. 7 of 12 April games began in under-50 degree weather, and it was less than 40 degrees at the start of 4 of those games, with lows of 32 and 33 degrees.
-) Average per date was up 264 (9th best gain in the NAPBL) to 3,553, the team's best since they averaged 4,180 in 1992, their first season. This followed an average per date gain of 670 in 2017. On July 20, 2018, the Rumble Ponies drew 7,488, a single game record-high for this club. On the road, Binghamton drew 384,234, up 83,124. Their road average per date was 5,822, up 1,260. Binghamton topped 250,000 in its first season (1992), but has not done it since. A.C. Nielsen ranks Binghamton as the 160th largest (out of 210) U.S. markets in terms of the number of TV households. Jackson, TN, ranked #177, is the only market smaller than Binghamton with a Class AA team. This team was renamed the Rumble Ponies for 2017, in honor of the 6 vintage carousels located in Binghamton. NYSEG Stadium is getting a \$5.1million upgrade for 2019.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**EASTERN LEAGUE** - continued

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTHERN LEAGUE (AA)** (10 teams -- 140 game schedule)

RECORD HIGHS: League – 2,589,072 (1994); Team – Birmingham (with Michael Jordan) - 467,867 (1994)

- J Southern League total attendance fell 77,251 (3.3%) to 2,261,834 in 2018. This league has reached 2 million in attendance every year since 1991. Average per date was down 170 to 3,401. The league topped 3,400 in average per date for the 6th straight year. Since 1992, Southern League average per date has ranged from a low of 3,135 in 1996, to 4,007 in 1994, when Michael Jordan played for Birmingham. The league had 10 more dates in 2018 than in 2017, as there were 34 lost dates, compared to 44 in 2017. The league had 6 April games that began in temperatures of less than 50 degrees. Cold weather isn't usually a problem in this league, but rain can be.
- J 3 teams had increases in total attendance, and 2 teams increased their average per date in 2018. Montgomery had the league's best increase in total attendance, and Pensacola had the best average per date gain. Mississippi had the biggest declines in both total attendance and average per date.
- J Southern League average attendance per team reached 200,000 for the first time in 1991, has remained above that figure ever since, and has been quite stable. The record-high average per team of 258,907 per team was set in 1994, when Michael Jordan played in this league. Low average per team since 1991 was 212,783 in 1991. It was 226,183 in 2018. The old Southern Association topped 200,000 per team each year from 1946 through 1950. Their record average per team was 272,543 in 1947.
- J **Jacksonville's** team name was changed from the Suns to the Jumbo Shrimp for 2017, and they had a very successful season that year in both marketing and attendance. They drew 325,743, averaging 5,171 per date. The total was their highest since 2010, and the average per date was their best since 2008. Total attendance rose 61,342, which was the 2nd best increase among U.S. NAPBL teams in 2017. The 974 average per date increase was the 3rd best among U.S. NAPBL teams.
- J In 2018, Jacksonville drew 317,335, down 8,408, with 6 lost dates. Average per date was 5,037, down 134. It was the 10th time that average per date surpassed 5,000 since 2003. 20 dates attracted at least 6,000. There were 4 crowds of better than 8,700, which were the 4 best-attended games in the entire Southern League in 2018. On July 3, the Jumbo Shrimp drew 11,762, their largest crowd since 2008.
- J Jacksonville led the league in attendance for 9 straight years through 2011. They have a streak of 30 straight years above 200,000, have topped 300,000 in 12 of the last 16 seasons, and reached 400,000 in 2004 and 2006. Attendance in Jacksonville hit 200,000 only once (1962) until 1989, and didn't reach 300,000 in the 58 years with listed attendance until 2003.
- J **Biloxi's** 2018 total attendance was down 6,787 to 160,364, and average per date fell 142 to 2,430. These were the lowest figures in this team's 4 seasons. The Shuckers had 4 lost dates.
- J After moving from Huntsville, AL after the 2014 season, Biloxi had quite an adventure before finally playing their first true home game in June, 2015. Ballpark construction delays forced the team to take a 54 game road trip to start the season. Amazingly, the Shuckers went 33-21 on that trip. They were the designated home team for 12 dates in their old park in Huntsville, 4 in Jacksonville, and 5 at Mississippi, and were credited with the attendance for those games, which drew 27,168, an average of 1,294 per date. The Shuckers played 42 dates in their new, but not totally finished, ballpark in Biloxi. Those games attracted 136,908, an average of 3,260 per date. The uncertainty of when the ballpark would open hurt advance ticket and group sales, and made it hard to plan promotions. Prior to 2015, the Biloxi-Gulfport area last had a Minor League team from 1926 through 1928. It played in the Cotton States League, which disbanded after the 1955 season.
- J **Huntsville (AL)** had drawn just 94,929 in 2014, its final season, the lowest total of any Class AA team. This was the 4th time in 6 seasons that the Stars drew less than 100,000, the 9th straight year below 170,000, and the 11th time in 12 years below 200,000. This followed 14 consecutive seasons above 200,000. The Stars' average per date of 1,460 was the lowest in Class AA in 2014. The Southern League will return to the Huntsville area in 2020 when the Mobile Bay Bears move to a new ballpark in nearby Madison, and will be named the Rocket City Trash Pandas.
- J The all-time record attendance in Huntsville was 300,810, in 1985, which was the team's first season. That year, Huntsville had the 2nd highest attendance of the 26 Class AA teams, topped only by Albany-Colonie of the Eastern League, who drew 324,003. In 1985, 10 Class AA teams drew under 100,000.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTHERN LEAGUE** - continued

- J **Chattanooga's** total attendance rose 4,863 to 214,811. 1999, 2015, and 2017 are the only other years below 220,000 since 1991. The Lookouts have never drawn 300,000 in a season, but have topped 200,000 for 27 straight years. This team had reached 200,000 just 3 times (1946, 1947, 1952) in 66 seasons prior to 1992. Average per date was up 25 to 3,206. Average per date in Chattanooga topped 4,000 from 1993 through 1995, and from 2000 through 2002.
- J **Birmingham's** new downtown ballpark, Regions Field, which opened in 2013, has been a huge hit in design, location, and attendance. The Barons moved back to the city from suburban Hoover, where they had played since 1988. Total attendance rose 192,551 in 2013, by far the biggest gain of any Minor League team. 2013 average per date was 5,669, up 2,665, which was also the best increase, by a very large margin, in the Minors.
- J In 2018, Birmingham led the league with a total of 391,061, down 664. This was the 6th straight year above 390,000. That figure was reached only 3 times in 91 seasons prior to 2013. Total attendance topped 400,000 in 2014, 2015, and 2016, as well as in 1948, 1949, and 1994. The Barons played 2 more dates than in 2017. Average per date was a league-leading 5,751, a decrease of 184. Attendance was above 6,000 at 30 dates. Average per date in Birmingham has topped 5,700 for 6 straight years. From 1988 through 2012, the only year with an average above 5,000 for the Barons was in the Michael Jordan year of 1994.
- J The 2015 league-leading total of 444,639 in Birmingham was the 2nd highest attendance by a Southern League team in the 1964-2018 era. The only higher total for a Southern League team was in Birmingham, in 1994, when Michael Jordan was a Baron. Fans came out in droves to see him. The team drew a league record 467,867 at home, averaging 6,983 per date, and a home/road total of 986,185. The final 1994 home game drew 16,247.
- J Birmingham drew 445,926 in 1948 and 421,305 in 1949, when it played in the old Southern Association. The Barons had topped 250,000 for a Class AA high 24 straight years through 2011. But attendance fell 57,354 in 2012 to 204,269. That was the smallest total this team had since 1987.
- J From 1996 through 2016, and again in 2018, the Barons played one game each year at Rickwood Field in Birmingham. That park was their home from 1910 through 1987, and is the oldest professional ballpark still in use. It was the first concrete and steel ballpark in the Minor Leagues. The largest crowd ever there was 20,074 in 1931 for a playoff game that was pitched by future Major League star Dizzy Dean. The 'Rickwood Classic' attracted 6,028 in 2018, and has drawn 153,366, an average of 6,971 per game, in its 22-year history.
- J **Tennessee** had their 2nd best total and average per date (to 2017) in the 82 years that they've compiled attendance figures. The total was 308,069, down 5,727, with 3 more dates. Average per date declined by 313 to 4,668.
- J In 2017, Tennessee drew a team record-high total of 313,796, up 20,102, and they did it in 5 less dates than in 2016. The old record total was 293,694, set in 2016. Average per date was record-high 4,981, up 662. It was the 6th best U.S. NAPBL average per date gain for 2017. The old average per date high was 4,406 in 2015. The Smokies have drawn at least 240,000, and above 3,500 per date, in all 19 seasons in the Knoxville suburb of Kodak. Prior to 2000, their highest total was 150,396 in 1950, and they topped 100,000 in just 18 of 63 seasons since 1932. In 2014, the Smokies topped 4,000 per date for the first time in team history, and they've done it every year since.
- J **Mississippi** (Pearl, near Jackson) drew 151,352, down 39,293, the 7th worst loss among U.S. NAPBL teams in 2018. Average per date fell 630 to 2,259, which was the 3rd worst U.S. NAPBL decline. These were the lowest figures in the club's 14 seasons, and the biggest declines for 2018 in the league. There were only 3 crowds of 4,000+.
- J **Montgomery** was up 10,162 to 238,538. There were 3 more dates in 2018 than in 2017, with no rainouts. Average per date fell by just 1 to 3,408. The Biscuits averaged over 4,000 per date in their first 7 seasons (2004-2010) but have not hit that mark since. But they've averaged 3,200+ every year, and at least 3,400 each season except 2016. Their total attendance has topped 225,000 in all 14 years, and was above 300,000 from 2004 through 2007.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTHERN LEAGUE** – continued

- J **Pensacola** joined the league in 2012, and was the league leader in both total attendance and average per date that season. The Blue Wahoos (named after a fish that is native to the area) drew 328,147, with 40 sellouts in 68 dates to their beautiful new waterfront ballpark. In 2018, total attendance was 300,002, up 1,894. Average per date increased by 28 to 4,348, and has been above 4,300 in all 7 seasons. Total attendance has surpassed 300,000 in 6 of these seasons, barely missing that level in 2017. Pensacola had been a Minor League city prior to 2012. Their previous NAPBL record attendance was 117,696 in 1947, and an independent team drew 92,468 in 2007.
- J Before relocating, the Pensacola franchise played for 21 seasons in Zebulon, NC, which is east of Raleigh, as the Carolina Mudcats. They drew a record-high 328,207 in 1993, and were also above 300,000 in 1994 and 1995. But their attendance did not reach 300,000 after that. Mudcats' attendance was 255,216 in 2011, their final Southern League season. A Carolina League team moved from Kinston to Zebulon in 2012, and retained the Carolina Mudcats name.
- J **Mobile** had the worst attendance season in its 22-year history, and the weather didn't help, as there were 8 lost dates. The Bay Bears drew team lows in total attendance (69,504, down 23,394) and average per date (1,121, down 377). These were also the lowest 2018 figures in Class AA, and the lowest total for a Southern League team since Orlando drew 61,960 in 2000. The percentage declines of 25.2% in both total attendance and average per date were each the 7th worst in the NAPBL in 2018. It was the 4th straight year with a total of under 100,000, and the 5th year in a row with an average per date of less than 2,000. Mobile drew 332,639 in 1997, which was the first season for this current franchise. Attendance has not reached 300,000 since then. Average per date reached 4,000 in 1997 and 1999. Even though this team will move to Madison, AL, near Huntsville, in 2020, their management is still making a strong effort to promote the team in Mobile in 2019.
- J **Jackson, TN** drew 110,798, down 9,897, the 2nd lowest total (to 2006) in the team's 21 seasons. Average per date fell 121 to 1,654. 3 games began in temperatures of less than 50 degrees, including one with a gametime temperature of 37 degrees. The average topped 4,000 per date in this team's first 3 seasons (1998-2000), but has been below 3,000 each year from 2003 through 2018, and under 2,000 in 8 seasons since 2005. The Generals had drawn over 300,000 in their first 3 years of operation (1998-2000), but have been below 150,000 for the past 14 years, and under 200,000 in the last 16 seasons.
- J Based on 2018-19 A.C. Nielsen TV market estimates, Jackson, which ranks #177, is the smallest market in terms of TV households, with a Class AA team. Bowling Green, KY (Market #181) is the only smaller market with a full-season NAPBL team. Grand Junction (#187), Great Falls (#192), and Helena (#205), all in the Pioneer League, are markets smaller than Jackson that had short-season NAPBL teams in 2018. Helena's team moves to Colorado Springs in 2019.
- J The original Southern League began play in 1885, and later changed its name to the Southern Association. That league played through the 1961 season. Birmingham, Chattanooga, Knoxville, Mobile, and Montgomery are current Southern League markets who were in the Southern Association. The league's best attendance was 2,180,344 in 1947. That year, the most prominent team in the league, the Atlanta Crackers, had their top attendance, drawing 404,584. Record-high team season attendance in that league was 445,926 by Birmingham in 1948. 7 of the 8 teams in the league drew over 200,000 in 1947. But by its last year in 1961, just 3 of the 8 Southern Association teams drew over 100,000. (Source: Encyclopedia of Minor League Baseball.)
- J The Montgomery Biscuits of the Southern League, the Cedar Rapids Kernels in the Midwest League, and the Kansas City T-Bones and Chicago Dogs of the American Association, are the only teams in Minor League Baseball that are named for food. (Source: Tampa Bay Rays Media Guide.)

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**TEXAS LEAGUE (AA)** (8 teams -- 140 game schedule)

RECORD HIGHS: League – 3,129,865 (2008); Team – Round Rock - 689,286 (2004)

- J Total attendance fell 50,053 (1.8%) to 2,677,297, the lowest since 2004. Every team drew at least 260,000. The league had one more date in 2018 than in 2017, and lost 19 dates to weather. 11 games in April started with temperatures of less than 50 degrees, including 2 in Springfield that began with temperatures in the 30's.
- J It was the 19th straight year that the Texas League has drawn at least 2 million, and the 16th consecutive year above 2.6 million.
- J Texas League average attendance per team had topped 350,000 for 10 straight years through 2014, until falling slightly below that since then. It was 334,662 in 2018, the 16th straight year above 330,000. The average per team was over 200,000 from 1947 through 1950, but didn't get that high again until 1991. It first topped 300,000 in 2003.
- J Average per date fell 102 in 2018 to 4,949, the lowest since 2002. The league's average per date has surpassed 5,000 in 13 of the last 16 seasons. Average per date is up 1,550 (45.6%) since 1999. The record-high is 5,691 in 2008. All teams averaged at least 3,800 per date in 2018, topped by Frisco, who averaged a Class AA best 6,886.
- J 3 of the 8 teams had gains in total attendance, and 4 teams were up in average per date.
- J **Frisco** drew 468,259 to lead all of Class AA for the 14th consecutive year in both total attendance and average per date (6,886, up 74). The RoughRiders' total attendance fell 1,744, with 2 lost dates. Attendance topped 6,000 at 43 dates, reached 8,000 at 18 dates, and was above 10,000 at 7 dates, including a single game record-high of 12,067. This team has drawn at least 449,000 in each of their 16 seasons, including over 500,000 each year from 2003 through 2011, and 666,977 in 2003. In team history, they've drawn 8,393,879 in 1,099 dates, averaging 524,617 per season, and 7,638 per date. That is 98.6% of Dr. Pepper Ballpark's seating capacity of 7,748. Average per date has topped 6,800 every season, reached 7,000 in 12 of 16 years, and was above 8,000 yearly from 2003 through 2009, with a high of 9,264 in 2003.
- J **Midland** had a 19,122 decrease in total attendance to 263,024, their lowest total since 2005. Average per date fell 343 to 3,868, also the low since 2005. This was the 17th straight year above 250,000 for the RockHounds. Attendance in Midland never topped 204,000 in 43 seasons through 2001, but has been over 250,000 every year since then. Average per date has been over 3,700 for 21 straight years, and has topped 4,000 in 10 of the last 12 seasons. In 2016, the RockHounds won the Larry MacPhail Award for promotional effort.
- J In 2014, **Tulsa** had their 2nd best regular season total attendance (403,732) in team history. In 2018 it was 350,396, down 24,580. Average per date decreased 367 to 5,230. 22 dates drew at least 6,000. This was the Drillers' 9th straight year above 350,000 in total attendance, and above 5,200 in average per date. They topped 300,000 for 23rd time in the last 26 seasons, including the last 10. In 65 seasons, from 1919 through 1988, Tulsa reached 200,000 only in 1948, 1949, 1963, 1964, and 1965. They never reached 250,000 until 1991, but have done it every year since. The last 9 years have seen 9 of the 10 top attendance totals (1999 is the other season) in the 106-year history of pro baseball in Tulsa.
- J **Corpus Christi** drew 340,607, up 9,365, and average per date fell 78 to 4,866. That was the lowest average in the team's 14 years. There were no lost dates, and the Hooks played 3 more than in 2017. 8 dates drew over 7,000, including an all-time high of 10,446. The Hooks have been above 400,000 6 times, surpassed 500,000 twice, and have topped 330,000 every year. Average per date was above 7,000 in 2005, 2006, and 2007. Total attendance for their 14 seasons is 5,769,524 in 968 dates, averaging 412,109 per season, and 5,960 per date. In 2005, they replaced Round Rock, which moved to the Class AAA Pacific Coast League. In each of its 5 years in the Texas League, Round Rock set a Class AA attendance record, including a Class AA record-high of 689,286 in 2004.
- J **Springfield (MO)** had a 2018 total attendance of 326,362, down 4,897, with 2 fewer dates. It was the 2nd lowest total in this club's 14 seasons. Average per date rose 70 to 4,871. Two games in April began with temperatures of less than 40 degrees. Attendance reached 6,000 at 15 dates in 2018. The Cardinals drew a team record-high 526,630 in 2005, and surpassed 400,000 each year from 2005 through 2009. Average per date was over 7,000 in 2005, 2006, and 2007, and has been above 4,700 every year.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**TEXAS LEAGUE** - continued

- J **San Antonio** is getting a Class AAA Pacific Coast League team in 2019. In their final season in the Texas League, the Missions drew 327,276, up 21,925, and an average per date of 4,885, up 328. Those were the best increases in the league. It was the Missions' highest total and average per date since 1998. San Antonio drew at least 300,000 in 17 seasons since 1994. The average per date has been above 4,190 for 12 straight years, and has topped 4,000 in all but 3 seasons (2004, 2005, 2006) since 1994. It was above 5,000 per date from 1994 through 1998.
- J Attendance in San Antonio has topped 300,000 in each of the last 4 Texas League seasons, and been above 270,000 every year since 1994, when Nelson Wolff Municipal Stadium opened. 1994 was the record-high attendance season in San Antonio with a total of 411,959, averaging 6,149 per date. That year, San Antonio also had a team in the independent Texas-Louisiana League. It drew 25,204, the lowest total in that league. The pre-1994 high was 295,103 in 1946. From 1922 through 1993, the only seasons above 200,000 were 1946, 1949, and 1972. The last season with attendance under 100,000 was 1979.
- J **Northwest Arkansas'** total attendance rose 500 to 304,526. It was the 10th time in the team's 11 seasons that they drew at least 300,000. 2015 was the exception. Average per date was up 7 to 4,478, and has been above 4,400 every season. 4 April games started with temperatures below 50 degrees.
- J **Arkansas** (North Little Rock) drew 296,847, down 31,500, with 4 lost dates. Average per date was down 477 to 4,498, the lowest since 2006. The total and average declines were the worst in the Texas League for 2018. The Travelers had never reached 300,000 until 2007, but have now done it 10 times in the last 12 years. Average per date had surpassed 4,500 for 11 years in a row until 2018, and has reached 5,000 in 5 of those seasons.
- J The all-time single game record-high attendance in the Texas League is 54,151 for a game played on April 11, 1950 at the Cotton Bowl in Dallas. A very good article about this game and its attendance can be found at hardballtimes.com. The record-high attendance for any Minor League game is 65,666 set by the Denver Bears of the Class AAA American Association at Mile High Stadium on July 4, 1982. The largest capacity of any current Minor League park is about 22,000 in Monterrey of the Mexican League. Coca Cola Field in Buffalo (renamed Sahlen Field for 2019), which seated 16,907 in 2018, is the biggest Minor League park in the United States.
- J The Texas League, like many Minor Leagues, had a big attendance boom in the late 1940's, with the league reaching a total of 2 million in both 1948 and 1949. Houston in 1948 (401,383), and Dallas in 1949 (404,851), set the records for team attendance. Those team records were not topped until San Antonio drew 411,959 in 1994. Attendance for the entire league did not reach 2 million again also until 1994. It has been above 2 million every year starting in 2000.
- J Amarillo will replace San Antonio in the Texas League in 2019. The team will be named the 'Sod Poodles,' which is described as "A pioneer's name for a Prairie Dog." Amarillo had independent teams from 1994 through 2016, most recently in the American Association from 2011 through 2016. Their best attendance in those leagues was a total of 159,332 (3,621 per date) in 2008. Prior to their independent years, Amarillo had teams from 1922-1923, 1927-1928, 1939-1942, 1946-1963, 1965-1974, and 1976-1982. Top attendance in those seasons was 132,128 in 1955. The years from 1959 through 1982 were in the Texas League. Attendance never reached 100,000 in Amarillo's 22 Texas League seasons. The best year in the Texas League was 89,476 in 1981.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**CALIFORNIA LEAGUE (FULL-SEASON A)** (8 teams -- 140 game schedule)

RECORD HIGHS: League – 2,061,889 (1997); Team – Rancho Cucamonga - 446,146 (1995)

- J Total attendance fell 23,217 (1.7%) to 1,341,157. There has been a decline in California League attendance in 14 of 21 seasons from 1998 through 2018. This includes 2017, when the number of teams in the league was reduced from 10 to 8. 3 teams had gains in total attendance in 2018, and 3 were up in average per date, with Lake Elsinore having the best gains in each category. San Jose had the league's biggest declines in both total attendance and average per date. All 2018 gains and losses in this league were fairly modest.
- J Average per date fell 51 to 2,399, which was still the 3rd best average for the league since 1999. Since 1994, average per date in this league has ranged from a low of 2,158 in both 2001 and 2016, to a high of 2,988 in 1997.
- J The league's average attendance per team of 167,645 in 2018 was the 3rd highest since 1998. Average per team has been above 100,000 every year since 1991, and better than 150,000 every year from 2002 through 2015, and again in 2017 and 2018. (It was 149,985 in 2016.) But 1997 was the only season above 200,000.
- J Weather, other than heat, is rarely a problem in the California League, and that was the case again in 2018. Only one game in this league all year was postponed. The rainout was in Stockton. Just 3 dates were lost in 2017, and 4 dates were lost in 2016, and in both years, no team had more than one lost date. There were 8 lost dates in 2015, including one due to high winds at Lancaster. There were just 2 lost dates in 2014, 4 in 2013, 10 in 2012, 8 in 2011, 9 in 2010, and 6 in 2009. The most rainouts over the past 2 decades were 23 in 1998 and 22 in 2003.
- J The California League was not affected by the cold April weather that hurt attendance so much in other leagues. Only 2 of 100 April games in this league began with temperatures of less than 50 degrees. Both were at Visalia. Just 8 games started with a temperature of less than 60 degrees. 62 of these April games had a gametime temperature of at least 70 degrees.
- J **Lake Elsinore** led the league in total attendance and average per date in 2018, and also had the league's best increases. The total was 214,955, up 15,294. Average per date increased 177 to 3,071. 2016 and 2017 are the only times in the Storm's 25 seasons with attendance below 200,000. They surpassed 340,000 in each of their first 4 years (1994-1997), with a high of 383,297 in 1995. But they have not drawn more than 290,000 in any season since then. Average per date was above 5,000 from 1994 through 1996, and stayed above 4,000 through 1999. It has been below 3,500 since 2003, but 2016 and 2017 were the only years under 3,000.
- J **Inland Empire** (San Bernardino) drew 193,992, down 8,344. Average per date was 2,771, down 120. The 66ers reached a total of 200,000 in 6 seasons between 1997 and 2005, but only in 2009 and 2017 since then. Their average per date has been above 2,500 in 15 of the last 17 years, and has topped 2,700 for the last 6 years.
- J Over their last 17 seasons, the **Modesto** Nuts have achieved the 17 best attendance totals in their 72-year history. 2018 attendance fell 2,534 to 145,028, the lowest since 2006. Average per date was the smallest since 2005, falling 36 to 2,072. The Nuts didn't reach 110,000 until 1997, but have been above 130,000 every year since.
- J The **Rancho Cucamonga** Quakes, whose ballpark, located near the San Andreas Fault, was originally named 'The Epicenter' (it's now LoanMart Field), drew 171,767, up 145. This was the 9th straight year under 175,000, after 17 years in a row above 260,000. Average per date was 2,454, up 2. The Quakes had a 17-year run as the California League's attendance leader through 2009, but drew 150,687 in 2010, lowest in team history. Their previous low had been 266,773 in 2009, and attendance has not reached 200,000 since then. Rancho Cucamonga set a record-high for a California League team drawing 446,146 in 1995, and selling 97% of available seats that year. They topped 300,000 each year from 1993 through 2000, and were above 400,000 from 1995 through 1997. Average per date was over 5,000 from 1994 through 1998, with a high of 6,374 in 1995. This is in a park with 4,923 seats. The average per date has been under 2,500 for the last 9 seasons.
- J **San Jose** had its lowest total and average per date since 2001. Total attendance was down 15,705 to 147,668, and average per date fell 258 to 2,110. Those were the biggest declines in the league. From 2009 through 2014, the Giants topped 200,000 each year, something they had never done in their long history. They had drawn over 150,000 for 16 years in a row through 2017, after reaching this mark just once (1999) since 1947. Attendance has more than doubled from the time when the Giants failed to reach 100,000 in any year from 1974 through 1987. The Giants won the 2014 Larry MacPhail Award for the top promotional effort in Minor League Baseball.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**CALIFORNIA LEAGUE** – continued

- J **Stockton's** attendance was 154,547 in 1947 and 145,804 in 1948. But attendance did not reach 120,000 again until 2005. They've topped 184,000 in all 14 seasons from 2005 on. Annual attendance in Stockton has more than doubled since a new park opened in 2005. In 2018, attendance rose 3,802 to 187,966. Average per date was 2,724, up 55. The Ports never averaged at least 2,000 per date until 2005, but have been above 2,600 each year since then.
- J **Lancaster** drew 316,390 in its first season (1996), and topped 200,000 each year through 1999. They have not reached that figure since. The JetHawks drew 155,573 in 2018, down 13,664. Average per date was 2,222, down 196. Their average per date was 4,520 in 1996, topped 4,000 in 1997, was above 3,000 in 1998 and 1999, but has not been over 2,500 since 2002. It did top 2,000 for the 10th straight year in 2018, after 5 straight years under 2,000.
- J **Visalia** had drawn a record high in 8 of 9 seasons through 2017. Their 2018 total was 124,208, down 2,211. Average per date was down 32 to 1,774. The total was 2nd best in team history, while the average per date was 3rd highest. The Rawhide have drawn the 10 highest attendance totals in team history in the last 10 years, topping 100,000 each year, and finishing above 120,000 in each of the last 5 seasons. Before this 10-year streak, 1947 was the only season that a Visalia team drew at least 100,000. They didn't top 80,000 in any of the 29 seasons they had a team between 1954 and 1988. Average per date was under 1,000 in 11 of 13 seasons from 1996 through 2008, but has been above 1,500 in all years since. Recreation Ballpark seats just 2,468.
- J Until 2009, Visalia shared professional baseball's oldest existing season attendance record. That year, the Rawhide completed a ballpark renovation, and drew a team record-high 105,405. Their previous record of 104,311 was set in 1947. When Visalia drew 83,452 in 2007, it was that city's best attendance since 1951. Winston-Salem of the Carolina League also had their attendance high in 1947. They broke that old record when they moved into a new ballpark in 2010. In the Major Leagues, the Cincinnati Reds have gone the longest time since setting a team attendance record. Their all-time high was reached in 1976.
- J The Bakersfield Blaze went out on a 'high' note in 2016. Their total attendance of 62,922 was up 11,133, the best gain in the league in 2016, and the team's highest total since 2010. Average per date rose a league-high 159 to 899. It was the 9th straight year with average per date of less than 1,000. Total attendance last reached 100,000 in 2002. Since 1946, Bakersfield topped 140,000 only in 1949, and each year from 1990 through 1994. Bakersfield's 2011 attendance of 40,056 was the lowest by a California League team since Salinas attracted just 33,465 in 1990. Bakersfield's most recent team had played from 1982 through 2016, drawing a total of 3,178,273 in these 35 years, an average of 90,808 per season. But from 2000-2016, the Blaze averaged just 69,874 per year.
- J The final year (2016) for the High Desert (Adelanto) Mavericks produced the lowest total and average per date in the team's 26-year history. Total attendance fell to 76,061, and was under 100,000 in 3 of the final 4 years. Average per date was 1,102. In their first two seasons (1991 and 1992), the Mavericks became the first California League team to top 200,000. They've were below 160,000 for 22 years in a row, and under 150,000 for the final 18 seasons. Since 2002, average per date reached 2,000 only in 2014. In their 26 California League seasons, the Mavericks drew 3,550,649, averaging 136,563 per season. But the season average was only 118,732 after 2000.
- J Both Bakersfield and High Desert played in the independent Pecos Baseball League in 2017 and 2018.
- J In 1964, 4 of the 8 teams in the California League drew less than 17,000 for the season.
- J In 1965, the 6 team California League had a total attendance of 128,836, averaging a league record-low 21,743 per team, and 333 per home date. San Jose led the league in attendance that year, drawing 34,517. Attendance for the other teams was: Stockton – 27,774; Bakersfield – 23,234; Fresno - 22,362; Santa Barbara – 12,121; Salinas – an all-time California League low – 8,828.
- J Average per team rose to 43,755 in 1966. It was only 50,449 in 1979, and 167,645 in 2018.
- J Largest crowd at a California League ballpark was 12,876 at Lake Elsinore on July 4, 1998. Largest crowd at any California League game (and at any Class A game) was 37,665 for a Redwood-Reno game at San Diego Jack Murphy Stadium on July 4, 1981. This game was played during a Major League work stoppage.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**CAROLINA LEAGUE (FULL-SEASON A)** (10 teams -- 140 game schedule)

RECORD HIGHS: League – 2,027,878 (2017); Team – Durham - 390,486 (1995)

- J Total 2018 attendance fell 126,650 (6.3%), from the 10-team 2017 record-high, to 1,901,228. The 8-team record-high total was 1,981,673 in 2014. Average per date was down 213 to 2,916, the lowest average since 2003. This was in part due to Buies Creek playing in a ballpark that seats around 1,000. 2017 had been the 12th straight year (21 times since 1993) that the Carolina League topped 3,000 in average per date. The league's best average per date was 3,811 in 2014. 48 dates were lost to weather in 2018, but there were 4 more dates than in 2017. 15 April games began with temperatures of less than 50 degrees, with 2 of them under 40 degrees.
- J Wilmington and Potomac had the league's only gains in total attendance, and Winston-Salem had the only average per date increase. Down East had the largest total decline, due to playing 6 fewer dates than in 2017, and Frederick had the worst average per date dip.
- J Carolina League attendance has been very stable over the past 19 years. This followed a huge attendance boom for the league from the early 1980's through the mid-1990's. In 1982, the 8 team league drew 564,144, with 6 of its teams failing to reach 50,000 in attendance. By 1995, attendance for the 8 team league was 1,816,193, with 3 teams topping 300,000. They surpassed 1.9 million for the first time in 2013, and did it again in 2014, 2015, 2017, and 2018, and topped 2 million for the first time (with 2 added teams) in 2017.
- J The league drew better than one million in 1947, but didn't do it again until 1989. They've reached one million every year since, and have topped 1.5 million each season but one (2003) since 1993.
- J Average attendance per team reached 100,000 in 1946 and 1947, but not again until 1985. It hit 200,000 for the first time in 1993, and has been above that level 19 times from that year forward, including in 8 of the last 9 seasons. In 2014, it was a record-high 247,109, and was a 2nd best 243,346 in 2015. It was 190,123 in 2018, the lowest since 2003.
- J The largest Carolina League crowd was 32,152 when Potomac hosted Salem at RFK Stadium in Washington in 2006. Top attendance in a Carolina League ballpark was 12,049 at Greensboro in 1960. Among current Carolina league teams, Frederick holds the record for biggest crowd in its home ballpark (11,006 in 1997).
- J Through 2017, **Frederick** had led teams from all High-Class A leagues (Carolina, California, Florida State) in average per date for 6 years in a row. (Winston-Salem led in 2018.) 2017 was also the 6th consecutive year, and the 16th time since 1991, with attendance over 300,000. But in 2018, total attendance fell 28,929 to 275,001, the lowest since 2004. Average per date dipped a league-worst 527 to 4,297, lowest since 2010. 20 dates drew over 5,000. The Keys did top 250,000 for the 29th straight year. In their 30-year history, they've averaged around 4,500 per date at 5,400 seat Harry Grove Stadium, topping 4,500 in 14 years, and reaching 5,000 in 1993 and 1994. Total attendance for these 30 seasons is 8,293,486, an average of 297,450 per year.
- J The **Winston-Salem** Dash, named for the dash in that city's name, led all High-Class A teams in total attendance in 2018 (292,774, down 11,833). Average per date rose 21 to 4,436, with 3 fewer dates than in 2017. There were 24 crowds of 5,000+. Attendance had been below 170,000 each year from 1951 through 2009, but has been above 289,000 each year since. 2017 was the 5th time above 300,000. Average per date has been above 4,400 for 9 straight years. In 2018, the Dash had 16 sellouts, including a record-high crowd of 9,011 on July 4.
- J In 2010, the Dash opened a new ballpark, and easily set a team record-high, drawing 312,313, with 19 sellouts. Their old record had been 233,507 in 1947, which was the longest-standing season attendance record by a current Minor League franchise going into 2010. Veracruz, of the Mexican League, which set its record-high in 1964, then had the longest standing-record. But they set a new high mark in 2012. Now, the Mexico City Red Devils, whose record-high was set in 1967, have gone the longest time of any team since achieving their all-time record.
- J 2010 attendance in Winston-Salem was up 254,648 from 2009, which was the biggest increase in the Minor Leagues for that season. In 67 seasons prior to 2010, Winston-Salem's only total attendance above 200,000 was in 1947. Construction delays and financial problems caused the new park's opening to be pushed back to 2010. The team offered refunds to everyone who had purchased tickets for the new ballpark, while they played the 2009 season in old Ernie Shore Field. Total 2009 attendance was just 57,665, the smallest attendance by any team in the Carolina League since Peninsula drew 41,107 in 1991. Winston-Salem's attendance was down 112,398 in 2009, the 2nd worst decline among U.S. teams for that year.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**CAROLINA LEAGUE** – continued

- J **Potomac's** total attendance rose 1,234 to 237,244, the 2nd best total in team history (1984 through 2018), despite 7 rainouts. There were 9 lost dates in 2017. Average per date was 3,766, down 103 from the record-high set in 2017. It was the 3rd best average per date in Nationals' history. 6 games were sold out. From 2000 through 2009, the Nationals never reached 200,000. But they did it in 2010, 2013, 2014, 2015, 2017, and 2018. Average per date was above 3,000 for the 6th straight year. From 2000 through 2012, the average per date reached 3,000 only twice. Finally, it appears that the Nationals will move to a new park in Fredericksburg in 2020.
- J **Carolina's** total attendance of 181,122 was their lowest since starting play in 1991. Total attendance fell 9,298 with 2 fewer dates than in 2017. Average per date dipped by 56 to 2,744, also a team low, with 9 dates topping 5,000. They've averaged 4,000+ in 8 seasons since 1992. The Mudcats reached 300,000 in from 1993 through 1995, but have not done it since. They played in the Southern League through 2011, before moving to the Carolina League.
- J **Salem** drew 192,621, down 22,623. Average per date fell 392 to 2,919. Attendance in Salem never reached 200,000 in 43 years with recorded attendance, until 1999, but has surpassed that total 15 times in the last 20 seasons. Average per date has been over 3,000 in 12 of the last 15 seasons, and 15 times since 1999.
- J **Wilmington, DE** had topped 275,000 in each of their first 24 seasons. But weather caused the Blue Rocks to fall below that level in 2017, as they had 10 rainouts. Their 2018 total was 249,746, up 19,069, with 5 more dates. Average per date dropped 3 to 3,842, their lowest ever. 7 dates topped 5,000. The Blue Rocks led the Carolina League in attendance each year from 1998 through 2008, and topped 300,000 for 16 straight years (1993-2008). Average per date had been above 4,100 every year until 2017, and in 1993, 1994, 1995, and 2001, it topped 5,000. In 26 years, they've drawn 7,980,584 in 1,716 dates, averaging 4,651 per date at 6,532 capacity Frawley Stadium.
- J **Myrtle Beach's** total attendance fell 13,537 to 219,589. Average per date was 3,327, down 260, with 9 dates topping 5,000. This team in Myrtle Beach, which began play in 1999, has topped 200,000 in every season except 2005, when they just missed. Average per date has been over 3,000 in all seasons other than 2005.
- J Until 2005, **Lynchburg** had never drawn at least 150,000 in its long Minor League history, and reached 130,000 only in 1948. The Hillcats then topped 150,000 in each year from 2005 through 2015. In 2018, they drew 112,228, down 25,338, with 3 fewer dates, and 7 postponements, including a snowout. Average per date fell 303 to 1,781. Both the total and average were lowest since 2003. But the average has reached 2,000 in 13 of the last 15 years.
- J In 2017 and 2018, the **Buies Creek** Astros, had a temporary home at Campbell University's ballpark, which seats around 1,000. The Astros drew 24,068 in 2018, down 6,450 with 8 more dates, averaging 359 per date, down 158. The 30.6% drop in average per date was 5th worst percentage loss in the NAPBL. Total attendance was the lowest of any full-season NAPBL team in 2018, and the average per date was the smallest for any NAPBL team. This team moves to its permanent home in Fayetteville in 2019, and will be renamed the Woodpeckers. Fayetteville had Post-World War II teams from 1946 through 1956, and again from 1987 through 2000. Only the 1992-1995 teams drew at least 100,000, with a high of 121,051 in 1995. The top average per date, since 1992, was 1,862 in 1995.
- J The **Down East** Wood Ducks are located in Kinston, and play in Grainger Stadium, which opened in 1949. In 2018, the Wood Ducks drew 116,838, down 28,945, the worst loss in the league. There were 6 fewer dates than in 2017. Average per date was 1,770, down 255.
- J Starting in 1946, Kinston had a team from 1946 through 1952, 1956, 1957, 1962 through 1974, and 1978 through 2011. When pro baseball returned to Kinston in 1962, it was, for that time, a big draw. In 1962, the team drew 141,227, the highest of any team below Class AA. Attendance was 119,346 in 1963, and 101,915 in 1964. In both of those years, Kinston was the only Class A or Rookie league team to draw at least 100,000. Attendance also surpassed 100,000 in every year from 1990 through 2011, with a high of 151,953 in 1997. The top average per date, going back to 1992, was 2,374 in 1997.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**FLORIDA STATE LEAGUE (FULL-SEASON A)** (12 teams -- 140 game schedule)

RECORD HIGHS: League – 1,296,962 (2011); Team – St. Petersburg - 202,383 (1989)

- J The Florida State League is unique as most of its teams are operated by their Major League parent clubs. Every team except Daytona and the Florida Fire Frogs plays its home games in a Major League Spring Training ballpark.
- J No Tim Lincecum in the league in 2018 was part of the reason why total attendance fell 133,167 (11.5%) to 1,027,261. This was the worst percentage decline of any NAPBL league in 2018. But it was the 13th straight year that league attendance has topped one million. Attendance reached one million only 5 times from 1946 through 2005 (1991, 1992, 1994, 1996, 1997). Since 2002, league total attendance is up 26.7%, while average per date is up 29.2%.
- J 4 teams had increases in total attendance, and 3 teams were up in average per date. Palm Beach had the league's top increases, while St. Lucie had the worst losses.
- J The league's average attendance per team fell below 100,000 in 2018, 2017, 2016, and 2015, after topping 100,000 for 4 years in a row. Prior to 2011, it had never reached 100,000. Average per team was over 50,000 from 1947 through 1949, and then again only in 1959 and 1972, until surpassing 50,000 for good in 1974.
- J Florida State League average attendance per date in 2018 fell by 175 to 1,346. It had topped 1,500 in 6 of the 7 previous years. Previously, the average per date had been under 1,500 since at least 1991.
- J The league played the same number of dates in 2018 as in 2017. There were 77 lost dates. As you might expect, cold weather is not an issue in this league. Only one April game, in Daytona, began with a temperature of less than 70 degrees. At 64 April games, the gametime temperature was at least 80 degrees. Rain is often an issue in the league, but not in April. There were only 8 April rainouts in 2018, but there were 31 in May.
- J **Clearwater** led the league in total attendance for the 8th straight year, and for the 14th time in the last 15 years. But attendance fell 18,515 to 181,686, which was the team's 4th best total ever. Average per date was down 316 to 2,672. It was the 13th straight year with average per date above 2,300. Prior to this streak, the only year above 2,000, since at least 1991 (if ever), was 2004. 9 dates topped 4,000 in 2018, with a high of 9,857. In 2017, the Threshers drew a team record-high 200,201. That was the 2nd best total in Florida State League history. St. Petersburg drew 202,383 in 1989. Weather helped in 2014 as this team played all 70 scheduled home dates. No other F.S.L. team has been rainout-free in a season since at least 1991, and perhaps, never.
- J 2017 was the 10th time in 14 years that Clearwater set a new team total attendance record-high. 2018 was the 12th straight year above 165,000 for the Threshers. They never reached 100,000 in a season from 1985 through 2003. Prior to the current run by Clearwater, the longest consecutive streak of 150,000+ attendance in this league was by the former team from St. Petersburg, who did it in 4 straight years (1988-1991).
- J **Bradenton's** total attendance rose 543 to 79,874. Average per date dipped 109 to 1,192, the lowest since 2010. There were 6 more dates than in 2017. The Marauders topped 100,000 in total attendance each year from 2010 through 2015. Their park, 94-year old McKechnie Field, got a \$10 million renovation for the 2013 season.
- J Despite 8 lost dates, **Palm Beach** was up 5,176 to 64,008, and average per date increased by 98 to 1,032. Those were the best gains in this league. The 10.5% growth in average per date was the 10th best percentage increase in the NAPBL. The Cardinals have topped 100,000 only once (2006) in their 16 seasons. Average per date has been above 1,200 only 3 times.
- J **Jupiter**, which shares Roger Dean Stadium with Palm Beach, had a gain of 31 in total attendance to 69,095. The Hammerheads have reached 100,000 only 3 times (1999, 2001, 2002). Average per date rose 17 to 1,063. The average has exceeded 1,200 in 11 seasons since 1998. A team played in nearby West Palm Beach most recently from 1965 through 1997, and drew over 100,000 in 15 different years between 1974 and 1992. A new Spring Training facility for the Astros and Nationals opened in West Palm Beach in 2017.
- J **Port Charlotte's** current team reached 100,000 in 9 of its 10 seasons, and average per date has been 1,500+ every year. 2016, with 10 lost dates, was their only year under 100,000. The former team there drew 100,000+ in only 4 of 16 seasons from 1987 through 2002. In 2018, the Stone Crabs drew 104,193, down 16,492. Average per date decreased 262 to 1,654. There were 8 lost dates.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**FLORIDA STATE LEAGUE** – continued

- J **Dunedin** drew 30,569, down 8,387, averaging 450 per date, down 123. It was their lowest total and average since 2006. This was also the lowest total and average among full-season NAPBL teams playing in their regular ballpark (excludes Buies Creek), and the 2nd lowest average among all NAPBL teams (Buies Creek). From 1999 through 2018, the Blue Jays topped 60,000 only in 2014, and have been under 50,000 14 times. The total reached 60,000 each year from 1990 through 1996, and in 1998 and 2014. Average per date last hit 1,000 in 1994. Part of the reason for Dunedin's low attendance is that its neighboring town, Clearwater, also has a Florida State League team. The Tampa Bay Rays play just a few miles further south. Dunedin's ballpark gets a major upgrade in 2019.
- J **Lakeland** drew 49,551, down 2,640. Average per date was 840, up 25. There were 5 fewer dates than in 2017. From 2010 through 2015, attendance surpassed 59,000 in 6 straight years, after not reaching that figure since 1987. Previously, Lakeland reached 60,000 only in 1951, 1977, and 1987, and was under 10,000 in 1967, 1968, 1969, and 1971. After averaging just 495 per date in 2006, Lakeland's average more than doubled to over 1,000 in 4 of 5 years from 2010 through 2014. In 2013, Lakeland lost an incredible 19 dates due to weather, including 9 in July and 7 in August. The Flying Tigers had 6 lost dates in 2014, 7 in 2015, 9 in 2016, 6 in 2017, and 11 in 2018.
- J **Daytona Beach's** total of 120,728, was down 15,496. Average per date fell 18 to 2,046. There were 11 lost dates, and 7 fewer dates played than in 2017. It was the 15th straight year above 100,000. The total has been above 135,000 11 times in the last 13 years. Average per date has surpassed 2,000 in 12 of the last 13 seasons. Prior to 2004, Daytona had reached 100,000 just 3 times in 49 seasons (1983, 1984, 2001). In 2016, the team was renamed the "Tortugas," a Spanish word for a turtle that is native to the Daytona area.
- J 2015 was a record-setting year for **Fort Myers**. The Miracle drew a team record-high total of 133,817, and a record-high average per date of 2,028. Opening Night drew a team record 9,209. (A former team in Fort Myers drew 137,553 in 1984.) In 2018, total attendance rose 2,444 to 123,882, the 6th best total in team history. Average per date was down 175 to 1,849. There were 7 more dates played than in 2017. Since 1998, the Miracle have achieved the most seasons in the Florida State League (19) with attendance above 100,000, and they've done it in each of the last 14 years. St. Petersburg, which no longer has a team in the league, had topped 100,000 for 21 straight years, from 1977 through 1997. 12 of 13 April games began with a temperature of at least 80 degrees.
- J No Tim Tebow on the team led to a 33,536 decline in attendance to 98,823 for **St. Lucie**. Average per date dropped 485 to 1,520. These were the worst declines in the league in 2018. There were 5 lost dates. For the 14th straight year, the Mets topped 90,000, which they didn't do in the previous 17 seasons. Average per date was above 1,400 also for the 14th straight year. It has been above 1,500 in 10 of those years, but in none before that.
- J St. Lucie had a record season in attendance in 2017. The Mets drew record-highs in total attendance (132,359, up 35,803), and average per date (2,005, up 585). Those were the biggest increases in the league. Among U.S. NAPBL teams, the gain in total attendance was 5th best, and the average per date increase was 7th best. The Mets also had the 3rd best percentage increases among all NAPBL teams in total attendance (up 37.1%), and average per date (up 41.2%). The old record-highs in St. Lucie, set in 2011, were 105,379 for total attendance, and 1,647 in average per date.
- J The Tebow Effect – Tim Tebow played the 2nd half of the 2017 season with the St. Lucie Mets, and that certainly led to an increase in attendance, both at home and on the road. In the 37 home dates prior to Tebow's arrival, the Mets drew 64,568, averaging 1,745 per date. With Tebow, they drew 67,791 in 29 home dates, an average of 2,338. On the road the gain was more significant. The Mets' 33 road dates prior to Tebow drew 37,941, an average of 1,150. But with Tebow, they drew 127,546 in 33 dates, an average of 3,865. Some of this gain can be attributed to where the road games were played, but there's no doubt that much of it was due to Tebow. Combined home and road St. Lucie attendance with Tebow was 195,337 in 62 dates, an average of 3,151 per date. Without Tebow, combined St. Lucie home and road attendance was 102,509 in 70 dates, an average of 1,464.
- J Tebow spent the first half of the 2017 season with the Columbia Fireflies of the South Atlantic League. That team's 'with Tebow-without Tebow' figures can be found in the South Atlantic League section of this report on page 120. Combined Columbia-St. Lucie home attendance with Tebow was 274,822 in 68 dates, averaging 4,042 per date. Without Tebow, these 2 teams drew 172,571 in 64 home dates, an average of 2,696. On the road, the combined Columbia-St. Lucie total with Tebow was 296,989 in 62 dates, an average of 4,790. Without Tebow, it was 163,200 in 70 dates, an average of 2,331 per date. Tebow played at Binghamton of the Eastern League in 2018.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**FLORIDA STATE LEAGUE** – continued

- J **Tampa's** total attendance fell 21,988 to 71,835, their lowest since 2004. The current Tampa team has topped 100,000 10 times since 1996. Average per date fell 317 to 1,105, the lowest since 1995. The team's name was changed from Yankees to Tarpons for 2018. Teams in Tampa were named the Tarpons from 1957 through 1987.
- J In 2017, the **Florida** Fire Frogs, who play in Kissimmee, next to Disney World, replaced the Brevard County Manatees. They drew 57,324, down 27,708 from what Brevard County drew in 2016. But that still was the highest total ever for a team in Kissimmee. Average per date was down 226 vs. 2016 Brevard County to 1,082. That is the highest average in Kissimmee since at least 1991. Florida played 12 fewer dates in 2017 than Brevard County played in 2016. The Fire Frogs had 17 lost dates, by far the most of any Minor League team. If games that were rescheduled as parts of double-headers are included, the Fire Frogs had 24 home games rained out.
- J 2018 was a tough season for Florida, with weather and attendance. There were 14 lost dates. Between July 23 and July 29, 9 games (including games re-scheduled as parts of doubleheaders) were postponed due to rain or wet grounds. Total attendance was down 24,307 to 33,017, and average per date dipped by 482 to 600. Only 10 dates drew at least 1,000, none of them after July 14. The 42.4% loss in total attendance, and the 44.5% decline in average per date, were the 3rd biggest percentage declines among NAPBL teams in 2018.
- J Previously, Kissimmee had a team from 1985 through 2000. It drew 658,458 in 16 seasons, averaging 41,154 per year. The top attendance total was 53,566 in 1989. 1993 was the only other 50,000+ year. Lowest attendance was 29,533 in 1996.
- J In 2019, Florida's parent team, the Atlanta Braves, play one Spring Training game in their under-construction new facility in Sarasota. The Braves move to Sarasota full time for Spring Training in 2020. It is possible that the Fire Frogs will move there as well.
- J In 2016, their final season, Brevard County drew 85,032, up 6,659, and average per date was up 64 to 1,308. The Manatees reached 100,000 in each of their first 8 seasons (1994-2001), but had done it just once (2005) after that. Average per date was over 2,000 only from 1994 through 1997, and in 2001, with a high of 2,234 in 1996. In 23 seasons, the team drew 2,320,932 in 1,444 dates, averaging 100,910 per season, and 1,607 per date.
- J Until losing their team to Port Charlotte in 2009, Vero Beach had been one of the smallest towns with pro baseball. The record-high in Vero Beach was 95,300, in 1991. In 1948, the Dodgers first came to Vero Beach for Spring Training. Minor League Baseball now operates Dodgertown, and business conferences are held there annually. One Florida State League game is played in Holman Stadium there yearly in memory of Jackie Robinson. The game in 2019 drew 5,112.
- J Roger Dean Stadium in Jupiter is the Spring Training site of the Florida Marlins and the St. Louis Cardinals. Their Florida State League and Gulf Coast League affiliates also play in the complex. There are about 30 Major League spring training, 140 Florida State League, and 60 Gulf Coast League games scheduled yearly. Pro baseball's busiest facility is also host to Minor League spring training, the fall Florida Instructional League, and high school and college games and tournaments.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MIDWEST LEAGUE (FULL-SEASON A)** (16 teams -- 140 game schedule)

RECORD HIGHS: League – 4,233,904 (2015); Team – Dayton - 597,433 (2010)

- J 2018 Midwest League attendance declined 149,652 (3.7%). Total attendance was 3,937,721, the lowest total in the 9 years that this league has had 16 teams. Average per date slipped 88 to 3,711, lowest since 2006. The league was hard-hit by weather early in the season. 34 April dates were postponed or cancelled. 63 dates began with temperatures of less than 50 degrees, and at 29 of these dates, the temperature was under 40 degrees. 7 teams played at least 5 April home games that began with temperatures below 50 degrees. For the full season, there were 59 lost dates, and 15 fewer dates played than in 2017.
- J In 2015, the Midwest League set new league and Class A record-highs for total attendance, average per date, and average per team. Total attendance was 4,233,904, breaking the league record set in 2010. Average per date was 3,924, topping a mark set in 2013. Average per team was 264,619. It was 246,108 in 2018, the lowest since 2003.
- J This league's attendance first topped one million in 1982 when it expanded from 8 to 12 teams. It reached 2 million in 1994, and 3 million in 1996, with 14 teams in those years. Total attendance has topped 3 million for the last 19 seasons, been above 3.5 million for the previous 12 years, and has been over 4 million in 7 of the last 9 years.
- J Average attendance per date has been above 3,000 for 24 straight years, which also is a Class A record. It has topped 3,500 per date for the last 19 years.
- J Midwest League average attendance per team was under 70,000 from 1947 through 1980. In 13 of those seasons, it was below 50,000, with a low of 20,128 per team in 1948, when it was the Illinois State League. Lowest average per team under the Midwest League name (since 1956) was 40,362 in 1967. The average per team reached 100,000 for the first time in 1985, and initially topped 200,000 in 1996. It has been above 200,000 for the past 19 years, and reached 250,000 in 10 of the last 12 seasons. The league expanded to 16 teams in 2010.
- J 4 teams had increases in total attendance in 2018, and 4 teams were up in average per date. Lansing had the league's top gain in total attendance and West Michigan had the best growth in average per date. Kane County had the biggest declines in total attendance and average per date.
- J **Dayton's sellout streak continued, and they again outdrew all other Class AA and Class A teams. Total attendance fell 3,913 to 550,725. There were no lost dates, but 2 April games began in under 40-degree weather. The Dragons have topped 548,000 in each of their 19 seasons, and have reached 580,000 in 9 years. They have the 19 highest season attendance totals ever in Class A. Average per date was a team-all-time-low, but a 2018 Class A best 7,868, down 170. It was the first time that the average per date was under 8,000. It has topped 8,400 per date in 10 seasons. There were 23 dates with crowds above 8,000 in 2018. In their 19 seasons, the Dragons have drawn 10,968,864 in 1,316 regular season dates, averaging 577,309 per year, and 8,335 per date.**
- J **Dayton has sold out all 1,316 regular season home dates they've ever played, starting on Opening Day 2000. It's the longest sellout streak in North American pro sports history!** The Boston Red Sox have the North American Major League record of 794 straight sellouts of regular season games, plus 26 post-season games, a streak which ended with the 2nd game of the 2013 season. The Portland Trail Blazers of the NBA had 814 consecutive sellouts, including playoffs, from 1977 to 1995, which had been the longest sellout streak before the Red Sox broke it. The San Francisco Giants had a National League record 555 date sellout streak (530 regular season dates+25 post-season dates). That streak began on October 1, 2010, and ended on July 17, 2017.
- J In 2018, Dayton outdrew all but 7 Class AAA teams, and 2 Mexican League teams, in total attendance, and all but 8 Class AAA teams and 3 Mexican League teams in average per date. The Dragons led all U.S. Minor League teams below the Class AAA level in total attendance for the 13th straight year. Only 2 teams below Class AAA (Round Rock, while it was in the Texas League before moving up to the Class AAA, and Frisco, also of the Class AA Texas League) have ever outdrawn Dayton in a single season since 2000. Dayton's owners have included NBA legend Magic Johnson, and two-time Heisman Trophy winner Archie Griffin.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MIDWEST LEAGUE** - continued

- J **Dayton (7,868 in 2018), Kane County (5,469), and West Michigan (5,770), are the only Class A teams to average more than 5,100 per home date in each season from 2000 through 2018.** Lakewood of the South Atlantic League had topped 6,000 per date from their start in 2001 through 2012, and had been above 5,200 every year until 2018. Fort Wayne also averaged more than 5,200 per date each year from 2009 through 2018. Dayton's park has 7,230 seats. The single game record-high in Dayton is 9,558 in 2009.
- J The only Class A teams to ever draw at least 500,000 in a season are Midwest League teams Dayton (19 times), Kane County (6), West Michigan (4), and Lansing (2).
- J **West Michigan** held the record broken by Dayton in 2000. The Whitecaps, who play in Comstock Park MI, near Grand Rapids, topped 500,000 for 4 straight years (1995-1998), including 1996, when they drew a then-Class A-record 547,701. In 1994, they first broke the Class A record of 463,039 set by Denver in 1949. They've reached 350,000 for 25 years in a row, and have topped 400,000 in 9 seasons (1994-2002). Average per date has been over 5,000 every year, was over 6,200 from 1994 through 2001, topped 7,000 from 1995 through 1998, and was exactly 8,000 in 1997. In 2014, the Whitecaps drew 391,653, up 13,705, their best total attendance since 2002. It was quite an accomplishment considering that a fire on January 3 destroyed part of their ballpark.
- J 2018 Whitecaps' attendance rose 2,626 to 386,609 with 2 fewer dates, and average per date was up a league-best 205 to 5,770. 45 dates drew over 5,000, with 20 of those dates topping 7,000. 4 games began with temperatures of less than 50 degrees, with 3 of those games starting in temperatures in the 30's. In their 25 years, West Michigan has drawn 10,287,683 in 1,705 dates, an average of 411,507 per season, and 6,034 per date.
- J The cold April weather really hurt the **Fort Wayne** Tincaps at the gate. They played 3 fewer dates than in 2017. 7 dates in April had gametime temperatures of less than 50 degrees, with 4 of them under 40 degrees. Total attendance was 376,422, down 32,831, and average per date dipped 228 to 5,703. Attendance reached 5,000 at 42 dates, and 20 dates drew at least 7,000. The Tincaps have surpassed 200,000 in all 26 years of operation, have topped 375,000 in all 10 years in their current ballpark, and have reached 400,000 in 6 of the last 9 seasons, including 5 of the last 6. Average per date has never been under 2,962 in this team's history, and has been above 5,400 in each of the last 10 seasons. The Tincaps were the only team in this league that did not lose a home date due to weather in both 2013 and 2014, but had 3 lost dates in 2015 (all on Fireworks Nights), 2 in 2016, just one in 2017, and 4 in 2018. Fort Wayne won the 2016 John H. Johnson President's Award, the Minor Leagues top honor for organizational excellence. In 2018, the Tincaps won the 'Ballpark Digest Continued Excellence Award.'
- J **Great Lakes** (Midland, MI) drew 187,220, down 15,213, which was the first time under 200,000 in their 12-year history. There were 5 lost dates, and 2 fewer dates played in 2018 than in 2017. Average per date fell 141 to a team-low 2,880, and the first time under 3,000. The Loons drew 324,564 in 2007, their first year, but have not reached 300,000 since then. Average per date was 4,000+ in their first 4 years (2007-2010).
- J **Bowling Green, KY** had a great year on the field, winning 90 regular season games, the most of any Minor League team, plus the Midwest League championship. Total attendance fell 1,510 to 178,329, despite 3 more dates. Average per date was down 153 to 2,702. The Hot Rods reached a total of 200,000 in their first 5 seasons (2009-13), and also in 2015. Their average per date topped 3,000 in their first 5 years, but not since.
- J **Clinton**, a community-owned team, drew 121,678, up 376. It was the team's 4th best total ever, topped only by 127,251 in 1988, 123,553 in 2010, and 124,154 in 2016. Attendance was above 100,000 for the 13th straight year. Before this streak, the LumberKings had failed to reach 100,000 in all but 4 of 60 seasons with recorded attendance, including 17 years in a row between 1989 and 2005. Average per date in 2018 was down 22 to 1,816, the 4th best average since at least 1991. Clinton's average per date has been over 1,500 for 13 consecutive seasons. The first 5 dates played in April began with temperatures in the 30's.
- J **Lake County's** total attendance was the lowest in its 16-year history. Total attendance for this Eastlake, Ohio team has fallen from 437,515 in 2003, to 202,124 in 2018. There were 4 lost dates in 2018, and the total dipped 10,623. Average per date has gone from 6,341 in 2003 to 3,062 in 2018. The average fell 161 in 2018. It was the 13th decline in total and average in the last 15 years. 6 games in April began in under-50-degree weather. The Captains reached 400,000 in 2003 and 2004, but have been below 300,000 for the last 10 seasons. Average per date topped 6,000 in 2003 and 2004, and stayed above 5,000 through 2007.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MIDWEST LEAGUE** – continued

- J For 2012, **South Bend** renovated its ballpark, and increased its attendance by 76,780, the 3rd best gain among NAPBL teams. Average per date rose by 985, the top increase among all U.S. NAPBL teams. In 2013, the Silver Hawks had another big gain. Total attendance increased by 47,873, which was the 4th highest NAPBL gain. Average per date was up a league-best 850. In 2014, the team drew 258,836, a record-high which was 412 higher than the old mark of 258,424 in 1994. South Bend's total attendance gain of 21,388 was the best in the league.
- J The incredible attendance growth continued in 2015 in South Bend. The team affiliated with, and was renamed, the Cubs. Total attendance grew by 88,842 to a team record-high 347,678. Average per date was up 1,288 to a record-high 5,039. The gains in both total attendance and average per date were the 3rd best among NAPBL teams in 2015. There were 40 sellouts. New highs in total attendance and average per date were set again in 2016.
- J More records were set in 2017 despite 2 fewer dates. The Cubs' total of 354,070, up 3,267, and average per date of 5,285, up 201, made it 4 straight years with new highs. Some bad weather may have prevented the Cubs from setting more records in 2018, as they had 6 games in April begin in less than 50-degree temperatures, with 3 dates under 40. Total attendance fell 10,307 to 343,763, and average per date was 4,911, down 374. The total and average were the 4th best in the team's 31 seasons. 36 dates drew at least 5,000. **Since 2011, total attendance is up 230,968 (204.8%) from 112,795, and average per date has increased by 3,149 (178.7%) from 1,762.** Attendance reached 200,000 each year from 1989 through 1996. But it was under 200,000 in 12 of 16 years from 1997 through 2012.
- J Four Winds Field in South Bend, formerly Stanley Coveleski Regional Stadium, is the only ballpark in America with a former synagogue on its grounds. The Sons of Israel Synagogue was built in 1901, but had been empty for over two decades. When the ballpark was renovated, the team bought the building, located behind the outfield wall, to use as its team store. They refurbished it, while still respecting its religious and landmark status.
- J The **Wisconsin** Timber Rattlers (Appleton) topped 225,000 for the 10th year in a row, a figure which until 2009, they had reached only from 1996 through 1998. 2018 attendance was down 4,429 to 225,897, the lowest since 2008. Average per date rose 37 to 3,475. There were 2 fewer dates than in 2017, 5 lost dates, and 6 dates began in less than 50-degree temperatures, with 2 dates under 40. In 2014, Wisconsin actually drew the largest total attendance ever (250,131) in their home ballpark, which underwent a major renovation for the 2013 season. The official team record-high is 253,240 in 2009. But that includes a crowd of 17,880 for a game they played at Miller Park in Milwaukee. Average per date has topped 3,000, and total attendance has been over 190,000, for 24 straight years. The total never reached 100,000 in 45 seasons prior to 1995. The average has topped 3,400 for 10 years in a row.
- J **Cedar Rapids** was down 6,262 to 160,165, the 2nd lowest total since 2001. There were 2 fewer dates. The Kernels have never topped 200,000 in a season. But they've drawn over 160,000 for 17 straight years, after reaching that level just twice (1988, 1989) in the 64 previous years with listed attendance. Average per date was down 23 to 2,355, the 17th straight year above 2,300. Since Perfect Game Field opened in 2002, attendance has been very steady, with the total ranging from 160,064 (2012) to 196,066 (2002), and the average per date ranging from 2,320 (2012) to 2,883 (2002).
- J **Burlington (IA)**, Beloit, and Clinton tend to have low attendance, in part, because their markets and ballparks are very small. Seating capacity at Beloit is 3,500, at Burlington it is 3,200, and Clinton's capacity was recently raised to 5,000. Record-high in Burlington is 83,927, achieved in 1994. In 2018, the Burlington Bees fell 13,785 to 53,259, their lowest total since 1997. There were 8 lost dates. They last reached 80,000 in 1994, and have topped 70,000 only in 2005, 2014, and 2016 since then. Average per date was down 189 to 859. The Bees have averaged over 1,000 just 8 times in the last 23 seasons, but had done it in 4 of the last 6 years.
- J **Beloit** attracted 101,127 in 1986, the only time in their 36-year history above 100,000. In 2018, the Snappers drew 64,574, up 338, despite 4 fewer, and 7 lost, dates. One game began at a frigid 33-degrees. It was the 9th straight year under 80,000, after 7 years in a row above 80,000. Average per date was 1,025, up 66. Record-high average per date since 1991 is 1,487 in 2004. Burlington and Beloit are often profitable. They are community owned, mainly staffed by volunteers, and profits go into ballpark maintenance.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**MIDWEST LEAGUE** – continued

-) **Peoria** had a 4,384 decrease to 208,275, and an average per date decline of 18 to 3,156, with 4 lost dates. 4 dates started with temperatures in the 30's. The Chiefs have topped 200,000 in total, and 3,000 in average, in 15 of the last 17 years. Prior to 2002, Peoria reached 200,000 in only 3 of the previous 25 years with recorded attendance.
-) **Quad Cities** drew 215,061, the lowest total since 2008, and down 14,945. Average per date fell 123 to 3,163, lowest since 2007. There were 2 fewer dates, and 4 games started in under-40-degree weather. The 2018 total was the 11th straight year above 200,000. The River Bandits had reached 200,000 only 6 times in 70 seasons with recorded attendance before this current streak, and none before 1990. Average per date surpassed 3,100 for the 11th straight year. A popular feature at Modern Woodmen Park is a 110-foot tall Ferris wheel.
-) **Lansing's** total attendance was 313,843, up a league-high 9,749, and average per date was 4,612, up 144. 6 April games began in less than 50-degree weather, with 3 of those games under 40 degrees. One game had a starting temperature of 31 degrees. The Lugnuts drew better than 500,000 in 1996 and 1997, and finished above 400,000 from 1996 through 2001. They've reached 350,000 in 12 seasons, and been above 300,000 in all 23 years. Total attendance is 8,670,614 in 1,539 dates, an average of 5,634 per date. Average per date was above 7,000 from 1996 through 1998, and surpassed 6,000 from 1996 through 2001. Each year since 2007, Lansing has played an exhibition game against Michigan State University. Attendance for the 12 games of the 'Crosstown Showdown' has totaled 101,735, an average of 8,478 per game. 4 of these games have attracted over 11,000 fans, with a high of 12,997 in 2012.
-) **Kane County's** attendance has reached 400,000 in 22 of the last 25 years (2012, 2017, and 2018 were the exceptions). It topped 500,000 from 2001 through 2006, and was 350,028, down 44,539, in 2018, with 3 fewer dates. It was the 27th straight year above 350,000. Attendance reached 5,000 at 36 dates in 2018, with 19 dates topping 7,000. The Cougars have averaged more than 7,000 per date 12 times in their history (1995, 1998-2008). In 2003, they had 18 crowds in excess of 10,000. Average per date was down 420 to 5,469 in 2018. The declines in both total and average were the worst in the league for 2018. The total was the lowest since 1992, and the average per date was the smallest since 1993. For their 28 seasons, the Cougars have drawn 12,129,292 in 1,864 dates, averaging 433,189 per season, and 6,507 per date. They've reached 12 million in attendance in fewer seasons than any Class A team ever. In 2016, the Cougars sold 72,532 hot dogs, 15,300 cheeseburgers, 14,995 lbs. of Super Nachos, but only 426 Fatty burgers.
-) The Midwest League's single game attendance high is 32,103, set on July 29, 2008, for a Peoria/Kane County game at Wrigley Field in Chicago. The top crowd at a Midwest League park was 14,872 in 2009 at Kane County.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTH ATLANTIC LEAGUE (FULL-SEASON A)** (14 teams -- 140 game schedule)

RECORD HIGHS: League - 3,862,077 (2007); Team – Lakewood – 482,206 (2001)

- J Weather hit this league very hard in 2018. 95 of the 980 dates (9.7%) scheduled were postponed, including 23 dates in April and 25 dates in May. The league played 32 fewer dates in 2018 than in 2017. There were 23 dates in April that began with temperatures of less than 50 degrees. Total attendance fell 166,138 (5.4%) to 2,907,297. Average per date was down 67 to 3,285. This was the league's 14th straight year with average per date of 3,200+.
- J Augusta opened a new park, and had the top gains in total attendance and average per date of any Minor League team. They were the only team in the league whose total attendance rose in 2018. 3 other teams had gains in average per date. Columbia, this year without Tim Tebow for part of their season, had the league's largest losses.
- J Since 2000, total attendance in this league is up 48.7% (1,954,697 to 2,907,297), and average per date is up 52.8% (2,150 to 3,285). Average per team is up 49.0% from 139,389 to 207,664. But the 2018 total attendance was the lowest since 2002, and average per team was lowest since 2004.
- J There were 16 teams in the S.A.L. when it set its all-time attendance record in 2007. Despite 2 fewer teams in recent years, the league topped 3 million for 10 straight seasons, through 2012, fell slightly below this level in 2013 and 2014, before finishing above it in 2015, 2016, and 2017. Attendance first reached one million in 1988, and topped 2 million initially in 1997.
- J From its inception in 1960 as the Western Carolinas League, league total attendance was under 500,000 until 1980. Average attendance per team reached 60,000 just once (in 1970) until 1980. It topped 100,000 for the first time in 1993. The average per team first hit 200,000 in 2004, and has been above that level ever since.
- J **Greensboro** led the league again in total attendance (322,156, down 28,587), and average per date (4,881, down 354). The total was the lowest since 2004, and average per date was the smallest since 2005. There were 4 lost dates. Attendance surpassed 5,000 at 29 dates. The Grasshoppers have topped 320,000 for 14 straight years, and have been above 350,000 in 12 of them. They drew 400,000 each year from 2005 through 2009. But prior to 2005, teams in Greensboro reached 200,000 just 6 times in 50 seasons, with a high of 260,340 in 1981. Average per date had exceeded 5,000 for 13 years in a row through 2017, and was over 6,000 from 2006 through 2008.
- J For the just the 2nd time in their 18-years, **Lakewood** did not lead the league in either total attendance or average per date. The total fell 45,131 to 293,413, with 7 lost dates, and 2 fewer dates than in 2017. Average per date dipped 551 to 4,657. This was the first time that Lakewood has drawn under 300,000, and averaged under 5,000 per date. Attendance topped 6,000 at 15 dates in 2018. 2014 through 2018, and 2011, are the only seasons below 400,000 for Lakewood, but attendance had topped 380,000 each year until 2016. They lost 9 dates due to weather in 2011. The BlueClaws have led the South Atlantic League in total attendance 14 times in their 18 years of play, and in 2 of the years they didn't have the top total, they still led the league in average per date.
- J There have been 141 crowds of at least 8,000 in Lakewood since 2001 (seating capacity-6,588). They averaged over 6,000 per date every year through 2012, before falling short of this level in each of the last 6 years. The BlueClaws have an 18-year total attendance of 7,403,363 in 1,207 dates (411,298 per year, 6,134 per date).
- J **Charleston (SC)** came very close to setting a record-high in total attendance for the 4th straight year. The total fell 582 to 305,040, and the average per date was 4,486, down 8 from the record-highs set in 2017. Both the total and average were the 2nd best in team history. 20 dates drew at least 5,000. This was the 22nd straight year above 200,000, and the 13th year in a row above 250,000, for Charleston. The RiverDogs had never drawn 200,000 until 1997. A former team in Charleston drew over 170,000 in both 1947 and 1948. But this city reached 120,000 only once (1986) in the next 31 seasons that it had a team, through 1996. Average per date has been above 3,300 for the past 22 seasons, and in the last 6 years, it has topped 4,000. The team won the 2013 Larry MacPhail Award for the top promotional effort in the Minor Leagues. Comedian Bill Murray is one of the team's owners.
- J The **Hickory** Crawdads drew 125,394, down 10,831 in 2018. Hickory's first season was 1993, when they reached their record-high total of 283,727. They topped 200,000 in each of their first 4 years (1993-1996), but have not done it since. Average per date in 2018 was down 229 to 1,900. The total and average per date were the lowest in their history. The Crawdads averaged over 4,000 per date in 1993, and above 3,000 in 1994 and 1995. They haven't reached that level since then, but have been above 2,000 every year except 2009, and 2018. Their ballpark got a makeover prior to the 2014 season.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTH ATLANTIC LEAGUE** - continued

- J **Bad weather probably kept the Asheville Tourists from setting a record-high total for the 4th year in a row, but they did have their highest average per date ever. It was 2,840, up 134. The old record was 2,774 in 2016.** Average per date has been above 2,500 for 6 straight years. Total attendance fell 13,630 to 170,389, the 5th highest in team history. There were 8 fewer dates than in 2017, and 10 lost dates overall. Total attendance has been above 150,000 for 9 years in a row, and in 13 of the last 14 seasons. In the 57 years with recorded attendance before that, it reached 150,000 only in 2000 and 2001. It has topped 170,000 for the past 5 seasons, something never done before. Attendance was above 100,000 just 7 times until 1990. Asheville's McCormack Field first opened in 1924. A new park with the same name on the same site, opened in 1992.
- J There have been many stories about a possible relocation by the **Hagerstown** Suns. In 2018 the Suns posted a 19,224 decrease in total attendance to 64,957, the 2nd lowest total in the current team's 38 seasons. Average per date was down 220 to 1,160. There were 5 fewer dates than in 2017, and an incredible 14 postponements. 3 April dates began in under 50-degree weather. Since 1981, the Suns had topped 100,000 in all seasons but one (1993) through 2011, but have been below that number since then. Average per date has been under 1,400 in each of the last 7 seasons. The team had been expected to move to Fredericksburg, VA in 2015, but plans for a new ballpark there fell through. A new ballpark in that city will open in 2020, but it will be home for the Potomac Nationals of the Carolina League. So the Suns stay in Maryland for now. They still hope to find a new home.
- J **The Augusta GreenJackets, named for the green jacket given to the winner of The Masters golf tournament in Augusta, moved to a new park in neighboring North Augusta, SC, and had a record-setting attendance year. Total attendance was 255,155, and average per date was 4,050 (old records were 201,760 and 3,011, both in 2010). The total gain was 76,886, and average per date rose by 1,307. Both of those increases were the best in Minor League Baseball in 2018. The 43.1% increase in total attendance, and the 47.6% gain in average per date, were the 2nd best percentage gains (to Tabasco of the Mexican League) in the NAPBL. There were 2 fewer dates than in 2017, and 7 lost dates.** This team has played in Augusta since 1988. Attendance topped 200,000 only in 2008, 2010, 2011, and 2018. But it has been above 150,000 for 13 straight years. Average per date has reached 2,500 for the last 12 seasons.
- J **Greenville, SC** had a drop of 14,715 in total attendance to 313,507. Their average per date fell by 76 to 4,823, with 2 fewer dates. 30 dates drew at least 5,000. The Drive's 2018 total is up 198,346 (172.2%) from the 2005 total of 115,161. In 2006, Greenville got a new park, and posted the biggest total attendance gain by a U.S. based team. Greenville has surpassed 300,000 in 13 straight seasons, a mark they never reached in the 42 previous years. But the Drive has been above 200,000 in all but 3 years since Minor League Baseball returned there in 1984. Average per date has topped 4,700 every year in the current ballpark. Greenville won the 2017 John H. Johnson President's Award for excellence.
- J **Lexington (KY)** drew 281,134, down 76. Average per date was up 136 to 4,462, tops since 2011, with 2 fewer, and 7 lost, dates. 6 games in April had a gametime temperature of less than 50 degrees, including one at 34 degrees. The Legends drew better than 400,000 in 3 of their first 4 years starting in 2001, and topped 300,000 for their first 11 seasons, but have finished under 300,000 in each year since 2012. Average per date was over 6,000 in 2001 and 2002. It stayed above 5,000 through 2008. It has not reached that level since, but has topped 4,000 every year.
- J **Kannapolis** had very bad weather, resulting in the lowest total attendance, and 2nd lowest average per date, in their 24-year history. Total attendance fell 4,424 to 64,688, but average per date was up 35 to 1,115. There were 6 fewer dates than in 2017, and 12 dates were lost. Intimidators' attendance had been very steady. They've drawn less than 100,000 only in 1993, 2016, 2017, and 2018. Their record-high is just 138,487 in 2011. But since 2015, total attendance is down 71,039 (52.3%), and average per date has fallen by 941 (45.8%). Kannapolis is only about 25 miles from the new and very successful ballpark in Charlotte, which may hurt their attendance. They expect to have a new ballpark in 2020, to be built as part of a redevelopment of downtown Kannapolis.
- J **West Virginia (Charleston)** had a 21,406 dip in total attendance to 112,373. Average per date slipped 216 to 1,841. These are the lowest figures since 2003. There were 4 fewer, and 9 lost, dates. 3 dates started in temperatures of less than 50 degrees. The Power had drawn better than 125,000 for 14 straight years through 2017, after not reaching 100,000 in the 8 seasons prior to 2004. But the only seasons above 200,000 were 2005 through 2008. Average per date was more than 3,000 in those 4 seasons, but has been below this figure ever since.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTH ATLANTIC LEAGUE** - continued

- J **Rome** (GA) had a 15,168 loss in total attendance to 146,276, with 4 less dates. Average per date was 2,286, down 88. It was the lowest total and average per date in the team's 16 seasons. The Braves have been below 200,000 in total, and 3,000 in average per date, for the past 10 years, after being above that level in their first 6 years.
- J The **Delmarva** Shorebirds led the league in attendance from 1996 through 2000, and have topped 200,000 in all 23 years of operation. Attendance was above 300,000 in the team's first 2 seasons (1996, 1997). But it has not reached that figure since then, and has been under 240,000 for the last 16 years. In 2018, total attendance fell 5,802 to 201,329, the lowest total in team history. Average per date was down 139 to 3,097, which is the 2nd lowest ever. There were 5 lost dates. 3 games in April began with temperatures under 50 degrees. The Shorebirds averaged over 4,000 per date from 1996 through 2000, but not since. Their high average per date was 4,915 in 1997. But they've been above 3,000 every year.
- J In 2015, Savannah played its final season in the league, and drew 125,587. Average per date was 1,962. This version of Savannah's team drew a high of 135,415 in 2011. The record-high for any team in Savannah is 217,000 in 1937. A Savannah team drew 192,975 in 1947. Columbia, SC replaced Savannah in 2016. The Bananas, a collegiate-summer league team began play in Savannah in 2016, and drew a league-record-high 80,504, averaging 3,659 per date, with 17 sellouts. The Bananas set a new record in 2017, selling out all 26 dates, and drawing 108,498 (4,173 per date). In 2018, the Bananas sold out all 25 dates, and drew 105,733 (4,229 per date).
- J The **Columbia**, SC Fireflies play in Segra Park, which opened in 2016. On days when there is no scheduled event, it is open as a public park. 2016 total attendance was 261,134, up 135,547 from what the franchise drew in Savannah in 2015. Average per date was 3,785, up 1,823 from Savannah. Prior to 2016, Columbia had a team from 1983-2004. It drew 100,000+ in 17 of 22 seasons, including each of the last 13. Record-high was 156,921 in 1996. Since 1946, teams also played in Columbia from 1946 through 1957, and in 1960 and 1961.
- J In 2018, without Tim Tebow, Columbia drew 251,586, down 63,448, the 3rd worst U.S. NAPBL loss. Average per date fell 1,018 to 3,755, the 2nd worst U.S. NAPBL decline. 9 crowds topped 5,000 with a high of 9,278.
- J 2017 was a record year again for Columbia. The Fireflies drew 315,034, up 53,900, which was the 4th best gain among all NAPBL teams. Average per date was 4,773, up 988, the 3rd best increase in the NAPBL. Attendance at 24 dates topped 5,000, and was 6,000+ at 15 dates. The game played during the August solar eclipse drew 9,629.
- J The Tebow Effect in Columbia – In 2017, Tim Tebow played for Columbia until he was promoted to St. Lucie on June 26. At home, Columbia had Tebow for 39 dates, and drew 207,031, an average of 5,308. After Tebow left, the Fireflies drew 108,003 in 27 home dates, an average of 4,000. On the road with Tebow, Columbia drew 169,443 in 29 dates, averaging 5,843 per date. Columbia's 37 road dates after Tebow left drew 125,259, an average of 3,885 per date. Combined home and away with Tebow, Columbia drew 376,474 in 68 dates, averaging 5,536 per date. Without him, combined attendance was 233,262 in 64 dates, an average of 3,645.
- J The Tebow Effect in St. Lucie figures can be found in the Florida State League section on page 110. Combined Columbia-St. Lucie home attendance with Tebow was 274,822 in 68 dates, averaging 4,042 per date. Without Tebow, these 2 teams drew 172,571 in 64 home dates, an average of 2,696. On the road, the combined Columbia-St. Lucie total with Tebow was 296,989 in 62 dates, an average of 4,790. Without Tebow, it was 163,200 in 70 dates, an average of 2,331 per date.
- J This league has some of the best gains ever for relocated teams. In their first season (2001), Lakewood drew 482,206, an all-time high for a South Atlantic League team. It was also a 14 fold increase from the 32,641 this franchise attracted in 2000, when it was in Cape Fear, NC. Lake County OH, which is now in the Midwest League, drew 437,515, in 2003, their first year in Ohio. In 2002, the franchise drew just 52,103 in Columbus, GA.
- J In 2002, Charleston, SC had a game with an official attendance of 0. It was a promotion called "Nobody Night" to achieve the lowest attendance ever at any game. A party for fans was held outside the ballpark until after the 5th inning, when the game became official. Fans were then admitted free. The old record for smallest 'crowd' was 1, set by Oakland of the Pacific Coast League on November 8, 1905. Yes, November, and no promotion here. It was a rainy day. The P.C.L. used to have a very long schedule. In 1905, Oakland played 222 games.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**SOUTH ATLANTIC LEAGUE** - continued

SOUTH ATLANTIC LEAGUE YEARLY ATTENDANCE

Year	# of Teams	Total Attendance	# Change vs. Previous Year	% Chg. vs. Prev. Year	Average per Date	# Change vs. Previous Year	% Chg. vs. Prev. Year

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**NEW YORK-PENN LEAGUE (SHORT-SEASON A)** (14 teams -- 76 game schedule)

RECORD HIGHS: League – 1,890,053 (2002); Team – Brooklyn – 317,124 (2002)

- J Total attendance fell 12,559 (0.9%) to 1,391,016, the lowest total since 2000. Average per date was down 103 to 2,733, also the lowest since 2000.
- J There were 14 more dates played in 2018 than in 2017, with 23 lost dates. There were 37 rainouts in 2017, and 24 in 2016. 7 teams had gains in total attendance and 5 were up in average per date. Brooklyn had the biggest gains in both categories. Mahoning Valley had the worst total attendance decline, and Aberdeen had the worst average per date dip.
- J Average per date in this league had topped 3,000 for 15 straight years until 2016, after never reaching this level before. Total attendance first reached one million in 1995, and has been above that every year since then.
- J The league reached a significant attendance milestone in 2013 as attendance since the start of the league in 1939 surpassed the 50 million mark. This league, whose original name was the P.O.N.Y. (Pennsylvania, Ontario, New York) League, has now drawn 58,404,878. 2015 was the 15th straight year that the league drew at least 1,500,000, but that mark was missed in 2016, 2017, and 2018. In 1939, the 6 teams in the league drew a total of 267,212.
- J Average attendance per team first topped 100,000 in 2001, and had been above that figure every year until 2018, when it was 99,358. The league had a 75,284 average per team in 1949, when it played a longer schedule. That figure was not surpassed until 1995. The average per team was below 50,000 each season from 1952 through 1988. The lowest average per team was 19,196 in 1967, the first year this league played a short-season. That year Auburn led the league in attendance, drawing 26,991. Erie finished last at the gate, with a total of 9,988.
- J The lowest team attendance since the short-season schedule began was 9,474 in 1980 by Auburn. In 1990, Pittsfield became this league's first team in the short-season era to draw 100,000. As late as 1993, none of the 14 teams in the New York-Penn League reached 100,000. 6 of 14 teams did it in 2018.
- J 2018, 2017 and 2016 were the only times in the 18-year history of the **Brooklyn** Cyclones that they did not lead all short-season teams in both total attendance and average per date. Vancouver of the Northwest League drew better these 3 years. In 2018, Brooklyn's total attendance rose 15,642 with 2 more dates, to 202,495. It was the 8th best NAPBL gain, and the best increase among all short-season teams. The Cyclones have topped 200,000 every year except 2017. Average per date was 5,329, up a league-best 139. 7 dates topped 7,000. The Cyclones have competition for sports dollars from the Barclays Center, an arena that is home to the NBA Brooklyn Nets, and starting in the 2015-16 season, the NHL New York Islanders. Brooklyn has drawn 4,657,710 in their 18 years, reaching 4 million sooner than any short-season team. Spokane held this record previously, and it took that team 28 years to top 4 million. Eugene, OR of the Northwest League hit 4 million in its 39th short season.
- J In 2002, the Cyclones set the short-season record of 317,124, averaged 8,345 per date, and sold out every game. Attendance also topped 300,000 in 2003, and was above 250,000 each year from 2001 through 2010. In 2001, the Cyclones drew 289,382, breaking the New York-Penn League mark set by Mahoning Valley (206,287) in 2000, and the short-season record of 249,995 set by Portland of the Northwest League in 1996.
- J Brooklyn's 2018 average of 5,329 per date still topped 56 of the 60 full-season Class A teams, 24 of the 30 teams in Class AA, 12 Mexican League teams, and even 8 teams in Class AAA. In their 18 years, the Cyclones have played 663 dates, averaging 7,025 per date. Attendance has been above 7,000 at 388 of these dates. Their season average per date reached 7,000 from 2001 through 2011. The Cyclones won the 2017 Larry MacPhail Award in recognition of their many great promotions.
- J The **Aberdeen** IronBirds had the lowest attendance in their 17-year history. Total attendance fell by 8,916 to 121,907, and average per date was down 481 to 3,483. It was the worst loss in average per date among short-season teams, and the 12.1% decline was the biggest average percentage loss for a short-season team. There were 3 lost dates, but 2 more played than in 2017. In 2014, total attendance fell 39,579, the largest decline of any short-season team, and average per date fell 1,099, the 5th worst NAPBL decline. In 2013, the IronBirds had the worst decrease of any U.S. NAPBL team. (Saltillo and Reynosa of the Mexican League had larger declines that year). Total attendance has fallen by 123,067 (50.2%) since 2012, from 244,974. Average per date is down 2,964 (46.0%) since 2012. Prior to 2013, the IronBirds had topped 225,000 in total attendance, and 6,000 in average per date in all 11 seasons they had played.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**NEW YORK-PENN LEAGUE (SHORT-SEASON A) - continued**

- J The **Auburn Doubledays** had a 2,789 total attendance loss in 2018, drawing 43,343. They had topped 50,000 in 5 of the previous 9 years. In the 58 seasons prior to 2009, they reached 50,000 only 6 times, with a low of 9,474 in 1980. Average per date has topped 1,000 for 24 straight seasons. Their ballpark is small, with a capacity of 2,800. Average per date fell 77 in 2018, to 1,204, the 2nd lowest average (to 2013) since 1994.
- J Through 2016, **Connecticut** had set a total attendance record-high (as a short-season market), in 4th straight years. Total attendance fell in 2017, but rose 2,371 in 2018 to 75,810 with 4 more dates. Average per date was down 176 to 2,049. It was the 5th straight year with average per date above 2,000. The full-season Class AA Eastern League team record in Norwich is 281,473, and the best average per date for that team was 4,201, both in 1995.
- J In 2014, **Tri-City** (Troy, NY) set a team record in total attendance for 11th time in 12 seasons. The ValleyCats drew a team record-high 161,171. Total attendance fell 2,886 in 2018, with 4 lost dates, to 140,036, lowest since 2007. Attendance has been over 100,000 in all 17 seasons, has topped 140,000 in each of the past 11 years, and is up 34.7% since 2003. The average per date has been above 4,000 in each of the last 11 seasons, and was 4,119, up 36, in 2018.
- J **Staten Island's** total attendance rose 1,493 to 72,894. Average per date was 2,083, up 43. Total attendance is down 136,124 (65.1%) since 2010, and average per date is down 3,723 (64.1%) from a 5,806 average per date in 2010. The Yankees drew over 200,000 in 2009 and 2010, and average per date surpassed 5,000 from 2008 through 2011. Part of the reason for the recent declines is a major construction project near the ballpark that has sharply reduced available parking. A plan to re-name the team was put off for now, so it will be the Staten Island Yankees again in 2019.
- J **Hudson Valley** has topped 4,000 in average per date in 23 of their 25 seasons. (They missed by 54 in 1994, their first season, and fell just 2 short in 2017.) The Renegades have drawn at least 138,000 every year since starting play in 1994, and have been above 160,000 in 10 of these seasons. Total attendance for those 25 years is 3,909,377 in 909 dates, an average of 4,301 in a park that seats 4,494. Highest game attendance there is 5,601, set in 2015. In 2018, total attendance rose 220 to 148,156, and average per date was up 6 to 4,004. There were 22 dates with attendance of at least 4,000.
- J **Lowell** had declines in total attendance and average per date to their lowest figures since 1997. The Spinners drew 118,319, averaging 3,381 per date. The total was down 8,246, and the average per date fell by 135. August 31, 2010 was the last game of a 413 date sellout streak that began on August 3, 1999. Lowell surpassed 150,000 for 17 straight years until 2015, and average per date was at least 5,000 for 11 straight years from 2000 through 2010. In 2008, the Spinners were part of a Minor League double-header that drew 36,234 at Fenway Park in Boston. In 2018, the Spinners became the first short-season team to install LED field lighting in their ballpark.
- J **Batavia** has not reached 45,000 since 1973, and has been below 40,000 in each of the last 10 seasons. The only years since 1950 with attendance above 50,000 were in 1970, 1971, and 1973. A full-season team in Batavia drew 67,680 in 1946. The Muckdogs drew 29,005 with 3 more dates, up 1,616, in 2018, their 2nd lowest total since 1987. Average per date fell by 22 to 784, the lowest since at least 1991, and the 7th straight year under 1,000. The Rochester Red Wings had operated the Muckdogs in recent years. But now the team's future is in doubt.
- J **Mahoning Valley** (Niles, OH) drew 97,204, down 10,690, the biggest loss in the league. Average per date fell 297 to 2,700. This was the team's 2nd lowest total and average in its 20 seasons. 2016 was the first season that total attendance was under 100,000, and that average per date didn't reach 3,000. The Scrappers topped 200,000 in 1999 and 2000, their first 2 seasons, but haven't done it since. They have not reached 130,000 since 2005. Average per date was 5,641 in 1999, the Scrappers' first season, and also topped 5,000 in 2000 and 2001. It was above 4,000 in the club's first 7 years, but not since.
- J **State College** has topped 119,000 in all 13 of their seasons. But the Spikes had their lowest total (119,986, down 3,415) ever in 2018. Average per date fell 4 to a team-low 3,243. The average was over 4,000 in 2007 and 2008. The Spikes, who play on the campus of Penn State University, drew 6,111 for a game in 2016, the biggest crowd ever for pro baseball in State College. Penn State's baseball team averaged 746 per date in 2018. Next door, at 106,572-seat Beaver Stadium, home of Penn State Football, the largest crowd was 110,889 vs. Ohio State in 2018. Penn State drew over 100,000 to 7 of its 13 home and away games, including a bowl game, in the 2018 season.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**NEW YORK-PENN LEAGUE (SHORT-SEASON A) - continued**

-) **Vermont** had a gain of 1,282 to 83,956, with 3 more dates than in 2017, and finished below 100,000 for the 12th straight year. The Lake Monsters had reached 100,000 in 12 of the 13 seasons (1994-2006) before that. Average per date fell 153 to 2,209, the lowest average Vermont has had as a short-season team (1994-2018). The average has not reached 3,000 since 2002, after topping it for 9 straight years. Centennial Field in Burlington has a grandstand built in 1922, and has been undergoing a series of renovations. It seats 4,415. In 2018, for the first time in team history, Vermont had no home or road postponements.
-) **Williamsport** drew 68,475, up 7,393, with 2 more dates. It was the best total since 2007, but it also was the 10th straight year below 70,000 for the Crosscutters. Average per date rose 105 to 1,902, also the best since 2007. This market has drawn 100,000 only in 1948, 1960, and 1988, when it had full-season teams. The New York-Penn League Crosscutters began play in 1994, and averaged at least 2,000 per date only from 2002 through 2005. From 2008 through 2018, total attendance has ranged between 60,429 and 68,475. Average per date has ranged from 1,700 to 1,902. In 2017, the first Little League Classic was played at Historic Bowman Field. In preparation for the game between the Pittsburgh Pirates and St. Louis Cardinals, \$4 million in renovations were made to the ballpark. The Mets and Phillies played in this game in 2018, and the 2019 game will feature the Cubs and Pirates.
-) The **West Virginia** Black Bears replaced the Jamestown Jammers for the 2015 season. The play in Granville, which is right next to the campus of West Virginia University in Morgantown, and share their ballpark with the WVU baseball team. They drew 69,430 in 2018, down 5,634. Average per date was fell 202 to 1,827, the first time under 2,000. In 2018, West Virginia University averaged 1,596 per date for its home games.
-) Jamestown played its final season in 2014, and drew just 24,246, the lowest total attendance of any NAPBL team. The Jammers had 6 lost dates. Their average per date of 758 was 2nd lowest (Princeton of the Appalachian League averaged 753) among NAPBL teams that year. The short-season record-high in Jamestown was 63,069 in 2001. The city's full-season record-high was 143,016 in 1942. They also topped 100,000 in 1946 and 1949. But the team did not reach 50,000 after 2004.
-) Team relocations and new parks have resulted in a significant increase in New York-Penn League attendance in the past 26 years. In 1992, the league's 14 teams drew a total attendance of 684,064, an average of 48,862 per team, and an average of 1,422 per date. The 2018 attendance total of 1,391,016 is a gain of 103.3% from 1992. 2018 average attendance per team was 99,358, and the average per date was 2,733. In 2018, 12 of the 14 teams in his league played in a ballpark that opened between 1994 and 2015. The only teams with an older park in this league are Vermont and Williamsport, whose ballparks opened in the 1920's.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**NORTHWEST LEAGUE (SHORT-SEASON A)** (8 teams -- 76 game schedule)RECORD HIGHS: League – **1,089,930 (2018)**; Team – Portland – 249,995 (1996)

- J **The Northwest League set another league attendance record-high in 2018! The total was 1,089,930, up 949 (0.1%). This broke the mark of 1,088,981 set in 2017.** Prior to 2017, the record-high was 1,060,587 in 1998. The Northwest League 2017 Media Guide listed their 1998 attendance as 1,088,382, because they added 27,795 to Portland's total. However, the 1998 NAPBL attendance press release, the Encyclopedia of Minor League Baseball, and The Baseball Cube, all show the lower figure for 1998. One thing for sure, a new record was set in 2017, and then broken in 2018.
- J **Average per date rose 3 to a league record-high 3,597.** The league has averaged over 3,200 per date for the past 6 seasons, and also from 1995 through 2000, and in 2007, 2008, and 2011.
- J All teams in the Northwest League averaged better than 2,000 per date from 2013 through 2017. These are the only times in Minor League history that every team in one of the short-season leagues averaged at least 2,000 per date in the same year. Salem-Keizer broke this streak in 2018 by averaging 1,897.
- J 5 teams had increases in total attendance, and 5 teams had gains in average per date. Boise posted the league's best gains in total attendance and average per date. Salem-Keizer had the largest losses in both categories.
- J The league had only one lost date in 2018 (at Tri-City) and in 2017 (at Spokane). 6 dates were lost in 2016. Only 2 dates were lost in 2015. There were 3 lost dates in 2014, 5 in 2013, and 3 in 2012. In 2011, there were no lost dates at all. The league has had just 32 lost dates since 2005, and 78 lost dates in 25 seasons since 1994.
- J Total attendance in this league topped one million each year from 1995 through 2000, but didn't reach that figure again until 2015 through 2018. The league has drawn better than 800,000 in all seasons since 1994. Before that year, the last time this league reached 800,000 was in 1948, when it played a full-season schedule. Total attendance was under 300,000 in all seasons from 1961 through 1982.
- J **Average attendance per team was a record-high 136,241 in 2018.** The old record was 136,123 per team in 2017. It was 132,573 in 1998, and with longer schedules was 124,174 in 1947 and 110,051 in 1948. The next time the average per team topped 100,000 was in 1994, and it has done that every year since. It's been over 130,000 in each of the past 4 seasons. The average per team was below 50,000 from 1961 through 1984, with a low of 20,482 in 1968. That year, the 4-team league drew a total of 81,928. In 2015, each of the 8 teams in the league individually drew better than that. Salem-Keizer fell below the 1968 league total in 2016, 2017, and 2018.
- J **Vancouver drew 239,086, down 441 from their record high of 2017. The Canadians' average per date of 6,292, was down 11 from the 2017 record-high, but the 3rd straight year above 6,000. A team record-high 32 of 38 dates drew a full sellout figure of 6,413. Nat Bailey Stadium seats 5,157. In 2018, the Canadians averaged better than 1,100 per date above seating capacity, and 98.1% of full-sellout capacity. The 2018 short-season total was higher than what Vancouver drew in 28 of 43 years with full-season teams.**
- J **The Canadians led all short-season teams in total attendance and average per date for the 3rd year in a row. Brooklyn had been the short-season leader each year from 2001 through 2015. In total attendance, in 2018, Vancouver outdrew one Class AAA team, 9 of 30 Class AA teams, 44 of 60 full-season Class A teams, and 11 of 16 Mexican League teams, all of whom play much longer schedules. In average per date, Vancouver topped 13 of 30 Class AAA teams, all but Frisco among the 30 Class AA clubs, all except Dayton in full-season Class A, 13 teams in the Mexican League, and every independent team except St. Paul.**
- J 2018 was the 8th straight year that Vancouver's total attendance surpassed 160,000, and the 9th year in a row with average per date above 4,000. In 1988, Vancouver set its all-time record of 386,220, while a member of the full-season Pacific Coast League. Vancouver is a rainy city, but not so much during their baseball season. They've had just 12 lost regular season dates in the last 19 years.
- J **Everett's** total attendance rose 1,438 to 111,599, and average per date was up 38 to 2,937. The total was the highest since 2000, and the average per date was the best since 2002. The AquaSox topped 100,000 each year from 1998 through 2007, but didn't do it again until 2015 through 2018. Prior to 1998, Everett hit 90,000 just once in 14 years. The average reached 3,000 in 1998, 2000, and 2001.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**NORTHWEST LEAGUE (SHORT-SEASON A) – continued**

- J **Spokane drew 198,423, up 1,770, a record-high for a short season team in that city.** Record-high for a full-season team in Spokane is 287,185 in the Class B Western International League in 1947. Spokane had led the league in total attendance for 15 straight years through 2014, until Vancouver topped them. The Indians have topped 100,000 for 33 straight years, have drawn over 160,000 for 24 years in a row, and reached 180,000 in the last 6 years, and 17 times since 1996. The 2018 total was higher than the total Spokane drew in 18 of the 24 seasons that it was a member of the full-season Class AAA Pacific Coast League (1958-1971, 1973-1982). In 2015, the Indians became the first short-season team to reach 5 million in attendance (only short-season years are included in this total). The current short-season team has drawn 5,695,035 since 1983.

- J In 2018, Spokane averaged 5,222 per date, which was higher than any team P.C.L. team in Spokane had ever averaged. 2018 average per date was down 93. This was the 6th straight year that the average has topped 5,000, and the 25th year in a row above 4,200. There were 11 sellouts, and 13 dates topped 6,000, with 5 of them drawing better than 7,000. Spokane's park, which opened in 1958, underwent a renovation that was completed for the 2013 season, and has a seating capacity of 6,803.

- J **Tri-City** (Pasco, WA) had set a team record-high for average per date in 7 straight years through 2013. The Dust Devils did it again in 2016. **In 2018, average per date was up 57 to a record-high 2,332, including a single game record of 3,830.** Total attendance fell 178 to 86,283, the 3rd best total ever. Attendance in Tri-City has been very consistent over the last 10 years, ranging from 83,987 in 2013, to 86,886 in 2016. Average per date has ranged from 2,216 to 2,332 during this period. In 1997, Tri-City drew 109,101 in the independent Western Baseball League, which had a longer season than they play now. The Dust Devils had the league's only rainout of 2018.

- J **Eugene** posted a 670 increase to 125,967, their best total since 2008. Average per date rose 18 to 3,315, the highest since 2009. The Emeralds topped 100,000 for the 34th straight year, the longest such streak by a short-season team. The total has reached 120,000 in 25 seasons since 1987. Prior to this, attendance reached 100,000 only 4 times in 32 seasons from 1950 through 1984, with a high of 168,094 in 1972. Those 100,000+ seasons all occurred between 1969 and 1973, when Eugene was in the full-season Pacific Coast League. Average per date topped 4,000 in 1996, and has been above 3,000 in all but 3 seasons since 1993. Eugene won the 2018 Larry MacPhail Award for promotional effort. Their new, smaller park has a capacity of 4,000 and is on the campus of the University of Oregon. In 2018, the University of Oregon averaged 1,103 per date for its home games.

- J **Hillsboro**, a suburb of Portland, drew 130,286, up 1,870. Average per date rose 50 to 3,429. 7 dates drew at least 4,000. The Hops have topped 128,000 and 3,300 per date in all 6 seasons. This franchise played in Yakima through 2012. Highest attendance ever in Yakima was 86,822 in 1993.

- J Northwest League teams were in Portland from 1973-1977, and from 1995-2000. In 1996, Portland drew 249,995, an all-time high for this league, and at that time, the highest attendance ever by any short-season team (broken by Brooklyn in 2001). For most of the 20th Century, and continuing through 2010, Portland was in the Pacific Coast League. Their record-high in that league was 454,197 in 2002. That team played in PGE Park, which was one of the largest Minor League ballparks in the country, seating nearly 20,000. On June 15, 1995, a game there drew 20,600, which is a Northwest League record. The facility has recently been renovated for use as a soccer stadium, renamed JELD-WEN Field, and is the home of the Portland Timbers of Major League Soccer. Portland is in the running for a Major League Baseball expansion team.

- J **Salem-Keizer** has reached 100,000 in all years except 2010, and 2013-2018, in their 22 seasons of operation. Their 2018 total attendance was 72,094, down 8,917, the lowest ever for this team. They set their all-time high of 136,836 in 1997, which was this team's first year of play. Average per date dipped by 235 to 1,897, the first time under 2,000. The declines in total and average were the biggest in this league in 2018. The average per date topped 3,000 from 1997 through 2004, and in 2006 and 2007, but not since.

- J **Boise's** attendance of 126,192, up 4,737, was their best total since 2000. From 1989 through 2010, the Hawks topped 100,000 every year except 2001, when they missed by just 160, and then reached 100,000 again from 2015 through 2018. It was above 120,000 from 1989 through 2000, and in 2018. Average per date rose 125 to 3,321, also the best since 2000. The 2018 increases were the highest in the league. The Hawks' average was over 4,000 each year from 1994 through 1998, with a high of 4,590 in 1997. Boise's ballpark seats 3,426. There have been talks about building a new ballpark in Boise for both the Hawks and Boise State University.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**APPALACHIAN LEAGUE (SHORT-SEASON ROOKIE)** (10 teams -- 68 game schedule)

RECORD HIGHS: League – 442,755 (1993); Team – **Pulaski - 91,226 (2018)**

- J 2017 was a good year for the Appalachian League. 2018 was even better. Total attendance rose 35,769 (10.1%) to 389,859, which was the best total for this league since 1997. The percentage increase was tops among all NAPBL leagues in 2018. The league also had the best total attendance percentage increases of any NAPBL Minor League in 2015 (8.5%), and 2014 (16.2%).
- J There were 7 fewer dates played in 2018 than in 2017. 25 dates were lost in 2018, compared to 19 dates in 2017, 22 in 2016, 20 in 2015, 16 in 2014, and 32 in 2013. There were 35 lost dates in 2012, and just 5 in 2011.
- J Average attendance per date was up 139 to 1,242, the league's best average since the record-high of 1,404 in 1994. It was the 4th straight year with average per date above 1,000.
- J 7 teams were up in total attendance, and 8 teams had gains in average per date. Pulaski had the best total attendance gain, and Greeneville posted the top average per date growth. Elizabethton had the league's worst declines in both total attendance and average per date.
- J Both Johnson City and Pulaski drew over 60,000 in total attendance in both 2018 and 2017. This makes it 5 times that at least 2 teams from this league have reached 60,000 in a season since the Appalachian League began to play a short-season schedule in 1957. 3 teams did it in 1990, and 2 teams did it in 1992 and 1993.
- J In 2016, for the first time since 1999, at least 4 Appalachian League teams drew over 40,000 (Greeneville, Johnson City, Burlington, Pulaski). 4 teams also topped 40,000 in 1991, 1992, 1995, 1998, and 1999. A record-high of 5 teams did it in 1993, 1994, and 1997, and 3 teams reached this level in 2018, 2015, and 2014.
- J The Appalachian League has topped 400,000 in attendance in 1947 as a full-season league, and in 1991, 1993, 1994, and 1997 as a short-season league.
- J This league has small markets and parks, with capacity ranging from 1,500 in Elizabethton to 3,000 in Burlington.
- J In 1957, the Appalachian League became the first league to play a short-season schedule. Total attendance for the league as a short-season entity didn't reach 200,000 until 1986.
- J The highest average attendance per team for this league was 51,736 in 1947, when it played a longer schedule (126 games) than it does now. From 1957 through 1985, the average per team was below 20,000 in 17 seasons. It didn't reach 30,000 per team until 1988. The short-season record-high average per team is 44,276 in 1993. The last time the average per team topped 40,000 was in 1997. It was 38,986 in 2018, the highest since 1997.
- J Lowest average per team was just 12,983 in 1983. That year, the 7 teams in this league drew a total of 90,878. Pulaski alone drew more than that in 2018. Bluefield had the highest 1983 attendance – 25,767. 4 teams attracted less than 10,000. Pikeville drew just 4,998.
- J **Pulaski had an incredible attendance season for a team in this league. The Yankees drew 91,226 in 2018, the highest total ever for an Appalachian League team since it went to a short-season schedule in 1957. This was the best total in the league in any season since Bluefield, playing a much longer schedule, drew 116,572 in 1949. The 2018 total was up 13,346, which was the 2nd best increase (to Brooklyn) among all short-season teams. Average per date was up 404 to an all-time team and league record-high of 2,764. This was the 5th best average per date gain among all NAPBL teams, and 2nd best among those in short-season leagues. On a percentage basis, both the total and average per date rose 17.1%, which was 7th best in total and 6th best in average per date gains among all NAPBL teams. 10 dates drew over 3,000.**
- J 2018 was the 4th straight year with attendance above 57,000 for Pulaski. They had not topped 35,000 in their previous 42 seasons. Since 2014, total attendance is up 65,066 (248.7%), and average per date is up 1,946 (237.9%). From 2015 through 2018, Pulaski has drawn a total of 284,124. In the previous 4 seasons (2011-2014), they drew 107,539. Calfee Park, built in 1935, seats just 2,500. The Yankees drew above this level at 21 of 33 dates in 2018, topped by a team record-high crowd of 4,068, on Lee Landers Bobblehead Night, honoring the retiring Appalachian League president.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**APPALACHIAN LEAGUE (SHORT-SEASON ROOKIE)** - continued

- J In 2017, Pulaski drew a team record-high 77,880, up 19,885. Average per date rose 489 to a team record-high 2,360. These were the best gains among all short-season teams. The 34.3% increase in total attendance was the 4th best percentage gain among all NAPBL teams, and the 26.1% increase in average per date was 6th best. No Appalachian League team had drawn as well as Pulaski did in 2017 since Danville drew a short-season Appalachian League best total of 80,539, and 2,441 per date, in 1993. Danville's records were broken by Pulaski in 2018.
- J 2016 was record-setting year for Pulaski. The Yankees led the league, and set new team record-highs. They drew 57,995 in total attendance, and averaged 1,871 per date. These were the highest total attendance and average per date figures in this league since Danville drew 75,745, and averaged 2,228 per date, in 1997.
- J Pulaski had very strong growth in 2015. Total attendance more than doubled to a then-team record-high of 57,023, up 30,863, the 10th best gain among NAPBL teams playing in the same market in both 2015 and 2014. It was the highest attendance by an Appalachian League team since Danville drew 57,044 in 1999. The old short-season high in Pulaski was 33,679 in 2008, while the full-season high was 49,472 in 1947. Average per date was a then-record-high 1,677 in 2015, up 859. That was the 6th best NAPBL average per team increase for 2015.
- J Pulaski has surpassed 30,000 in 8 of their last 11 seasons after doing it just once in the previous 35 years with a team. They drew 26,160 in 2014. In 1998, this franchise drew just 8,812, an average of 275 per date. Pulaski drew less than 20,000 in 22 of the 27 seasons that the city had a team from 1954 through 1999. From 1992 through 2014, average per date reached 1,000 only in 2008. They became a Yankees affiliate in 2015, and changed their name from Mariners to Yankees.
- J **Kingsport** drew 28,928, down 814, with one less date. The Mets had topped 30,000 in 9 of the previous 12 seasons prior to 2016, and 25 times overall as a short-season team. They drew over 45,000 from 1997 through 1999, with a high of 55,457 in 1999, but have not topped 40,000 since. Average per date was 904, up 3, the 9th straight year below 1,000. There is talk about building a new ballpark, replacing Hunter Wright Stadium, which opened in 1995.
- J **Greeneville, TN** led the league in total attendance and average per date in their first 11 years (2004-2014) in the league. In 2015, the Astros (now the Reds) still set team record-highs in both total attendance and average per date. In 2017, they had the lowest attendance in team history. But they had a big rebound in 2018. The total rose 12,716 to 48,021, and average per date was up a league-best 410 to 1,549. It was the 4th best NAPBL average per date gain (2nd best to Augusta among U.S. teams). The percentage increase of 36.0% in both total and average per date was the 4th highest in the NAPBL in both categories. Greeneville had topped 40,000 in 13 straight years from 2004 through 2016, a streak that no current team in this league has ever achieved. Average per date has surpassed 1,300 in 13 of this club's 15 seasons.
- J **For the 3rd straight year, the Johnson City Cardinals had a record-setting season. Total attendance was up 3,679, despite 2 fewer dates, to a new record-high of 68,881. Average per date was a record-high 2,222, up an NAPBL 10th best 246. 9 dates drew over 3,000. A crowd of 4,167 was their largest ever. This was the 12th time that Johnson City has drawn at least 40,000 as a short-season Appalachian League team. Total attendance is up 43,269 (168.9%) in Johnson City since 2013, and average per date has risen 1,396 (169.0%).**
- J In 2017, there were then-record-highs in total attendance (65,202), and average per date (1,976). 2016 brought new records for Johnson City. Despite 5 lost dates, total attendance was up 12,737 to 51,855. Not only was this a Johnson City short-season record-high, but it also topped, by 9, the high of 51,846 that this city drew with a longer-season team in 1948. Average per date rose 369 to a new record of 1,673. These increases were the best of any short-season team. The average per date increase was 4th best among all U.S. NAPBL teams, and the percentage gains of 32.6% in total attendance, and 28.3% in average per date, were tops among U.S.-based NAPBL teams.
- J Johnson City also had the best total increase among all short-season teams in 2014. That year, the Cardinals' average per date gain of 435 was not only the best among all short-season teams, but also the 13th highest average per date increase among all NAPBL teams. Johnson City drew less than 20,000 in 14 seasons from 1958 through 1985, and 3 more times since then. But their attendance has more than doubled since 2013.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**APPALACHIAN LEAGUE (SHORT-SEASON ROOKIE)** - continued

- J **Burlington** drew 36,541, up 2,058. Average per date was 1,142, up 97. In 2017, Burlington's 30.0% declines in total attendance and average per date were the worst percentage losses among all U.S. NAPBL teams. 2016 attendance had been the best since 1993 for Burlington. This team drew over 40,000 in 14 of 15 years from 1986 through 2000, and reached 60,000 in 6 of 8 seasons between 1986 and 1993, topping 70,000 in 1987 and 1988. But the total didn't reach 40,000 from 2001 through 2013. Average per date has been above 1,000 every year, except from 2008 through 2011, since the current team began play in 1986.
- J **Bristol** had a 1,128 increase to 21,941. Average per date rose by 37 to 708. In 2015, Bristol drew the lowest total and average per date of any NAPBL team. This team has not topped 30,000 since 1976, when they drew a record-high total of 32,409. Lowest total was 7,835 in 1982. Their full-season high was 68,504 in 1946. Average per date has been under 1,000 since at least 1991.
- J **Danville's** total attendance rose 2,132 to 34,766, and average per date grew by 1 to 1,054, their best total and average since 2009. In their first 7 seasons (1993-1999), Danville topped 50,000 each year, and drew a then-league record-high 80,539 in 1993 (broken by Pulaski in 2018). After 1999, they've only reached 40,000 in 2006 and 2007. Average per date topped 2,000 from 1993 through 1997, with a high of 2,441 in 1993.
- J **Bluefield** dipped 1,577 to 20,018 in 2018, their lowest total since 1975, with 3 lost dates. Average per date declined by 51 to 646, which was lowest since at least 1991. 2009 was the only year above 30,000 since 1999 for the Blue Jays. This team drew 55,373 in 1991. It had 10 straight years above 30,000 from 1990 through 1999. 2009 was also the only year since 2001 with average per date above 1,000.
- J **Elizabethton**, which has the smallest regular NAPBL ballpark (the park that Buies Creek had as its temporary home in 2017 and 2018 is smaller), has reached 30,000 just once (in 2007) in their 45 years in this league. But they drew over 20,000 from 2001 through 2015, after doing it just twice (1978 and 1994) from 1974 through 2000. The E-Twins drew 15,329 in 2018, down 3,417, with 3 fewer dates. Average per date fell 57 to 529, and it has never reached 1,000. The total and average per date were the lowest since 1999. The total was the lowest among all NAPBL teams in 2018.
- J In 2018, **Princeton's** total attendance rose 6,518 to 24,208 with 2 fewer dates, and average per date was up 245 to 781. The 36.8% gain in total attendance, and 45.7% increase in average per date were both the 3rd best gains in percentage in the NAPBL. Princeton had topped 30,000 in 9 of their first 14 seasons. But they haven't reached this total level, or 1,000 in average per date, in the last 17 years.
- J 1993 was a record setting year in attendance for the Appalachian League. The league drew a record high 442,755, and Danville's attendance of 80,539 was until 2018, the highest by a team since this league went to a short-season schedule in 1957. 3 other teams also topped 50,000 in 1993. Burlington drew 61,088, Martinsville had a total of 58,368, and Huntington's attendance was 51,365. Prior to 2015, the last team in this league to reach 50,000 was Greenville in 2008. Greenville and Pulaski did it in 2015, and Johnson City and Pulaski reached this level in 2016, 2017, and 2018.
- J The Encyclopedia of Minor League Baseball lists team attendance for the Appalachian League starting in 1945. This was a full-season league through 1955. Bluefield had the 3 highest individual team totals of that era, drawing 86,303 in 1947, 83,208 in 1948, and 116,572 in 1949.
- J Lee Landers, President of the Appalachian League, was named the 2017 'King of Baseball' by Minor League Baseball. It is the highest individual honor that is awarded by Minor League Baseball. Mr. Landers has headed this league since 1996, and his career in baseball spanned nearly 60 years. He retired after the 2018 season.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PIONEER LEAGUE (SHORT-SEASON ROOKIE)** (8 teams -- 76 game schedule)

RECORD HIGHS: League – 728,952 (2008); Team – Salt Lake City - 217,263 (1992)

- J Total attendance fell 13,705 (2.2%) to 604,337, the lowest since 2004. Average per date was 2,070, up 24. The league played 10 fewer dates than in 2017, when there were just 2 rainouts, one each at Grand Junction and at Orem. In 2018, those two clubs, along with Ogden, didn't have any postponements.
- J 2018 was the 16th year in a row where the average per date was at least 2,000. The league did not average 2,000+ per date in any season before 2003, going back to at least 1992. Record-high average per date was 2,463 in 2008.
- J Pioneer League total attendance didn't top 600,000 from 1953 through 2002. It's done so every year since then.
- J 4 teams had increases in total attendance, led by Idaho Falls. 4 teams posted gains in average per date, also led by Idaho Falls. Billings had the biggest losses in the league both in total attendance and in average per date.
- J Pioneer League record-high average attendance per team is 91,119 in 2008. The only other year above 90,000 was 2009. The short-season average per team reached 70,000 for the first time in 2002, and has topped this figure in all years since then. This league began to play a short-season schedule in 1964. When it played a longer season, the record-high average per team was 100,335 in 1948. It was 75,542 in 2018, lowest since 2004.
- J From 1964 through 1980, the league average per team never topped 40,000. The low was 15,862 in 1965. That year, the 4 teams in the league drew a combined total of just 63,446. 5 of the current 8 teams in the league individually drew more than that in 2018. In 1965, each team played a total of 66 games. Lowest team attendance was 8,692 by the Pocatello Chiefs, who were managed by Tom Lasorda. The last year with an average per team below 50,000 was 1993 (41,921).
- J **Ogden** led the league in total attendance for the 19th consecutive season in 2018, drawing 129,285, up 937, and their best total since 2011. Average per date rose by 24 to 3,402. There were 13 crowds of at least 4,000. The Raptors have topped 100,000 and averaged over 3,000 per date for 18 straight years. In 12 of those seasons, the average per date topped 3,400, with a high of 3,844 in 2009. They've reached 125,000 in 13 of the last 17 seasons, and surpassed 120,000 in 16 of those years. Ogden and Grand Junction have the largest parks in this league, with capacities of about 7,000.
- J **Idaho Falls** had a league-best increase of 10,632 to 101,448. This was the 2nd highest total (to 2007) in the 74 years of listed attendance in Idaho Falls. 2007 was the first year that the total reached 90,000, but it has surpassed that mark in all but 2 years since then. Average per date rose a league-best 352 in 2018 to 2,742, which is just 20 below this team's record-high set in 2007. It was the 12th straight year above 2,200. The Chukars' ballpark seats just 3,400, and 12 of their top 13 attendance totals have all come in the last 12 seasons. The highest attendance for a full-season team in Idaho Falls was 81,157 in 1948. Since 2007, the Chukars have drawn better than that with their short-season team every year except 2014.
- J **Great Falls** drew 47,625, up 365, despite 4 fewer dates than in 2017. It was the 9th year in a row under 100,000, and the 5th year in a row under 50,000. Average per date was up 157 to 1,401, the best average since 2013. Attendance in Great Falls has been cut by more than half since 2003. The Voyagers have not reached 60,000 in the last 8 years, after topping 100,000 in 5 of 7 seasons from 2003 through 2009. A full-season team in Great Falls topped 100,000 each year from 1949 through 1953. The next year above 100,000 was 2003. Average per date reached 2,000 yearly from 1998 through 2009, but not since. The high was 3,183 in 2003.
- J **Grand Junction**, in its 7th season in the league, drew 84,416, up 4,869. Average per date rose by 71 to 2,221. This was the best total and average since 2013. There was a team record-high crowd of 6,429 on July 4. Rockies' attendance reached 100,000 only in 2012, their first season in Colorado. The team moved to Grand Junction from Casper, where the highest attendance there was 57,120 in 2010.
- J **Billings** drew 93,466, down 16,485, in part, due to 3 fewer dates. It was the worst loss in the league, and the lowest total since 2006, after 10 straight years above 100,000. Prior to this streak, Billings had reached 100,000 just 8 times in the previous 48 seasons. The Mustangs' 2018 average per date was down a league-worst 233 to 2,670, their lowest average since 2007. The average has been above 2,500 in 23 seasons since 1992, including the last 13, and has surpassed 2,800 for 10 of those seasons. Since 1991, it topped 3,000 in 1995, 2003, 2008, and 2012.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**PIONEER LEAGUE (SHORT-SEASON ROOKIE)** - continued

- J Until 2016, **Orem** had surpassed 75,000 in all of their 11 seasons, with 4 of those years topping 100,000. But the Owlz (yes, that is how the team spells its name) had their toughest attendance year, by far, in 2016. Total 2016 attendance fell 28,229 to 57,504, and average per date was down 702 to 1,554. These declines were 2nd worst (to Staten Island) among all short-season teams, and the average per date loss was 4th worst among all U.S. NAPBL teams. The percentage declines in both total attendance (32.9%) and average per date (31.1%) were the 2nd worst of any U.S. NAPBL team (to Princeton of the Appalachian League). This excludes Lakeland and Hartford, who were displaced from their regular ballparks in 2016.
- J In 2018, the Owlz had a 4,889 decline in total attendance to 51,092. Average per date dipped 168 to 1,345. The total and average per date figures were the smallest in this team's 14-year history. The average per date had been above 2,000 from 2005 through 2015.
- J Through 2014, **Missoula** had drawn over 80,000 for 8 straight years after never before reaching that level. Attendance fell below that figure from 2015 through 2018. In 2018, it dipped 6,017 with 3 fewer dates, to 65,919, the lowest total since 2003. The Osprey averaged 1,883 per date, down 10, the lowest average since 2005. Average per date exceeded 2,000 each year from 2007 through 2015.
- J It's been 13 years in a row with total attendance under 40,000 for the **Helena** Brewers, who played in a 2,100-seat park. Teams in Helena failed to reach 30,000 in any season from 1978 through 1988, and have topped 40,000 just 6 times in 39 years, none since 2005, and have never reached 50,000. Lowest total was 10,694 in 1983. The 2018 total of 31,086 was down 2,757, and average per date decreased by 51 to 840. The average per date has topped 1,000 in 12 of the 25 seasons that Helena has fielded a team since 1992, but only in 2016 since 2007. Record-high average per date since 1991 was 1,290 in 1992.
- J 2018 was Helena's final season in the Pioneer League. The team moves to Colorado Springs for the 2019 season, replacing the Pacific Coast League Colorado Springs club that moves to San Antonio, which replaces the Texas League team in San Antonio that moves to Amarillo. Got all that? The Pioneer League team in Colorado Springs will be named the Rocky Mountain Vibes.
- J The league's record-high attendance noted earlier is for a short-season schedule. In 1948, the league drew a record-high 802,682 with its 8 teams playing a 126 game schedule, 50 more games than now.
- J Highest attendance ever for a Pioneer League game was 12,870 at Salt Lake City in 1992. Salt Lake City is now in the Pacific Coast League. But they had a Pioneer League team from 1939-1942, 1946-1957, 1967-1969, and 1985-1992. In their final Pioneer League season, Salt Lake City drew 217,263, the highest total ever in this league. They also topped 200,000 as a Pioneer League team in 1946 and 1991. Pioneer League attendance in Salt Lake City reached 100,000 in 1940, then 8 times between 1946 and 1956, all with longer-season schedules, and each year from 1986 through 1992 as a short-season team.

NAPBL INDIVIDUAL LEAGUE AND TEAM HIGHLIGHTS**ARIZONA FALL LEAGUE** – (6 teams – 30 game schedule)

The Arizona Fall League is a 6 team league, operated by Major League Baseball, which plays in October and November. The league was created in 1992. Each team is affiliated with 5 Major League teams, and in 2018, played a 30-game schedule over a 6-week period from October 9 through November 15. Rosters are made up of players from their MLB parent teams' Minor League system. Most of the players have been in Class AAA or Class AA.

The league charges admission to their games (\$8 for adults, \$6 for seniors and kids, and \$4 for groups of at least 20) and compiles attendance. The attendance totals from this league are listed separately, and not included in the yearly NAPBL Minor League totals.

Games are played at Major League Arizona Spring Training ballparks. The 6 teams in 2018 were the Glendale Desert Dogs, Mesa Solar Sox, Peoria Javelinas, Salt River Rafters, Scottsdale Scorpions, and the Surprise Saguaros.

In 2016, the league drew record highs in total attendance and average per date. Scottsdale set records for total attendance and average per date by any team. The Salt River Rafters had led the league in attendance from 2011 through 2015. Total attendance rose 7,857 in 2018, and average per date was up 87. Salt River was the leader for the 6th time in the last 8 years.

ARIZONA FALL LEAGUE – 2005-2018 ATTENDANCE

INDEPENDENT LEAGUE HIGHLIGHTS

As usual, there were some changes among the independent leagues in 2018. The Can-Am, United Shore, and Frontier Leagues had the same lineup of teams and cities as in 2017. The American and Pacific Associations, and the Atlantic, Empire Pro, and Pecos Leagues all made changes in their rosters of teams in 2018. The United Shore Baseball League, played its 3rd season with 4 teams, all in Utica, Michigan, a suburb of Detroit. These changes will be noted in the individual league summaries on the following pages.

- J In 2018 there were 8 independent leagues. Attendance was reported by all but the Empire Pro League. The United Shore League reported a league average per date, but did not break it out by team. Home attendance figures were available for 55 teams, plus the combined 4 teams in the United Shore League. The attendance for the Pecos Baseball League was provided by the league office, is estimated, and does not include 'no-shows.' Empire League attendance probably was very low. In 2017, the same 8 leagues had 53 teams, plus 4 in the United Shore League, that reported attendance. In 2016, 52 teams, plus 3 from the United Shore League, reported attendance. 7 independent leagues operated in 2015, with 52 teams reporting attendance. There were 8 independent leagues in 2014, with 50 of their teams listing attendance. 8 independent leagues, with 53 teams that recorded attendance, operated in 2013.
- J Total reported independent leagues 2018 attendance was 5,919,353, down 300,935 (4.8%). In 2018, independent leagues recorded attendance for 24 more dates than in 2017, but combined to play 573 fewer dates with reported attendance than in 2007. There were 2,540 reported attendance dates in 2018 compared to 3,113 in 2007.
- J Combined 2018 average attendance per date for the independent leagues was 2,330. This is down 142 from 2017. The all-time combined high average per date for independent leagues is 3,000, set in 2004. The record-high average per date for a post-1992 independent league was 4,621 by the Northern League in 2008.
- J The American Association, and the Frontier and Atlantic Leagues all set record-highs in total attendance in 2012. The Can-Am League set its high in 2007. The Pacific Association high was in 2018, and 2017 had the highs for the Pecos and United Shore Leagues. In 2018, the American Association, Pacific Association, and the United Shore League had gains in total attendance. The United Shore League and Pacific Association were up in average per date. The Atlantic League replaced Bridgeport with a road team. The Chicago Dogs replaced a road team in the American Association. Ruidoso replaced Hollywood in the Pecos League. Martinez and Napa were added to the Pacific Association. Plattsburgh and Puerto Rico replaced Watertown and New Hampshire in the Empire League.
- J 52 independent league teams were in the same market in 2018 as in 2017. 22 of them had 2017 gains in total attendance, while 30 were down. In average per date, 19 teams were up, 32 were down, and one had the same average per date in both seasons.
- J NOTE ON LEAGUE AND TEAM RECORDS LISTED IN THIS SECTION: The number of teams in each league, and the number of games scheduled, can vary from year to year among independent leagues. This can have a significant impact on league and team totals.

LEAGUES THAT REPORTED ATTENDANCE, BUT DISBANDED SINCE THE END OF THE 2010 SEASON

Many of the teams from the leagues listed below have moved to other independent leagues. The United Baseball League disbanded after the 2010 season, returned in 2013 and 2014, but did not play in 2015, 2016, or 2017.

GOLDEN BASEBALL LEAGUE (10 teams – 90 game schedule in 2010)
RECORD HIGHS: League – 742,394 (2010) 10 teams; Team – Tucson -- 139,149 (2009)

NORTHERN LEAGUE (8 teams -- 100 game schedule in 2010)
RECORD HIGHS: League – 2,189,151 (2005) 12 teams; Team – Winnipeg – 323,141 (2004)

CONTINENTAL BASEBALL LEAGUE (4 teams – League disbanded prior to the end of the 2010 season)
RECORD HIGHS: League – 64,659 (2009); Team – Alexandria, LA – 45,727 (2009)

NORTH AMERICAN BASEBALL LEAGUE (10 teams in 2012, the league's final year)
RECORD HIGHS: League – 642,963 (2011); Team – San Angelo – 115,735 (2012)

INDEPENDENT LEAGUE HIGHLIGHTS**INDEPENDENT LEAGUES LISTING ATTENDANCE – COMBINED YEARLY ATTENDANCE AND TEAM LEADERS**

Number of leagues and teams only includes those that had attendance recorded. It includes leagues and teams that compiled attendance but disbanded prior to the end of their seasons. In 1995, there were 13 teams that folded before completing their seasons. 11 teams, including all 8 in the Canadian League, didn't finish their seasons in 2003.

Bridgeport, Long Island, and Sugar Land play in the Atlantic League, which has the longest season of any independent league. In most years, teams in the Atlantic League were scheduled for 70 home games. Other independent leagues have in recent years had 48-53 home games per team each season. In some cases, leagues had a team that only played road games, so the rest of the teams in the league played a few extra home dates.

The table below shows which non-Atlantic League, independent league team had the best total attendance since 1998. In 2015, St. Paul became the first non-Atlantic League team topping total attendance since 1997.

Year	Team	Attendance		Year	Team	Attendance
1998	St. Paul	272,210		2009	Winnipeg	278,099
1999	St. Paul	265,818		2010	Winnipeg	271,399
2000	Winnipeg	271,513		2011	Winnipeg	275,521
2001	Winnipeg	292,095		2012	Winnipeg	285,263
2002	Winnipeg	303,786		2013	Winnipeg	276,359
2003	Winnipeg	300,760		2014	Winnipeg	258,429
2004	Winnipeg	323,241		2015	St. Paul	404,528
2005	Winnipeg	322,758		2016	St. Paul	413,482
2006	Winnipeg	312,213		2017	St. Paul	406,501
2007	Winnipeg	300,938		2018	St. Paul	408,921
2008	St. Paul	286,796				

INDEPENDENT LEAGUE HIGHLIGHTS

ATLANTIC LEAGUE (8 teams -- 140 games in 2017, 7 teams + one road -- 126 games with 70+ home games in 2018)
RECORD HIGHS: League -- 2,367,578 (2012) 8 teams; Team -- Sugar Land -- 465,511 (2012)

- J The Atlantic League has always played the longest schedule among modern (post-1992) independent leagues. The 2012 attendance, noted above, was the highest total by any modern-day independent league.
- J The league had 7 teams playing home games, plus a road team in 2018. Bridgeport did not operate. Attendance fell 221,480 (10.7%) to 1,849,845. The league had surpassed 2 million 9 times in 10 years through 2017, and for 10 times overall. 2018 was the 14th straight year with attendance of at least 1.8 million. There were 50 fewer dates in 2018 than in 2017, and 27 lost dates. Some of the 7 returning teams played extra home dates in 2018. These 7 teams had a combined total decline of 24,563 (1.3%). In 2017, Bridgeport drew 196,917 (2,984 per date).
- J Average attendance per date fell by 51 to 3,894. The 7 returning teams had a combined average per date dip of 190. This league has averaged at least 3,500 per date in all seasons except its first (1998), and topped 4,000 per date from 2006 through 2015. League record-high is 4,409 in 2012. The best average per date for any modern independent league was 4,621, by the Northern League in 2008.
- J 2018 Atlantic League playoff games drew an average crowd of 3,474. This was the highest post-season average per game of any independent league in 2018. Somerset set an Atlantic League single-game playoff record-high with a crowd of 8,143. The Pacific Coast League's 2018 playoff average per game was 6,015. The Mexican League playoffs, which always draw well, averaged 9,911 per game.
- J 3 teams had increases in 2018 total attendance, led by Sugar Land. Lancaster had the league's only average per date gain. York had the biggest total loss, and New Britain had the largest average per date decline.
- J Atlantic League average attendance per team has been above 245,000 in all years since 2001. The record-high of 295,947 per team in 2012 is the best ever for a modern independent league. The average per team was 264,264 (no typo here) in 2018.
- J In 2012, **Sugar Land** played its first season and drew 465,511, the highest total attendance ever by a modern independent team. The Skeeters also averaged 6,650 per date, which was the best among all independent league teams in 2012. The old independent team total attendance record was 443,142, set by Long Island in 2001. The current independent record-high for average per date is 8,438 by St. Paul in 2016.
- J But in 2013, even though the Skeeters had the highest independent total attendance, it declined 83,452, the worst drop by any independent team. Average per date fell 1,113, which was the 2nd greatest drop among independent teams. Sugar Land had a 1,406 gain to 383,465 in 2014, and led all independent teams in total attendance. 2015 saw an 81,605 drop in Sugar Land's total attendance to 301,860, the worst decline that year by an independent team. This still was the 4th best 2015 total among the independents. Average per date fell to 4,439. In 2016, total attendance slipped to 300,331, which was the 4th best independent team total. Average per date rose to 4,483, the 5th best among independents. The Skeeters drew a team record crowd of 8,606 on July 4.
- J In 2018, Sugar Land drew 328,491, up a league-best 10,770, with 4 more dates. It was the 4th best gain among independent teams. Average per date was 4,562, down 110. The Skeeters' average has topped 4,400 in all seasons. Attendance was over 5,000 at 24 dates in 2018, with 5 of them drawing better than 6,000.
- J **Long Island** (Central Islip, NY) drew an indy 3rd best total of 349,058, up 7,228, with 4 more dates. Average per date slipped by 186 to 4,916, the first time under 5,000 in the Ducks' 19-year history. The Ducks have led the league in average per date 14 times in 19 seasons. 25 dates drew above 5,000. From their inception in 2000, through 2011, the Ducks had the highest total attendance of any independent league team, topping 400,000 each year. They've surpassed 340,000 in every season, with 2017 having the lowest total. The Ducks had the 2nd best independent total attendance in 2012 and 2013, the 3rd highest in 2014, the 2nd best in 2015, and 3rd best in 2016.
- J Average per date was above 6,000 in 10 of the first 11 Ducks' seasons. In 2006, they just missed, averaging 5,998. In their history, the Ducks have drawn 7,574,294, which is an average of 398,647 per year. Their 19-year average per date of 5,738 per date is 95.6% of their ballpark's seating capacity. Long Island has drawn 683 'above seating-capacity' sellouts in 1,320 regular season dates, including 11 in 2018. On July 3, 2016, the Ducks drew 7,602, the largest crowd in team history.

INDEPENDENT LEAGUE HIGHLIGHTS**ATLANTIC LEAGUE** - continued

- J **Southern Maryland's** total attendance was down 4,060 to 205,947, with 5 more dates than in 2017, and 8 lost dates. Blue Crabs' attendance has been stable, ranging between 201,883 and 242,894. 2018 average per date was 3,120, down 323. The average has topped 3,100 in all 11 seasons, but 2018 was the lowest.
- J **Somerset** again led the league in total attendance and average per date. They topped 335,000 for the 20th straight year, and their 2018 total of 352,603, up 10,372, was 2nd highest among independent teams. Average per date was an independent leagues' 2nd best 5,110, down 75, with 3 more dates. The Patriots have averaged over 5,000 per date in all 20 seasons they've played. Their total attendance has been very stable as well, ranging from a low of 335,056 in 1999, to a high of 376,315 in 2004. Average per date has ranged from 5,110 (2018) to 5,433 (2008). Somerset has drawn 7,123,227 in 1,356 dates, averaging 356,161 per season, and 5,253 per date.
- J **Lancaster** had loss of 5,459 to 249,792, with 4 fewer dates. The Barnstormers topped 300,000 in 9 of their first 10 seasons (2005-2014), though not in their last 4 years. They've drawn pretty well considering that 3 teams (Reading, Harrisburg, York), play less than 40 miles from Lancaster. Average per date rose 149 to 3,903. The average per date had been above 5,000 from 2005 through 2008, and stayed above 4,000 until 2016.
- J **York**, owned by Hall-of-Famer Brooks Robinson, had exceeded 250,000 for 8 straight years through 2015. But their 2018 total fell 31,817 to a team-low 180,807, with 2 fewer, and 7 lost, dates. This was the 4th biggest loss among independent teams. Average per date was down 396 to 2,895, also a team low. The Revolution had topped 4,000 per date in 4 seasons (2008, 2009, 2010, 2012). Their ballpark gets some new features in 2019.
- J **New Britain** moved from Camden to the ballpark vacated by the Eastern League New Britain Rock Cats. That team was to play in a new park in the neighboring city of Hartford. But the new park was not ready, so the team had to play all its 2016 games in other parks. The Atlantic League New Britain team, named the Bees, drew 214,635 in 2016, and averaged 3,302 per date. In 2015, the New Britain Rock Cats drew 267,377, averaging 4,051 per date.
- J The Bees drew 183,147 in 2018, down 11,597, with 6 more dates. Average per date fell a league-worst 437 to 2,654. It was the 6th worst average per date loss among the independents. Hartford's new ballpark, located 12 miles from New Britain, opened in 2017, and the Hartford Yard Goats drew 395,196, averaging 5,812 per date that year. In 2018, they drew 408,942, an average of 6,014 per date.
- J The Eastern League team in New Britain drew less than 200,000 from its start in 1983 through 1999. But it topped 300,000 every year from 2004 through 2014, with a high of 368,523 in 2010. Their average per date was over 5,000 each year from 2006 through 2012, with a high of 5,867 in 2011.
- J The **High Point** (NC) Rockers will be the league's 8th team in 2019. This is High Point's first pro team since 1969. Top reported attendance in 17 seasons with a team (between 1939 and 1969) in that market was 100,227 in 1948. The only other years above 70,000 were 1949 (95,792), and 1965 (71,256). The final team, in 1969, drew 44,472.
- J Camden played its 15th and final Atlantic League season in 2015. The Riversharks drew 216,639 in 2015, averaging 3,186 per date. Camden topped 250,000 in each of their first 7 seasons, but not after that. But they did draw better than 200,000 every year. Their record-high was 313,792 in 2002, and they also topped 300,000 in 2003. Average per date was over 4,000 from 2001 through 2004, and was above 3,000 every year.
- J The Bridgeport Bluefish played their final season in 2017, and drew 196,917, averaging 2,984 per date. Those were the best figures since 2005. Total attendance had increased 64,078 (48.5%) from 2012 to 2017, and during this same period, average per date was up 951 (46.8%). Bridgeport drew better than 230,000 in each of their first 7 seasons (1998-2004), but was below 200,000 in all 13 years after that. Bridgeport's average per date was above 4,000 from 1998 through 2000, with a high of 4,571 in 1999, and reached 3,000 each year through 2005, but not afterwards. 2015 was a positive turnaround season. Bluefish attendance had fallen from 342,857 in 1999 to a record-low 132,139 in 2012. But in 2015, they drew 192,466, their best total since 2006. Total attendance was up 42,182, the 2nd biggest gain among all independent teams.
- J The Atlantic League scheduled a unique day-night doubleheader between Bridgeport and New Britain for August 19, 2017. These teams played the day portion in Bridgeport, which drew 3,533, and then bussed 50 miles to New Britain, where they played the night game, which drew 4,038.

INDEPENDENT LEAGUE HIGHLIGHTS**AMERICAN ASSOCIATION** (12 teams - 100 game schedule)

RECORD HIGHS: League – 2,244,238 (2012) 13 teams; Team – St Paul -- 413,482 (2016)

- J The league played with 12 teams in 2018 as the Chicago Dogs replaced Salina, a road team borrowed from the Pecos Baseball League. Unlike in some previous seasons, no games were played with teams from the Can-Am League. A new team, the Milwaukee Milkmen, will be added to this league in 2019, replacing Wichita.
- J This league began play in 2006. It is no relation to the Class AAA NAPBL league of the same name that played until 1998. Teams from that league were moved into the International and Pacific Coast Leagues. Many of the teams from this American Association have played in other independent leagues, such as the Northern, Central, United, and Texas-Louisiana Leagues.
- J Total attendance rose 24,884 (1.3%) to 1,891,794, with one more team with home games than in 2017, due to the addition of Chicago. This also resulted in the league playing 19 more dates than in 2017. Average per date was down 65 to 3,251. The 11 returning teams from 2017 were down 113,971 (6.1%), with 28 fewer dates than in 2017, and their average per date was 3,277, down 39. This league's record-high average per date is 3,512 in 2012.
- J The league drew over 2 million in 2011, 2012, 2013, and 2015.
- J Average attendance per team topped 150,000 for the 8th straight year, and average per date was above 3,000 also for the 8th year in a row. Highest average per team for this league was 172,634 in 2012, and the lowest was 122,752 in 2010. It was 157,650 in 2018.
- J 4 teams had increases in total attendance, led by Texas. Texas also had the largest increase among the 4 teams with growth in average per date. Some teams played extra home dates in 2017. Wichita, in its final season in this league, had the largest total attendance and average per date declines of any independent team in 2018.
- J In 2015, **St. Paul**, in their new ballpark, drew 404,528, the best total among independent teams, and a record-high for the team and for the American Association. This was the highest total ever for any independent team not in the Atlantic League, which plays a longer schedule than the other leagues. The Saints averaged 8,091 per date, which was a record-high for any independent team. The old record was 7,161 by Winnipeg in 2003. 46 of the 50 dates in St. Paul drew better than CHS Field's 7,210 seating capacity. Attendance was at least 1,000 above the seating capacity at 18 games, topped by a crowd of 10,430.
- J **In 2016, the Saints did even better! They drew a league-record high total of 413,482, up 8,954, and an independent leagues record-high average per date of 8,438, up 348. The average per date gain was 5th best among independent teams. 47 of 49 dates drew above the CHS Field capacity of 7,210. 37 dates drew at least 8,000, with 29 dates at least 1,000 above seating capacity. Attendance topped 9,000 at 10 dates, led by a crowd of 10,443. Overall, the Saints drew 117% of their park's seating capacity.**
- J **In 2017, St. Paul attracted 406,501, averaging 8,296 per date. Those figures were once again, the best among all independent teams. 46 of their 49 dates drew above their ballpark's seating capacity, with attendance topping 8,000 at 36 dates. There were 10 dates that drew at least 9,000, with a high of 10,143. The Saints drew 115% of their park's seating capacity, which was best in all of the Minors.**
- J **In 2018, the Saints drew 408,921, up 2,420, and averaged 8,178 per date, down 118. Both of those figures were again, the best among all independent teams. 45 of their 50 dates drew above their ballpark's seating capacity of 7,210, with attendance topping 8,000 at 32 dates. There were 5 dates that drew at least 9,000, with a high of 9,791. Overall, they drew 113% of their park's seating capacity. Since moving into CHS Field in 2015, the Saints have outdrawn the park's seating capacity at 184 of 198 regular season dates.**
- J St. Paul has been a big success since they began play in 1993. They've topped 235,000 every year except 1993. They led this league in total attendance each year from 2006-2010, and from 2015-2017. The Saints once had a 249 consecutive game sellout streak. St. Paul was an original member of the Northern League from 1993-2005. They led that league in attendance from 1993-2000, and had the best total attendance of any independent team each year from 1993-1997, and from 2015-2018. Their average per date surpassed 6,000 from 1994-2008, and from 2015-2018. St. Paul had the highest average per date among the independent league teams from 1993-1999, and in 2002, and from 2015 through 2018. All this despite playing only a few miles from the Minnesota Twins.

INDEPENDENT LEAGUE HIGHLIGHTS**AMERICAN ASSOCIATION** - continued

- J St. Paul, along with Sioux City and Sioux Falls remain from the 14 independent teams that played in 1993, the year that independent baseball returned. In their 26 seasons, the Saints have drawn 7,360,765 in 1,175 dates, averaging 283,106 per season, and 6,264 per date.
- J **Winnipeg** drew 219,370, down 186, their lowest total since 1998. Average per date rose by 86 to 4,477. This was the 7th best indy total and 5th best average per date of 2018. The Goldeyes had led the old Northern League in attendance for 11 straight years, and had the best total attendance in their first 4 years in this league, through 2014. Winnipeg had topped 250,000 for 16 years in a row from 2000 through 2015, including 6 seasons (2002-2007) above 300,000. Since 2000, Winnipeg has drawn 5,285,826 in 889 dates, averaging 5,946 per date, and has posted the best average per date among all independent league teams 12 times in the last 19 years. Their average per date surpassed 6,000 from 1999 through 2009, and stayed above 5,000 through 2015.
- J **Sioux Falls**, SD had a gain of 10,621 to 124,127. Total attendance there has topped 100,000 in 22 of their 26 seasons (22 of 24 years since 1995). Average per date rose 166 to 2,483. The total gain was 5th best, and the average per date increase was 7th best among the independents. The Canaries have averaged better than 2,200 per date from 1996 through 2009, and from 2012 through 2018. 1993-1995 average per date is not available.
- J **Sioux City**, Iowa had a big increase in 2015. Total attendance rose 26,683 to 77,429, their best total since 2008. Average per date was up 590 to 1,647. The total attendance gain was 3rd best, and the average per date gain was 2nd best, among independent teams. In 2018, total attendance was up 5,091 to 63,498. Average per date increased by 80 to 1,323. The Explorers had reached 100,000 in 12 of their first 13 years of operation (1993-2005), but have drawn below that figure for the past 13 seasons. Average per date was 3,587 in 1996, 3,204 in 1997, and above 2,000 through 2005. But it has not reached 2,000 since then. 1993-1995 average per date is not available.
- J **Fargo-Moorhead's** attendance has been very stable. Their lowest total was 155,052 in 1996, and their best total was 193,364 in 2002. The total has been above 165,000 in all seasons since 1997. Average per date topped 4,000 in 6 of 7 seasons from 1997 through 2003, and it has been above 3,400 in all 23 seasons since 1996. The RedHawks drew 166,717, down 9,369 in 2018. Average per date went down 191 to 3,402. The total was the lowest since 1996, and the average per date was the smallest in team history.
- J **Kansas City**, Kansas, another team playing close to a Major League franchise, had topped 200,000 in their first 15 years of play through 2017. In 2018, the T-Bones drew 189,981, their lowest total ever, down 21,618. Average per date was down 111 to 3,958, their first year under 4,000. In their 16 years, Kanas City has averaged 5,130 per date during this period, drawing 3,919,645 in 764 dates. The T-Bones topped 230,000 in 12 consecutive seasons through 2015, and have been above 260,000 in 7 of the last 13 years. Kansas City averaged over 6,000 per date in 2007, and surpassed 5,000 per date every year from 2004 through 2014.
- J **Lincoln** topped 200,000 each year from 2001 through 2005, but has not done it since. In 2018, the Saltdogs drew 160,124, down 12,588, with 3 fewer dates. Average per date fell by 51 to 3,336. The Saltdogs averaged 5,334 in 2001, their first season, topped 4,000 per date every year through 2007, and have been above 3,200 every year.
- J **Texas** had the top attendance growth in this league in 2018. Total attendance was up 14,524 to 80,196, despite 9 fewer dates. Average per date rose 519 to 1,671. It was the 2nd best total gain among independents, and the best average per date increase. The 22.1% increase in total attendance was the 5th best percentage indy gain, and the 45.1% increase in average per date was 4th highest. The Airhogs played all their games in Grand Prairie in 2017, and drew 65,672, up 21,390 with 12 more dates than in 2016, when they split their home schedule between Grand Prairie and Amarillo. This was the best gain among independents in 2017. Average per date was up 168 to 1,152. This team topped 100,000 in its first 6 years (2008-2013), but not since. Average per date reached 3,000 in 2008 and 2009, and was over 2,000 from 2008 through 2013. These figures are for games in Grand Prairie.
- J The **Gary Southshore** RailCats set team record-highs in both total and average per date in 2017. In 2018, total attendance declined 14,160 to 167,152, with 3 fewer dates. This was still their 2nd best total ever. Average per date was 3,556, down 76. It was the 14th straight year above 150,000 for Gary. Since 2006, their lowest total was 157,676 in 2011. The average per date has been between 3,189 and 3,632 per date in the team's 16-year history.
- J The **Chicago** Dogs, who play in Rosemont, near O'Hare Airport, drew 138,855, averaging 2,954 per date, in their first season. The team is named for hot dogs, not canines.

INDEPENDENT LEAGUE HIGHLIGHTS**AMERICAN ASSOCIATION** – continued

-) **Cleburne's** 2018 losses were 3rd worst among independent teams in 2018. The total was down 39,038 to 64,226, and average per date fell 496 to 1,285. There were 8 fewer dates than in 2017. Cleburne is south of Fort Worth, and had Minor League teams in 1906, 1911, 1912, 1921, and 1922.
-) **Wichita** played their final season in this league in 2018. Total attendance was 108,627, down 49,368, and the average per date was 2,263, down 835. These were the worst losses among independent teams. The total and average were also the lowest for an indy Wichita team. The Wingnuts had topped 130,000 in their previous 10 years in this league, and all Wichita teams have drawn at least 100,000 since 1989. Average per date was above 3,000 in 8 of the last 11 seasons. Wichita failed to reach 200,000 in their last 12 seasons (1996-2007) in the Texas League. From 1956-1958, and from 1970-1984, Wichita was in the Class AAA American Association. Their best attendance in that league was 280,320 in 1971. The Wingnuts posted their best independent figures in 2009, when they drew 161,170, averaging 3,504 per date. A new ballpark will open in 2020 on the site of the old park, and will be home to the Class AAA Pacific Coast League team currently in New Orleans.
-) Replacing Wichita in 2019 will be the **Milwaukee** Milkmen, playing in a new ballpark in the suburb of Franklin, WI. This will be the first Minor League team in the Milwaukee area since 1952, the year before the Major League Braves moved to Wisconsin from Boston. Highest listed attendance for a Milwaukee Minor League team was 365,473 in 1927. The 1948 team drew 364,510. In 1952, their final season, that club drew 195,839.

AMERICAN ASSOCIATION LEAGUE YEARLY ATTENDANCE

Year	# of Teams	Total Attendance	# Change vs. Previous Year	% Chg. vs. Prev. Year		Average per Date	# Change vs. Previous Year	% Chg. vs. Prev. Year

INDEPENDENT LEAGUE HIGHLIGHTS**CAN-AM LEAGUE** (6 teams - 102 game schedule)

RECORD HIGHS: League – 1,040,107 (2007) 9 home teams;

Team – Brockton – 203,094 (2004) set in the Northeast League, Brockton – 190,675 (2005) in the Can-Am League

- J There were 6 teams again in the Can-Am League in 2018. The league did not play games with American Association teams as they did in some of the previous years. But there were 36 games with road teams Salina, Hollywood, and the Dominican Republic, so the Can-Am League teams had extra home games. There will be games again with international teams in 2019.
- J Total attendance fell 31,625 (5.0%) to 599,519, with 2 fewer dates than in 2017. Average per date was 2,019, the lowest since 2013, down 92. There were 18 lost dates.
- J Average attendance per team was 99,920 in 2018. The league averaged above 100,000 per team from 2005 through 2008, and from 2014 through 2017. Average per date topped 2,000 for the 12th time in the last 15 years, and for the 16th time in this league's 22-year history. 2018 was the 5th year in a row above 2,000. These figures include seasons when it was the Northeast League and also when it was part of the Northern League.
- J 2 teams had gains in total attendance. Trois Rivières had the best total growth, and was the only team up in average per date. Quebec sustained the league's biggest declines in both categories.
- J **Rockland County** led the league in total attendance for the 7th straight year, drawing 129,599, down 15,406, with 4 fewer dates than in 2017. The Boulders have topped 120,000 in each of their 8 seasons, and had been above 140,000 from 2012 through 2017. Average per date was a league-leading, but team historic low, 2,757, down 86. The average per date has topped 3,000 in 3 seasons.
- J **Quebec City** had led the league in total attendance for 4 straight years until 2012. In 2018, their total attendance declined by 15,440, to 126,483, with 3 more dates. Average per date was down 452 to 2,386. These were the worst losses in this league. The Capitales have topped 110,000 in all 20 years of this team's history, reached 130,000 in 16 of the last 18 years, and surpassed 150,000 in 7 seasons. Average per date had topped 2,500 in all seasons until 2018, and reached 3,000 every year from 2000 through 2013, with a high of 3,565 in 2009. Teams from Quebec City led the original Canadian-American League in attendance in 1949 and 1950, and had the best attendance in the Provincial League each year from 1951 through 1955.
- J **New Jersey** had a total loss of 8,282 in 2018. The Jackals drew 83,610, with 3 fewer dates. New Jersey topped 100,000 in 10 of their first 11 seasons (1998-2008), but have been below that in each of the last 10 years. Their average per date was above 3,000 in 1999 and 2000, with a high of 3,312 in 1999, and better than 2,000 from 1998 through 2009. But it hasn't reached 2,000 since then. It was 1,706, down 61, in 2018.
- J **Trois Rivières** (Three Rivers) drew 91,605, up 12,377. It was the 2nd best total in this team's 6 seasons. **Average per date was a team record-high 1,869, up 253.** Among independent league teams, the total gain was 3rd best, and the average per date increase was 4th best. The current version of Les Aigles have averaged between 1,612 and 1,869 per date in their 6 seasons. NAPBL teams played in Trois Rivières as members of the original Canadian-American League in 1941, 1942, and from 1946 through 1950, and played in the Eastern League from 1971 through 1977. Their all-time NAPBL attendance high was 119,751 in 1972. The 2015 total of 96,997 was higher than Trois Rivières drew in all but 2 of 14 NAPBL seasons with listed attendance.
- J The **Sussex County** (Augusta, NJ) Miners returned to this league in 2015, after being in the league from 2006 through 2010. Their top Can-Am League attendance was 101,638 in 2007. From 1994 through 2005, Sussex County was in the New York-Penn League. Attendance for that team topped 100,000 every season, was above 150,000 in the team's first 5 years, and topped 130,000 in the first 9 years, with a high of 176,788 in 1995. Average per date reached 4,000 from 1994 through 1998, with a high of 4,652 in 1995, and stayed above 3,000 through 2004.
- J In 2016, Sussex had gains in both total attendance and average per date that were the best among all independent teams, and 7th best among all Minor League teams. Total attendance was up 58.3%, and average per date rose 55.2%. Puebla of the Mexican League was the only Minor League team that played in the same market as in 2015, that had higher percentage increases in those 2 categories. In 2018, total attendance fell 5,615 to 74,827, with 2 fewer dates. Average per date dipped 50 to 1,559.

INDEPENDENT LEAGUE HIGHLIGHTS**CAN-AM LEAGUE** – continued

- J The **Ottawa** Champions had a 741 increase in total attendance to 93,395, with 4 more dates. The top total for the current team is 127,618 in 2016. Average per date fell 140 in 2018 to 1,831, their lowest average in the 4 seasons of the current team. They had a rough year in 2017. Total attendance fell 34,964, and average per date declined 483. These were the worst 2017 declines among the independent teams. Prior to 2015, Ottawa had a team in this league in 2008, and it drew 101,073. There was no Minor League team in Canada's capital city from 2009 through 2014. This city was in the International League from 1993 through 2007. In their first season, Ottawa drew 663,926, and in 1994, their attendance was 596,858. But then attendance fell very sharply, down to 195,979 in 1999. The Lynx drew under 200,000 in 8 of their final 9 years in Ottawa, with a low of 122,594 in 2006. Average per date also had a very big decline from 9,764 in 1993, to 8,908 in 1994, 6,888 in 1995, 5,423 in 1996, 4,165 in 1997, 3,205 in 1998, to a low of 1,915 in 2006.
- J Before 1993, Ottawa had teams in other leagues as late as 1954. Their highest recorded attendance was 153,152 in 1952, in the International League.

CAN-AM AND NORTHEAST LEAGUE YEARLY ATTENDANCE

Year	# of Teams	Total Attendance	# Change vs. Previous Year	% Chg. vs. Prev. Year	Average per Date	# Change vs. Previous Year	% Chg. vs. Prev. Year

INDEPENDENT LEAGUE HIGHLIGHTS**FRONTIER LEAGUE** (12 teams - 96 game schedule in 2018. 10 teams in 2019)

RECORD HIGHS: League – 1,548,970 (2012) 14 teams; Team – Southern Illinois – 259,392 (2007)

- J 2018 total attendance fell 93,691 (7.3%) to 1,194,851, the lowest total since 2005. Attendance in the league first surpassed one million in 2003. It has topped one million for 16 years in a row, and reached 1.5 million in 2007, 2012, and 2013.
- J The league played 8 fewer dates in 2018 than in 2017, and there were 25 rainouts.
- J Average attendance per date was 2,233, the lowest since 2005, and down 140. Frontier League average per date has been over 2,000 in each of the last 16 years, with a record-high of 2,719 in 2010. The average per date has been over 2,500 in 6 seasons (2006-2011).
- J Since 2001, when the league grew to 12 teams, total attendance is up 66.1% from 719,222, and average per date is up 50.6% from 1,483.
- J 4 teams had increases in total attendance in 2018, led by Florence. 4 teams posted gains in average per date, led by Lake Erie. Southern Illinois posted the league's worst declines in total attendance and average per date.
- J Average attendance per team had surpassed 100,000 for 12 seasons in a row, and in 13 of 14 years through 2017. The average per team was just 13,769 in 1993, the Frontier League's first season. It was 99,571 in 2018. The highest average per team was 133,543 in 2008.
- J The league will play with 10 teams in 2019. Normal and Traverse City will have teams in summer collegiate wood bat leagues instead of the Frontier League.
- J **Schaumburg** led the league again in total attendance and average per date, drawing 149,255, down 11,389. This was the 2nd lowest total in the club's 19 years. Average per date fell 242 to 3,176. The Boomers have topped 150,000 in 17 of their 19 seasons (2012 and 2018 are the exceptions), and went over 200,000 in 11 straight years from 1999 through 2009 as a member of the Northern League. The average per date was 5,499 in 1999 and 5,264 in 2000. It surpassed 4,200 each year from 1999 through 2009, and has been above 3,000 every year except 2012. They didn't have a team in 2011.
- J In their final Frontier League season, **Traverse City** drew 88,176, with 5 fewer dates, averaging 2,261 per date. It was their lowest total and average in 13 years of play. Total attendance fell an independent 5th worst 31,368, and average per date dipped by 456, which was the 4th worst indy loss. The Beach Bums topped 200,000 in their first 2 seasons (2006 and 2007), and drew over 150,000 in their first 8 years. 2018 was the first season under 119,000. The average per date was 4,241 in 2006, 4,041 in 2007, and topped 3,000 in the first 9 seasons. Record-high total was 206,102 in 2007. Traverse City will have a team in the Northwoods Summer Collegiate League in 2019.
- J 2018 was also a final Frontier League year for **Normal**. They drew 81,716, up 5,912. Average per date rose 173 to 1,857. The CornBelters averaged above 2,000 per date in their first 7 years (2010-2016). They drew their record-high total (132,309), and average per date (2,646) in 2009, their first season. Normal will field a team in the Prospect League, a summer collegiate wood-bat league, in 2019.
- J **Evansville** drew 94,498, down 5,839, with 2 fewer dates. Average per date fell 32 to 2,198. In 2017, the Otters had the best average per date increase among all independent teams. Total attendance has topped 100,000 for 13 of the last 16 years. Average per date has been above 2,000 in 20 of the last 22 seasons, and topped 2,500 in 11 of those years. 2016 and 2000 are the only years that the Otters have averaged less than 2,000. The average topped 3,000 in 1999, 2013, and 2014. In 2013, Evansville had its highest attendance (140,786) in the 24 seasons they've had an independent team. In 1972, a Class AAA American Association team there drew the city's record-high of 147,807. The Otters play at Bosse Field, which is the oldest home ballpark for any Minor League team, and celebrated its 100th anniversary in 2015. The first game there in 1915 drew 8,082. On July 24, 2013, the Otters drew 8,253, the largest attendance ever for a game in this historic gem of a park.
- J **Florence**, KY had the best total attendance gain, and the 3rd best average per date increase among all independent league teams in 2018. The total rose 18,260 to 105,805, with 3 more dates. Average per date was 2,351, up 267. The average has been above 2,000 in 10 of their last 12 seasons, including the last 7, with a high of 2,495 in 2013. The Freedom has drawn better than 100,000 in 7 of the last 11 years, with a high of 112,844 in 2010.

INDEPENDENT LEAGUE HIGHLIGHTS**FRONTIER LEAGUE** – continued

- J **Windy City** (Crestwood, IL) has reached 100,000 just once (2009) in their 20 seasons. In 2018, total attendance fell 408 to 78,177, and average per date was down 9 to 1,663. 1999 and 2009 were the only seasons that the ThunderBolts averaged at least 2,000. The total has ranged from 60,481 in 2003, to 103,129 in 2009.
- J **River City** (O'Fallon, MO) drew 85,036, down 9,922, with 2 more dates. The Rascals topped 150,000 in the team's first 6 seasons (1999-2004), but not since. They stayed above 100,000 through 2008, and then again in 2010 and 2012. 2018 was the 8th time that attendance was below 100,000. Average per date was 1,772, the lowest since 2011, and down 293. The average was 4,119 in 2004, and topped 3,000 in the club's first 6 seasons. It has been above 2,000 in 13 of 20 seasons.
- J The **Southern Illinois** (Marion) Miners had the 2nd worst total attendance and average per date declines among all independent teams in 2018. Total attendance dipped 41,830 to 109,691, with 6 fewer dates. Average per date was down 552 to 2,742. It was the lowest total and 2nd lowest average in this team's 12 seasons. In 2007, the Miners became the first Frontier League team to average over 5,000 per date. In 2014, total attendance rose 21,203, the best increase among all independent teams. Attendance in Marion topped 125,000 in the first 11 seasons, and was over 200,000 from 2007 through 2010. The Miners have drawn over 150,000 in 8 of those years. Their average per date was 5,086 in 2007, topped 4,000 through 2010, and has been above 2,500 every year.
- J **Joliet** had a 11,962 loss in total attendance to 88,198, the lowest total in their 17 years. Average per date fell 349 to 1,877, the 2nd lowest ever. The Slammers, named for the Illinois State Prison in Joliet, drew 100,000+ from 2002 through 2012, including 2 seasons (2002, 2005) above 200,000. Their average per date was above 4,000 in the first 5 seasons (2002-2006), with a high of 4,502 in 2003. It topped 3,000 per date in the first 9 seasons.
- J The **Lake Erie** (Avon, OH) Crushers drew 101,229, up 7,194, despite 3 fewer dates. Average per date rose a league best 300, to 2,301, their highest since 2013. For the 2nd straight year, the Crushers had the 2nd best average per date gain by an independent team. The average was above 3,000 in the club's first 2 years, and has topped 2,000 in 8 of 10 seasons. Total attendance exceeded 100,000 in the first 6 seasons, and again in 2018.
- J **Gateway** (Sauget, IL) had topped 150,000 for 12 straight years through 2014, and in 2016. The Grizzlies fell just below that figure in 2015 and 2017. In 2018, they posted a 22,640 loss to 125,536. Average per date fell 416 to 2,671. These were the lowest figures since 2002. It was the 6th worst total decrease among the independents. Gateway's average per date topped 4,000 in 4 seasons (2003, 2004, 2006, 2007), and has been 3,000+ in 14 years, with a high of 4,531 in 2004, when their total was 217,500. Attendance has surpassed 180,000 in 5 seasons.
- J **Washington**, PA drew 87,534, with 3 more dates, and up an indy 7th best 10,301. It was their best total since 2011. The Wild Things drew less than 100,000 for the 7th straight year. They had 10 consecutive seasons (2002-2011) above that level, including 6 years above 150,000. Average per date rose by 106 to 1,989, also tops since 2011. Washington's average per date had topped 3,000 in their first 6 seasons, but has been under 2,000 since 2012.
- J In 2015, their final season, Rockford drew 44,674, its lowest total in 14 years as an independent league market. Average per date was 993. Those were the lowest figures for any team in the Frontier, Atlantic, and Can-Am Leagues, or in the American Association. The decrease of 27,666 in total attendance, and 615 in average per date, were 4th worst among the independent teams in 2015. Rockford had topped 100,000 each year from 2004 through 2010. Their Frontier League high was 138,234 in 2008. The city had its top attendance of 158,674 in 1988 in the Midwest League, where they had a team from 1988 through 1999. Their Midwest League low was 50,900 in 1992.
- J The Frontier League played its 26th season in 2018. The Northern League also began play in 1993, and they were the first independent leagues in decades. There were 8 Frontier League teams in 1993, but 2 of them disbanded early in the season. Total attendance was 82,615, led by the Zanesville Greys, who drew 21,547. The Greys name was used by a road team that played in 2015. None of cities in the league in 1993 are still in pro baseball. The Northern League had 6 teams, drawing 651,452, led by St. Paul, who attracted 167,956. St. Paul, Sioux City, and Sioux Falls are still active, and play in the American Association.
- J The Schaumburg Boomers are named for a male Great Prairie Chicken, a native of Illinois. Other chicken names in sports include Coastal Carolina University's 'Chanticleers', from Chaucer's 'Canterbury Tales,' described as a "proud and fierce rooster who dominates the barnyard." University of Delaware teams are the 'Blue Hens.'

INDEPENDENT LEAGUE HIGHLIGHTS**FRONTIER LEAGUE** – continued

INDEPENDENT LEAGUE HIGHLIGHTS**PACIFIC ASSOCIATION** – (6 teams, 80 game schedule)

- J The league added the Martinez Clippers and Napa Silverados in 2018. All teams have reported attendance since 2015. **Total 2018 attendance was a league record-high 62,000, up 25,146 (68.2%).** Average per date was 259, up 20. Attendance was reported for 85 more dates than in 2017. The 4 returning teams drew a combined 46,721, up 9,867 (26.8%), and averaged 294 per date, up 55. 3 of the 4 returning teams were up in total attendance and average per date. Vallejo had the league's only rainout.
- J The **San Rafael** Pacifics drew 18,081 in 2018, an average of 452 per date, once again, the highest figures in the league. The total was down 155. Average per date fell by 28.
- J The **Pittsburg** Diamonds' total rose 366 to 3,044. Average per date was up 6 to 76.
- J **Sonoma's** total was up 7,470 to 17,501. Their average increased 180 to 438.
- J **Vallejo** drew 8,095, up 2,186, averaging 208 per date, up 56.
- J **Martinez** played its first season, and drew 9,015, an average of 225 per date.
- J **Napa** had its first Minor League team since 1910. It drew 6,264, and average of 157 per date.

EMPIRE PRO LEAGUE – (6 teams – 44-48 game schedule in 2018 – No reported attendance)

- J The Empire Pro League played its first season in 2016. It took on 2 teams from the North Country League (Watertown and Old Orchard Beach), and added New Hampshire and Sullivan County, NY. No attendance was reported, but it was very low. There have been numerous changes in teams since then, but the league has never reported any attendance figures. In 2018, Plattsburgh and Puerto Rico replaced Watertown and New Hampshire.
- J The North Country League played its only season in 2015. It started with 4 teams, including one road team. Newburgh ran into financial difficulty early, and became a road team. Watertown was the only team with any announced attendance, and they drew 9,250, averaging 237 per date. Watertown last had a team in the New York-Penn League from 1983 through 1998. Top attendance was 78,460 in 1983. 2015 attendance for Old Orchard Beach was not available. The Ballpark at Old Orchard Beach was home to a Class AAA team from 1984 through 1988. Attendance ranged from a high of 183,289 in 1984, to a low of 80,071 in 1988.

UNITED SHORE BASEBALL LEAGUE (4 teams in 2018 – 75 game schedule)

- J This league, originally with 3 teams playing home games, began play in 2016. All teams played in a new 2,000 seat ballpark in Utica, MI, a suburb of Detroit. Another team, also playing all games in Utica was added in 2017. 75 games were scheduled for this ballpark in 2018. Games are played from Wednesday through Sunday. No team-by-team attendance totals were provided. But for 2016, the league claimed a 3,200 average per date, with 42 sellouts in the 73 dates played. This average multiplies to a total of 233,600. In 2017, total attendance for the league was up 14,300 (6.1%) to 247,900. Average per date rose 150 to 3,350. 60 of the 74 dates played were sellouts. In 2018, the league drew 255,000, up 7,100. Average per date was 3,400, up 50. There were 61 sellouts in 75 dates, with a record-high crowd of 4,499.

SOUTHWEST LEAGUE OF PROFESSIONAL BASEBALL

- J This league expects to begin play in 2019 with 6 teams. 3 of the announced teams are in Texas (Royce City, Waco, Dallas), and the other is in Joplin, MO. Plans call for a 112-game schedule.

INDEPENDENT LEAGUE HIGHLIGHTS

PECOS BASEBALL LEAGUE (12 Teams – 58-63 games played, teams with attendance had 21-41 home dates)
 RECORD HIGHS: League - 77,613 (2017) 12 teams; Team – Tucson – 23,141 (2016)

- J The Pecos League will play its 9th straight season in 2019. Of all the independent leagues that have played since 1993, only the current American Association, Can-Am, Atlantic, and Frontier Leagues, and some of the leagues that merged into them, have played more consecutive seasons than the Pecos League.
- J Attendance figures were estimated by the league office. **The Pecos League is the only Minor League that does not include no-shows in its attendance. This causes their announced attendance to be lower than it would be if they followed the attendance-listing procedures of other leagues.**
- J Ruidoso replaced Hollywood in 2018, but only had 2 home dates. In 2019, the league will again have 12 teams, as Wasco, CA will replace Ruidoso.
- J Total estimated attendance was 66,344, down 11,269 (14.5%). Estimated average per date was 197, down 20. The main reason for the decline was that Tucson moved to a much smaller ballpark. There were 21 fewer dates than in 2017. 5 of the returning 11 teams had gains in total attendance. 5 of them were up in average per date, and Garden City had the same average per date as in 2017.
- J **Tucson** moved to a much smaller ballpark, and drew 2,250, down 12,760. Average per date was 73, down 428. There were Pacific Coast League teams in Tucson for many years. Attendance reached 300,000 from 1991 through 1996, and in 1998, with a high of 317,347 in 1991. Tucson's independent league high is 139,149 in 2009.
- J The **Santa Fe** Fuego drew 10,850, up 8, with 4 fewer dates, and averaged 310 per date, up 32. Their average per date has more than doubled since 2016.
- J **Roswell**, was up 302 to 7,866, with 2 more dates. Invaders' average per date fell by 3 to 207. Teams that recorded attendance played in Roswell from 1949 through 1959. Top attendance was 82,671 in 1950.
- J **Alpine's** total fell 312 to 6,600, with 8 fewer dates. Average per date for the Cowboys was 275, up 59.
- J The **Trinidad** Triggers drew 4,900, down 618, with 3 fewer dates, averaging 175 per date, down 3.
- J **White Sands** had a 4,023 increase to 7,803, with 7 more dates. Pupfish average per date was 289, up 100.
- J **Garden City**, KS drew 2,175, down 225, with 3 fewer dates. The Wind averaged 75 per date, the same as in 2017.
- J The **California City** Whiptails drew 1,950, down 1,634, with 6 fewer dates. They averaged 75 per date, down 37.
- J **Ruidoso** played only 2 home dates, and drew a total of 150. They will be replaced by Wasco, CA in 2019.
- J **Monterrey** drew 6,300, up 2,702. The Amerjacks averaged 300 per date, up 120.
- J The **Bakersfield** Train Robbers drew 10,250, up 192, despite 6 fewer dates, and averaged 250 per date, up 36.
- J **High Desert** was down 2,996 to 5,250, with 3 fewer dates. The Yardbirds averaged 150 per date, down 67.
- J Both Bakersfield and High Desert played in the California League through 2016. Those teams were relocated to the Carolina League for 2017. Bakersfield's record-high was 158,714 in 1992. Teams there reached 100,000 in 1947, 1948, 1949, and 1953, and then 12 times between 1984 and 2002, but not after that. High Desert (Adelanto) drew over 200,000 in its first 2 seasons (1991, 1992), and was over 100,000 each year through 2012. But the attendance was under 100,000 in 3 of the last 4 years. California City (about 60 miles north of Los Angeles), Wasco (slightly northwest of Bakersfield), and Monterey, never had Minor League teams until joining the Pecos League.

Independent leagues are not affiliated with Major League Baseball, or with the National Association.
Attendance for independent leagues was obtained from league Web sites, or from the league directly (Pecos League).
Number of Independent league dates in the 'Grand Total' line above excludes xx dates from the Empire League.

SEASON RECORD-HIGH ATTENDANCE - LEAGUES

The table below lists each NAPBL and some independent leagues record-highs for total attendance, average attendance per team, and average attendance per date. Included are records for the combined groups of Class AAA, Class AA, full-season Class A, and short-season teams. Also, the records for the old Class AAA American Association, the Southern Association, and the independent Northern and United Leagues, none of which are still in operation, are listed. Average per date records cover the period only since 1992. Figures for earlier years were not available. The Pacific Coast League had the same record-high average per date in 2006 and in 2007.

Record-high average per team for all independent leagues combined, and also for the combined NAPBL/independent leagues are not listed. This is because extra independent leagues that drew poorly played during some seasons, but not in others. So the years where these leagues played would have distorted figures.

LEAGUE RECORD-HIGHS

SEASON RECORD-HIGH TOTAL ATTENDANCE – INDIVIDUAL TEAMS

94 of the 176 NAPBL teams that played in 2018 set their all-time total attendance records between 2005 and 2018. The longest-standing total attendance records for individual team-high attendance by current teams are: Mexico City – Current team's record-high was set in 1967; Batavia – 1971; Bristol – 1976 as a short-season team. Veracruz drew a record-high in 2012, breaking a mark set in 1964, which had been the longest-standing current-team record-high.

This section lists the season record-high attendance figure for each team that played in an NAPBL or independent league in 2018, and reported attendance. Many independent league teams shifted to different leagues in 2011. Pecos League data is estimated by the league office.

The records listed are for each current team in its particular market. If there is information that a former team in that same market had a higher record attendance than the current team's record-high, it is listed in a footnote. This usually occurs when a market that now has either a short-season or independent team, once was home to an NAPBL full-season team, or in the case of the Brooklyn Cyclones, a Major League team. All short-season NAPBL leagues that charge admission once played longer or full-season schedules.

There are a few cases of markets with a current full-season NAPBL team, where a former team holds that market's all-time attendance record. Richmond, Jupiter/Palm Beach, and Hagerstown are examples of that, and here again, the attendance records of both the current and the former teams are listed.

The data used to compile this section goes back to at least 1947 for all U.S./Canadian NAPBL teams, and in some cases, as far back as the first decade of the 20th Century. For the Mexican League, the data begins in 1955, when this league joined the NAPBL, after being independent. It also covers all seasons for all current independent teams. Independent leagues started to return in 1993.

Records set in 2018 are listed in bold. If 2018 was also the team's first season, the figure is in italics.

Since independent league teams often switch leagues, most independent league records listed are for the independent league team in that city, regardless of the league it played in. Check the footnotes below each league's listing to see if a current independent league city once had an NAPBL team with a higher record attendance.

SEASON RECORD-HIGH AVERAGE ATTENDANCE PER DATE – INDIVIDUAL TEAMS

Starting in 1992, the NAPBL attendance reports listed the number of home dates played by each team. This allows an average attendance per date to be compiled for each team and league. Average attendance per date for most independent league teams is available from 1997 forward.

The tables on the following pages show each team's highest average per date since 1992. In a few cases, data was available for prior seasons as well. Most of the time, the figure listed is that team's actual record-high average per date. But, especially in cases where the record-high total attendance figure was set prior to 1992, the record-high average per date may have been set before 1992 as well.

SINGLE GAME RECORD-HIGH ATTENDANCE

The Minor League Baseball Information Guide (which covers the MLB-affiliated teams) lists the single-game record-high attendance for each team. In some cases, the listed single-game record may be only for the current team, or current ballpark, in that market, and may exclude a higher figure set by a team in the same market, playing in a different league or ballpark. Data for the Mexican League was not included. This also appears in the tables in this section. When the word 'Many' appears in the year column, this is the official sellout figure, which has been reached numerous times.

Single-game records are also available for those Independent teams that posted this information in media guides that were available online, or on Websites, in game notes, or in press releases. If your team's single game record-high figure isn't listed, and you know what it is, please let us know, and it will be added to the table.

RECORD HIGHS FOR SEASON TOTALS, AVERAGE PER DATE, AND SINGLE GAMES**Sources**

Attendance data for NAPBL teams was obtained from The Sporting News Baseball Guides for the following seasons: 1969-1980; 1989-1991. The Encyclopedia of Minor League Baseball provided data from 1902 through 1968, and 1981 through 1988 for U.S./Canadian NAPBL teams, Mexican League attendance from 1955 through 1991, and independent league data from 1993 through 1997. NAPBL data for 1992 through 2018 came from the office of Minor League Baseball.

Thanks to Jeff Lantz, Steve Densa and Mary Marandi of Minor League Baseball for providing yearly NAPBL Minor League figures. Thanks also to Pete Palmer, editor of The ESPN Baseball Encyclopedia, for providing some of the information. Data from independent leagues from 1997 through 2018 came from the Website of each league in most cases, with the office of the Pecos League, and the Encyclopedia of Minor League Baseball, providing the rest.

What's Missing?

The 1981 attendance for the Mexican League was not available. Hopefully, in the future, these figures can be obtained. Also, attendance data from many leagues prior to 1947 is not available. Average per date prior to 1992 for affiliated leagues, and prior to 1997 for independent leagues was generally unavailable, unless published in team media guides that are available on team Websites. If you have any of this data, and wish to share it, getting it would be much appreciated.

League Record-High Attendance

The record-high attendance for all NAPBL and independent leagues can be found on page 161, and also in the League and Team Highlights sections of this report. Also listed at the start of the Highlights section for each league is the highest season attendance for an individual team in that league.

RECORD-HIGHS: TOTAL ATTENDANCE, AVERAGE PER DATE, SINGLE GAME – INDIVIDUAL TEAMS**INTERNATIONAL LEAGUE – CLASS AAA**

Team	Record-High Total	Year		Record-High Average/Date	Year		Record-High/Game	Year
Buffalo	1,188,972	1991		16,937	1992		38,211	1987

P.C.L. team in Tucson drew 317,347 in 1991. Roswell drew 82,671 in 1950. Highs for Bakersfield (158,714, 2,442 per date), High Desert (218,444, 3,361 per date) set in the California League in 1992.

DOES WINNING A LEAGUE CHAMPIONSHIP IMPROVE A TEAM'S NEXT SEASON'S ATTENDANCE?

In the Major Leagues, it usually does. 36 of the 44 teams that won an American or National League championship between 1996 and 2017 had an increase in total attendance the following season. The 2016 World Champion Chicago Cubs were one of the 8 teams to have a decline in attendance a year after winning a pennant.

Since 1996, the 44 Major League pennant winners averaged an increase of 201,776 in the following season's attendance. This is an average gain of 7.04%. Teams with declines the following year are included in these averages.

In the Minor Leagues, a team's won/loss record, playoff participation, and a league championship, has a much smaller effect on the following year's attendance. Minor League rosters change a great deal from year to year, so many of the players who won a championship in the Minors are playing on a different team the next season. Also, in the NAPBL affiliated Minor Leagues, fans know that the team's management has no input in determining the team's roster.

This section lists the attendance for league champions in the Minor Leagues from 2011 through 2018. For teams that won a league championship from 2011 through 2017, the following season's attendance will be noted as well. This list includes all 15 NAPBL leagues that charge admission, and the independent Atlantic, Can-Am, and Frontier Leagues, plus the American Association.

From 2012 through 2017, 46 of the 101 (45.5%) NAPBL league champions had an attendance increase a year after they won a championship. Their overall combined attendance fell by 2.3%. This excludes the 2016 California League champions, who were moved to the Carolina League after that season. 477 of the other 1,106 (43.1%) NAPBL teams, who played in the same markets in both seasons, had a total attendance gain in these seasons. Among the 4 independent leagues named above, 8 of 28 (28.6%) champions had a gain the following year. Their combined attendance fell 3.3%. 100 of the other 245 teams (40.8%) in these leagues had a gain in these seasons.

Hurricane Irma caused the cancellation of the 2017 finals for the Carolina, Florida State, and Southern Leagues. The semi-finals winners in those leagues were declared co-champions. Attendance for those teams is not included in the 2017 table, or in the statistics in the paragraph above. The Mexican League had 2 sets of playoffs in 2018.

ATTENDANCE GROWTH - 2018 vs. 1999, 1989, 1979 and 1969

Minor League Baseball attendance has increased very sharply over the past 5 decades. New ballparks, better marketing and promotion programs, and reasonable prices have all been factors in this attendance boom. Note that 2018 attendance for the Major Leagues, and the 10 full-season U.S. NAPBL leagues, was badly affected by weather.

Tables at the end of this section compare 2018 Major League and Minor League attendance with attendance for the 1999, 1989, 1979, and 1969 seasons. Note the sub-total (*in italics*) provided for Class AAA. The old Class AAA American Association teams were moved into either the International or Pacific Coast Leagues after the 1997 season. The sub-total is a more accurate way to compare Class AAA attendance between years.

Both the Major and Minor leagues have more teams today than 30, 40 and 50 years ago. So the tables look at average attendance per team for each league, in addition to the comparisons of total season attendance.

Figures for Minor Leagues average attendance per date were not available for 1989, 1979, and 1969. No independent leagues were in operation in those years either. The National League didn't count 'no-shows' in its official attendance until 1993, so keep that in mind when comparing Major League figures for 1989, 1979, and 1969.

ONE MORE LOOK AT THE 2018 NUMBERS

The 176 NAPBL teams that charged admission drew 40,450,337, an average of 229,831 per team. Average per date was 3,960. 59 independent teams that compiled home attendance drew 5,919,353, an average of 100,328 per team, and an average per date of 2,330. Most independent teams play shorter seasons than NAPBL teams. Combined NAPBL and independent attendance was 46,369,690, averaging 197,318 per team, and 3,635 per date. Major League total attendance was 69,625,244, an average of 2,320,841 per team, and 28,830 per date.

2018 COMPARISON WITH 1999

By 1999, the boom in Minor League attendance was well underway. Comparing 2018 with 1999 attendance won't have the same dramatic growth as comparisons with 1989, 1979, and 1969. But there were some healthy gains.

The NAPBL 2018 total was up 15.0% from 1999. Average attendance per date rose 574 (17.0%) from 3,386. There were 176 NAPBL teams in both 2018 and 1999. 44 independent teams had home games in 1999. The total for independent leagues was up 21.5% vs. 1999, but their average per date fell 229 (8.9%) from 2,559. The decline in the independent average is partly due to current smaller leagues that do not draw large crowds. Combined 2018 NAPBL and independent total attendance rose 15.8% from 1999, and average per date was up 377 (11.6%) from 3,258.

2018 NAPBL average attendance per team was also up 15.0% vs. 1999, and was at least 25% higher for 5 leagues. The Texas League's average attendance per team rose 49.7%. The Mexican League was up 31.2%, the Florida State League had a 27.2% increase, the South Atlantic League gained 41.9%, and the Pioneer League increased 33.0%. Independent league teams had a combined loss of 9.4%. Combined NAPBL and independent average per team rose 8.4%.

But 3 NAPBL leagues had a lower average attendance per team in 2018 than in 1999. The Eastern League was down 2.6%, the Southern League fell 3.0%, and the Carolina League, due to Buies Creek, declined 7.9%.

The 30 Class AAA teams averaged 446,064 per team in 2018. In 1999, the 30 Class AAA teams averaged 401,475 per team. Class AAA average per date was 6,615 in 2018, compared to 5,913 in 1999. Class AA teams averaged 4,371 per date in 2018, up 430 from the 1999 average of 3,941. Full-season Class A teams averaged 2,835 per date in 2018, compared to 2,296 in 1999. Short-season teams averaged 2,451 in 2018, vs. 2,231 in 1999.

Buffalo drew 684,051 to lead all teams in total attendance in 1999. The Bisons also had the highest average per date (10,060) of any team. Indianapolis drew 658,250. Overall, 6 teams topped 500,000. Akron was the Class AA leader, drawing 522,459. Lansing had the best full-season Class A attendance (462,515). The short-season attendance leader was Portland, OR, who drew 206,136. Among independent league teams, Bridgeport had the highest total attendance (342,857), and St. Paul had the best average per date in 1999 (6,329), and in 2018 (8,178).

The Major League 2018 total attendance and average per team was down 0.7% from 1999. 30 teams operated each year. Average attendance per date was 28,830 in 2018, down 380 (1.3%) from the 1999 average of 29,210.

2018 COMPARISON WITH 1989

164 NAPBL teams that charged admission, operated in 1989. They drew a total of 23,103,593, an average of 140,876 per team. 2018 NAPBL total attendance was 75.1% higher than in 1989, and the average per team was up 63.1%. Independent leagues did not operate in 1989. But if independent leagues attendance is included in the 2018 figures, the results are gains of 100.7% in total attendance, and 40.1% in average per team.

Every league's 2018 average attendance per team was at least 25% higher than their 1989 average. The Appalachian, Pioneer, and Florida State Leagues had the smallest gains.

2 leagues more than doubled their 2018 per team averages compared to 1989. The South Atlantic League average per team was 134.9% higher in 2018 than in 1989, and the Midwest League gained 100.7%. The Pacific Coast, Texas, Eastern, Mexican, New York-Penn, Northwest, and California Leagues each achieved increases of better than 65%. The combined Class AAA average per team was up 31.3%.

Among individual teams, Buffalo had the highest 1989 attendance, drawing an incredible 1,132,183. Louisville and Columbus, OH also topped 500,000. 15 teams reached 500,000 in 2018. Highest Class AA attendance in 1989 was at Arkansas (296,428). In 2018, 17 Class AA teams topped 300,000. Durham led full-season Class A in 1989, drawing 272,202. That figure was topped by 13 Class A teams in 2018. Durham is now in Class AAA, and the Bulls drew 536,304 in 2018. Yucatan drew 310,715 to lead the Mexican League in 1989. They drew 473,341 in 2018.

In 1989, just 2 of the 26 teams in either the Midwest or South Atlantic Leagues topped 200,000. But in 2018, 18 of the 30 teams in those leagues reached that milestone. Salt Lake City drew 173,256 to top all short-season teams in 1989. Just 4 of the 40 short-season teams in 1989 drew at least 100,000. 14 short-season teams did that in 2018, with Vancouver and Brooklyn surpassing 200,000.

Major League total attendance was up 26.2% vs. 1989. Average per team (26 teams in 1989), rose 9.4%. The average per date of 28,830 in 2018 was 2,060 (7.7%) higher than the 1989 average per date of 26,770.

2018 COMPARISON WITH 1979

142 NAPBL teams charging admission operated in 1979. Total attendance was 15,265,633, an average of 107,504 per team. NAPBL 2018 total attendance was 165.0% higher than in 1979, with the average per team up 113.8%. When independent league attendance is added to the 2018 totals, the result is a 203.8% increase in total attendance, and an 83.5% gain in average per team.

11 of the 15 NAPBL leagues more than doubled their average attendance per team since 1979. There was a better than 4-fold increase in 4 leagues: Eastern – 332.0%; Carolina – 304.0%; Midwest – 305.2%; Northwest – 411.3%. The only leagues that did not at least double their average attendance per team were the Southern, Florida State, and Appalachian Leagues, who had increases between 18.5% and 81.7%, and the Mexican League, which was up 2.7%. The Class AAA leagues had a combined 148.1% increase from the 1979 average per team of 179,784.

In 1979, Columbus (OH) had the top Minor League attendance, drawing 599,544 to newly re-built Cooper Stadium. That figure was topped by Indianapolis, Charlotte, Nashville, and Round Rock in 2018. 3 Mexican League teams (Mexico City Reds, Tabasco, and Yucatan) topped 400,000 in 1979. But Denver (335,684) and Albuquerque (266,586) were the only other Class AAA teams to top 240,000. All AAA teams drew over 195,000 in 2018, and all these teams, except Syracuse, Gwinnett, New Orleans, and Colorado Springs, topped 332,000.

Nashville drew 515,482 to lead Class AA in 1979, the first of 4 straight years the Sounds topped 500,000. Memphis and El Paso were the only other Class AA teams to reach 200,000. 26 of the 30 Class AA teams topped 200,000 in 2018. Just 2 of the 34 full-season Class A teams attracted more than 100,000 fans in 1979. West Palm Beach drew 125,213, and Greensboro's attendance was 165,596. In 2018, 47 of the 60 full-season Class A teams, and 14 short-season teams, drew more than 100,000. Greensboro's Class A leading total of 1979 was topped by 33 full-season Class A teams, and 3 short-season teams in 2018. Eugene drew 66,156 to lead the 32 short-season teams in 1979. 27 of the 40 short-season NAPBL teams drew more than that in 2018.

Major League 2018 total attendance was up 59.9% vs. 1979. Average per team (26 teams in 1979), rose 38.6%. Average per date was up 6,890 (31.4%) from the 1979 figure of 21,940. National League teams did not count 'no-shows' in their official attendance until 1993.

ATTENDANCE GROWTH - 2018 vs. 1999, 1989, 1979 and 1969**2018 COMPARISON WITH 1969**

The 148 NAPBL teams that charged admission in 1969 drew just 9,984,263, an average of 67,461 per team. 2018 total NAPBL attendance was 305.1% higher, and average per team showed a 240.7% gain. Add independent teams to the 2018 figures, and the total attendance growth is 364.4%, with average per team up 192.5%.

There have been some incredible increases in average attendance per team since 1969. The Midwest League was up 502.8%. The South Atlantic League (named the Western Carolinas League until 1980) had a 443.4% gain with 7 current teams each individually drawing better in 2018 than the entire league drew in 1969.

The New York-Penn League had a 317.2% increase, and the Eastern League was up 391.9%. The Northwest League had a gain of 436.1%, and the Southern League had a 306.9% gain. The International, Pacific Coast, Texas, Carolina, and California Leagues were each up better than 200%. The Pioneer League, up 192.8%, Florida State League, up 121.1%, the Appalachian League, up 124.8%, and the Mexican League, down 4.5%, were the only leagues whose 2018 average per team was not at least 3 times more than their 1969 figure. Combined Class AAA average per team was up 230.0%.

In 1969, the Mexico City Reds led the Minors in attendance, drawing 428,548. Among U.S. based teams, Hawaii (Honolulu) was the top draw, with a total of 280,477. In 2018, Hawaii's 1969 total attendance was topped by 61 NAPBL teams, and by 4 independent league teams. Honolulu no longer has a team. Rochester (267,987) had the top 1969 attendance among U.S. mainland teams.

Only 5 teams below the AAA level topped 100,000 in 1969. Dallas-Fort Worth, then in the Class AA Texas League, attracted 235,827. Albuquerque and Memphis, also in the Texas League, drew over 100,000, as did Charlotte of the Southern League, and Ciudad Madero of the Class A Mexican Center League. No United States based Class A team reached 100,000.

Miami had the best full-season Class A attendance in the U.S., drawing 77,354. 49 of 60 full-season Class A teams, and 20 of 40 short-season teams topped that figure in 2018. Salt Lake City drew 76,789 in 1969 to lead all short-season teams. 6 Class AA teams, and 38 full-season Class A teams, failed to reach 50,000 in 1969. Also that year, just 5 of 33 short-season teams drew at least 30,000, and 16 short-season teams didn't even reach 20,000.

Major League total attendance rose 155.7% vs. 1969. Average per team (24 teams in 1969), rose 104.6%. The 2018 MLB average per date was 28,830, up 13,472 (87.7%) from the 1969 average per date of 15,358.

INDIVIDUAL TEAMS OUTDRAWING ENTIRE LEAGUES

The following individual teams drew more fans in 2018 than their entire league drew in 1979 and/or 1969: (Example: Dayton of the Midwest League drew 550,725 in 2018. In 1979, the Midwest League's total attendance was 485,915, and in 1969, that league drew 367,420.)

Eastern League - Reading, Richmond, Hartford (1969)

Southern League - Birmingham (1969)

Carolina League - Winston-Salem (1979)

Midwest League - Dayton (1979 & 1969); Fort Wayne, West Michigan (1969)

South Atlantic Lea. - Greensboro, Augusta, Charleston SC, Columbia SC, Lakewood, Greenville, Lexington (1969)

Northwest League - Vancouver (1979 & 1969), Spokane, Boise, Everett, Eugene, Hillsboro (1969)

N.Y.-Penn League - Brooklyn (1969)

MINOR LEAGUE ATTENDANCE GROWTH vs. OTHER SPORTS - 2018 vs. 1999, 1989, 1979 and 1969

NAPBL Minor League Baseball attendance has grown at a faster pace than any other United States-based major professional team sport when comparing 2018 with 1989, 1979, and 1969. Minor League Baseball (NAPBL) has also posted a larger increase in attendance than any of these sports since 1999, with the exception of Major League Soccer. This higher attendance growth rate for NAPBL Minor League Baseball is for both total attendance, and for average yearly attendance per team.

The tables in this section compare Minor League Baseball's (NAPBL only – does not include independent leagues) growth in attendance vs. 1999, 1989, 1979, and 1969 with attendance growth for Major League Baseball, the National Football League, the National Basketball Association, and the National Hockey League. In addition, the comparison with 1999 includes the Women's National Basketball Association, Minor League Hockey, and Major League Soccer. 1996 was the first season for Major League Soccer, and the WNBA began play in 1997. For the NBA and NHL, the comparisons are with the 1999-2000, 1989-90, 1979-80, and 1969-70 seasons. Minor League hockey data is only for 1999-2000. The most recent official attendance total for the NFL is for the 2017 season.

Comparisons are made for total attendance, and for average yearly attendance per team, as these leagues have undergone expansion.

MINOR LEAGUE ATTENDANCE GROWTH vs. OTHER SPORTS - 2018 vs. 1999, 1989, 1979 and 1969

Minor League Baseball attendance grew at a rate that was more than 3 times faster than any other sport in terms of average attendance per team when comparing 2018 with 1989. The National Hockey League's total attendance grew at a slightly faster pace than Minor League Baseball's due to the addition of 10 teams since the 1989-1990 season. Attendance for hockey minor leagues is not available for 1989-90, 1979-80, or 1969-70.

2018 (NFL 2017) ATTENDANCE COMPARISON WITH 1989 (1989-1990 NBA, NHL)

	1989 or 1989-1990 Total Attendance	Number of Teams	Average Attendance per Team	% Chg. - 2018 vs. 1989 in Total Attend.	% Chg. - 2018 vs. 1989 in Avg. /Team
NAPBL Minors	23,103,593	164	140,876	75.1	63.1
MLB	55,173,096	26	2,122,042	26.2	9.4
NFL	13,625,662	28	486,631	20.5	5.5
NBA	17,368,659	27	643,284	27.4	14.7
NHL	12,579,651	21	599,031	76.3	19.4

Growth in average attendance per team for Minor League Baseball increased at a pace that was about, or more than, twice as fast as the other sports leagues when comparing 2018 attendance with 1979. Total attendance also grew at a faster rate for Minor League Baseball compared to other sports, increasing 165.0%. Both the NBA and the NHL have more than doubled their total attendance since their 1979-1980 seasons.

2018 (NFL 2017) ATTENDANCE COMPARISON WITH 1979 (1979-1980 NBA, NHL)

	1979 or 1979-1980 Total Attendance	Number of Teams	Average Attendance per Team	% Chg. - 2018 vs. 1979 in Total Attend.	% Chg. - 2018 vs. 1979 in Avg. /Team
NAPBL Minors	15,265,633	142	107,504	165.0	113.8
MLB	43,550,398	26	1,675,015	59.9	38.6
NFL	13,182,039	28	470,787	24.6	9.0
NBA	9,937,575	22	451,708	122.7	63.3
NHL	10,533,623	21	501,601	110.5	42.6

1969 was the final year that the American Football League and the National Football League played separately. Those leagues fully merged in 1970. The 1969 football attendance figures in the table below are for combined AFL and NFL attendance. The AFL had 10 teams in 1969, and drew 2,843,373, an average of 284,337 per team. The NFL had 16 teams and drew 6,096,127, averaging 381,008 per team. Both the AFL and NFL played 14 game schedules in 1969, compared to a 16 game schedule from 1978 forward.

The basketball line below is for combined NBA and ABA attendance. The American Basketball Association was in its 3rd season in 1969-70, and had 11 teams. Their total attendance was 1,752,987, an average of 159,362 per team. The 14 NBA teams that played in 1969-70 drew 4,341,028, an average of 310,073 per team. If the basketball growth comparison is made for the NBA only, and excludes the ABA, total attendance is up 409.8% since 1969-70, and average per team increased 137.9%. 4 ABA teams were merged into the NBA in 1976-77.

2018 (NFL 2017) ATTENDANCE COMPARISON WITH 1969 (1969-1970 NBA, NHL)

	1969 or 1969-1980 Total Attendance	Number of Teams	Average Attendance per Team	% Chg. - 2018 vs. 1969 in Total Attend.	% Chg. - 2018 vs. 1969 in Avg. /Team
NAPBL Minors	9,984,263	148	67,461	305.1	240.7
MLB	27,229,691	24	1,134,570	155.7	104.6
AFL/NFL	8,939,500	26	343,827	83.7	49.2
NBA/ABA	6,094,015	25	243,761	263.9	202.6
NHL	5,992,065	12	499,339	270.1	43.2

NEW BALLPARKS

New parks have been a major factor in the growth of minor league attendance. According to team websites, ballparkdigest.com, and baseballparks.com, 128 of the 160 U.S./Canadian based NAPBL parks (including the U.S. park of Dos Laredos) in use in 2019, opened from 1988 to 2019. 102 of these parks have been built since 1995, and 72 of them have opened since 2000, with 21 opening since 2010. (Palm Beach and Jupiter of the Florida State League share a ballpark.) 24 teams play in a park that opened prior to 1970, while the homes of 8 teams were built between 1970 and 1987. Many older parks have been totally refurbished, and bear little resemblance to their original structures.

Information is available about 48 ballparks of independent teams that operate in 2019. All teams in the United Shore League play in the same park. 36 of these parks opened since 1988, (32 since 1995, 24 since 2000, and 8 since 2010), and 11 were built prior to 1970, and one from 1970 to 1987. Overall, 164 minor league ballparks in use in 2019 opened since 1988, with 134 of them opening since 1995, 96 opening since 2000, and 29 since 2010.

Birmingham, Scranton, and Hillsboro opened new parks in 2013. Charlotte, NC and El Paso moved into completely new parks in 2014. Nashville, Biloxi, Morgantown, and St. Paul got new parks in 2015. Columbia opened a new park in 2016. Hartford and Cleburne got new parks in 2017. Augusta and Rosemont, IL opened new parks in 2018. New parks for 2019 are in Fayetteville NC, Las Vegas, Amarillo, High Point NC, Franklin WI, and Mexico City.

MINOR LEAGUE BASEBALL ATTENDANCE COMPARED TO MINOR LEAGUE HOCKEY ATTENDANCE

Professional hockey has a system of minor leagues quite similar to that of baseball, with some minor league hockey teams being affiliated with teams in the National Hockey League. But while Minor League Baseball attendance has continued to grow in the first 18 years of the 21st Century, minor league hockey attendance is down.

In the 1999-2000 season, there were 109 professional minor league hockey teams in the United States and Canada. By the 2018-19 season, the number of teams was down to 80.

Total regular season minor league hockey attendance fell 37.9% from 19,736,526 in 1999-2000, to 12,259,292 in 2018-19, with 29 fewer teams. Average attendance per game dropped 334 from 4,900 in 1999-2000, to 4,566 in 2018-19, a decline of 6.8%. The 2017-18 average of 4,581 was the best since 2001-02. National Hockey League average per game attendance in 2018-19 was 17,456, up 1,080 (6.6%) from the 1999-2000 average of 16,376. (Sources: 2018-19 National Hockey League Record Book, hockey minor league Web sites, nhl.com.)

The structure of minor league hockey has similarities with baseball. The American Hockey League is considered to be the Class AAA league, with each National Hockey League team having an affiliate in that league. The ECHL is the Class AA league, and there are other leagues as well. Many of the cities with minor league hockey also have Minor League Baseball.

In the 2018-19 season, the 31-team American Hockey League drew a 6,668,914 (5,799 per game) to its regular season games, accounting for more than half of all minor league hockey attendance. Hershey had the best total attendance (338,452), averaging 8,907 for its 38 home games. (Hershey has never had a Minor League baseball team.) San Diego had the top average (9,021 – 34 home games). Some AHL teams play a shorter schedule. Cleveland drew an average of 8,901 per game. Ontario CA, Chicago, Providence, Lehigh Valley (Allentown, PA), and Grand Rapids of the AHL also topped 7,000 per game. Minor League Baseball teams in the Allentown (Lehigh Valley IronPigs), Providence (Pawtucket Red Sox), and Grand Rapids (West Michigan Whitecaps) areas also draw very well. The AHL league record-highs are 6,693,526 in total attendance, and 5,982 in average per game, both in 2015-16.

In the lower levels of minor league hockey, the ECHL Fort Wayne Komets averaged 7,932 per game in 2018-19. This was the 17th straight year the Komets topped 7,000 per game, and they've reached that figure 22 times in the last 28 seasons. Fort Wayne is very successful at the gate in Minor League Baseball as well. The Tincaps of the Midwest League drew 406,715 in 2014, 400,036 in 2015, record-highs of 413,701 (6,084 per date) in 2016, 409,253 in 2017, and 376,422 in 2018. Toledo (7,783) of the ECHL also averaged above 6,000 per game.

Bakersfield, now in the AHL, is one of minor league hockey's better draws. They averaged over 5,000 per game for 7 straight years through 2010-11, and again in 2015-16, 2016-17, and 2018-19. But the Blaze, that city's Minor League Baseball team, averaged just 572 per date in 2011, and 637 per date in 2012, the lowest average among all NAPBL teams. Attendance rose to 805 per date in 2013 and to 827 in 2014, fell to 740 in 2015, and increased to 899 in 2016. That team was moved to the Carolina League for 2017, and was replaced by a team in the Pecos League.

MINORS TO MAJORS—MINOR LEAGUE ATTENDANCE IN CITIES THAT LATER JOINED THE MAJOR LEAGUES

Until 1953, there were only 10 markets with Major League teams. New York had 3 teams, while Boston, Philadelphia, Chicago, and St. Louis had 2 teams each. Since then, Major League Baseball has come to 16 more markets. It arrived in, and left Montreal, arrived, left, and returned to both Milwaukee and Seattle, and left Washington after 1971, only to return in 2005.

All Major League markets added from 1953 on had Minor League teams. Many were among the most successful teams in attendance in Minor League Baseball. Most of the Minor League teams that were replaced by Major League teams were in Class AAA. But a few, such as those in Florida, were in lower classifications.

The table below lists the highest level Minor League teams that were replaced by teams in the Majors. It shows the record-high listed attendance for those Minor League teams, and also lists the years for which attendance data was available. It also shows attendance for each city's final Minor League season before the arrival of a Major League team. (Seattle drew 155,090 in 1968, its final AAA year.) In some of these markets, there were other Minor League teams in lower classifications. For many years, the New York market had 2 Class AAA teams, as well as 3 Major League teams, and so it has been added to this list.

Most of the markets listed below currently have Minor League teams in them, many of whom draw quite well.

Major League Team/Market	Year Joined Majors	Top Former Leading Minor League Team(s) in Market	Record-High Recorded Attendance	Year of Record High	Years of Available Attendance Data for That Team	Minor Lg. Final Year Attendance
Arizona (Phx.)	1998	Phoenix Firebirds	315,859	1994	1947-1997	209,698

SOURCE OF ATTENDANCE DATA: Encyclopedia of Minor League Baseball

MINOR LEAGUE TEAMS THAT OUTDREW MAJOR LEAGUE TEAMS

In every season from 1902 through 1955, except the WWI-shortened 1918 season, at least one Minor League team had a higher total attendance than at least one Major League team in that season. In some seasons, over 30 Minor League teams drew better than a Major League team. As Major League attendance grew, this became far less common. From 1956 through 1978, no Major League team ever drew less than any Minor League team in one season. Since 1979, there have been 10 seasons where a Major League team was outdrawn by a Minor League team in a particular season, but none since the Montreal Expos drew less than Sacramento in 2004.

The following table lists the years and the Major League teams that were outdrawn by at least one Minor League team that season. Providing a total list of which Minor League clubs outdrew a Big League team is not doable since early 20th Century attendance for many Minor League teams is not available. Very few teams listed attendance in the early years. Note that for a long time, the Pacific Coast League played a longer schedule than the Major Leagues did. Many of the Minor League cities that outdrew Major League teams in the first half of the 20th Century eventually were awarded Major League teams of their own.

Source for this data is the Encyclopedia of Minor League Baseball, Third Edition, edited by Lloyd Johnson and Miles Wolff, and published by Baseball America in 2007. Special thanks to Mitchell Manoff of the Society of American Baseball Research for asking the question that resulted in this research.

Year	Major League Teams that had Lower Total Attendance than Some Minor League teams	Notes and Number of Major League Teams that were Outdrawn by These Minor League Teams
1902	Wash, Det, Balt, Pit, Bost (N), Cin, Bkn, StL(N), Phi(N)	All outdrawn by Buffalo
1903	NY(A), Det, Chi(A), Wash, Bkn, Bost(N), StL(N), Phi (N)	All outdrawn by Buffalo
1904	Detroit, Washington, Brooklyn, Boston (N), Phila. (A)	All outdrawn by Buffalo
1905	Detroit, Washington, Brooklyn, Boston (N)	Topped by Columbus(4), Buffalo(3), Milwaukee(1)
1906	Detroit, Washington, Boston (N)	All outdrawn by Buffalo
1907	Boston (N), St. Louis (N)	Outdrawn by Buffalo
1908	Boston (N), St. Louis (N)	Both outdrawn by Indianapolis

2004	Montreal	Sacramento

A LOOK BACK AT THE BOOM, DECLINE, AND REBIRTH OF MINOR LEAGUE BASEBALL

Minor League Baseball enjoyed a huge post-World War II attendance boom. But then there was a big decline in the number of teams and leagues, along with attendance, that lasted through the 1960's.

This section takes a look back at 1949, when total Minor League attendance reached levels that would not be seen again until a half-century later. It also examines 1961 and 1962, when Minor League attendance fell below 10 million, and for many of the leagues still operating then, survival was not assured.

There are tables listing 1949, 1961, and 1962 Minor League attendance by league and by classification. The number of teams in every league, and the average attendance per team in each league, is also included. The team with the highest attendance in every league, and the team with the lowest attendance in every league, is listed.

The old classification system of Class B, C, and D leagues was still in use in 1949, 1961, and 1962. In 1963, most surviving leagues from those classifications became full-season Class A, short-season Class A, and Rookie Leagues. There were no short-season leagues in 1949. The Pacific Coast League played a 188 game schedule, and other Class AAA, and AA leagues played 154 games. Class B leagues generally played between 140-154 games, Class C leagues played 124-150 games, and most Class D leagues played 120-140 games.

Major League teams had many more Minor League affiliates over 60 years ago. In 1950, the Brooklyn Dodgers had 22 Minor League teams, while the St. Louis Cardinals had 21. The Giants, Yankees, Athletics, Indians, and Cubs each had at least 15 affiliates. Today, most Major League teams have 7 or 8 Minor League affiliates.

Data in this section comes from the 1950 and 1962 editions of The Sporting News Official Baseball Guide. These books were downloaded from the archive.org Website, which obtained them from the University of Florida library. The books were donated to the University by Red Barber, a UF alumnus, who along with Mel Allen, was the first broadcaster inducted into the Baseball Hall-of-Fame. 1962 attendance data is from the Encyclopedia of Minor League Baseball – Third Edition.

1949 – WHEN MINOR LEAGUE BASEBALL SET A RECORD THAT LASTED DECADES

In the late 1940's professional baseball attendance was at an all-time high, up to that point. Major League attendance reached 20,920,842 in 1948. This was up from just 8,772,746 in 1944. The 1948 total would not be topped until 1962, when there were 4 more Major League teams. The 1948 average attendance per MLB team was 1,307,553. That average figure was not surpassed until 1977. In 1949, Major League attendance was 20,215,365.

There were other leagues that were not part of 'Organized' baseball in 1949, and whose statistics were not reported in The Sporting News Guide. What were called the 'Negro Leagues' were still in operation, as this was just two years after Jackie Robinson and Larry Doby integrated the Major Leagues. Attendance for the Negro Leagues is not available, but many of their teams drew well until the late 1940's. These teams featured players who would have been Major League stars, had they been allowed to play there. Also operating in 1949 was an independent Mexican League, which did not join Organized Baseball until 1955. Attendance figures from that league are also not available.

Minor League total regular season attendance reached 39,640,443 in 1949, according to Minor League Baseball. The 1950 Sporting News Baseball Guide reports a 1949 regular season total of 39,684,550. Post-season 1949 Minor League attendance was 2,083,394. The NAPBL affiliated leagues did not top the 1949 regular season record until 2004. The combined NAPBL-Independent league total surpassed the 1949 record in 1999.

In 1949, there were 448 teams in the 59 leagues that compiled attendance. 47 of those leagues had 8 teams, and the other 12 leagues had 6 teams each. In 2018, there were 15 NAPBL leagues that charged admission to their games. Those leagues had 176 teams. The Pacific Coast, Mexican, and Midwest Leagues had 16 teams each. 8 independent leagues operated, and 59 of their teams reported 2018 attendance. Among the 1949 leagues still operating is the P.O.N.Y. (Pennsylvania, Ontario, New York) League, now named the New York-Penn League.

The Pacific Coast League, then thought to be almost as good as the Majors, had the highest attendance in the Minors. In 1949, the 8 team league, with a 188 game schedule, drew 3,751,929, an average of 468,991 per team. This average per team compares with the 432,613 per team that the 16 team P.C.L. averaged in 2018, when it played a 140-game schedule. 6 of the 8 teams in the league in 1949 played in markets that later joined the Major Leagues.

1949 – WHEN MINOR LEAGUE BASEBALL SET A RECORD THAT LASTED DECADES

The other Class AAA leagues drew considerably less than the P.C.L., but still averaged better than 250,000 per team. The overall Class AAA average per team of 336,625 compares with a 446,064 average in 2018.

There were only 2 Class AA leagues. Both the Southern Association and the Texas League averaged more than 240,000 per team. In 2018, the 3 Class AA leagues averaged 290,227 per team.

Among the 4 Class A leagues, the Western League had the most success at the gate, averaging 227,309 per team, with all 6 teams topping 100,000. Denver led that league, drawing 463,039, which would remain as the highest attendance by a Class A team until 1994, when it was topped by West Michigan of the Midwest League.

Class B, C, and D leagues had much lower attendance. For a team to draw 100,000 in those leagues was exceptionally good. Some teams outside of the United States did well. Havana, Cuba topped all Class B teams, drawing 226,293. Quebec City led all Class C teams with attendance of 176,779. Just 5 of 190 teams, playing in the 25 Class D leagues, reached 100,000, with the highest figure of 137,340 at Hamilton, Ontario.

INDIVIDUAL TEAMS

The San Francisco Seals of the Pacific Coast League drew 670,563 in 1946. That single season Minor League attendance record was not broken until 1982 when Louisville drew 868,418.

There were 13 teams that topped 400,000 in attendance in 1949. This included 7 of the 8 teams in the Pacific Coast League. Seattle of that league had the highest Minor League attendance with 545,434. 5 other teams drew at least 300,000, and there were 18 teams with attendance between 200,000 and 300,000. In 2018, there were 24 NAPBL teams and one independent team that topped 400,000. An additional 32 NAPBL and 3 independent teams drew between 300,000 and 400,000 in 2018.

Major League Baseball only had 16 teams, located in 10 different markets in 1949. Quite a few cities that had Minor League teams in 1949 later joined the Majors. Listed below is the 1949 attendance for Minor League teams located in, or very close to, cities that later had Major League teams.

<u>Team</u>	<u>Attendance</u>	<u>Team</u>	<u>Attendance</u>	<u>Team</u>	<u>Attendance</u>
Seattle	545,434	Oakland	534,711	Hollywood, CA	502,445
San Diego	493,780	Montreal	473,798	Denver	463,039
San Francisco	447,022	Dallas	404,851	Los Angeles	402,089
Atlanta	370,361	Toronto	364,962	St. Paul	352,911
Milwaukee	266,061	Fort Worth	265,982	Houston	263,965
Minneapolis	247,637	Kansas City	216,754	Baltimore	203,823
Miami	170,466	Phoenix	126,347	St. Petersburg	108,397
Tampa	105,949	Miami Beach	90,682	Fort Lauderdale	66,544

In addition to the cities listed above, there were 2 Class AAA teams in the New York City area. Newark drew 88,170, the lowest attendance in Class AAA, and Jersey City's attendance was 174,314.

INTO THE 1950'S

Television cut into Major League attendance starting in 1949. By 1953, MLB attendance had fallen to 14,383,797, before team relocations helped it begin a gradual climb.

But the Minor Leagues were not that fortunate. Televised Major League games, and just television in general, along with easier access to Major League ballparks, home air conditioning, and rundown Minor League ballparks, drastically reduced attendance. In 1954, total Minor League attendance was 18,674,503, which was less than half of the 1949 total. 7 years later, that 1954 total was cut in half. By the early 1960's, more than two thirds of the cities that hosted a Minor League team in 1949 no longer had one.

1961 AND 1962 – MINOR LEAGUE ATTENDANCE HITS BOTTOM

By 1961, the number of leagues was down to 22 with just 147 teams. Both the number of teams and leagues continued to fall through the early 1960's. The Southern Association had its last year in 1961, as did the Sophomore League (named the Longhorn League in 1949), and the Three I (Illinois, Iowa, Indiana) League. A new, short-lived Georgia-Florida League began in 1962. All 1961 leagues had 6 or 8 teams, with the exception of the Florida State League, which had 7. Two leagues in Mexico were now part of the NAPBL. By 1962, only 134 teams operated. The Midwest League had 10 teams that year, but the Western Carolina and Georgia-Florida Leagues had just 4 teams. Some of what had been the best-drawing markets in the Minors now had Major League teams.

Total attendance in 1961 was just 9,766,505, an average of 66,439 per team, the lowest average per team since at least the 1930's. Post-season attendance was 208,729. The lowest total was reached in 1962, when attendance fell to 9,732,582, but because there were fewer teams, the average per team rose to 72,631.

In 1961 and 1962, some leagues played shorter schedules than in 1949, but still longer than they play today. The Class AAA leagues played 154 games in 1961, while the Class AA leagues had 136, 140 or 154 game schedules. Class A leagues had 140 game schedules, while the Class B and C leagues played 128-140 games. Most Class D leagues played 120-140 games. The Western Carolinas League had a 104 game schedule, and the Appalachian League was the Minors' first short-season league, playing 68 games.

In 1961, the Pacific Coast League had the highest attendance, just as it did in 1949. The International League had the best total attendance in 1962. In each of those years, the Mexican League was the only league whose average attendance per team surpassed 200,000. The 3 Class AAA leagues were the only others to average at least 100,000 per team in both 1961 and 1962. Texas League teams averaged 100,000+ in 1962. Average attendance per team was under 60,000 in all Class B, C, and D Leagues in both seasons. In 1961, the average Class AAA, AA, and A team drew less than half of what it drew in 1949.

INDIVIDUAL TEAMS

In 1961, Baltimore, Kansas City, Milwaukee, Minneapolis-St. Paul, San Francisco-Oakland, and Los Angeles, which had been Minor League markets in 1949, had Major League teams. Houston joined the Majors in 1962.

The Mexico City Reds led the Minors in attendance in 1961, drawing 285,301, and in 1962, with a total of 349,753. That team frequently had the best Minor League attendance in the 1960's and 1970's. Buffalo had the highest attendance among U.S. teams in 1961, with a total of 259,724. By 1969, Buffalo's attendance was down to 77,808, and the team moved to Winnipeg in the middle of the 1970 season. But the Bisons were back in Western New York in 1979. They opened a new ballpark in 1988, and became the biggest draw in Minor League history, surpassing one million for 6 years in a row. The Bisons have topped 500,000 for 31 straight years through 2018.

Just 6 other teams, besides the Mexico City Reds, and Buffalo reached 200,000 in 1961. Veracruz, Poza Rica, and the Mexico City Tigers of the Mexican League did it, along with Rochester, Tacoma, and Vancouver.

Class AA Tulsa, Little Rock, Birmingham, Chattanooga, and Class A Greenville were the only U.S. teams below the Class AAA level to reach 100,000 in 1961. None of the 91 Class B, C or D teams drew at least 100,000, and just 18 of these teams topped 50,000.

In 1962, Rochester topped all U.S./Canadian teams with a total attendance of 272,178. Jacksonville, Buffalo, and San Diego, along with the Mexico City Red Devils, Mexico City Tigers, Monterrey, and Poza Rica of the Mexican League, were the other teams to surpass 200,000.

El Paso, Tulsa, Albuquerque, and San Antonio of the Class AA Texas League surpassed 100,000 in 1962. Class A Macon, and Class B Kinston, were the only other teams below the Class AA level to reach 100,000. Just 22 of the 86 Class B, C, and D teams topped 50,000.

In 1963, the Minor Leagues were reorganized into the system still used today. The Eastern and South Atlantic (renamed the Southern League in 1964) Leagues became Class AA leagues. Class B,C, and D leagues, with one exception, became Class A leagues. That exception was the Appalachian League, which was placed in a new classification called 'Rookie' League. A year later, the Pioneer League was given a 'Rookie' classification.

NOTES: 'Highest/Team' and 'Lowest/Team' indicate teams in that league with the highest and lowest attendance
 NAPBL Minor League Baseball reported a total attendance of 9,732,582 in 1962.

SOURCE FOR THIS TABLE: Encyclopedia of Minor League Baseball - Third Edition

ATTENDANCE FOR OTHER LEAGUES IN 1962

MLB: 21,375,215 in 1962, averaging 14,958 per date. 2017 total attendance was 72,670,423, average 30,042 per date.

NFL: 4,003,421 (40,051 average per game); AFL 1,147,302 (20,487 average); Combined NFL/AFL 5,150,723 (33,446 average).
 2016 NFL attendance was 17,081,672, an average of 66,725 per game.

NBA: 1,433,878 in 1961-62 (4,566 per date). 2016-17 attendance was 21,997,412, an average of 17,884 per game.
 NHL: 2,435,424 in 1961-62 (11,597 per game). 2016-17 attendance was 21,545,024, an average of 17,516 per game.

JUST HOW LOW DID IT GO?

This is another version of the table on page 187, showing Minor League attendance in markets that later joined the Major Leagues. This table shows just how fast attendance fell in these markets after the post-World War II boom. It lists the highest 1946-1952 attendance, and then the lowest attendance in subsequent seasons. Television was the main reason for the attendance decline.

Newark and Jersey City never had Major League teams, but are included here since they are in the New York metropolitan area.

Some of the markets in this table currently have Minor League teams.

Major League Team/Market	Year Joined Majors	Top Former Leading Minor League Team(s) in Market	1946-1952 High Attendance	Year	Post-1952 Low Attendance	Year
Arizona (Phoenix)	1998	Phoenix Firebirds	126,347	1949	49,270	1953

A RESURGENCE IN MINOR LEAGUE BASEBALL

With low attendance, and many rundown ballparks in the early 1960's, it was thought that much of Minor League Baseball would soon be gone. The Class AAA and perhaps the Class AA leagues would survive. However many baseball people believed that college baseball would replace the lower level leagues as feeders to the Majors.

In the late-1970's, Minor League attendance began a steady increase. Part of it was that more teams were needed due to Major League expansion. Then, starting in the late-1980's, better marketing, and new ballparks led to the attendance boom that continues today. Independent leagues started play in 1993, adding to the number of teams.

Even the availability of more Major League games than ever on television and other devices, in high-definition color, for that matter, has not stopped the growth of Minor League Baseball. Total attendance is around 5 times what it was in the 1960's, and NAPBL attendance per team is up better than 3-fold. For what was once seen as a dying industry, Minor League Baseball is quite healthy today, with a very bright future.

The table that starts below, and continues on the next page shows the attendance decline and resurgence in cities that had Minor League teams in the late 1940's, and still had full-season NAPBL Minor League teams in the 1990's and later. It does not include current short-season or independent team markets, except for Spokane, Lancaster and York, since they play a shorter schedule than all teams played prior to the late 1950's.

The table lists the highest attendance for each city in the decade or so from 1946 forward. Nearly all of those highs were set from 1946 through 1949. It then shows each city's lowest post-1945 yearly attendance. In most cases, that took place in the 1950's and 1960's. The last columns list the highest attendance achieved in that city. Many of these cities lost their Minor League teams in the 1950's or 1960's, only to regain them later. This list only includes cities that had teams in the late 1940's and/or the early 1950's.

This table shows the incredible decline in attendance that took place in the 1950's as television was adopted in almost all homes. Then it depicts the boom in attendance that took place starting in the 1980's.

A FEW QUICK NOTES ON COLLEGE BASEBALL**NCAA DIVISION I COLLEGE BASEBALL**

The top 50 teams in 2018 attendance were listed in the 2019 NCAA Record Book. Those 50 teams drew 5,333,906 in 1,560 dates, averaging 3,419 per date. LSU drew 399,085 (10,786 per date) to lead the NCAA. LSU has led the NCAA in total baseball attendance for 23 straight years (since 1996), and in average per date each year since 1996, except for 2007, when Arkansas was the leader. LSU has averaged better than 10,000 per date each season from 2010 through 2018.

The usual attendance leaders finished in the Top 10 in 2018 total attendance: LSU, Mississippi, South Carolina, Arkansas, Texas A&M, Texas, Clemson, Florida, Florida State, and TCU. All these teams except TCU, Florida, and Florida State also finished in the Top 10 in average per date. Nebraska, Mississippi State, and Louisiana were in the Top 10 in average per date, but not in the Top 10 in total attendance.

The SEC continues to be the baseball attendance leader among college conferences. In 2018, the SEC drew 2,223,446 (4,823 per date) topping 2 million in attendance for the 8th straight year. They've led the NCAA in total attendance and average per date for the last 18 seasons, and 23 times in the last 29 years. Attendance by SEC teams has surpassed one million for 15 years in a row. The record-high regular season total attendance for SEC teams is 2,319,937 in 2014.

The top 50 teams in total attendance in 2017 drew 5,534,376 in 1,599 dates, an average of 3,461 per date. LSU was the leader in both categories in 2017, drawing 418,291, an average of 10,725 per date.

In 2016, the Top 50 teams in total attendance drew 5,511,902 in 1,611 dates, an average of 3,421 per date. LSU had the highest total attendance (433,783) and average per date (10,580).

For the 2015 season, the NCAA listed attendance for 301 teams. Total attendance was 7,495,301. The top 50 teams in attendance drew a combined 5,022,496. Louisiana State University led in total attendance (421,771), and average per date (10,815).

For 2014, the NCAA listed the top 50 teams in attendance, but did not provide a total for all teams. These top 50 teams drew a total of 5,206,928, an average of 3,285 per date. LSU averaged 10,812 per date.

In 2013, LSU drew 413,638 for the regular season, averaging an NCAA record-high 10,885 per date. That broke the NCAA regular season average per date of 10,673, set by LSU in 2010. If post-season play is included, LSU's total attendance was a record-high 473,298, and a record-high average per date of 11,007.

The College World Series is played every year in Omaha. Through 2010, it was played at Rosenblatt Stadium, which was also home to the Omaha team in the Pacific Coast League. Separate new ballparks opened in 2011. The larger park is in Omaha, and is used for the College World Series. The smaller park is located in the suburbs, and is the home of the Omaha Storm Chasers. In 2015, total attendance for the 16 different World Series game sessions was a then-record-high 353,378, averaging 22,086 per session, some of which can be double-headers. Record-high for one session is 30,533 in 2008. The record-high average per session is 24,392 in 2013.

The 2016 College Baseball World Series drew 341,667 with 17 sessions, an average of 20,098 per session. Coastal Carolina was the winner. In 2017, a new record-high total attendance was set as the 16 sessions of the College World Series drew 357,646, an average of 22,352 per session. Florida was the 2017 champion. Oregon State won the College World Series in 2018.

COLLEGIATE SUMMER BASEBALL LEAGUES

In addition to NCAA play in the spring, there are numerous summer college baseball leagues. These leagues are not affiliated with any school or athletic conference. Their players are amateurs, but these leagues operate in a similar way to the pro minor leagues. They use wood bats, and some leagues charge admission to games, and keep attendance figures. Many of the cities with teams in these leagues once hosted professional Minor League teams. Sources for attendance data from these leagues were league Websites and Ballpark Digest.

In 2018, 174 teams in 20 leagues reported attendance. These teams drew 4,162,081 in 4,138 dates, averaging 1,006 per date. The 20-team Northwoods League just missed another record-high, drawing 1,162,164 in 707 dates, an average of 1,644 per date. Also topping 1,000 per date were the Cape Cod, Futures, Coastal Plain, Prospect, and West Coast Leagues. Madison had the top attendance (218,712 – 6,249 per date). Savannah sold out all 25 dates, and averaged 4,229 per date. Ballpark Digest noted that Okotoks averaged 3,676 per date, La Crosse, Kenosha, and Worcester topped 2,500 per date, and 10 other teams drew at least 2,000 per date.

19 leagues and 172 teams reported attendance in 2017. The total for these teams was 4,108,188 in 4,099 dates, an average of 1,002 per date. The 20 teams in the Northwoods League drew a record-high 1,164,745 in 703 dates, averaging 1,657 per date. The Cape Cod, Futures, Coastal Plain, Great West, Prospect, and West Coast Leagues also averaged at least 1,000 per date. Madison of the Northwoods League outdrew all teams with a total of 214,485, averaging 6,308 per date. The Savannah Bananas sold out all 26 dates, and averaged 4,173. Data compiled by Ballpark Digest showed that Okotoks and Elmira topped 3,000 per date, and LaCrosse, Kenosha, Worcester, Kalamazoo, St. Joseph, Valley, and Newport averaged at least 2,000 per date.

Attendance was reported by 20 leagues and 169 teams in 2016. The total was 4,087,385 in 4,181 dates, an average of 978 per date. The 18 team Northwoods League drew 1,084,297, an average of 1,713 per date. Madison once again had the best attendance of any summer collegiate team, drawing 205,324, an average of 6,039 per date. According to data compiled by Ballpark Digest, Savannah GA, Elmira NY, and Okotoks Alberta also averaged better than 3,000 per date. Teams in Kenosha, St. Joseph, Kalamazoo, Victoria BC, Worcester, Holyoke, and Newport RI averaged at least 2,000 per date.

21 of these leagues reported attendance in 2015. The highest attendance was by the Northwoods League. That league drew 1,088,747, an average of 1,776 per date in 2015. In 2014, the Northwoods League became the first summer league to top one million, drawing 1,096,433, an average of 1,766 per date. Madison, WI from that league had the best 2015 attendance of any collegiate summer league team, drawing a total of 216,159 in 34 dates, and a record-high average of 6,358 per date. Altogether, 154 teams in the 21 leagues that compiled attendance data drew a total of 3,759,090, an average of 958 per date.

In 2014, the 159 teams in the 21 leagues that reported attendance drew 3,819,955, an average of 1,000 per date. Madison was the leader, drawing 214,849 in 35 dates, an average of 6,139 per date.

There were 171 teams from 20 leagues that recorded attendance in 2013. These teams drew a total of 3,427,260, an average of 854 per date. Madison led all teams, drawing 213,833 in 35 dates (6,110 per date).

2012 attendance was available for 153 teams in 15 summer leagues. They drew 3,364,786, averaging 962 per date, led by Madison, who attracted a record-high 217,143 in 35 dates, which was 6,204 per date.

Madison's total attendance has topped 200,000, and their average per date has been above 6,000, each year starting in 2006. Madison had professional Minor League teams in the past. From 1982 through 1994, there was a Madison ballclub in the Midwest League. Their highest attendance was 131,646 in 1983. This team played more dates than the college summer league teams play. From 1996 through 2000, Madison played in the independent Northern League. Their highest attendance in that league was 83,573 in 1996.

SOME CONCLUDING “JUST FOR THE FUN OF IT” STATS

The all-time high NAPBL Minor League total regular season attendance is 43,263,740 in 2008. Just how much higher than that could it possibly go? Relocated teams, more new ballparks, expansion, a sound economy, and a year with unusually good weather, could easily result in a new record-high attendance.

The great Hall-of Famer Yogi Berra (1925-2015) once said, “It’s tough to make predictions, especially about the future.” Estimating future attendance records is, at best, an educated guess. But just for fun, based on the 2018 roster of NAPBL leagues and teams, here are a couple of totally unscientific estimates of potential attendance:

If each of the 15 NAPBL Minor Leagues drew its current all-time high attendance in the same season, total attendance would be 46,382,165. The odds of each league drawing its record-high attendance in the same year are quite small. But that total is only 7.2% above the current record-high, and is certainly reachable, even fairly soon.

Taking this a step further, if each of the 176 NAPBL 2018 Minor League teams drew its current all-time high attendance in the same season, total attendance would be 57,120,161. This figure is very unlikely to be reached any time soon. Of course not every team would have to set a new record for this total to be reached. Now if you really want to tackle an interesting math question, figure out what’s the probability of all 176 teams setting a new record-high attendance in the same season. It might help to know that 16 of these 176 teams set a record-high in 2017, and 6 teams had new total attendance highs in 2018.
